**Strategic Export Controls: Country
Pivot Report**

1st July 2020 - 30th September
2020

April 2022

Countries: All countries

Case Types: All case types

All Cases / Incorporation Cases Only: All cases

Ultimate Destinations: All countries

Licence Statuses: All licence statuses

Reasons for Refusal: All reasons for refusal

Case Summaries: All case summaries

Ratings: All control entries

Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st July 2020 and 30th September 2020. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

A glossary of key terms follows this introduction which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spread sheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spread sheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

Key terms

Strategic goods include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

Control Entries are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

Case summaries are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list**) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

SIELs for goods covered by the torture regulation (see "Licence types and subtypes") concern trade in certain equipment and products which could be used for capital punishment torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for goods covered by the torture regulation are therefore not

included in the count of non-military goods for other SIEL subtypes.

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4) or Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

Case & goods footnotes are added to certain cases to provide explanation on the end use and/or end user.

Country footnotes are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

Licence types and subtypes

Export Licences

General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

Open Individual Licences

Open Individual Export Licences (OIELs) are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

Dealer-to-dealer OIELs (or simply Dealer OIELs) authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

Global Project Licences

Global Project Licences (GPL) are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

Standard Individual Licences

Standard Individual Export Licences (SIELs) are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by the torture regulation.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by the torture regulation** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by the torture regulation are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

Reporting

Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	4

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	2847	2778	69	0
- Permanent Standard	2312	2245	67	0
- Temporary Standard	117	115	2	0
- Transshipment	0	0	0	0
- Incorporation	408	408	0	0
- For goods covered by the torture regulation (Permanent or Temporary)	10	10	0	0
SITCLs	37	36	1	0
OIELs	63	57	5	1
- Standard	55	49	5	1
- Dealer-to-dealer	4	4	0	0
- Cryptographic	4	4	0	0
- Media	0	0	0	0
- Continental Shelf	0	0	0	0
Global Project Licences	8	8	0	0
OITCLs	14	13	1	0

Table notes for licensing statistics table:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transshipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

Overall Processing Statistics

Processing statistics covering the period 1st July 2020 to 30th September 2020

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	2216	61	2980	81	15 days
- Permanent Standard	1925	62	2580	83	14 days
- Temporary Standard	86	63	117	85	15 days
- Transhipment	1	50	2	100	13 days
- Incorporation	201	48	271	64	23 days
- For goods covered by the torture regulation (Permanent or Temporary)	3	30	10	100	22 days
SITCLs	16	29	40	71	34 days
OIELs	26	31	42	51	59 days
- Standard	19	26	31	43	75 days

- Cryptographic	3	50	6	100	25 days
- Media	n/a	n/a	n/a	n/a	n/a
- Continental Shelf	n/a	n/a	n/a	n/a	n/a
Global Project Licences	0	0	0	0	198 days
OITCLs	2	10	7	33	65 days

Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	4	£647,663
Total	4	£647,663

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£626,877
1C350	1	£22
2B352	2	£20,763

- biotechnology equipment (2 licences) [See footnote 2].
Rv chemicals used for general laboratory work/scientific research.
civil explosive detection/identification equipment [See footnote 1].

Rv - Some or all of which have subsequently been revoked.

Country Footnotes

1. Arms embargo sanctions in place for Afghanistan apply to those individuals, groups, undertakings and entities designated under the criteria stated in UN Security Council Resolution 2255 (2015), whose names are held on the list established pursuant to UN Security Council Resolution 1988 (2011). The EU implements these measures through Council Decision 2011/486/CFSP, as amended; as well as Council Regulation (EU) No 753/2011, as amended.

- The Afghanistan (Sanctions) (EU Exit) Regulations 2020, which fully came into force on 31 December 2020, implement UK obligations under United Nations Security Council Resolution 2255 (2015). The Regulations impose trade sanctions prohibitions and requirements which apply to the trade in military goods and military technology, which is to, or for the benefit of a designated person as well as the provision to, or for the benefit of a designated person of certain services which enable or facilitate the conduct of armed hostilities in Afghanistan. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

2B350	2	£707,483

corrosion resistant chemical manufacturing equipment (2 licences) [See footnote 1].
machine tools.

