

STATISTICS ON FOOTBALL-RELATED ARRESTS & BANNING ORDERS

SEASON 2010-11

FOOTBALL-RELATED ARRESTS AND BANNING ORDERS SEASON 2010-11

Statistical Highlights

Total attendance in excess of 37 million at regulated football matches. The total number of arrests represents less than 0.01% of all spectators, or 1 arrest for every 12,249 spectators.

During 2010-11 season the total number of people arrested in connection with all international and domestic football (“regulated”) matches involving teams from, or representing, England and Wales was 3,089. This represents a decrease of 9%, or 302 arrests, on 2009-10 totals. The downwards trend in football-related arrests is continuing, but there is no complacency.

This covers all arrests designated in law under schedule 1 of the Football Spectators Act 1989 (as amended) reported by police to the Football Banning Orders Authority. This includes football specific offences (e.g. throwing missiles in a stadium, pitch encroachment) and a wide range of generic criminal offences committed in connection with a football match. This covers such arrests at any place within a period of 24 hours either side of a match.

During the season an average of less than 1 (0.97) arrest made per match (inside and outside of stadia).

No arrests at 71% of all matches. Two arrests or less were made at 86% of matches.

51% of all matches were police free – continuing to free up police resources to deal with local police and community priorities.

More than 60,000 English and Welsh club fans travelled to Champions League and Europa League matches outside of England and Wales. These 40 matches resulted in just 14 arrests of away fans.

No football-related arrests of England or Wales supporters at overseas matches.

The number of football banning orders remained steady, decreasing slightly to 3,173 on 29th November 2011 from 3,248 on 19th November 2009. This represents 962 new banning orders imposed during the period (1,025 orders were imposed during the previous reporting period). Orders are time limited and expiring all the time.

Banning orders work – around 92% of individuals whose orders have expired since 2000 are assessed by police as no longer posing a risk of football disorder.

STATISTICS ON FOOTBALL-RELATED ARRESTS & BANNING ORDERS 2010-11 SEASON

During the football season police Football Intelligence Officers submit a range of data, including arrest information, to the Football Banning Orders Authority (FBOA). FBOA also administer all football banning orders. Home Office collate and publish football-related arrest and banning order data annually.
