The Gigabit Voucher Scheme

Gigabit vouchers can be used by small businesses and the local communities surrounding them to contribute to the installation cost of a gigabit-capable connection. Businesses can claim up to £3,500 against the cost of connection either individually or as part of a group project. Residents can benefit from the scheme with a voucher worth £1,500 as part of a group project.

Building Digital UK (BDUK) will provide information that successful Events Venues candidates can use with bidding suppliers to promote information on community related schemes and marketing material.

For more information about the DCMS Gigabit Broadband Voucher Scheme.

5. Does the event venue have the capacity to help locally promote the Gigabit Voucher Scheme? *

*Mark only one oval.*
☐ Yes
☐ No
Maximum funding

We will fund a number of projects with £200 000 funding. Exact costs will vary between locations, however the average value per project will be approximately £30 000. DCMS reserves the right to fund projects below or exceeding £30 000 based on the relevant project costs. Each winner will receive a portion of the £200 000 fund and support from Building Digital UK (BDUK) to purchase full fibre gigabit capable infrastructure using a competitive procurement. Please note, the event venue will be responsible for the purchase of the gigabit capable full fibre infrastructure upgrade to their premises. Upon completion of the procurement, DCMS will award the funding to the event venue to reimburse the cost of the gigabit capable full fibre infrastructure upgrade only. Internet Service Provider (ISP) related costs of service provision are not eligible for funding.

6. Should the final cost differ from the supplier quote that the event venue provides, does the event venue agree to cover the difference? *

   Mark only one oval.

Subsidy Control

Applicants to the Broadband Competition need to ensure that their project activities would comply with UK Subsidy Control rules.

This competition funding is being awarded under Article 3.2(3) of the Trade and Cooperation Agreement between the European Union and the United Kingdom. There is a subsidy threshold of 325,000 Special Drawing Rights per individual company, business or group over any period of three fiscal years, including the current year. Any public subsidy provided to you under this scheme will be relevant if you wish to apply, or have applied, for any other subsidy.

Applicants are responsible for assuring themselves that they meet the subsidy threshold requirements. You will need to provide assurances that you have not been in receipt of other public subsidy that could take you over the subsidy threshold i.e you must confirm that should you receive the expected maximum amount of funding - [insert SDR/GBP figure] 8 - it would not put you over the 325,000 Special Drawing Rights threshold. Should your bid be successful, your grant offer will not be finalised until you have signed a contribution to subsidy eligibility letter.

Please see Special Drawing Rights factsheets and Complying with the UK’s international obligations on subsidy control guidance.

10. Has the event venue received over 325,000 Special Drawing Rights, including the current year, over any period of three fiscal years? *

Mark only one oval.

☐ Yes
☐ No

Notification of contribution to subsidy threshold

Please provide details of any other which your enterprise and any enterprises linked to it may have received during your current and over any period of three fiscal years, as we need to check that our support added to that previously received, will not exceed the threshold of 325,000 Special Drawing Rights. Subsidy includes not only grant but also assistance such as free or subsidised consultancy services, marketing advice etc. If you are in any doubt about whether previous subsidy received contributes to the threshold please include it.
11. For each item of subsidy, please include: Body providing the subsidy, value of assistance (calculating the Gross Grant Equivalent), and the date of assistance.