Country Footnotes

1. The UK interprets the OSCE arms embargo for Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

Case & goods Footnotes

1. Licence granted for energy exploration / generation purposes.

technology for information security equipment (2 licences).

Country Footnotes

1. On 20 June 2011 the EU adopted additional restrictions against Belarus, including prohibitions on the supply of arms and related material, as well as on equipment which might be used for internal repression. Restrictive measures currently in force with respect to Belarus are set out in Council Decision 2012/642/CFSP, as amended; as well as Council Regulation (EC) No 765/2006, as amended. Through Council Decision 2018/280, EU Member States may export certain types of small-calibre sporting rifles, small-calibre sporting pistols and small calibre ammunition, exclusively for use in sports events or sports training, or technical assistance or brokering services, financing or financial assistance related. This will be a limited number and without prejudice to the applicable licensing provisions. Member States shall notify other Member States and the Commission of its intention to grant an authorisation, at least 10 days prior to the authorisation.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	2	£121,846
Total	2	£121,846

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	2	£121,846

components for military support aircraft (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Czech Republic

Portugal

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment
2	P	components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for military support aircraft, unfinished products for military support aircraft
3	P	technology for submarines

information security software [See footnote 1].

Country Footnotes

1. UN Security Council Resolution 2127 (2013) established an arms embargo to restrict exports of arms, or related material, and of training, technical or financial assistance related to military activities; exemptions apply to some UN, humanitarian, peacekeeping and government entities. UNSCR 2536 (2020) extended the arms embargo until 31 July 2021 and decided that the arms embargo shall no longer apply to supplies of unarmed ground military vehicles and ground military vehicles mounted with weapons with a calibre of 14.5 mm or less and their spare parts, and of RPG and ammunition specially designed for such weapons, and provision of related assistance, to the CAR security forces including state civilian law enforcement institutions, as notified in advance to the Committee. The EU implements these measures through Council Decision 2013/798/CFSP, as amended; as well as Council Regulation (EU) No 224/2014, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for commercial end use.
2. Licence granted for explosive detection / disposal purposes.
3. Licence granted for explosive detection / disposal purposes.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	15	£2,324,578
Non-military	1	£1,120
Total	16	£2,325,698

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£1,906,600
ML3	2	£12,126
ML4	2	£80,952
ML6	2	£19,205
ML10	5	£181,584
ML11	1	£15,000
ML13	1	£0
ML16	1	£109,112

armoured plate.
combat aircraft.
components for combat aircraft.
components for launching/handling/control equipment for munitions (2 licences).
components for military helicopters.
components for military support aircraft.
T components for military training aircraft.
components for tanks.
T equipment for the use of military training aircraft.

general military vehicle components.
 training small arms ammunition (2 licences).
 unfinished products for military aero-engines.
 weapon night sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C233	1	£1,120

products containing enriched lithium.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	2	£72,108
Total	2	£72,108

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	2	£72,108

aircraft military communications equipment.
 components for combat aircraft.

Country Footnotes

1. Following the adoption of UNSCR 1807 (2008), the UN arms embargo with respect to the DRC only applies to non-governmental entities and individuals. The embargo was most recently renewed through UNSCR 2528 (2020) which extended the arms embargo until 1 July 2021, and currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in the DRC; some exports must be approved in advance by the Sanctions Committee. The EU implements these measures through Council Decision 2010/788/CFSP, as amended; as well as Council Regulation (EU) No 1183/2005, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£51,525
Non-military	4	£188,031
Total	6	£239,556

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	2	£51,525

military support vehicles (2 licences) [See footnote 2].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	1	£3,825
1C351	1	£65,697
5A002	2	£118,474
5D002	2	£35

chemicals used for industrial/commercial processes.
information security equipment (2 licences).
information security software (2 licences).
toxins.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment [See footnote 1]

Case & goods Footnotes

1. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Commercial end use.
2. Licence granted for commercial end use.

