

District:	Outlet code:
<i>For area supervisor use</i>	

Total number of medicines - items, rows filled (fill in after completing whole survey form)	
PART 2	
PART 3	

ANSWER ALL QUESTIONS – IF NO RESPONSE STATE “not applicable” ...or “no response obtained” ...or another reason

1	Date:						
2	District						
3	County						
4	Sub-county						
5	Parish						
6	Town/village						
7	Outlet name						
8a	Is the outlet from one of the sampled parishes or the district capital?	YES			NO		
8b	GPS location identification number: FILL ALL BOXES	North					
		East					
9	Type of outlet (code - see table at bottom of this page)						

10	NOTES						
----	-------	--	--	--	--	--	--

Parts 1,2,3 4 of the data collection form are completed and correct – UNIT price calculations checked

11	Data collector names and signatures:	
	1	2

12	Verification (forms checked including UNIT price calculations)	
	Name	
	Signed:	Date:

Coding for question 9	
<i>Public sector:</i>	
1	<i>Public health facility</i>
2	<i>Community-directed distributors</i>
<i>Private sector</i>	
3	<i>Retail pharmacies (licensed by NDA within last 3 years)</i>
4	<i>Drug shops (licensed by NDA within last 3 years)</i>
5	<i>Private clinics/dispensing doctors</i>
6	<i>Retail stores and general provisions stores, kiosks (fixed structures)</i>
7	<i>Market stalls/mobile hawkers and other informal distribution points (temporary structures/mobile)</i>
<i>Not-for profit sector</i>	
8	<i>NGO/mission health facilities</i>

13 (OPTIONAL)	Name of owner/manager of the facility:	
------------------	--	--

14	Background of owner/ manager: the items listed to the right should not be read out, they are for the data collector to use to code the response; although prompts can be made to assist the person being interviewed) <u>Tick one</u>	Pharmacist	
		Pharmacy technician	
		Doctor	
		Clinical officer/medical assistant	
		Nurse	
		Nursing assistant (trained)	
		Other health	
		other (Specify)	

15 (OPTIONAL)	Name of person(s) who provided information on medicine prices and availability	
------------------	--	--

16	Background of the person providing the information? the items listed to the right should not be read out, they are for the data collector to use to code the response; although prompts can be made to assist the person being interviewed) <u>Tick one</u>	Pharmacist	
		Pharmacy technician	
		Doctor	
		Clinical officer/medical assistant	
		Nurse	
		Nursing assistant (trained)	
		Other health	
		other (Specify)	

17	Describe main items for sale in outlet: (for the private sector outlets) the items listed to the right should not be read out, they are for the data collector to use to code the response; although prompts can be made to assist the person being interviewed) <u>Tick as applicable</u>	Medicines	
		Food	
		Soft drinks	
		Toiletries	
		Household goods	
		Alcoholic drinks	
		Mobile phone airtime	
		Newspapers	
		Cosmetics	
		Cigarettes	
Other (specify)			

18	Do you sell medicines to others to re-sell (e.g. to other outlets, vendors)	YES	NO
----	---	-----	----

19 (OPTIONAL)	Where does the outlet/facility buy/obtain its anti-malarial medicines from? (name and place of top 3)	Write name and/or tick the type of outlet that source is			
		Name	Wholesaler	Pharmacy	other

20	How do you the manager/ owner/ in-charge decide <u>which type</u> of anti-malarial medicines <u>to stock</u> ? the items listed to the right should not be read out, they are for the data collector to use to code the response; although prompts can be made to assist the person being interviewed) <u>Tick as applicable</u>	Medicines recommended by Ministry of Health	
		Customer demand	
		Most profitable	
		Recommended by local health professional	
		Special purchase terms offered	
		Lowest priced	
		Drug company/rep influence	
		Influence of the pricing of same therapeutic group	
		Location of pharmacy and type(wealth) of customer	
		Country of origin of product	
		Season disease patterns	
		Other (state)	

