# 1. Call Context

The 2014 to 2020 European Structural and Investment Funds (ESIF) bring the European Regional Development Fund (ERDF), European Social Fund (ESF) and part of the European Agricultural Fund for Rural Development (EAFRD) together into a single European Union (EU) Structural Investment Funds (ESIF) Growth Programme for England supporting the key growth priorities of innovation, research and development, support for Small and Medium Enterprises (SME), low carbon, skills, employment, and social inclusion.

European Structural and Investment Funds are managed by the Department for Communities and Government (ERDF), Department for Work and Pensions (ESF) and the Department for Environment Food and Rural Affairs (EAFRD). In London, the Greater London Authority acts as an Intermediate Body for the European Regional Development Fund and European Social Fund programmes. Unless stated otherwise, the term “Managing Authority” will apply to all these organisations. These Departments are the Managing Authorities for each Fund. The Managing Authorities work closely with local partners who provide:

- Practical advice and information to the Managing Authorities to assist in the preparation of local plans that contribute towards Operational Programme priorities and targets;
- Local intelligence to the Managing Authorities in the development of project calls (decided by the Managing Authorities) that reflect Operational Programme and local development needs as well as match funding opportunities;
- Advice on local economic growth conditions and opportunities within the context of Operational Programmes and the local ESIF Strategy to aid the Managing Authority’s assessments at outline and full application stage.

This call is issued by the Department for Work and Pensions (DWP) to commission ESF Funded projects that will support the **Priority Axis 2 of the Operational Programme: Skills for Growth** and **Investment Priority: 2.2 Improving the labour market relevance of education and training systems** as set out in the ESF Operational Programme.

All applications will need to be eligible under the European Social Fund Operational Programme for England 2014 to 2020. The [ESF Operational Programme](#) is available for applicants to read.

This call for proposals sets out the requirements for any applicants to consider before applying. Applications against this call will be assessed as part of a two stage appraisal process and successful applicants will enter into a funding agreement with the DWP. Further information is given in sections 4 to 10.

Applicants are advised to familiarise themselves with the detail of the Operational Programme, local European Structural and Investment Funds Strategy and the relevant documentation listed in sections 5 through to 8 **prior to** submitting an Outline Application.

All ESF applicants will need to be aware of the requirement to collect and report data on all participants as per Annex 1 of the ESF regulation (see Appendix A). This will be in addition to the requirement to report on the output and result indicators referred to in section 3 of the call for proposal.

## 1.1 National Context

This priority axis aims to support skills for growth. It will support activities through:

**Investment Priority 2.2** - Improving the labour market relevance of education and training systems, facilitating the transition from education to work, and strengthening vocational education and training systems and their quality, including through mechanisms for skills anticipation, adaptation of curricula and the establishment and development of work based learning systems, including dual learning systems and apprenticeship schemes

ESF will not fund activity that duplicates or cuts across national policy on grants and loans for tuition for skills activities. Exemptions to this principle will be considered only where a local specific need and/or market failure has been demonstrated and where the activity falls within the scope of the Operational Programme.

Full details of what can and cannot be supported under this Investment Priority are set out in the Operational Programme. Details of the specific objectives have been reproduced below.

Specific Objective	Results that the Member States seek to achieve with Union support
To promote improvements in the labour market relevance of skills provision through active engagement with relevant institutions and employers, particularly SMEs and Micro businesses.	The additional support from this investment priority will enable the design of skills provision which will help individuals gain skills and qualifications relevant to the needs of the labour market

## 1.2 Local Development Need

Projects must deliver activity which directly contributes to the objectives of Priority Axis 2, Investment Priority 2.2 of the Operational Programme, and which meets the **local development need** expressed in the text and table below.

## **Local Economic Context:**

### **The Cornwall and Isles of Scilly business and skills base**

There are 21,105 VAT registered enterprises in Cornwall and the Isles of Scilly (C&IoS). When incorporating those enterprises that fall beneath the VAT registration level, there are an estimated 65,000 businesses in C&IoS. These SMEs and micros are key drivers of the local economy as they make up 98.9% of the total number of businesses.

The area has the lowest levels of productivity of any area in the country (ONS). GDP is £16,900 per annum per capita: this figure is 72% of the EU average and 65% of the UK average.