Falkland Islands

Processing Statistics (excluding amendments)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	6	£317,446
Non-military	2	£1,211
Total	8	£318,657

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£22,418
ML3	2	£4,428
ML5	1	£40,000
ML10	1	£900
ML15	1	£249,700

T assault rifles (1).
 T components for assault rifles (2 licences).
 T general military aircraft components.
 T military image intensifier equipment.
 T military infrared/thermal imaging equipment.
 T sniper rifles (1).
 T targeting equipment.
 T training small arms ammunition (2 licences).
 T weapon night sights.

T weapon night sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	1	£1
PL9011	1	£1,210

sporting shotguns (1).
technology for nuclear reactors.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	2	£5,180
Total	2	£5,180

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£5,180

components for launching/handling/control equipment for missiles (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Qatar

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	57	£3,075,840
Non-military	3	£117,540
Both Military and Non-military	2	£9,400
Total	62	£3,202,780

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	17	£172,562
ML2	2	£16,959
ML3	2	£2,441
ML4	5	£42,868
ML5	2	£270,000
ML6	12	£386,477
ML7	1	£937
ML9	1	£28,345
ML10	12	£89,814

ML13	2	£55,398
ML15	4	£655,950
ML16	2	£1,026,590
ML18	1	£327,500
ML22	2	£0

- anti-armour ammunition.
- armoured plate.
- assault rifles (40).
- ballistic test equipment.
- body armour.
- components for air-to-air missiles.
- components for assault rifles (2 licences).
- components for combat aircraft (6 licences).
- components for grenade launchers.
- components for launching/handling/control equipment for missiles.
- components for launching/handling/control equipment for rockets.
- T components for military aero-engines.
- components for military infrared/thermal imaging equipment.
- components for military training aircraft.
- components for naval guns.
- components for NBC protective/defensive equipment.
- components for sniper rifles (2 licences).
- components for sporting guns (3 licences).
- components for surface-to-surface missiles.
- components for tanks.
- general military aircraft components.
- general military vehicle components (4 licences).
- general naval vessel components.
- gun silencers (2 licences).
- T military aircrew life support equipment (3 licences).
- T military image intensifier equipment (3 licences).
- T military infrared/thermal imaging equipment (2 licences).
- military support vehicles (7 licences).
- military trailers.
- munitions/ordnance detection/disposal equipment.
- rifles (1).
- small arms ammunition.
- sniper rifles (2).
- sporting guns (1) (4 licences).
- T targeting equipment (2 licences).
- T technology for military aero-engines.
- technology for unfinished products for military aero-engines.
- unfinished products for artillery ammunition.
- unfinished products for military aero-engines.
- weapon night sights (2 licences).
- T weapon night sights (2 licences).
- weapon sights.
- T weapon sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	1	£1
1C233	1	£5,939
3A231	1	£111,600

- neutron generators.
- products containing enriched lithium.
- technology for nuclear reactors.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£1,850
PL9011	2	£7,550

T components for pistols (5).
sporting guns (1).
sporting shotguns (1).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	40	£1,685,937
Non-military	1	£1,419
Total	41	£1,687,356

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£17,973
ML4	1	£292,000
ML5	3	£554,013
ML6	2	£11,550
ML9	4	£80,027
ML10	22	£273,751
ML11	2	£52,734
ML14	2	£45,158
ML16	3	£130,731
ML22	3	£228,000

aircraft military communications equipment.
components for air-to-surface missiles.
components for artillery ammunition.
components for attack alerting/warning equipment.
components for combat aircraft (16 licences) [See footnotes 3, 4].
components for military aero-engines (2 licences).
components for military guidance/navigation equipment.
components for military radars (2 licences).
components for military scenario simulation equipment.
components for military support aircraft.
components for military training aircraft (2 licences).
components for military training equipment.
components for multi-role missiles.
components for submarines (2 licences).
components for surface-to-surface missiles.
components for turrets (2 licences).
general naval vessel components (2 licences).
military electronic equipment.

