**If the respondent has not had sex in the last 12 months i.e. after probing, the responses to B2 is zero, skip to B24**

I would like to ask about your 3 most recent sexual partners *in the past 12 months*, including your current partner, if you currently have one. By this, I mean the partner you have had sexual intercourse with most recently, the partner you most recently had intercourse with before that, etc…All the information that you give me is completely confidential, neither your partner nor anybody else will see this information. Remember that you have the right not to answer any question, if you are not comfortable doing so. Could you please give me names or initials of each of your 3 most recent partners? This can be a nickname or a fictitious name and does not have to be their real name. It is just needed so I can refer to each of them when I am asking you questions.
