

## Switzerland

This factsheet provides the latest statistics on trade and investment between the UK and Switzerland.

Date of release: 2 May 2025; Date of next planned release: 19 June 2025

**Total trade in goods and services** (exports plus imports) between the UK and Switzerland was **£45.4 billion** in the four quarters to the end of Q4 2024, a decrease of 9.1% or £4.6 billion in current prices from the four quarters to the end of Q4 2023. Of this £45.4 billion:

- Total UK **exports** to Switzerland amounted to £25.5 billion in the four quarters to the end of Q4 2024 (a decrease of 17.8% or £5.5 billion in current prices, compared to the four quarters to the end of Q4 2023);
- Total UK **imports** from Switzerland amounted to £19.9 billion in the four quarters to the end of Q4 2024 (an increase of 5.1% or £960 million in current prices, compared to the four quarters to the end of Q4 2023).

**Switzerland was the UK's 10<sup>th</sup> largest trading partner** in the four quarters to the end of Q4 2024 accounting for 2.6% of total UK trade.<sup>1</sup>

In 2023, the **outward stock of foreign direct investment (FDI)** from the UK in Switzerland was £46.6 billion accounting for 2.5% of the total UK outward FDI stock.

In 2023, the **inward stock of foreign direct investment (FDI)** in the UK from Switzerland was £61.8 billion accounting for 3.0% of the total UK inward FDI stock.<sup>2</sup>

<sup>1</sup>Trade data sourced from the latest ONS publication of [UK total trade: all countries seasonally adjusted](#) data.

<sup>2</sup>Investment data sourced from ONS publication on [Foreign Direct Investment Involving UK Companies](#).

## About these statistics

This factsheet presents the latest statistics on trade and investment between the UK and Switzerland. It summarises a wide range of publicly available data, from data providers such as the Office for National Statistics (ONS) and HM Revenue and Customs (HMRC), as well as international data providers.

This factsheet is part of a wider range produced by the Department for Business and Trade which draws together many data sources into one single compendium document for each individual trade and investment partner. The full set of factsheets for different individual partners can be found on the [Trade and Investment Factsheets website](#) on GOV.UK.

Where data are available, these factsheets contain metrics on:

- [Headline trade statistics between the UK and each trading partner for the latest four quarters.](#)
- [Trade statistics by commodity and service type.](#)
- [Trade between the UK and each trading partner, broken down by UK country and English region.](#)
- [Trade in services between the UK and each trading partner, broken down by mode of supply.](#)
- [UK's market share as a total of all imports for each trading partner.](#)
- [Number of VAT-registered businesses trading goods.](#)
- [UK's Foreign Direct Investment \(FDI\) with each investment partner.](#)
- [Summary trade and investment data as reported by each trade and investment partner, as well as economic data and projections.](#)

All statistics are correct at the time of publication, with upcoming release dates available on the [Government update schedule for Official Statistics](#). The Department for Business and Trade strongly recommends users download the latest factsheet to ensure the most up-to-date statistics are used. Please do not use previous factsheets to analyse earlier time periods than those shown in the most recent factsheets, as the data will have been revised and previous factsheets will no longer be correct. For analysis of earlier time periods, please use the published source data.

For the most up to date snapshot of the UK's trade and investment position with all partners, please see the [UK trade in numbers](#) publication or the [trade and investment core statistics book](#). These statistics are based on the same data sources as this factsheet and therefore are comparable. A list of all [Official Statistics](#) publications from the Department for Business and Trade can be found online.

## Summary trade and investment statistics for Switzerland

### UK trade with Switzerland, in current prices (based on the latest four quarters)<sup>3</sup>

Trade	Value in the four quarters to the end of Q4 2024	Change from the four quarters to the end of Q4 2023
<b>Total trade</b>	£45.4 billion	a decrease of 9.1% or £4.6 billion
Ranking out of all the UK's trading partners	10th	
<b>Total UK exports</b>	£25.5 billion	a decrease of 17.8% or £5.5 billion
Ranking out of all the UK's export partners	8th	
UK exports in goods (percentage of total UK exports that were goods)	£7.4 billion (28.9%)	a decrease of 43.1% or £5.6 billion
UK exports in services (percentage of total UK exports that were services)	£18.1 billion (71.1%)	an increase of 0.2% or £42 million
<b>Total UK imports</b>	£19.9 billion	an increase of 5.1% or £960 million
Ranking out of all the UK's import partners	13th	
UK imports in goods (percentage of total UK imports that were goods)	£10.1 billion (50.8%)	an increase of 7.0% or £659 million
UK imports in services (percentage of total UK imports that were services)	£9.8 billion (49.2%)	an increase of 3.2% or £301 million

<sup>3</sup>Trade data sourced from Office for National Statistics data on [UK total trade \(seasonally adjusted data\)](#).

## UK market share in Switzerland<sup>4</sup>

UK market share for total trade	Value in 2023		Change from 2022
<b>Total UK market share</b>	6.7%	a decrease of 1.3 percentage points	
UK market share for goods only	4.4%	a decrease of 2.0 percentage points	
UK market share for services only	11.1%	a decrease of 0.4 percentage points	

## UK Foreign Direct Investment (FDI) with Switzerland<sup>5</sup>

UK FDI	Value in 2023		Change from 2022
Total UK outward FDI	£46.6 billion	a decrease of 11.1% or £5.8 billion	
Total UK inward FDI	£61.8 billion	a decrease of 0.1% or £49 million	

## Economic statistics and projections using gross domestic product (GDP) for Switzerland<sup>6</sup>

Economic statistics	2023	2024	2025	2026
Economic growth, using GDP in real terms, compared to the previous year	0.7%	1.3%	0.9%	<i>1.6%</i>
GDP per capita in \$USD (in thousands)	101.5	104.5	104.9	<i>108.9</i>

Switzerland was the 20<sup>th</sup> largest economy in 2024, in terms of gross domestic product (GDP).