technology for air-to-surface missiles.
 technology for combat aircraft.
 technology for military aero-engines.
 unfinished products for combat aircraft (2 licences).
 unfinished products for military aero-engines.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C233	1	£1,419

products containing enriched lithium.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Algeria
- Austria
- Belgium
- Brazil
- Canada
- Czech Republic
- Denmark
- France
- Hungary
- Israel
- Italy
- Kuwait
- Lithuania
- Malaysia
- Nigeria
- Norway
- Oman
- Pakistan
- Poland
- Qatar
- Saudi Arabia
- Singapore
- South Africa
- Spain
- Sweden
- Switzerland
- Thailand
- Tunisia
- Turkey
- Turkmenistan
- United Kingdom
- United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	military communications equipment, software enabling equipment to function as military communications equipment, technology for military communications equipment, technology for software enabling equipment to function as military communications equipment [See footnote 1]
2	P	software for modelling/simulating military operation scenarios, technology for software for modelling/simulating military operation scenarios
3	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon control equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon control equipment, technology for weapon sights, weapon control equipment, weapon sight mounts, weapon sights
4	P	neutron generators, non-military detonators, non-military firing sets [See footnote 2]
5	P	software for modelling/simulating military operation scenarios, software for modelling/simulating/evaluating weapon systems, software for multi-role missiles, technology for multi-role missiles, technology for software for modelling/simulating military operation scenarios, technology for software for modelling/simulating/evaluating weapon systems
6	P	inertial equipment [See footnote 5]
7	P	electromagnetic wave absorbing materials
8	P	aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for recognition/identification equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for

		missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for recognition/identification equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for recognition/identification equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights

Country Footnotes

- Following its meeting in Madrid of 26 and 27 June 1989, the European Council agreed a Declaration that it was necessary for Member States to adopt an arms embargo on China. The embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. Since 2000 the UK has applied this embargo to Macao and since July 2020 it has been applied to Hong Kong.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

- Licence granted for energy exploration / generation purposes. Commercial end use.
- Display items for a commercial end user
- Licence granted for research and development purposes, including academic and medical.
- Licence granted for commercial end use.
- Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.
- Licence granted for explosive detection / disposal purposes.
- Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.
- Licence granted for explosive detection / disposal purposes.
- Licence granted for explosive detection / disposal purposes.
- Licence granted for explosive detection / disposal purposes.

1	P	components for airborne refuelling equipment, components for combat aircraft, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components

Case & goods Footnotes

1. Licence granted for leisure / hunting / sporting purposes, including use by athletes in training and competition.
2. Licence granted for testing and evaluation by the potential end user.
3. Licence granted for a diplomatic mission.
4. Licence granted for energy exploration / generation purposes.
5. Licence granted for commercial end use.
6. Licence granted for manufacturing purposes.
7. Licence granted for goods which will be returned to the UK.
8. Licence granted for manufacturing purposes.

Iran

Processing Statistics (excluding amendments)

Median processing time SIELs	12 days
% and number of SIELs completed in 20 working days	75% (33)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£298
Total	1	£298

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
IRN	1	£298

gaskets.

Country Footnotes

1. Following the implementation of the Joint Comprehensive Plan of Action, the flow of certain goods and services to Iran that were previously prohibited are now permitted. The restrictions currently in force with respect to Iran (counter proliferation) are set out in Council Decision 2010/413/CFSP, as amended, and EU Council Regulation (EU) No 267/2012, as amended. Measures include an arms embargo, which has one exemption for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

All exports for this destination were approved in accordance with the sanctions in place.

