COVID-19 RESPONSE - SPRING 2021

Data Annex

22 February 2021

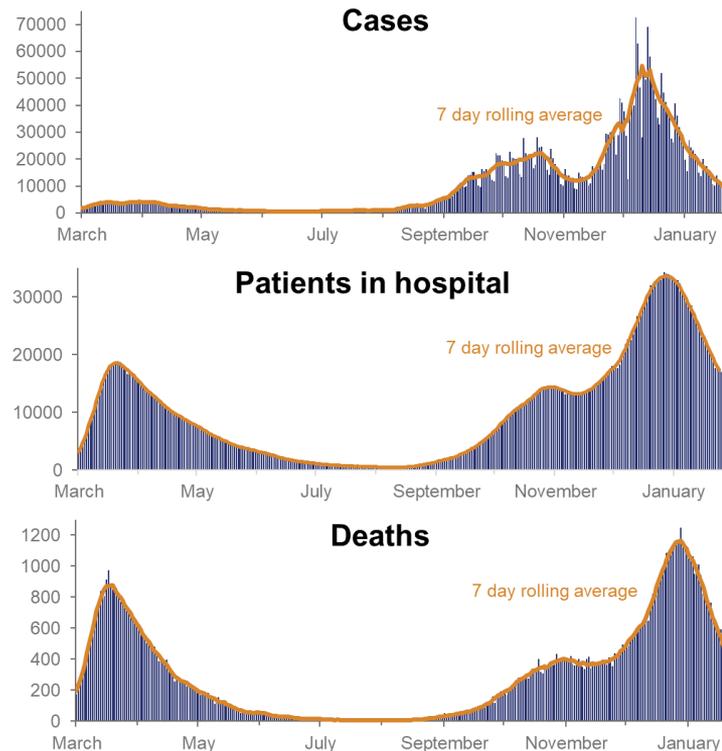

Cabinet Office

Charts from COVID-19 RESPONSE - SPRING 2021

Contents - Charts from COVID-19 RESPONSE - SPRING 2021 publication

	Page
England: Cases by specimen date, patients in hospital and deaths within 28 days of positive test by date of death	4
Impact on GDP	5
Impact on unemployment	6
UK: Adult depression and anxiety levels compared to pre-pandemic averages	7
Proportion (%) of population vaccinated in comparator countries	8
The number of people who have received a vaccination for COVID-19 in the UK	9
Illustration of potential vaccine coverage across the population (assuming full take-up by those eligible)	10

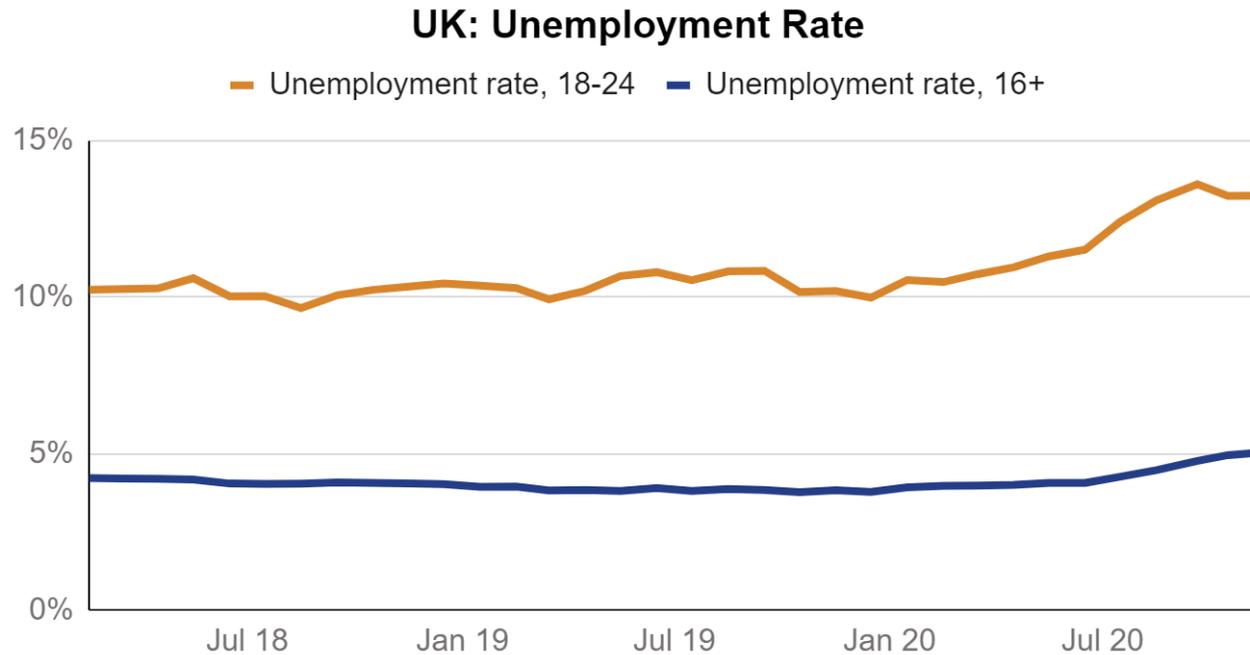

Source: Coronavirus.data.gov.uk Daily Update at: <https://coronavirus.data.gov.uk/>

7-day averages calculated using England cases by specimen date, patients in hospital and deaths within 28 days by date of death data

Caveat: Testing capacity has increased since the first peak which has had a large effect on the number of cases recorded. This also has an impact on the data on deaths and to a lesser extent patients in hospital.