<sup>4</sup>UK market share data calculated using the methodology outlined in the [market share section](#) in the factsheet, based on data from the Office for National Statistics and United Nations Conference on Trade and Development.

<sup>5</sup>FDI data sourced from the Office for National Statistics publication [Foreign Direct Investment Involving UK Companies](#).

<sup>6</sup>Economic data sourced from the International Monetary Fund [World Economic Outlook](#) databases; Estimates and projections are given in italics; GDP rankings where provided are based on values in current prices (nominal terms) in \$USD, where some partner values are based on estimates which may influence the rankings when revised.

## Trade with Switzerland, in current prices (ONS)<sup>7 8 9</sup>

### Trade definitions

- **UK exports** - Goods and services that were produced or sourced in the UK, which were sold to Switzerland.
- **UK imports** - Goods and services that were sold to the UK, which were produced or sourced by Switzerland.
- **Total or 'bilateral' trade** - The value of total trade between the UK and Switzerland (exports plus imports).
- **Trade balance** - The difference between exports and imports, calculated by UK exports minus UK imports.
- **Trade surplus** - This occurs when the value of UK exports to Switzerland is greater than the value of UK imports from Switzerland.
- **Trade deficit** - This occurs when the value of UK exports to Switzerland is less than the value of UK imports from Switzerland.

**Headline trade statistics include trade in non-monetary gold (reported within the unspecified goods category), which can significantly affect trends for some partners. Please see the factsheet [quality and methodology report](#) for more information. These statistics are given on a balance of payments (change of ownership) basis.**

***Note:** UK trade statistics experienced higher levels of volatility between 2019 and 2022, due to the pandemic, global recession, supply chain disruption, EU Exit, Russia's invasion of Ukraine, price inflation, conflict in the Middle East, and data collection changes. All figures are reported in current prices (not adjusted for inflation), unless otherwise stated. We recognise that some of the recent changes in UK trade values will be partly due to price changes.*

**Total trade** in goods and services (exports plus imports) between the UK and Switzerland was £45.4 billion in the four quarters to the end of Q4 2024, a decrease of 9.1% or £4.6 billion in current prices from the four quarters to the end of Q4 2023.

In the four quarters to the end of Q4 2024, **total UK exports** to Switzerland amounted to £25.5 billion (a decrease of 17.8% or £5.5 billion in current prices, compared to the four quarters to the end of Q4 2023).

Of all UK exports to Switzerland in the four quarters to the end of Q4 2024, £7.4 billion (28.9%) were **goods** and £18.1 billion (71.1%) were **services**. In the four quarters to the end of Q4 2024, UK **exports of goods** to Switzerland decreased by 43.1% or £5.6 billion in current prices, compared to the four quarters to the end of Q4 2023 while UK **exports of services** to Switzerland increased by 0.2% or £42 million in current prices, compared to the four quarters to the end of Q4 2023.

In the four quarters to the end of Q4 2024, **total UK imports** from Switzerland were £19.9 billion (an increase of 5.1% or £960 million in current prices, compared to the four quarters to the end of Q4 2023).

Of all UK imports from Switzerland in the four quarters to the end of Q4 2024, £10.1 billion (50.8%) were **goods** and £9.8 billion (49.2%) were **services**. In the same period, UK **imports of goods** from Switzerland increased by 7.0% or £659 million in current prices, compared to the four quarters to the end of Q4 2023 while UK **imports of services** from Switzerland increased by 3.2% or £301 million in current prices, compared to the four quarters to the end of Q4 2023.

This means the UK reported a **total trade surplus** of £5.6 billion with Switzerland, compared to a trade surplus of £12.1 billion in the four quarters to the end of Q4 2023. In the four quarters to the end of Q4 2024, the UK had a **trade in goods deficit** of £2.8 billion with Switzerland, compared to a trade in goods surplus of £3.5 billion in the four quarters to the end of Q4 2023. Meanwhile, in the four quarters to the end of Q4 2024 the UK reported a **trade in services surplus** of £8.3 billion with Switzerland, compared to a trade in services surplus of £8.6 billion in the four quarters to the end of Q4 2023.

<sup>7</sup>Office of National Statistics (ONS) data source for total trade: [UK total trade data \(seasonally adjusted\)](#).

<sup>8</sup>This factsheet contains data as reported by the UK, users are advised to use UK-reported data where possible for consistency between partners. These data are subject to [asymmetries](#) e.g. the value of UK exports to Switzerland (reported by the UK) may not match the value of Switzerland imports from the UK (reported by Switzerland).

<sup>9</sup>Data are in current prices, meaning no adjustment has been made to account for changes in inflation or exchange rate. The totals may not exactly match the sum of their parts due to rounding.'

The charts below present a time series for trade between the UK and Switzerland for each year between 2015 and 2024:

Source: ONS, UK trade in goods and services, Q4 2024

The data that are presented in the charts above are given in the table below in £ billion:

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024
Value of total trade	30.3	35.0	32.1	34.0	36.8	35.0	38.9	51.5	50.0	45.4
Value of exports	18.4	20.6	19.7	21.6	22.3	24.8	23.3	33.5	31.0	25.5
Value of imports	11.9	14.4	12.4	12.4	14.5	10.3	15.6	18.0	18.9	19.9
Trade balance	+6.6	+6.2	+7.3	+9.2	+7.8	+14.5	+7.7	+15.5	+12.1	+5.6

In the four quarters to the end of Q4 2024, Switzerland was the UK's:<sup>10</sup>

- **10<sup>th</sup> largest trading partner** (accounting for 2.6% of total UK trade).
  - 14<sup>th</sup> largest **goods** trading partner (1.8% of UK goods trade).
  - 7<sup>th</sup> largest **services** trading partner (3.4% of UK services trade).
- **8<sup>th</sup> largest export market** (accounting for 2.9% of total UK exports).
  - 13<sup>th</sup> largest **goods** export market (2.0% of UK goods exports).
  - 6<sup>th</sup> largest **services** export market (3.6% of UK services exports).
- **13<sup>th</sup> largest import market** (accounting for 2.2% of total UK imports).
  - 14<sup>th</sup> largest **goods** import market (1.7% of UK goods imports).
  - 9<sup>th</sup> largest **services** import market (3.1% of UK services imports).