2. On 12 April 2011, the EU adopted additional sanctions on Iran in response to the deterioration of the human rights situation. Council Decision 2011/235/CFSP, as amended, and Council Regulation (EU) No 359/2011, as amended, includes restrictions on the supply of equipment which might be used for internal repression, as well as of monitoring and interception equipment.

All exports for this destination were approved in accordance with the sanctions in place.

Iraq

Processing Statistics (excluding amendments)

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	57% (4)

 promoting the supply of pistols (115).
 promoting the supply of small arms ammunition.
 promoting the supply of smoke/pyrotechnic ammunition.
 promoting the supply of surface launched rockets.
 promoting the supply of training small arms ammunition.

Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004). This is implemented in the EU with Common Position 2003/495/CFSP, as amended, Council Regulation (EC) No 1210/2003, as amended, and Council Regulation (EEC) No 3541/92.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.
2. Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.
3. Licence granted for personal protective equipment. Diplomatic mission end use.
4. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Commercial end use.
5. Licence granted for commercial end use.
6. Licence granted for Military (Air Force) end user.

Country Footnotes

1. UN Security Council Resolution 1970 of 26 February 2011 established an embargo on the supply of arms and related material to Libya. The embargo was amended by Resolutions 2009 (2011) 2095 (2013) and 2362 (2017). Exemptions exist, with approval from the UN Sanctions Committee, for supplies of non-lethal military equipment and protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers. Arms and related material intended solely for security or disarmament assistance to the Libyan government are also subject to exemption criteria.

UNSCR 2017/2362 states that the authorisation to inspect designated high seas vessels found in UNSCR 2146 (2014) shall apply with respect to vessels loading, transporting, or discharging petroleum, including crude oil and refined petroleum products, illicitly exported or attempted to be exported from Libya. UNSCR 2509 expands the scope of the concept of threat to peace, security and stability of Libya to include vessels illicitly importing oil into Libya. The length of time a vessel can be sanctioned has been extended from 90 days to 1 year.

EU Council Decision (CFSP) 2011/137, as amended, and Council Regulation (EU) 2016/446, as amended, restricts the provision of arms and related material; as well as of equipment that might be used for internal repression. Exemptions are in place for internal repression equipment intended solely for humanitarian or protective use, and for temporary export of protective clothing for use by United Nations and EU personnel, representatives of the media and humanitarian and development workers.

Common Position 2004/698/CFSP, as amended, and Council Regulation (EC) No 3275/1993, as amended, are also in place.

All exports for this destination must be in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for humanitarian / international organisation / media end use.
2. Licence granted for explosive detection / disposal purposes. Humanitarian / international organisation end use.

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. This embargo also extends to arms exports to Macao. The UK interpretation of the embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£1,099,660
Total	2	£1,099,660

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A001	1	£4,660
PL8001	1	£1,095,000

components for explosives detection equipment.
extended temperature range integrated circuits.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Canada
United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment
2	P	technology for composite laminates, technology for composite structures, technology for fibrous/filamentary materials, technology for stretch-forming equipment
3	P	metal alloy cylindrical forms

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for airborne refuelling equipment, components for combat aircraft, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components

promoting the supply of all-wheel drive vehicles with ballistic protection.

Country Footnotes

1. United Nations Security Council Resolution 2374 (2017) was adopted in September 2017 establishing a sanctions regime on Mali which imposes travel bans and assets freezes on individuals and entities engaged in activities that threaten the peace, security or stability of the country.

The EU implements this sanctions regime via Council Decision (CFSP) 2017/1775 and Council Regulation (EU) 2017/1770.

All exports for this destination were approved in accordance with the sanctions in place.

1. Licence granted for commercial end use.

Mongolia

Processing Statistics (excluding amendments)

Median processing time SIELs	7 days
% and number of SIELs completed in 20 working days	100% (3)
% and number of SIELs completed in 60 working days	100% (3)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£17,000
Both Military and Non-military	2	£110,250
Total	3	£127,250

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£17,000

weapon night sights.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	2	£46,000
ML1	2	£64,250

imaging cameras (2 licences).
 weapon night sights (2 licences).

