Dear Industry Partner,

The new Defence Sourcing Portal (DSP) homepage is now live

In my communication just before Christmas, I announced that on the 5th of January we would launch the homepage of the new Defence Sourcing Portal.

It gives me great pleasure to confirm that the homepage is now live and can be accessed here: www.contracts.mod.uk. This is the first step in the launch of our new e-sourcing capability.

We are committed to improving the way we interact with industry, and over the past few years have worked hard to improve our commercial systems. The introduction of the DSP represents a major milestone in our journey to modernise the way the Ministry of Defence interacts with industry for new business opportunities.

The full launch is planned for mid-February, and there will be further updates and communications covering this in the next few weeks.

Until then I ask that you:

1. Register your organisation's details on the DSP in readiness for the full launch, and browse the content on the new homepage
2. Continue to participate in our market opportunities listed on the Defence Contracts Online website accessible through the "VIEW OPPORTUNITIES" button on the DSP homepage
3. Look out for news and updates on the new DSP homepage
4. Tell us what you think of the DSP by emailing us at DefComrclCPF-PMO@mod.gov.uk – we'd really appreciate your feedback

Further information can be found [here](#), and again please contact DefComrclCPF-PMO@mod.gov.uk if there are any further questions you would like to ask.

Yours sincerely,