In addition nearly 75,000 of the workforce in C&IoS are not yet qualified to Level 2, the National skills benchmark level. Skills at both lower and higher levels need substantial development to address these gaps and to ensure that companies have the ability to grow. The implication is more significant for Cornwall alone, as the Isles of Scilly have a higher level of skills in their workforce, but suffer from under-utilisation of those skills, due to the lack of economic opportunity on the Islands.

Please Note: The original evidence base can be found at <http://bit.ly/1qrgQt8>. This published document was used as the basis for the C&IoS Employment and Skills Strategy, for the C&IoS EUSIF Strategy and the C&IoS ITI Board Strategy. It is currently under review but will not be available until the end of May 2016.

A new approach to the co-ordination of employer led skills and training needs is required to increase engagement and delivery. The approach that will be taken in C&IoS is to establish an Employer Led Programme of activity (utilising Priority Axis 2 of the 2014-2020 ESF Operational Programme) to directly engage employers to identify and address their skills needs. This approach will be co-ordinated and supported, via this Call, through a Skills Access Hub. This Employer led Programme approach to 'business, careers and skills' will enable local employers to be more involved in designing, delivering and enhancing skills for their workforce. This Programme will align the provision of education, skills and training to the needs of employers, sectors and the economy.

## **Local Priorities:**

### **Linkages to the C&IoS Growth Hub**

Feedback from C&IoS businesses during the EU SIF and Strategic Economic Plan consultation shows that the current business support landscape was confused. There were too many different schemes available, each with their own targets, marketing and promotion. The situation reflects the national business support picture. A recent consultation conducted in 2013 by the Department of Business,

Innovation and Skills entitled 'Small Business: Great Ambition' has resulted in a nationwide drive to simplify, rationalise and integrate Government initiatives and local business support programmes through a Growth Hub model across all LEP areas.

This Call should, as a minimum, be closely aligned to the C&IoS Growth Hub.

In addition any applicant should be mindful of EAFRD, ERDF other ESF calls as well as mainstream provision.

### **Skills Access Hub – Infrastructure, Communications and Management**

**Although previous projects and programmes have supported skills development in C&IoS, access by employers, especially SMEs, has been fragmented.**

In order to implement an effective skills support infrastructure within CloS, the Managing Authority aims to deliver related activities under a single, coordinated, strategic framework and has identified the development of a bespoke local Skills Access Hub as a central pillar of its Employer Led Programme.

The Skills Access Hub will ensure a clear path for employers in C&IoS to help them access support through the provision of:

- Assistance with the identification of skills need and routes to the development of qualifications
- Brokerage service providing information and direct support to employers on how to access skills, and qualification support / provision
- Provision and promotion of a focus for employer skills contact and support
- Support to access existing business sector groupings
- Support to develop/participate in other relevant business collaborations
- Provide support to develop specific research either through this project or to influence other research that is being carried out to include a skills element
- Align with the C&IoS Growth Hub, in particular
  - o receiving/providing referrals
  - o contribution to, and use of, the Growth Hub CRM
  - o open and regular communication with the C&IoS Growth Hub provider
- Provide a coordination function for other ESF Priority Axis 2.2 employer led activity
- Provide a focus on businesses not already engaged in skills development
- Ensure linkages between the Growth Hub and the national apprenticeship agenda

Note: The service must be able to demonstrate how it will overcome logistical and financial challenges in order to deliver high quality opportunities for businesses on the Isles of Scilly.

Note: applicants must describe in their application the governance arrangements they would put in place for the Skills Access Hub and explain how they would work with C&IoS employers and the C&IoS Growth Hub to ensure their involvement.

Suggested elements of this work should include, as a minimum -

- **Brokerage** – this element of the project should seek to help employers to understand their training needs through delivery of a Training Needs Analysis (TNA) and steer them into relevant provision. For example, business clusters, geographical or sector grouping, business network collaborations, forums, other training and skills provision. The outputs of this activity should include ensuring individual employees gain skills and qualifications relevant to the labour market through for example, traineeships, work experience, work placements and graduate placements. This should also include embedding an SME employer-focused approach to apprenticeships as a key element of the skills access hub.
- **Innovation Fund** – this element of the project should seek to develop and operate a small fund to undertake research and respond to skills needs. The function of this component would be to make skills more accessible and relevant to both employers and providers, removing as much unnecessary administration as possible
- **Sustainability** – this element of the project should seek to provide a toolkit to assist the various collaborations identified above
- **Communication** – this element of the project should seek to create awareness with employers in C&IoS of the employer led programme.

