# Hana FOR USE BY WOMEN TO PREVENT PREGNANCY

Read the package leaflet for further information and before use.  
**How to take:** Oral use. **Take 1 tablet at the same time every day without a break between packs.**

### Speak to your pharmacist before taking if you:

- have recently taken or are taking any other medicines or herbal remedies or have taken emergency contraception within the last 5 days
- have ever had breast cancer or a blood clot (thrombosis)
- have liver cancer or other liver disorders
- have diabetes or high blood pressure

**Tell your pharmacist about any changes to your health or bleeding patterns since the last supply, and any medicines you are taking or have recently taken.**

### Do not take if you:

- have or are suspected of having a sex-steroid sensitive cancer (e.g breast cancer)
- have a blood clot in the legs (thrombosis) or lungs (pulmonary embolism)
- have or have had jaundice or severe liver disease
- have unexplained vaginal bleeding between your periods, or if you repeatedly have bleeding after sex
- are allergic to desogestrel or to any of the other ingredients in Hana
- are pregnant or think you may be pregnant

**Talk to your doctor or family planning nurse if any of these apply to you.**

Keep out of the sight and reach of children.
