Laba sadar ayaa soo baxaya. Hal xariiq midab leh waa inuu ku yaallaa qaybta xariiqda kontoroolka (C), iyo xariiq kale oo midab leh waa inay ku jirtaa gobolka khadadka baaritaanka (T). Laba xariiqin, mid ku xiga C iyo mid ku xiga T, xitaa khadadka suuxsan, ayaa muujinaya in baaritaanku yahay mid togan oo wax laga helay.

Muhiim ah

Haddii lagaa helo waa inaad isgooni yeeshaa, qoyskaagu waa inuu raaco tilmaamaha dawladda ee ku saabsan isgooni yeynta:

Sidaa darteed xitaa haddii natijadaadu tahay mid taban ama aan waxba ka jirin, waxaad hubin doontaa in maclummaadka NHS ay sax yihiin.

Haddii dhibaatadu sii jirto

Haddii dhibaatadu sii jirto, jooji isticmaalka xirmooyinka baaritaanka markiiba.
