

Training Programme Introduction

The First Year RT2 Training Programme was supply-led while the Training Programme of the Second Year (SEACAP 11) is a Demand-led on Rural Road Maintenance in 43 Provinces.

The **Objective** of SEACAP 11 Training Programme is to strengthen and develop sustainable knowledge, skills and awareness of staff on Rural Road Maintenance in rural area, especially in Communes.

The Training Programmes consist of the following:

- 1 02 PDOT TOT workshops on Modular Training for the 2nd Year for 43 provinces/Cities (W Courses) which can be conducted in Hanoi and HCMC.
- 2 43 Training courses for District trainers (S3 courses) which will be conducted in provincial centers.
- 3 Demand-led courses (D1-D5 courses) for Commune transport staff which will be conducted in district centers.

Training Programmes are competence-based and modular-constructed.

Main training **material** and **support facilities** are:

- Maintenance Hand book
- Training modules
- Training kits: Training film, Photos, technical drawings

Main training **methods** essentially are based on self-learning/study of the participants through their material reading, discussion, exercises and field practical works under the facilitation of the trainers and supported by training kits.

Course **assessment** will be carried out by participants after each module and by trainers after course completion.

Course **Certificate** will be awarded by the Project.
