

MMV Access Symposium Getting Antimalarials to Patients

9th May 2007 Kampala, Uganda

Curing Malaria Together www.mmv.org

Medicines for Malaria Venture

Rationale for the symposium

- Five MMV products likely to enter the market in next few years

iv
artesunate?

- But the market fails to deliver drugs to the poor
- Our products will only achieve health impact if available
 - At the **right** price
 - At the **right** place
 - With the **right** information

What is our mission?

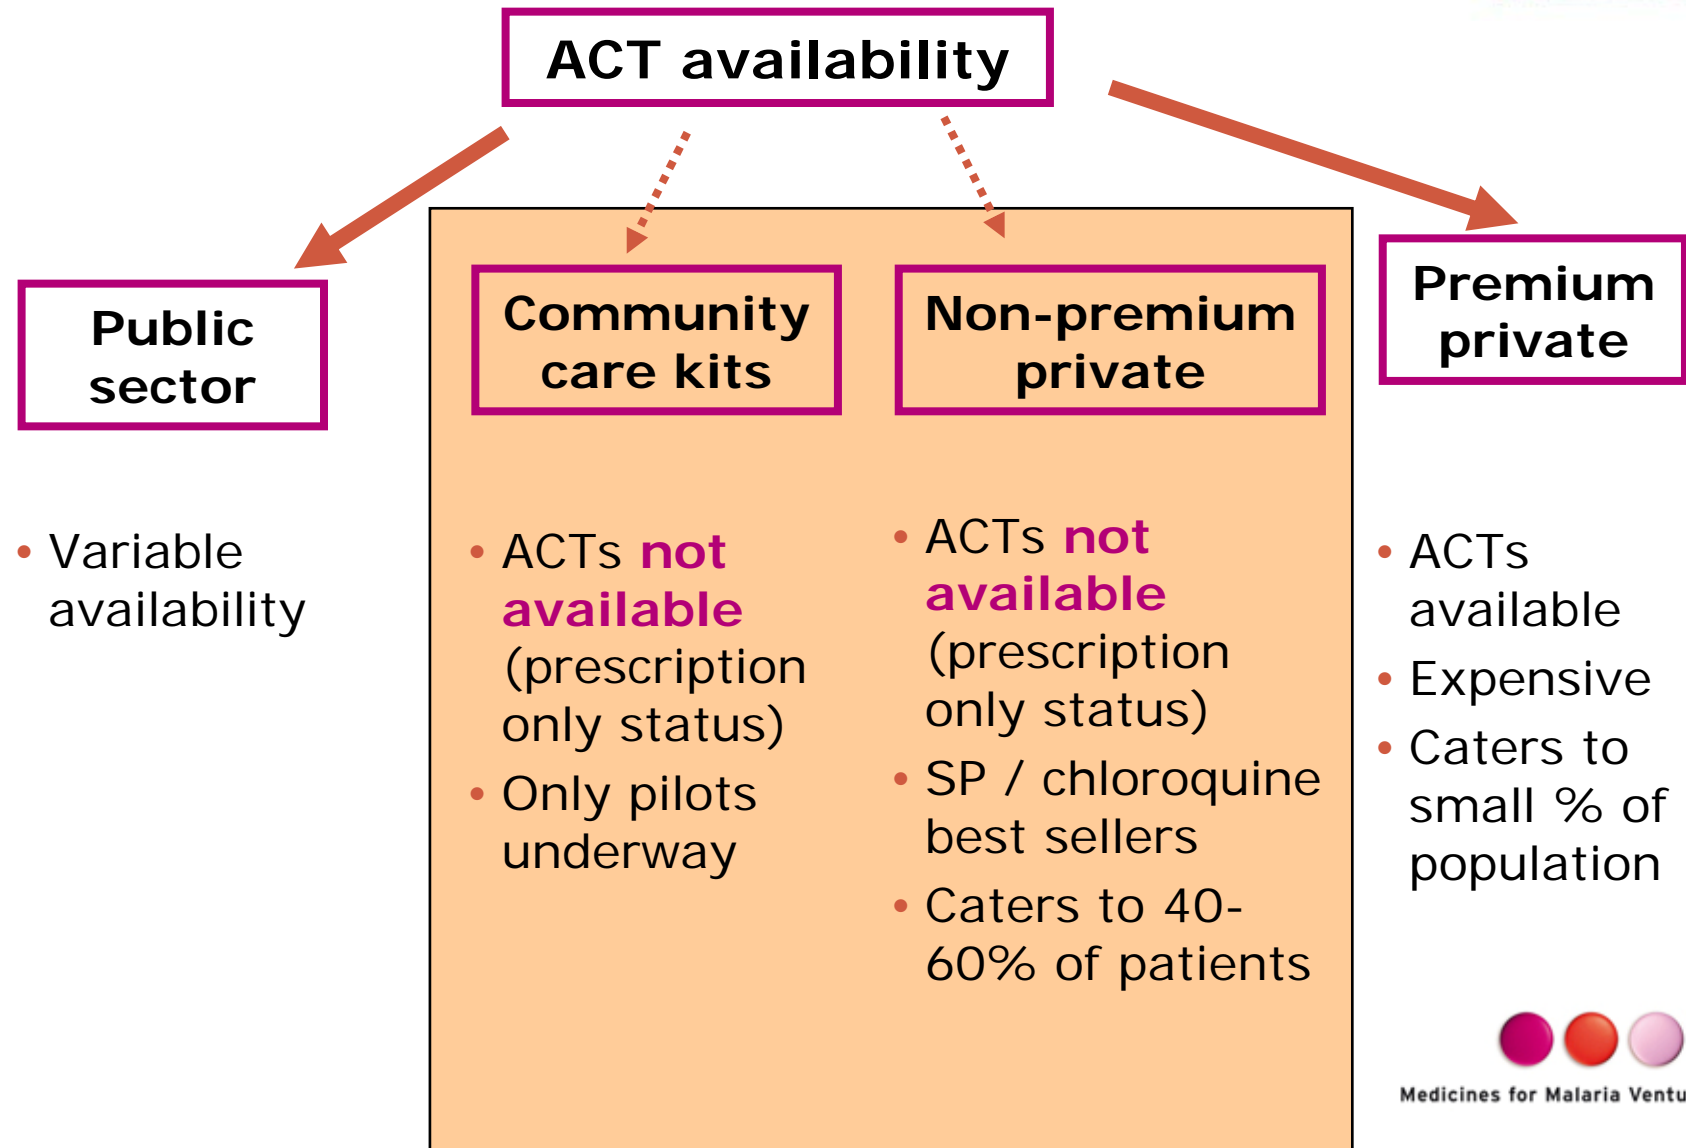

- To increase speed and reach of MMV product adoption and use to achieve health impact

Our target population

Gaps in ACT distribution

Outcomes of the symposium

- Understanding of the reality of antimalarial distribution in the private sector
- Understanding the gaps in ACT provision especially to the rural poor
- Learning from innovative approaches to close this gap
- Clearer idea of MMV's access initiatives
- Input to the ACT subsidy design
