

Consultant 28

5 February 2014

Dear Sir / Madam,

I am a Consultant Cardiologist working at various hospitals and I am [X]. I have practicing privileges with HCA International and have decided to partner with HCA because of their continued investment in research and development of clinical services.

There is a clear differentiation between the resource and attitude towards research amongst the private providers in the Greater Manchester area, HCA have been very supportive of Clinical Research and Service Development and from my experience it can be said categorically that HCA are the leading private provider in this arena.