**More timely data, for trade in goods only<sup>11</sup>**, show that UK exports of goods to Switzerland decreased by 56.8% the 12 months to February 2025 in current prices, compared to the same period the previous year. UK imports of goods from Switzerland increased by 14.4%, in current prices, over the same period.

<sup>10</sup>Rankings are based on the ONS dataset which contains data for all individual partners: [UK total trade data \(seasonally adjusted\)](#).

<sup>11</sup>ONS data source for trade in the latest 12 months up to February 2025: [UK Trade data \(seasonally adjusted\)](#).

## Trade in goods by commodity, in current prices (ONS)<sup>12 13</sup>

Please note, these data are presented on a non-seasonally adjusted basis and are not directly comparable to seasonally adjusted data, including the headline trade statistics presented before.

The **top 5 goods exported from the UK to Switzerland** in the four quarters to the end of Q4 2024 were as follows:

Commodity	Exports in the four quarters to the end of Q4 2024	Percentage of total goods exports	Change from the four quarters to the end of Q4 2023
9 - Unspecified goods	£2.6 billion	35.5%	a decrease of 66.1%
54 - Medicinal & pharmaceutical products	£529.7 million	7.2%	a decrease of 34.3%
896 - Works of art	£528.5 million	7.2%	a decrease of 16.6%
78M - Cars	£454.4 million	6.2%	an increase of 1.6%
897C - Jewellery	£305.0 million	4.1%	a decrease of 6.2%

The **top 5 goods imported to the UK from Switzerland** in the four quarters to the end of Q4 2024 were as follows:

Commodity	Imports in the four quarters to the end of Q4 2024	Percentage of total goods imports	Change from the four quarters to the end of Q4 2023
54 - Medicinal & pharmaceutical products	£1.8 billion	17.9%	an increase of 3.1%
88C - Photographic & optical goods & clocks (consumer)	£1.4 billion	13.6%	a decrease of 2.9%
9 - Unspecified goods	£1.1 billion	10.9%	-
68 - Non-ferrous metals	£1.1 billion	10.8%	an increase of 15.1%
897C - Jewellery	£362.6 million	3.6%	an increase of 13.5%

**Note:** Percentage changes between the current and previous period that exceed 100% have been omitted. This is to avoid presenting small value changes from a low base as fast growing.

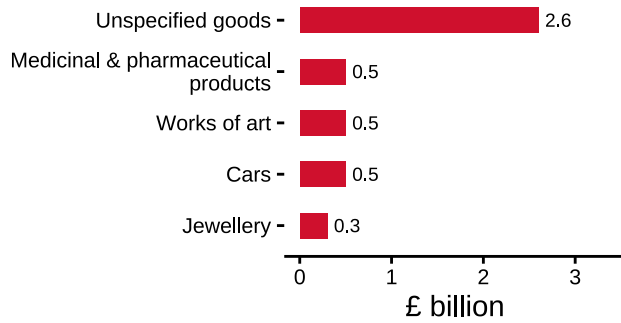

<sup>12</sup>Data on trade in goods by commodity are sourced from data by the ONS: [UK trade release \(non-seasonally adjusted\)](#). These statistics for **exports** and **imports** present the latest data from the February 2025 ONS publication which are given on a monthly basis.

<sup>13</sup>The commodities are categorised based on [SITC](#) codes using a mixture of level 2 and level 3 codes.

The chart below shows the top 5 products exported from the UK to Switzerland and the top 5 products imported to the UK from Switzerland, by value, in the four quarters to the end of Q4 2024. All data shown in the chart are provided in the text above.

The top 5 UK goods exports, in the four quarters to the end of Q4 2024, to Switzerland

Source: ONS, February 2025

The top 5 UK goods imports, in the four quarters to the end of Q4 2024, from Switzerland

Source: ONS, February 2025

## Trade in services by service type, in current prices (ONS)<sup>14 15 16 17</sup>

Please note, these data are presented on a non-seasonally adjusted basis and are not directly comparable to seasonally adjusted data, including the headline trade statistics presented before.

The **top 5 service types exported from the UK to Switzerland** in the four quarters to the end of Q4 2024 were as follows:

Service type	Exports in the four quarters to the end of Q4 2024	Percentage of total services exports	Change from the four quarters to the end of Q4 2023
Other Business Services	£8.6 billion	47.4%	Unavailable due to suppressed data
Financial	£3.7 billion	20.2%	an increase of 20.3%
Telecommunications, computer and information services	£1.5 billion	8.3%	a decrease of 4.8%
Transportation	£1.1 billion	5.9%	an increase of 6.2%
Intellectual property	£1.0 billion	5.6%	a decrease of 7.1%

The **top 5 service types imported to the UK from Switzerland** in the four quarters to the end of Q4 2024 were as follows:

Service type	Imports in the four quarters to the end of Q4 2024	Percentage of total services imports	Change from the four quarters to the end of Q4 2023
Other Business Services	£5.3 billion	54.2%	a decrease of 0.8%
Travel	£1.4 billion	14.5%	an increase of 14.9%
Intellectual property	£845 million	8.6%	a decrease of 0.9%
Transportation	£703 million	7.2%	an increase of 21.6%
Financial	£562 million	5.7%	an increase of 5.4%

The chart below shows the top 5 service types exported from the UK to Switzerland and the top 5 service types imported to the UK from Switzerland, by value, in the four quarters to the end of Q4 2024. All data shown in the chart are provided in the text above.