The Skills Access Hub will have a clear target of becoming sustainable following the end of the Programme.

## Strategic Fit

This activity has the following strategic fit with the C&IoS EUSIF Strategy:

Growth for Business

**Investment area 3:** Building business capacity and helping them to reach their growth potential

**Investment area 4:** Select and provide intensive support to businesses that have the best growth potential and opportunity to increase productivity for Cornwall and the Isles of Scilly

**Investment area 5:** Growth through innovation

**Investment area 6:** Increase access to local, national and international markets.

**Investment area 7:** Progression through the labour market

Applicants are invited to exceed the cross cutting theme requirements outlined in the ESF Operational Programme by referencing the Inclusion and Environmental Growth strategies of Cornwall and the Isles of Scilly:

<http://inclusioncornwall.co.uk/strategy/>

<https://www.cornwall.gov.uk/environment-and-planning/cornwall-and-isles-of-scilly-local-nature-partnership/cornwall-s-environmental-growth-strategy-public-consultation/>

**Details of the local ESIF Strategy can be found at:**

Click here to access the Cornwall and Isles of Scilly [European Structural and Investment Fund \(ESIF\) Strategy](#).

### 1.3 Scope of activity

This call invites Outline Applications which support the delivery of Priority Axis 2, **Investment Priority 2.2 Improving the labour market relevance of education and training systems** of the European Social Fund Operational Programme and responds to the local development need set out in the Cornwall and Isles of Scilly Local Enterprise Partnership Area European Structural and Investment Funds Strategy.

This call aims to address the identified shortfalls listed in section 1.2 Local Development Need above.

## 2. Call Requirements

All applications are competitive.

<b>Indicative Fund Allocation:</b>	Indicatively, through this call the Managing Authority expects to allocate approximately <b>£1,560,000 ESF</b> .  The Managing Authority reserves the right to decrease or increase the indicative allocation, or support more or fewer projects subject to the volume and quality of proposals received.
------------------------------------	---

<b>Minimum application level</b>	European Social Fund investment is intended to make a significant impact on local growth. Applications are expected to demonstrate appropriate scale and impact. The Managing Authority does not intend to allocate less than <b>£400,000 of European Social Funding to any single project</b> . It is anticipated that one provider will be selected
<b>Duration of project approvals</b>	Projects should be for a maximum of three years; however the Managing Authority reserves the right to vary the maximum duration in exceptional circumstances.
<b>Geographical Scope</b>	All interventions should be focused on activity within the Cornwall and Isles of Scilly Local Enterprise Partnership area.
<b>Specific call requirements</b>	This is a call for ESF activity.  It is expected that this call will align with the Growth Hub.
<b>Call Deadlines</b>	For this specific call, applications will be assessed following closure of the call. Applications received after the published call close date will not be considered.
<b>Application selection</b>	All applications will be scored in line with the ESF scoring criteria, but the MA reserve the right to invite projects to full application stage where they complement other activity or provide niche activity to target groups within the OP.
<b>Applicant proposals</b>	These can only contain activities which are eligible for ESF.
<b>Eligible match funding</b>	Applicants will need to have eligible match funding for the balance of costs, which must be from a source other than the European Union. For all outline applications proof of match funding will need to be supplied as part of the assessment.  C&IoS Local Enterprise Partnership (LEP) can provide funding of up to £100,000 which can contribute towards match funding for this project. For more information applicants should contact the LEP directly and should be aware there are likely to be separate conditions attached to this match, which will be in addition to those required by the ESF MA.
<b>Operational completion</b>	Operations must be completed no later than 1 December 2019
<b>Procurement</b>	All procurement must be undertaken in line with EU regulations.

<b>State Aid law</b>	Applicants must demonstrate compliance with State Aid law.
<b>Audit/ Compliance</b>	All expenditure and activities will be subject to rigorous audit and non-compliance may lead to financial penalty.

ESF cannot be used to duplicate existing activities or activities that do not address market failure. ESF can only be used to achieve additional activity or bring forward activity more quickly. Applicants must be able to demonstrate that proposals are additional to activity that would have occurred anyway or enables activity to be brought forward and delivered more quickly than otherwise would be the case in response to opportunity or demand.

