Africa Community Access Programme (AFCAP)

Supporting rural transport engineering research capacity

Project Report
Mozambique Research Sites

Manica

Inhambane

Before

Zambezia

After
Kenya Research Sites
Training Workshops and Site Training
Study Tours
Other Projects

- Review of Design Standards for Low Volume Roads (Malawi)
- Improved District Roads Maintenance Systems (Tanzania)
- Developing a Condition Monitoring Index for unpaved roads (Mozambique)
- Using Roadworks to Enhance Community Water Supplies (Mozambique)
- Study to Review Surface Dressing Practice (Ethiopia)
- Production and Dissemination of a booklet on Child Mobility issues (Ghana and Malawi)
- Two MSc Bursary students (Tanzania).
Adoption of New Standards and Approaches

- Design Manual and Bidding Documents for Low Volume Roads (Ethiopia)
- Draft Specifications and Work Norms for Low Volume Sealed Roads (Mozambique).
In country research capacity + Government Support + Sustainable national funding → National Research Programme for Roads and Road Transport
First AFCAP Practitioners Conference

Presenters:--
keep it short and to the point

Participants:--
don’t miss a opportunity

Make sure you enjoy yourself!