<sup>14</sup>Trade in services by service type is sourced from data by the ONS: [UK trade in services by partner country \(non-seasonally adjusted\)](#).

<sup>15</sup>Data are classified on the [EBOPS 2010](#) basis. 'Other business services' include: Research and development, professional and management consulting services, technical services and trade related services. A full description of all service types can be found on the [UN Statistics Division website](#).

<sup>16</sup>Service type data may be unavailable for some quarters, due to the suppression of figures for the confidentiality of individual traders.

<sup>17</sup>Where data suppressions prevent a comparison between the current and previous four quarters, the above tables will state "Unavailable due to suppressed data" in the comparison column.

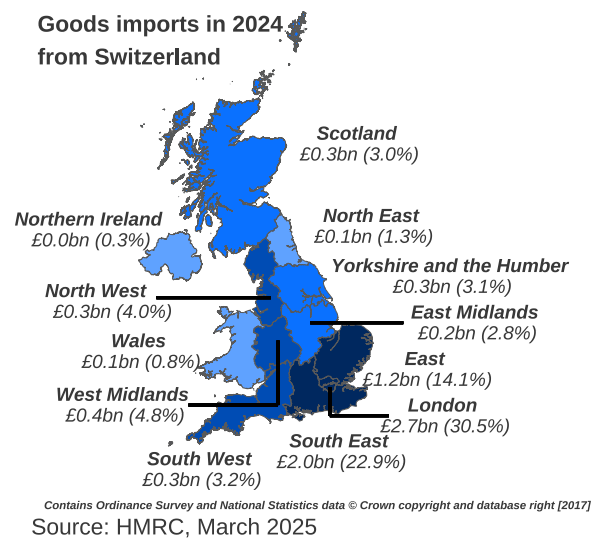

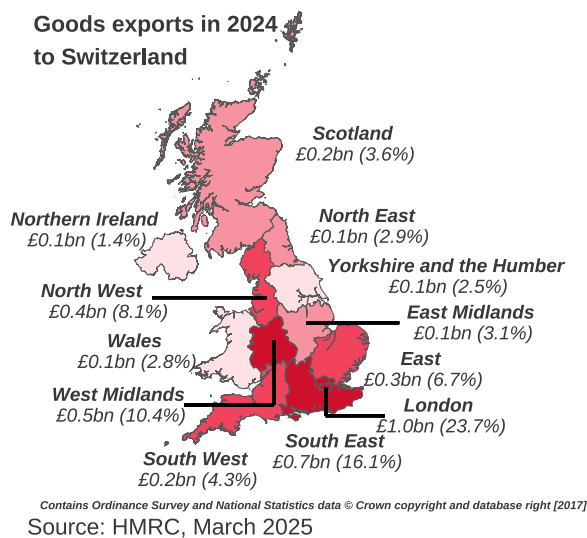

# Trade in goods by UK countries and English regions, in current prices (HMRC)<sup>18</sup>

19

## Regional trade definitions

- **UK regions** - The UK is categorised into 12 regions based on the International Territorial level 1 (ITL1). This level includes 9 regions in England, as well as Wales, Scotland and Northern Ireland.
- **Regional trade data** - The data are compiled by merging HM Revenues & Customs (HMRC) trade data with employment data from the Interdepartmental Business Register (IDBR) so a business' trade can be allocated to a UK region based on the proportion of its employees employed in that region. Where a trader is not matched with the IDBR, its trade is matched with ONS postcode data to obtain the UK region in which the Head Office of the VAT-registered business is based.

The maps below show the value of UK goods exports and imports between each UK region and Switzerland in 2024. The maps are shaded with the 3 UK regions with the highest amount of trade as the darkest colour, and the 3 UK regions with the lowest amount of trade as the lightest colour.

The data that are presented in the maps above for 2024 in £ billion are also given in the table below:

UK country or English region	Exports to Switzerland					Imports from Switzerland						
	North East	North West	Yorkshire and the Humber	East Midlands	West Midlands	East	London	South East	South West	Wales	Scotland	Northern Ireland
Value of goods exports to Switzerland	0.1	0.4	0.1	0.1	0.5	0.3	1.0	0.7	0.2	0.1	0.2	0.1
Percentage of total goods exports to Switzerland	2.9%	8.1%	2.5%	3.1%	10.4%	6.7%	23.7%	16.1%	4.3%	2.8%	3.6%	1.4%
Value of goods imports from Switzerland	0.1	0.3	0.3	0.2	0.4	1.2	2.7	2.0	0.3	0.1	0.3	0.0
Percentage of total goods imports from Switzerland	1.3%	4.0%	3.1%	2.8%	4.8%	14.1%	30.5%	22.9%	3.2%	0.8%	3.0%	0.3%

Note that these figures from HMRC are reported on a physical movement basis and are **not directly comparable** to trade data from ONS which are reported on a change of ownership basis. **Percentages will not total 100%** as data not allocated to a single UK country or English region are not presented.

<sup>18</sup> HMRC data source for regional UK trade data: [HMRC Regional Trade Statistics](#) (data extracted from the spreadsheet download using the HMRC interactive tables).

<sup>19</sup> Totals presented here will differ from overall HMRC trade figures due to the exclusion of trade in non-monetary gold and non-response estimates and the exclusion of data not allocated to a UK country or region. Figures for 2024 are provisional and subject to change.