### 3. Deliverables required under this Call:

Applications will be expected to achieve the minimum indicative level of Programme Deliverables by contributing to the following Investment Priority. The definitions of which can be accessed at the [ESF Operational Programme](#).

<b>Investment Priority</b>	<b>2.2 Improving the labour market relevance of education and training systems</b>
<b>Specific Objectives</b>	To promote improvements in the labour market relevance of skills provision through active engagement with relevant institutions and employers, particularly SMEs and micro businesses.
<b>Indicative Actions</b>	<p>ESF will not support activities that duplicate or replace existing support within national programmes, but may be used to support additional activities, including provision co-designed with local partners.</p> <p>Examples of activities that may be supported include:</p> <ul style="list-style-type: none"> <li>• support for collaborative projects, placements, internships or other activities with SMEs that enable students and graduates to gain industry-relevant experience and skills;</li> <li>• building capacity in SMEs to provide project/placement/ internship opportunities and enhance the contribution of advanced skills to SME growth, including programmes to specifically engage the most disadvantaged groups or those who face particular local disadvantages in utilising advanced skills;</li> <li>• brokering opportunities to encourage and increase work experience, work placements, traineeships, apprenticeships, and graduate placements particularly through wider employer engagement and involving supply chains;</li> <li>• promoting apprenticeships (especially at advanced levels in manufacturing and other priority sectors) by developing a</li> </ul>

	supportive environment for employer engagement; <ul style="list-style-type: none"> <li>• developing better links with business to equip students with the skills to start and grow a business to meet local business needs.</li> </ul>
--	--

<b>ID</b>	<b>Result Indicator</b>	<b>Target value for this call</b>
R9	Small and Medium Enterprises successfully completing projects (which increase employer engagement; and/or the number of people progressing into or within skills provision)	75%

<b>ID</b>	<b>Output Indicator</b>	<b>Target value for this call</b>
CO23	Number of supported micro, Small and Medium-sized Enterprises (including cooperative enterprises, enterprises of the social economy)	155

Applicants will be required to demonstrate how they will achieve the deliverables within their proposal along with any methodology that will be used to record achievement. Applicants will also need to ensure robust systems are in place, and be able to describe them, to capture and record the targets and to report quantitative and qualitative performance across the C&IoS LEP area. All operations will be required to collect data and report progress against the deliverables with each claim. Where an operation underperforms against their deliverables they may be subject to a performance penalty.

There must be a fully evidenced audit trail for all contracted deliverables.

## 4. General Information

Essential information to support the drafting of an application and delivery of a successful ESF funded project is available at the [European Growth Funding](#) website pages.

### 4.1 Compliance and Eligibility

When developing an application, Applicants should refer to [guidance](#) on eligible Applicants, activities and costs. These are for guidance only and Applicants should take their own specialist advice if in doubt. It is the responsibility of the Applicant to ensure that the rules and guidance are adhered to both at application stage and following approval.

ESIFs are governed by European regulations and national rules. Applicants are advised to familiarise themselves with the relevant documentation listed in the 'key documents' section prior to submitting an Outline application. If successful, Applicants will enter into the standard Funding Agreement and must abide by the standard terms and conditions contained therein. Applicants are therefore strongly advised to read these terms and conditions to ensure that they would be able to enter into such an agreement prior to responding to the call. Once a Funding Agreement has been issued it should be signed and returned within a short timescale.

### 4.2 Intervention Rate & Match Funding

ESF is funding used where no other funding can be obtained (the funder of last resort) and the maximum ESF intervention rate for the operation is 80%. This means ESF can contribute up to 80% of the total eligible project costs, subject to State Aid regulations. The remaining 20% or more must come from other eligible sources. For all outline applications proof of match funding will need to be supplied as part of the assessment.

It is anticipated that an investment will be made in a **single** proposal to deliver this activity. C&IoS Local Enterprise Partnership (LEP) can provide funding of up to £100k which can contribute towards match funding for this project. For more information applicants should contact the LEP directly and should be aware there are likely to be separate conditions attached to this match, which will be in addition to those required by the ESF MA.

Any remaining match funding will need to be identified by the applicant.