Cumulative number of COVID-19 Vaccinations Administered in the UK by Date Reported

Source: <https://coronavirus.data.gov.uk/details/vaccinations>

Illustration of potential vaccine coverage across the population (assuming full uptake)

- Those who are vaccinated but may not be protected
- Those who are vaccinated and may be protected
- Those who are ineligible for a vaccine

Source: Adapted from 210217 SPI-M-O summary of modelling on roadmap scenarios. Illustration of potential vaccine coverage. Figure demonstrates a steady state of vaccine effectiveness, once vaccines are fully rolled out. This is not a projection and assumes 100% uptake by those eligible (i.e. no hesitancy). Assumes 84% vaccine efficacy against severe disease. Assumes that vaccine efficacy in SPI-M-O summary is equivalent to real-world vaccine effectiveness. "Ineligible" group is mostly those under 18 years of age.

ADDITIONAL DATA ANNEX

Contents supporting thematic data

	Page
ONS prevalence estimates of people testing positive for COVID-19 (England only) January through to mid February	15
ONS estimates of the proportion of people testing positive for COVID-19 antibodies (England only), 28 days to to 1 February	16
ONS prevalence estimates of Kent (B117) variant compared to wild type since emergence	17
Latest R number estimates for England	18
NHS admissions and occupancy between peaks	19
Weekly COVID-19 Incidents recorded in care homes	20
Deaths and vaccinations in care homes	21
GB: Mental wellbeing scores compared to pre-pandemic levels	22
UK: Mobility by setting	23
UK: Mean number of social contacts over time by age group	24
UK: Mobility in retail and recreation locations across lockdowns	25
London underground usage compared across lockdowns	26

Contents supporting thematic data

	Page
Weekly count of fixed penalty notices issued by Police in England to individuals	27
GB: Percentage of workers who travelled to work in the last 7 days	28
GB: Percentage of adults that have used a face covering when outside their home in the past seven days	29
GB: Percentage of adults avoiding physical contact when outside their home in the past seven days	30
UK output - GDP	31
UK output - impacts across sectors	32
Business sector activity and trading status	33
UK Labour market support - employees	34
UK Labour market support schemes	35
UK Labour market support schemes (sectors)	36
Unemployment disproportionate impacts (ethnicity)	37
Disproportionate impacts (income levels)	38
Unemployment (nations and regions)	39

Contents supporting thematic data

	Page
Waves 1 and 2 mortality by ethnic group for men	40
Waves 1 and 2 mortality by ethnic group for women	41
COVID-19 mortality rate by deprivation	42
Access to healthcare for long term health conditions in Great Britain by disability status, 24 September to 4 October 2020	43
Education impacts	44
Percentage of pupils who are at or above age related learning expectations: Autumn 2019, Summer 2020 and Autumn 2020	45
Total first doses administered by region	46
Vaccine uptake by ethnic group	47 and 48

1. Data provided by Care Quality Commission.
2. Figures are for deaths CQC are notified of on the days specified. Figures only include deaths that were notified by 12 Feb 2021, and may be an underestimate due to notification delays.
3. Figures are for persons who were resident in a care home.

England: Percentage of residents and staff of older adult care homes vaccinated (first dose) by region

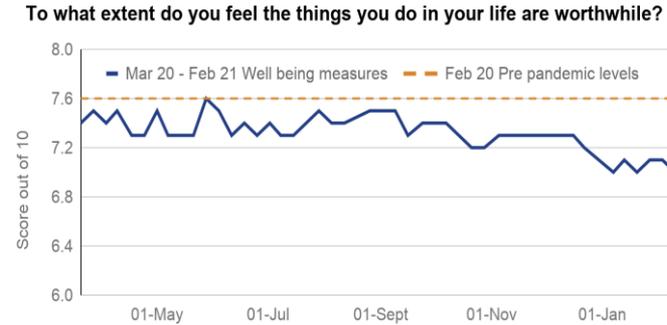

Source: COVID-19 weekly announced vaccinations 18 February 2021, Vaccinations by Care Homes, NHS Statistics,

<https://www.england.nhs.uk/statistics/statistical-work-areas/covid-19-vaccinations/>