## Trade in services by mode of supply, in current prices (ONS)<sup>20 21</sup>

### Trade in Services by Mode of Supply definitions

- **Modes of Supply** define the way services trade is conducted. The World Trade Organisation's [General Agreement on Services](#) categorises methods for trade in services into four different modes of supply, which depend upon on the territorial presence of the supplier and the consumer at the time of transaction.
- **Mode 1** - Remote trade (a supplier in one country sells a service to a customer in another, without the movement of people).
- **Mode 2** - Consumption abroad (the person receiving the service travels to the supplier's country).
- **Mode 3** - Commercial presence (e.g. a company subsidiary) - this mode is not counted as part of UK services trade on a balance of payments basis and is not reported in this release. This means that total figures are only the total of Modes 1, 2 and 4.
- **Mode 4** - Presence of natural persons (a supplier sends its personnel to the customer's country to provide service).

### UK services exports to Switzerland by mode of supply in 2022:

- £11.7 billion of services exports to Switzerland were delivered by Mode 1 (77.6%).
- £1.9 billion of services exports were delivered by Mode 2 (12.3%).
- £1.5 billion of services exports were delivered by Mode 4 (10%).

### UK services imports from Switzerland by mode of supply in 2022:

- £5.2 billion of services imports from Switzerland were delivered by Mode 1 (70.9%).
- £1.2 billion of services imports were delivered by Mode 2 (15.8%).
- £978 million of services imports were delivered by Mode 4 (13.3%).

Proportion of total trade flows of services with Switzerland by Modes 1, 2, & 4 in 2022 (%)

Source: ONS, 2022

<sup>20</sup>ONS data source for UK Trade in Services by Mode of Supply: [ONS Imports and exports of services by country, by modes of supply, UK](#)

<sup>21</sup>Data included in this ONS release are experimental estimates.

## UK Market Share (ONS and UNCTAD)<sup>22 23</sup>

### Market Share definitions

- **UK market share** – Imports from the UK as a percentage of all the goods and services imported by Switzerland. Market share is provided for total imports from the UK, as well as for goods and services separately.
- **Market share methodology** – These UK market share statistics are derived by the Department for Business and Trade, using publicly available data from the Office of National Statistics (ONS) and the United Nations Conference on Trade and Development (UNCTAD). These new statistics allows users to estimate the importance of UK trade on imports to each trading partner. Market share is calculated as the value of imports from the UK using data from [ONS](#), divided by the value of total imports using data from [UNCTAD](#). Data from UNCTAD are converted from US dollars into pounds sterling by using the annual average spot exchange rate<sup>24</sup>.

The UK's market share for Switzerland<sup>25</sup> in 2023 was as follows:

- **The total UK market share in Switzerland was 6.7% in 2023 for goods and services.** This is a decrease of 1.3 percentage points from 2022.
- The UK market share in Switzerland was 4.4% in 2023 for **goods only**. This is a decrease of 2.0 percentage points from 2022.
- The UK market share in Switzerland was 11.1% in 2023 for **services only**. This is a decrease of 0.4 percentage points from 2022.

The table below presents the UK's market share for Switzerland between 2014 and 2023. Values presented in italics are based on UNCTAD estimates of imports.

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
Total goods and services	7.1%	7.6%	7.1%	6.4%	7.0%	6.9%	7.4%	6.7%	8.0%	6.7%
Goods only	4.1%	5.0%	4.5%	3.4%	3.5%	4.7%	5.4%	4.4%	6.4%	4.4%
Services only	13.6%	12.8%	12.7%	12.0%	13.7%	11.1%	11.6%	11.2%	11.6%	11.1%

<sup>22</sup>ONS data source for market share: [UK total trade data \(seasonally adjusted\)](#).

<sup>23</sup>UNCTAD data source for market share: [Goods and Services \(BPM6\): Exports and imports of goods and services, annual](#). Some UNCTAD data may be based on estimates.

<sup>24</sup>Annual average spot exchange rates for \$USD to £GBP are sourced from the [Bank of England](#)

<sup>25</sup>UNCTAD data reported by Switzerland also includes Liechtenstein figures. As such, Liechtenstein has no UNCTAD figures reported.

## Number of VAT-registered businesses trading goods (HMRC)<sup>26 27 28</sup>

### Business counts definition (Regional Trade in Goods Statistics)

- Business counts report UK VAT-registered business exporting and importing goods. Data is collected primarily from customs declarations (using the Intrastat survey and VAT returns for Northern Ireland businesses trading with the EU).
- Counts exclude businesses trading below the statistical value thresholds for customs declarations and exclude trade in non-monetary gold.

### Businesses trading with Switzerland in 2024:

- In 2024, around 14,000 UK VAT-registered businesses exported goods to Switzerland.
- In 2024, around 9,300 UK VAT-registered businesses imported goods from Switzerland.

### Businesses trading with the world in 2024:

- In 2024, around 122,000 UK VAT-registered businesses exported goods to the world.
- In 2024, around 256,400 UK VAT-registered businesses imported goods from the world.

<sup>26</sup>HMRC data source for Regional Trade Statistics business counts data: [UK trade in goods statistics](#).

<sup>27</sup>Data for UK businesses engaged in trade of services with Switzerland are not available. A single business may trade with multiple trading partners abroad, so care should be taken when adding figures for multiple trading partners.

<sup>28</sup>HMRC does not receive partner country information for customs declarations with commodity line values that fall under the statistical value threshold of £873 (in value) and 1,000kg (in net mass). Therefore, these counts of exporting/importing businesses only capture those businesses with exports/imports (respectively) above the statistical value threshold. The number of businesses has been rounded to the nearest 100.