Morocco

Processing Statistics (excluding amendments)

Median processing time SIELs	29 days
% and number of SIELs completed in 20 working days	36% (4)
% and number of SIELs completed in 60 working days	82% (9)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£883,419
Non-military	8	£741,076
Total	10	£1,624,495

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£30,500
ML10	1	£852,919

aircraft military communications equipment.
 components for aircraft military communications equipment.
 military support vehicles [See footnote 2].
 military trailers [See footnote 2].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C353	2	£16
5A002	4	£694,462
5D002	2	£5,598
7A103	1	£41,000

inertial equipment [See footnote 1].
 information security equipment (4 licences).
 information security software.
 pathogenic genetic elements (2 licences).
 software for information security equipment.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,664
Total	1	£1,664

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£1,664

components for military sonars.

Country Footnotes

1. Restrictions currently in force with respect to Myanmar are set out in Council Decision 2013/184/CFSP, as amended; these include an embargo on the provision of arms and related material, on the export of dual-use goods for military and Border Guard Police end users, as well as of equipment that might be used for internal repression, including the export of equipment for monitoring communications as specified in Annex I to Council Regulation (EU) No 401/2013, as amended. Also the technical assistance, and financing or financial assistance related to military activities are also prohibited, and there are restrictions on military training and cooperation.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	5	£1,250,729
Non-military	13	£1,208,790
Total	18	£2,459,519

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,017,597
ML6	1	£160,000
ML10	2	£63,400
ML13	1	£9,702
ML22	1	£30

all-wheel drive vehicles with ballistic protection [See footnote 1].
body armour [See footnote 2].
components for body armour [See footnote 2].
components for machine guns [See footnote 3].
components for military support aircraft (2 licences).
machine guns (49) [See footnote 3].
military helmets [See footnote 2].
technology for machine guns [See footnote 3].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	2	£89,026
5A002	8	£908,828
5D002	1	£7,500
6A003	2	£190,032
7A103	1	£13,403

chemicals used for general laboratory work/scientific research.
chemicals used for pharmaceutical/healthcare production.
components for information security equipment.
imaging cameras (2 licences).
inertial equipment.
information security equipment (8 licences).
software for information security equipment.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£26,685
Non-military	2	£196,860
Total	4	£223,546

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML9	1	£16,985
ML13	1	£9,700

body armour [See footnote 1].
 components for body armour [See footnote 1].
 components for military patrol/assault craft.
 military helmets [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£20,514
8A002	1	£176,346

imaging cameras.
 submersible equipment.

OIELs (excluding Other OIELs)

- promoting the supply of sporting shotguns (605).

Country Footnotes

1. Council Decision 2014/512/CFSP, as amended and Council Regulation (EU) No 833/2014, as amended, imposes a number of sectoral sanctions against Russian entities. These include restrictions on the supply of arms and military equipment, on dual use items for military use, ban on the supply of equipment and services to Russian deep water, Arctic and shale oil exploration and production projects, and a ban on Russian access to certain EU financial instruments and services.

All exports for this destination were approved in accordance with the sanctions in place.

2. The Russia (Sanctions) (EU Exit) Regulations 2019 which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirements, which apply to military goods and technology, dual use goods and technology and energy-related goods. It also imposes a prohibition on the provision of military-related services, as well as other prohibitions on the import of goods from Crimea or Sevastopol, the export of goods related to infrastructure to, or for use in, Crimea or Sevastopol, and the provision of services related to infrastructure and tourism. There are also measures that curtail Russian access to certain specified energy-related equipment and services.

The Regulations makes provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for commercial end use.
2. Licence granted for commercial end use.
3. Licence granted for commercial end use.
4. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Commercial end use.
5. Licence granted for commercial end use.
6. Licence granted for commercial end use.

anti-riot/ballistic shields [See footnote 2].
military support vehicles [See footnote 1].

