- Payment options

Anaesthetics  
Clinical Support Services

## Private care

**At Liverpool Women's we understand the importance of having the flexibility to make the right healthcare choice which is why we offer both NHS funded and private care. Our range of private gynaecology and cosmetic procedures are carried out in [The Catharine Suite](#) by some of the finest surgeons in the country. Together with our dedicated team, we make sure you receive quality care every step of the way.**

### Comprehensive care

Being conveniently located within Liverpool Women's Crown Street hospital means we have all the necessary support and facilities close to hand under one roof. And in the event of the need for more complex post-operative care, high dependency facilities are adjacent to The Catharine Suite.

### Care to benefit you and others

All the revenue generated through the private patient work carried out in The Catharine Suite is put back into developing services throughout the Trust - a very important factor that we believe makes us different to other private healthcare providers.

### Testimonial

"Staff were helpful, kind, caring and attentive. Nothing was too much for them. Internet, phone and TV access was just what I needed. Also liked open visiting times. My husband was made to feel very welcome by staff."