## Trade in Value Added (OECD)<sup>29 30</sup>

### Trade in Value Added definitions

- **Trade in Value Added (TiVA)** - TiVA is a statistical approach to examine supply chains, which is not possible with conventional ('gross') trade statistics. This is because TiVA treats international trade flows as flows of value added rather than gross flows of final goods and services.
- **Domestic and foreign value added** - In TiVA, gross exports are decomposed into domestic and foreign value added. Domestic value added measures the value added generated by the domestic economy in the production of its exports (e.g. the value added by UK car manufacturers and their UK supply chains in car exports). Foreign value added measures the value added contribution that foreign suppliers make to these exports (e.g. the import of foreign car parts).
- **TiVA statistics** - Although TiVA offers advantages over traditional ways of measuring trade, these statistics are not fully developed. These results are estimates which should be considered complementary to conventional trade statistics and not be over-interpreted. In addition, the geographical detail is limited for developing countries. More information on TiVA can be found in a recent [research report](#) by the Department for Business and Trade and Cambridge Econometrics.
- **UK forward linkages for exports** - Measures the reliance of foreign exporters on UK value added (inputs).
- **UK backward linkages for exports** - Measures the reliance of UK exporters on foreign value added (inputs).
- **Employment supported by exports** - This provides an estimate of the number of employees in exporting industries, and their domestic supply chains that are supported by exporting activity.

### UK forward linkages for exports:

- **In 2020, 1.2% of the total value added in gross exports from Switzerland originated in the UK.**
- In 2020, 22.2% of the value added content in gross exports from Switzerland reflected foreign imports from abroad. The largest sources of foreign value added for gross exports from Switzerland were Germany (4.1%), United States (2.5%), and China (1.7%).

### UK backward linkages for exports:

- **In 2020, 0.2% of the total value added in gross exports from the UK originated in Switzerland.**
- In 2020, 14.3% of the value added content in gross exports from the UK reflected foreign imports from abroad. The largest sources of foreign value added for gross exports from the UK were United States (2.4%), Germany (1.5%), and China (1.2%).

### Employment supported by exports:<sup>31</sup>

- Exporting activity in Switzerland supported 1.6 million persons in 2020 (31.3% of total Switzerland employment). Exports to the UK supported around 36,000 jobs in Switzerland in 2020.
- Exporting activity in the UK supported 6.7 million persons in 2020 (20.6% of total UK employment). Exports to Switzerland supported around 151,500 jobs in the UK in 2020.

<sup>29</sup>The estimates in this factsheet are based on Trade in Value Added statistics published by the Organisation for Economic Co-operation and Development (OECD): a) [Trade in Value Added database \(origin of value added in gross exports\), June 2024](#); and b) [Trade in employment \(TIM\) database, February 2024](#), indicators EXGR\_DEM.

<sup>30</sup>The data shown in this factsheet is from 2020.

<sup>31</sup>These estimates measure employees directly and indirectly supported by exports i.e. workers employed in exporting businesses and in other domestic businesses supplying inputs to the exporting businesses. The estimates should be interpreted as employment *supported* by exports, rather than employment *created* by exports, as the jobs may have previously existed to serve the domestic market. Employees may also be supported by exports from a multiple number of trading partners. As with the core TiVA data, these estimates are based on a number of assumptions and modelling, so should be interpreted with caution.

## Foreign Direct Investment with Switzerland (ONS)<sup>32 33 34</sup>

### Foreign direct investment definitions

- **Foreign direct investment (FDI)** - Investment made by a firm or individual in one economy ('direct investor') to acquire a 'lasting interest' in an enterprise operating in another economy. The lasting interest is deemed to exist if the direct investor acquires at least 10% of equity, or equivalently 10% of the voting rights, of the company.
- **FDI stock** - The accumulated value of all previous investments at the end of a reference period. Figures are net, that is the value of investment minus disinvestment. **UK outward FDI stock** provides the total value of FDI by UK investors in economies abroad (investment of a UK parent company in Switzerland), while **UK inward FDI stock** provides the total value of FDI by non-UK investors in the UK (investment of a Switzerland parent company in the UK).
- **Data disclosure** - It can happen that FDI is coming from only a few investors. In that case, figures are suppressed by the ONS to avoid disclosure of information relating to individual enterprises.

*Note: The FDI data for 2020 have been affected by changes in sampling methodology. Improvements have been made to the population which has been sampled and the way that businesses are sampled from the population, capturing a wider range of businesses. This means data from 2020 and onward are more representative of UK FDI with overseas partners and are comparable.*

More information about the methodology changes can be found on the [ONS website](#).

#### UK outward FDI stock:

- In 2023, the **stock of FDI from the UK in Switzerland** was £46.6 billion, 11.1% or £5.8 billion lower than in 2022. In 2023, Switzerland accounted for 2.5% of the total UK outward FDI stock.
- In 2023, the total UK FDI abroad was £1.9 trillion. In 2023, the **top destination for UK FDI** was United States, accounting for 26.7% of the total UK outward FDI stock, followed by Netherlands (14.8%) and Luxembourg (7.6%).

#### UK inward FDI stock:

- In 2023, the **stock of FDI from Switzerland in the UK** was £61.8 billion, 0.1% or £49 million lower than in 2022. In 2023, Switzerland accounted for 3.0% of the total UK inward FDI stock.
- In 2023, the total FDI in the UK in was £2.1 trillion. In 2023, the **top investor in the UK** was United States, accounting for 34.1% of the total UK inward FDI stock, followed by Luxembourg (9.1%) and Jersey (7.9%).

<sup>32</sup> ONS data source for FDI statistics: [Foreign Direct Investment involving UK companies](#).

<sup>33</sup> Data are presented on a directional basis which means they are not directly comparable to the asset/liability report prepared by ONS as part of the Balance of Payments statistical release. Figures are on net basis (investments minus disinvestments) and are given in nominal terms. Negative FDI values occur when disinvestments are greater than investments. Data are on an immediate destination/source basis and not an ultimate destination/source, which is likely to overstate financial centres such as the Netherlands and Luxembourg.