ESF is not paid in advance and expenditure must be defrayed prior to the submission of any claims. Applicants may be asked to demonstrate how they are able to cash flow the operation.

### **4.3 Applicants**

Applicants must be legally constituted at the point of signing a Funding Agreement, and be able to enter into a legally binding Funding Agreement. The Applicant will be the organisation that, if the application is successful, enters into a contract for ESF and therefore carries the liability for ensuring that the terms of the ESF Funding Agreement are met by them and to all delivery partners. If there is more than one organisation applying for the funds, a lead organisation must be selected to become the Applicant. It is this organisation that carries the responsibility and liability for carrying out a compliant project.

The Managing Authority will consider the Applicant's track record, both positive and negative. If the Applicant has been involved in the delivery of previous European grants and any irregularities with this (these) grant(s) have been identified, the Managing Authority will look into these and expect to see how and what steps have been taken to ensure that these have been addressed to mitigate the risk of further irregularities in the future. It is acknowledged that some organisations will be new to ESIF funding and will not have a track record.

### **4.4 Cross Cutting Themes**

All applications received under this Call should demonstrate how the Cross Cutting Themes have been addressed in the project design and development. Cross cutting themes for ESF are 'gender equality and equal opportunities' and 'sustainable development'.

For ESF, the project applicants will be required to deliver their services in-line with the Public Sector Equality Duty (as defined in the Equality Act 2010). All projects must have a gender and equal opportunities policy and implementation plan which will be submitted at full application stage and in-line with Managing Authority guidance. Project applicants will also be required to answer a number of ESF-specific equality questions which will be set out in both the full application form and the related guidance.

For ESF, all projects will also be required to submit a sustainable development policy and implementation plan (in-line with guidance produced by the Managing Authority).

The ESF programme particularly welcomes projects that have an environmental focus that can meet the strategic fit at local and programme level whilst also adding value by:

- supporting environmental sustainability; and/ or
- complementing the environmental thematic objectives of other programmes such as ERDF; and/or

- using the environment as a resource to help motivate disadvantaged people

Further information is available in the [ESF Operational Programme](#).

#### **4.5 State Aid & Revenue Generation**

Applicants are required, in the Outline Application, to provide a view on how their proposal complies with State Aid law. Applicants must ensure that projects comply with the law on State Aid.<sup>1</sup> Grant funding to any economic undertaking which is state aid can only be awarded if it is compatible aid, in that it complies with the terms of a notified scheme or is covered by the De Minimis Regulation. Guidance for grant recipients, explaining more about State Aid, is available; it is important that Applicants take responsibility for understanding the importance of the State Aid rules and securing their full compliance with them throughout the project, if it is selected into the Programme.

The Managing Authority is not able to give legal advice on State Aid. It is the responsibility of the Applicant to ensure that the operation is State Aid compliant.

Where the Applicant does not perceive that there is any State Aid, it should state whether or not it considers Articles 61 and 65(8) of regulation 1303/2013 to apply. This revenue should be taken into account in calculating eligible expenditure. Article 61 refers to monitoring revenues generated after completion of the project, and Article 65(8) how to deal with differences in the forecast and actual revenues at the end of the operation. The details of this will be tested at the full application stage.

#### **4.6 Funding Agreement**

The Funding Agreement is a standard, non-negotiable and legally binding document. Any successful Applicant will be subject to the terms and conditions contained within this agreement. Applicants are strongly advised to seek their own advice to ensure that they would be able to enter into and abide by the terms of the Funding Agreement.

Failure to meet any of the conditions of the agreement or the commitments within the application will result in claw back of funding.

Applicants should be aware that additional provisions and securities may be included within the Funding Agreement to protect the investment. These will be further discussed if relevant following the Full Application stage.

#### **4.7 Procurement**

All costs delivered by the Grant Recipient (the applicant) and/or delivery partners must be delivered on an actual cost basis. Other costs must be procured in line with

---

Article 107(1) of the Treaty on the Functioning of the European Union provides that: "Save as otherwise provided in the Treaties, any aid granted by a Member State or through state resources in any form whatsoever which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods shall, in so far as it affects trade between Member States, be incompatible with the internal market."

EU regulations. The most common error identified during audit has been failure to comply with relevant procurement regulations and crucially to maintain a full audit trail to prove that they have complied with the relevant regulation. Robust and transparent procurement is required to ensure that Grant Recipients:

- consider value for money;
- maximise efficient use of public money; and
- maintain competitiveness and fairness across the European Union.