Country Footnotes

1. The United Nations imposed embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The national implementing legislation on Sierra Leone is however still in force.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for commercial end use.
2. Licence granted for commercial end use.

Country Footnotes

1. UN Security Council Resolution 2444 (2019) extended the partial lift of the embargo on the supply of arms and related material until 15 November 2019, it was agreed on the 15 November 2019 that the partial lift would be extended for another year. UNSCR 2444 also consolidated and streamlined the provisions of the arms embargo and imposed an IED components ban. There are a number of exemptions, including standing exemptions, those requiring notification and those requiring permission from the Somalia UN sanctions committee.

promoting the supply of military support aircraft.

Country Footnotes

1. EU Council Decision (CFSP) 2015/740, as amended and Council Regulation (EU) 2015/735, as amended, transpose UNSCR 2206 (2015). This provides for restrictive measures in the form of travel restrictions and asset freezes that may be applied in relation to persons and entities designated by the Security Council Committee.

The measures embargo the provision of arms and related materiel to South Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU, EU or IGAD personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, AU or IGAD personnel, and demining equipment.

On 13 July 2018, UN Security Council Resolution 2428 (2018), established an embargo on the supply of arms and related material to South Sudan. Exemptions exist for equipment intended for the support of or use by UN personnel, humanitarian use, in support of the African Union Regional Task Force intended solely for regional operations to counter the Lords Resistance Army and intended solely in support of the implementation of the terms of the peace agreement.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Commercial end use.
2. Licence granted for components / accessories / spare parts. Humanitarian / international organisation end use.

St Helena

Processing Statistics (excluding amendments)

Median processing time SIELs	12 days
% and number of SIELs completed in 20 working days	100% (2)
% and number of SIELs completed in 60 working days	100% (2)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,917
Non-military	1	£18,864
Total	2	£20,781

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,917

sporting guns (2).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£18,864

information security equipment.

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment

Country Footnotes

1. UN Security Council resolution 1556 (2004) established an embargo on the supply of arms and related material to non-governmental entities in the Darfur region of Sudan; this was extended to include all individuals and entities in Darfur through Resolution 1591 (2005).

EU Council Decision 2011/423/CFSP, as amended, embargoed the provision of arms and related material to Sudan and South Sudan. EU Council Decision 2014/450/CFSP repealed Decision 2011/423/CFSP and separated the restrictive measures imposed on Sudan into a distinct legal instrument. The enforcement of the arms embargo was further strengthened by resolution 1945 (2010) of 14 October 2010. This is implemented by Council Regulation (EC) No 747/2014, as amended.

The measures embargo the provision of arms and related materiel to Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU or EU personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, or AU, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

- On 31 May 2013, the EU adopted Council Decision 2013/255/CFSP, as amended, and Council Regulation (EU) No 36/2012, as amended, which lifted the embargoes on arms and related material, as well as on equipment which might be used for internal repression.

This Decision also renewed the remaining measures set out in repealed Decision 2012/739/CFSP, which include embargoes on further equipment that might be used for internal repression (chemical warfare precursors and related equipment), monitoring and interception equipment, key equipment and technology for certain sectors of the oil and natural gas industry in Syria, luxury goods, and Syrian denominated banknotes and coinage.

Common Position 2005/888/CFSP, as amended, and Council Regulation (EC) No 305/2006, as amended, are also in place.

All exports for this destination were approved in accordance with the sanctions in place.

Total	59	£56,976,118

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£41,985
ML3	1	£8,856
ML5	2	£21,750
ML7	3	£1,013,327
ML8	1	£30
ML9	5	£11,601,352
ML10	2	£13,462
ML11	1	£10,500
ML13	1	£100
ML15	1	£20,266
ML17	1	£150,000
ML22	9	£16,353,128
PL5001	1	£150