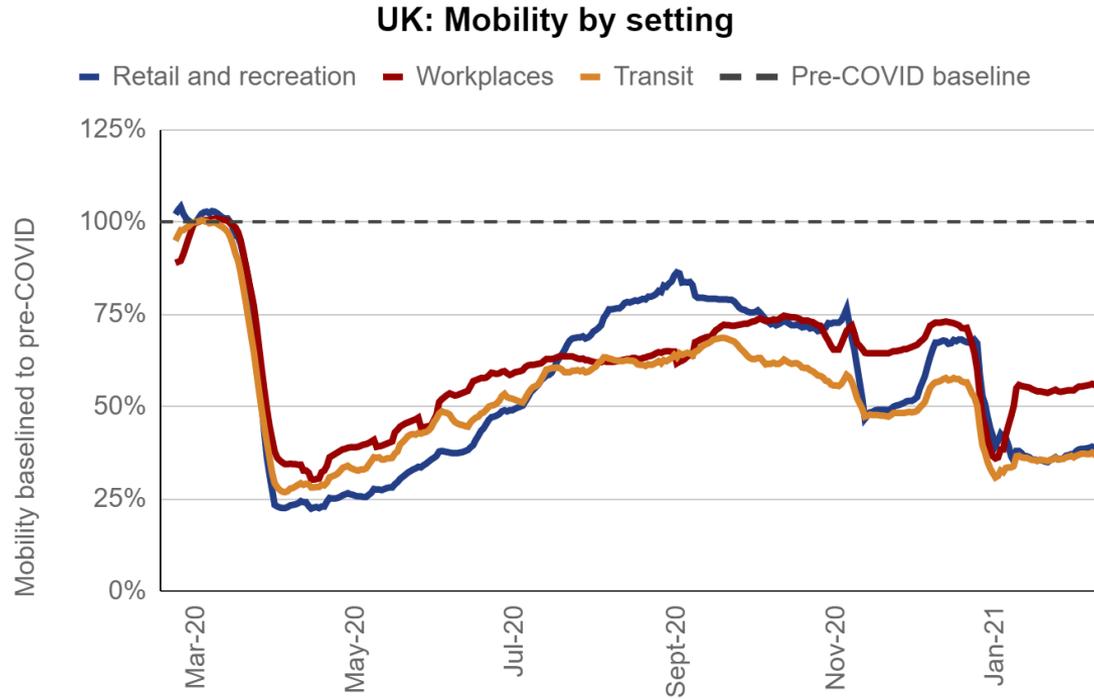

1. Data covers the period from the 8th December 2020 to the 14th February 2021 (11:59pm)
2. Percentage calculated from the total number of **eligible** residents and staff: this is the total number of residents and staff in care homes serving older people excluding those who have tested positive for COVID-19 in the last 28 days and cannot currently be vaccinated, and excluding a small number living in care homes which currently are not serving older people.

GB: Mental wellbeing scores compared to pre-pandemic levels

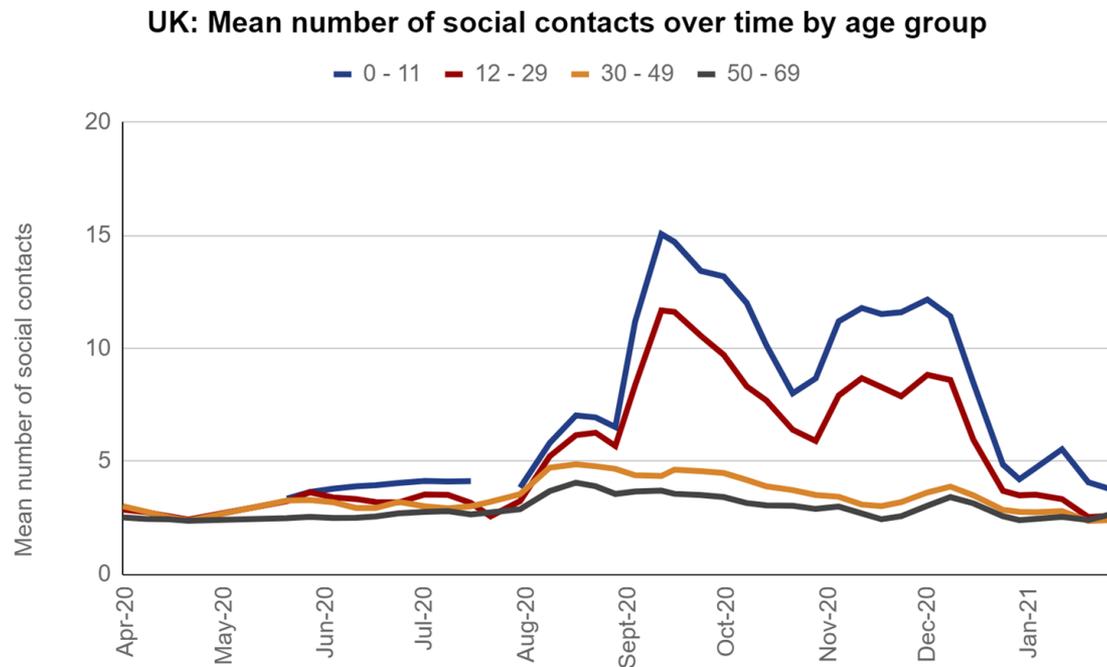

1. These questions are answered on a scale of 0 to 10, where 0 is “not at all” and 10 is “completely”.