It is recommended that applicants seek their own legal advice pertaining to their procurement and requirements to publicise any tendering opportunities.

The Managing Authority is not able to give legal advice on procurement. It is the responsibility of the applicant to ensure the project is compliant in this respect.

#### **4.8 Retrospection**

There will be no retrospection for applications made against this call, other than in line with the general policy on retrospection which allows costs to be potentially eligible between outline and full application stage, but only where the full application is approved.

## **5. Application Process & Prioritisation Methodology**

There are two stages to the ESF application process; Outline Application and if successful, Full Application. Applicants must fully complete the Outline Application Form (section 9 refers). Guidance is available on the [European Growth Funding](#) website pages. Acceptance of an Outline Application to progress to full application stage does not in any way indicate or constitute an offer of European Social Fund grant. Applications will be subject to a Gateway Assessment undertaken by the Managing Authority under the following criteria:

- Applicant eligibility;
- Activity and expenditure eligibility; and
- The fit with the ESF OP and the call.

Proposals that pass the Gateway Assessment will move into the Core Assessment which consists of the following:

- Strategic fit;
- Value for money;
- Management & control;
- Deliverability;
- Procurement / tendering; and

- State Aid compliance.

The Managing Authority will seek advice from partners when considering applications to ensure its assessment is informed by local economic growth conditions and opportunities within the context of Operational Programmes and the local ESIF Strategy. This will include the relevant LEP Area ESIF Committee and other partners deemed relevant to the application.

The assessment and any prioritisation will be undertaken using only the information supplied as part of the application process. The Managing Authority cannot accept further detail outside this process.

Non-public sector Applicants who are successful at the Outline Application stage may be subject to due financial diligence checks by the Managing Authority, prior to submission of a Full Application. Applicants will be required to submit accounts, and to clarify financial or other organisational information. New Applicant organisations may be required to provide details of a guarantor.

## 6. Support

Please note that this is a competitive call and to preserve impartiality we are unable to enter into correspondence with applicants over their Outline application. Details of where guidance can be found are contained throughout this calls document. In exceptional circumstances, if there are issues with accessing this guidance, please contact:

✉: [ESF.2014-2020@dwp.gsi.gov.uk](mailto:ESF.2014-2020@dwp.gsi.gov.uk)

The C&IoS ITI Support Team (Technical Assistance) is able to provide organisations with support on applying to the European Social Fund. The team can be contacted at: Gareth Beer - [gareth.beer@cornwalldevelopmentcompany.co.uk](mailto:gareth.beer@cornwalldevelopmentcompany.co.uk) - 01872 324905

## 7. Key Documents

- Outline Application Form;
- Outline Application Form Guidance;
- LEP area's ESIF strategy; and
- National ESF Eligibility Rules.

## 8. Document Checklist

Failure to provide the following documentation will result in the application being rejected

Outline Stage:

- fully completed Outline Application;
- financial tables;

- Outputs, Results and Indicators tables; and
- three years financial accounts (if private or voluntary and community sector).

## 9. Document Submission

Completed Outline Applications must be submitted to

✉: [2014-2020.ESFAPPLICATIONS@DWP.GSI.GOV.UK](mailto:2014-2020.ESFAPPLICATIONS@DWP.GSI.GOV.UK)

## 10. Timescales

Launch of Call advertised on gov.uk.	25/04/2016
Deadline for submission of Outline Application	20/06/2016

Outline Application forms not received by the deadline will not be assessed. Outline Applications which are not fully completed will be excluded.

For this call applications will normally be required to **commence delivery/activity within three months** of the award of contract.

Any changes related to the deadline for the submission of the Outline Application form will be notified on the [European Growth Funding](#) website pages.

## 11. Appendix A – Common output indicators

### Appendix A - extract from Annex 1 of the ESF regulation

Common output indicators for ESF investments

Common output indicators for entities are:

number of projects fully or partially implemented by social partners or non-governmental organisations
number of projects dedicated at sustainable participation and progress of women in employment
number of projects targeting public administrations or public services at national, regional or local level
number of supported micro, Small and Medium-sized Enterprises (including cooperative enterprises, enterprises of the social economy)