<sup>34</sup> This factsheet contains data as reported by the UK and are subject to asymmetries e.g. UK outward FDI to Switzerland (reported by the UK) may not match Switzerland inward FDI from the UK (reported by Switzerland). For consistency when comparing between partners, users are advised to use UK-reported data as far as possible.

The chart below shows FDI between the UK and Switzerland between 2014 and 2023:

Source: ONS, 2023 FDI main release. Data are on a directional basis, data suppression can cause breaks in the trends.

The data that are presented in the charts above are given in the table below in £ billion:

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
UK outward FDI stock	14.6	18.0	23.2	55.2	45.9	54.2	86.8	50.9	52.4	46.6
UK inward FDI stock	39.1	39.1	43.9	64.7	62.9	82.7	84.1	81.5	61.9	61.8

## Economic statistics (as reported by Switzerland)

### Trade and investment data for Switzerland (UNCTAD)<sup>35 36 37</sup>

The following data are reported by Switzerland and are for reference only. Whenever possible use data from UK sources for trade and investment. All data below are presented in \$USD in billions.

**Note:** UNCTAD data reported by Switzerland also includes Liechtenstein figures. As such, Liechtenstein has no UNCTAD figures reported.

Year	2016	2017	2018	2019	2020	2021	2022	2023
Nominal exports	453.7	457.3	485.2	478.5	474.0	578.9	628.6	657.8
Nominal imports	391.2	399.4	414.1	413.3	429.5	481.3	516.4	556.8
Nominal trade balance	62.5	57.9	71.1	65.1	44.5	97.7	112.2	101.1
Inward FDI stock	992.1	1,125.7	1,075.6	1,098.6	1,181.0	1,100.4	1,038.0	1,136.8
Outward FDI stock	1,174.8	1,265.5	1,375.2	1,382.7	1,540.1	1,473.9	1,316.3	1,473.0

<sup>35</sup>United Nations Conference on Trade and Development (UNCTAD) data sources for trade: [Goods and Services \(BPM6\): Exports and imports of goods and services, annual](#); and for investment: [Foreign direct investment: Inward and outward flows and stock, annual](#).

<sup>36</sup>Estimates are given in italics. Historic data pre-2016 can be found on the [UNCTAD website](#).

<sup>37</sup>All trade data are on a Balance of Payments basis. The FDI data are on a directional and net (investment minus disinvestment) basis. These figures are given in current prices and are rounded to the nearest \$0.1 billion, with missing data represented by dashes.

## Economic data and projections for Switzerland (IMF)<sup>38 39</sup>

The following table presents economic statistics for Switzerland. Projections include assumptions of the effects of COVID-19 and may be subject to change in the future. Estimated data, as well as projections up to 2030, are presented in italics and are subject to revision.

Year	2022	2023	2024	2025	2026	2027	2028	2029	2030
Change in exports (%)	6.4	0.8	-0.3	2.9	3.9	3.5	4.3	3.4	4.3
Change in imports (%)	5.7	2.8	0.1	3.5	4.1	4.0	4.0	4.0	4.0
Current account balance (% of GDP)	8.7	5.2	5.1	5.0	5.2	5.0	5.0	5.0	5.0
Change in real GDP (%)	3.1	0.7	1.3	0.9	1.6	1.2	1.8	1.2	1.8
GDP per capita (1,000 \$USD)	94.8	101.5	104.5	<i>104.9</i>	<i>108.9</i>	<i>112.4</i>	<i>116.5</i>	<i>119.9</i>	<i>124.3</i>
GDP PPP (Int'l \$billion)	786.0	820.3	850.8	<i>881.1</i>	<i>914.8</i>	<i>942.9</i>	<i>979.8</i>	<i>1,009.8</i>	<i>1,047.2</i>
Inflation, year average (CPI %)	2.8	2.1	1.1	0.2	0.5	0.7	0.7	0.7	0.7
Unemployment rate (% of total labour force)	2.2	2.0	2.4	2.8	2.8	2.7	2.7	2.7	2.7
Population (million)	8.7	8.8	9.0	9.0	9.1	9.2	9.2	9.3	9.4
Total investment (% of GDP)	24.8	25.9	26.8	25.6	25.9	26.2	26.3	26.6	26.8
Gross national savings (% of GDP)	33.6	31.2	31.9	30.6	31.2	31.3	31.4	31.6	31.8
General government net lending/borrowing (% of GDP)	1.2	0.1	0.6	0.3	0.2	0.2	0.2	0.1	0.1
General government gross debt (% of GDP)	37.2	38.7	37.6	36.9	36.0	35.1	34.0	33.3	32.4

Switzerland was the 20<sup>th</sup> largest economy in 2024, in terms of gross domestic product (GDP). The UK was the 6<sup>th</sup> largest economy in 2024.<sup>40</sup>

<sup>38</sup>International Monetary Fund (IMF) provide economic commentary in their [World Economic Outlook reports](#). The latest data presented here can be found in the [World Economic Database, April 2025](#).

<sup>39</sup>Projections and estimates are given in italics. More information for each metric and each partner, as well as historic data pre-2022, can be found on the [IMF website](#).

<sup>40</sup>GDP ranking based on values in current prices (nominal terms) in \$USD. Some GDP values for partners are based on estimates which may influence the rankings when revised.

## Top goods traded with the world by Switzerland, in current prices (UN Comtrade)<sup>41 42</sup>

Data presented here show the top commodities traded with the world, not solely the UK, by Switzerland. These data are based on a different commodity classification system to the ONS commodity data used earlier in this factsheet, and the two sections should therefore not be directly compared.