21	If more than one anti-malarial is stocked, how do the staff in the outlet decide <u>which to sell /dispense</u> ? <u>Tick as applicable</u>	Recommended by Ministry of Health	
		Customer demand	
		Most profitable	
		Personal preference of staff member	
		Recommended by local health professional	
		Special purchase terms offered	
		Lowest priced	
		Appearance of the patient	
		Fast moving brand	
		Patient awareness/perceptions of drug quality and preference for some brands/countries of origin	
		Patient perception that if price too low, that must be poor quality	
		Time of the day, week, month	
		Short shelf life	
		Drug company/rep influence	
other (state)			

22	Approximately how many people bought an anti-malarial medicine <u>yesterday</u> ? - e.g. 1, 5, 10, 20, 50, >50	
----	---	--

23	Out of patients/customers you served yesterday, how many would you say do not buy a full course of anti-malarial medicine e.g. 1,2,3,5,6,10	
----	---	--

24	Approximately how many people bought an anti-malarial medicine in the <u>last week</u> - e.g. 1, 5, 10, 20, 50, >50	
----	--	--

25	If the patient does not have enough money for the full course of anti-malarial treatment, what do you do? the items listed to the right should not be read out, they are for the data collector to use to code the response; although prompts can be made to assist the person being interviewed) <u>Tick as applicable</u>	Sell as many tablets as have money for	
		Give credit	
		Offer cheaper alternative	
		Refuse to sell	
		Refer elsewhere	
		other (state)	

26 [OBSERVATION]	Were the anti-malarial medicines on open display? (vs. hidden out of sight) <u>Tick one</u>	All types	Some types	None
---------------------	---	-----------	------------	------

27	What are your sources of information about anti-malarial medicines? the items listed to the right should not be read out, they are for the data collector to use to code the response; although prompts can be made to assist the person being interviewed) <u>Tick as applicable</u>	Own knowledge	
		Box/leaflet with medicine	
		Drug company information	
		Ministry of Health guideline	
		Medical reference book	
		Workshops, seminars, CME	
		Media (print, radio, TV)	
		other (state)	

28	Are antibiotics used to treat malaria?	YES	NO
----	--	-----	----

29	Is co-trimoxazole used to treat malaria?	YES	NO
----	--	-----	----

30	How do customers/patients ask for medicines for malaria? <u>Tick one</u>	by something for malaria/ fever	
		by a specific medicine name	

31 True=1, False=0 [ASSESSMENT]	Adequate storage conditions and handling of medicines - checklist - for the outlet and the area where the medicines are stored	Sales/dispensing and storage area [A]
	1. <u>There is a method in place to control temperature</u> (e.g. roof and ceiling with space between them in hot climates). (1=there is a method)	
	2. <u>There are windows that can be opened or there are air vents.</u> (1=there are windows)	
	3. <u>No direct sunlight can enter the area where the medicines are stores</u> (1= no sunlight)	
	4. <u>Area is free from moisture (e.g. leaking ceiling, roof, drains, taps)</u> (1=no moisture)	
	5. <u>Medicines are not stored directly on the floor.</u> (1= not on floor)	
	6. <u>There is no evidence of pests in the area</u> (1=no pests)	
	7. <u>Loose tablets/capsules are not manipulated by naked hand.</u> (1= not handled)	
	8. <u>Premises can be secured to prevent theft</u> (1= secure)	
		[A1] = Sum of A =
	% adequate storage conditions = $([A1]/8) \times 100$	

32 [OBSERVATION] [Optional]	Please provide a description of the environment where question 31 does not adequately describe the situation.

33 [OBSERVATION]	Was the patient pack of Coartem available) – i.e. the 6,12, 18,24 packs with special patient instructions (should also be marked as available in part 3)	YES	NO
---------------------	--	-----	----

34	Does the outlet sell/provide TB medicines?	YES	NO
----	--	-----	----

If yes to #34 - the outlet sells/provides TB medicines, ask questions 35-40 – otherwise END of part 1:

35	<p>How do you the manager/owner/in-charge decide <u>which type</u> of TB medicines <u>to stock</u>?</p> <p>The items listed to the right should not be read out, they are for the data collector to use to code the response; although prompts can be made to assist the person being interviewed</p> <p><u>Tick as applicable</u></p>	Medicines recommended by Ministry of Health