- T
- anti-riot/ballistic shields [See footnote 1].
 - components for aircraft military communications equipment.
 - components for combat naval vessels.
 - components for military radars.
 - components for NBC detection equipment.
 - components for periscopes.
 - components for sniper rifles.
 - components for submarines (3 licences).
 - energetic materials additives.
 - general military aircraft components.
 - general naval vessel components.
 - gun silencers.
 - military guidance/navigation equipment.
 - military helmets [See footnote 1].
 - military infrared/thermal imaging equipment.
 - NBC detection equipment (2 licences).
- T
- periscopes.
 - small arms ammunition.
 - sniper rifles (6).
 - technology for combat naval vessels.
 - technology for electronic warfare equipment (2 licences).
 - technology for general naval vessel components.
 - technology for military guidance/navigation equipment.
 - technology for NBC detection equipment.

technology for submarines (3 licences).
test models for submarines.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£360
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£360

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIV	1	£360

barbiturate anaesthetic agents for injection.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	hydrophones
2	T	military communications equipment, software enabling equipment to function as military communications equipment, technology for military communications equipment, technology for software enabling equipment to function as military communications equipment [See footnote 3]
3	P	software for modelling/simulating military operation scenarios, technology for software for modelling/simulating military operation scenarios
4	P	components for artillery
5	P	neutron generators, non-military detonators, non-military firing sets [See footnote 5]
6	P	components for aircraft military communications equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military communications equipment
7	P	software for uranium isotope separation equipment, technology for uranium isotope separation equipment
8	P	inertial equipment [See footnote 10]
9	P	electromagnetic wave absorbing materials
10	P	components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for military support aircraft, unfinished products for military support aircraft
11	P	devices containing enriched lithium
12	P	components for sporting shotguns, sporting shotguns [See footnote 7]
13	P	components for military aero-engines, military aero-engines, technology for military aero-engines
14	P	aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems,

		<p>components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for recognition/identification equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for recognition/identification equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for recognition/identification equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights</p>
15	P	components for nuclear reactors, technology for nuclear reactors

Country Footnotes

1. EU Council Decision (CSFP) 2017/2074 and Council Regulation (EU) 2017/2063 were introduced in November 2017. It includes an asset freeze, travel ban and arms embargo, embargo on equipment that could be used for repression, and restrictions on monitoring equipment. Targeted restrictions should be imposed against those responsible for serious human rights violations or abuses or the repression of civil society and democratic opposition; or those whose actions, policies or activities otherwise undermine democracy or the rule of law in Venezuela.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for a diplomatic mission.

Country Footnotes

1. UN Security Council Resolution 2216 (2015) established a targeted arms embargo to prevent the direct or indirect supply, sale or transfer to, or for the benefit of designated individuals and entities and those acting on their behalf or at their direction in Yemen, of arms and related material of all types, and of technical assistance, training, financial assistance or other assistance related to military activities or the provision, maintenance or use of any arms and related material. This adds to earlier resolution 2140 (2014) establishing asset freezes and travel bans of designated individuals and entities. The EU implements these measures through Council Decision (CFSP) 2015/882, as amended; as well as Council Regulation (EU) 2015/878, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

UNSCR 2511 contains a humanitarian exemption to assist the work of the UN and other humanitarian organisations operating in Yemen or for any other purpose connected with UNSCRs 2140 and 2216.

Case & goods Footnotes

Median processing time SIELs	23 days
% and number of SIELs completed in 20 working days	43% (3)
% and number of SIELs completed in 60 working days	100% (7)
% [as a % of all SIEL cases processed] and number of SIELs refused	29% (2)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£1,569
Total	1	£1,569

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£1,569

information security equipment [See footnote 1].

Refused

	Count
Military	1
Non-military	1
Total	2

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except

where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML2	1

sporting guns (1).

Non-military

Control Entry	No. of licences with goods rated using Control Entry
FR AI	1
ZWE	1

sporting shotguns (1).

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
1	2

Country Footnotes

1. Restrictions currently in force with respect to Zimbabwe are set out in Council Decision 2011/101/CFSP, as amended, and Council Regulation No. 314/2004, as amended. These include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Commercial end use.