### Top goods exported to the world by Switzerland in 2024:

Rank	HS Commodity	\$USD billion	% of total goods exported
1	71 - Precious stones and metals	136.5	30.6%
2	30 - Pharmaceutical products	110.4	24.7%
3	29 - Organic chemicals	47.2	10.6%
4	91 - Clocks and watches and parts thereof	29.5	6.6%
5	84 - Machinery and mechanical appliances	25.3	5.7%
6	90 - Optical, photographic, cinematographic and medical equipment	20.0	4.5%
7	85 - Electrical machinery and equipment	15.1	3.4%
8	39 - Plastics and articles thereof	5.9	1.3%
9	27 - Mineral fuels or oils, products of their distillation	5.3	1.2%
10	33 - Essential oils and resinoids; perfumery	4.2	1.0%
	<b>All goods exported</b>	<b>446.3</b>	<b>100.0%</b>

### Top goods imported from the world by Switzerland in 2024:

Rank	HS Commodity	\$USD billion	% of total goods imported
1	71 - Precious stones and metals	123.4	33.4%
2	30 - Pharmaceutical products	67.8	18.4%
3	84 - Machinery and mechanical appliances	22.5	6.1%
4	87 - Vehicles other than railway or tramway stock	19.1	5.2%
5	85 - Electrical machinery and equipment	17.2	4.7%
6	27 - Mineral fuels or oils, products of their distillation	11.1	3.0%
7	90 - Optical, photographic, cinematographic and medical equipment	9.8	2.7%
8	29 - Organic chemicals	8.1	2.2%
9	39 - Plastics and articles thereof	7.6	2.1%
10	94 - Furniture; bedding, mattresses, cushions	5.1	1.4%
	<b>All goods imported</b>	<b>369.0</b>	<b>100.0%</b>

<sup>41</sup>United Nations (UN) Comtrade data are sourced from the online [UN Comtrade Database](#). The data reported above are for 2024, but as the data upload to UN Comtrade is continuous, more timely data may be available from the source.

<sup>42</sup>Data are classified using the [Harmonized System](#) and are given on a physical movement basis, with UK data comparable to HMRC data sources rather than the headline trade figures presented here from ONS.

## Top services traded with the world by Switzerland, in current prices (ITC Trade Map)<sup>43 44 45</sup>

Data presented here shows the top service types traded to the world, not solely the UK, by Switzerland.

### Top services exported to the world by Switzerland in 2022:

Rank	EBOPS Service Type	\$USD billion	% of total services exported
1	Charges for the use of intellectual property n.i.e.	30.1	20.3%
2	Financial services	24.8	16.7%
3	Transport	21.5	14.5%
4	Travel	16.3	11.0%
5	Telecommunications, computer, and information services	14.8	9.9%
	<b>All services exported</b>	<b>148.5</b>	<b>100.0%</b>

### Top services imported from the world by Switzerland in 2022:

Rank	EBOPS Service Type	\$USD billion	% of total services imported
1	Charges for the use of intellectual property n.i.e.	30.0	19.0%
2	Transport	18.0	11.4%
3	Telecommunications, computer, and information services	17.2	10.9%
4	Travel	16.7	10.6%
5	Financial services	4.2	2.7%
	<b>All services imported</b>	<b>158.0</b>	<b>100.0%</b>

<sup>43</sup>International Trade Centre (ITC) Trade Map data are sourced from the online [ITC Trade Map tool](#). The data above are for 2022, but as the data upload to ITC is continuous, more timely data may be available from the source.

<sup>44</sup>Data are classified on the [EBOPS 2010](#) basis. 'Other business services' include: Research and development, professional and management consulting services, technical services and trade related services. A full description of all service types can be found on the [UN Statistics Division website](#).

<sup>45</sup>Estimates are shown in italics, where for some partners only estimates are available - These data have been included for information and should be treated with caution.

## Background Notes

This document is one of a wider set of factsheets between the UK and its individual trade and investment partners which can be found on the [Trade and Investment Factsheets website](#). All of these factsheets are published as [Official Statistics](#) as defined by the [UK Statistics Authority](#).

Our statistical practice is regulated by the Office for Statistics Regulation (OSR). OSR sets the standards of trustworthiness, quality and value in the [Code of Practice for Statistics](#) that all producers of official statistics should adhere to. You are welcome to contact us directly with any comments about how we meet these standards. Alternatively, you can contact OSR by emailing [regulation@statistics.gov.uk](mailto:regulation@statistics.gov.uk) or via the OSR website.

The publication of these factsheets as Official Statistics was agreed by the Chief Statistician at the Department for Business and Trade, who monitors these factsheets to ensure they continue to adhere to the [Code of Practice for Statistics](#). These factsheets have not been formally assessed by the [Office of Statistics Regulation](#) and are therefore not designated as [Accredited Official Statistics](#).

As a requisite of publishing as Official Statistics, a [quality and methodology report](#) has been produced which outlines the quality of these factsheets, as well as providing more information on the methodology of the data sources presented here. This report contains hyperlinks to information on the strengths and weaknesses for each data source. Statistics contained in the factsheets from UK data providers all come from Official Statistics publications, with some sources also being from National Statistics publications.

Future updates of these factsheets can be found on the [Government update schedule for Official Statistics](#). These scheduled updates are in line with significant updates from UK data providers when they release new data. Unscheduled releases of the factsheets may also be necessary to accommodate data updates where little or no advanced notice are given, such as in the case of international data updates. Please see the data update schedule and revisions policy in the [quality and methodology report](#) for more information. Please note that there may be occasions where more recent data than is provided here can be found directly from the data providers.

The Department for Business and Trade welcome any feedback or comments on these factsheets, please send these to [statistics@businessandtrade.gov.uk](mailto:statistics@businessandtrade.gov.uk).
