

## Details for Enforcement Notice No. 03/21

Notice Type            Enforcement

Operator                Repsol Sinopec Resources UK Limited

Address                163 Holburn St  
Aberdeen  
AB10 6BZ

Details                 Clyde Offshore Installation

On 18 January 2021 at the Clyde offshore installation, 1,102kg of crude oil (960,000mg/L oil in produced water) was discharged to the Flyndre Produced Water Caisson, in contravention of regulation 3(1) of the Regulations and in breach of condition 4.1 of the Oil Discharge Permit for the installation. The discharge occurred from the Flyndre produced water system due to a loss of interface level control as a result of sand accumulation.

Legislation            Regulation 13(1) of The Offshore Petroleum Activities (Oil Pollution Prevention and Contr

Issue Date            15/02/2021
