1. **Statistics**

1.1. **General Population Data**

| **Total Population and date of last census:** | 37.6 million (Source: 2006 Little green data book World Bank). |
| **Number & % of total population who are classed as Indigenous Peoples (or Tribals):** | 95% are Bantu consisting of more than 130 tribes, other 1% (consisting of Asian, European, and Arab); Zanzibar - Arab, African, mixed Arab and African |

| **Number & % of total population who are classed as Ethnic or National Minorities:** | mainland - Christian 30%, Muslim 35%, indigenous beliefs 35%; Zanzibar - more than 99% Muslim |

Is this picked up in the national census?

Last census was in 2002. [http://www.tanzania.go.tz/census/](http://www.tanzania.go.tz/census/)

| **Number and % of total population who are classed as Mobile communities (seasonal and permanent):** |

1.2. **General Poverty Statistics**

| **Poverty Line and date (note any recent changes):** | 19.9 % of the Tanzania population were below the $1 per day poverty line (1990-2003), while 59.7 were below the $2 per day poverty line. 35.7 % were below the National Poverty Line (1990-2002) (Source: UNDP, 2005). |

41.6% were below the National Poverty Line. (1990 – 2001) (Source: UNDP, 2003)

| **Number & % of people who are classed as Destitute\(^1\):** |

| **Number & % of people on <US$1 per day (WB measure), 2006 (or latest date), and previous figures:** | Please see above |

| **% poor and number in rural areas:** | Poverty remains overwhelmingly in rural areas where about 87 percent of the poor population lives. (Tanzania PRSP) |

| **% poor and number in urban areas** |

| **Number of poor male headed households:** |

| **Number of poor female headed households:** |

| **Number of poor child headed households:** |

---

\(^1\) From Mary Hobley Document Destitute is those too old, too sick, or two otherwise incapacitated (physically and mentally) to engage in any productive endeavour on their own behalf and whose only options are to beg or connect to various safety nets. This does not equate with landless or extreme poverty.
### Child labour and marriage (male & female, rural & urban)

<table>
<thead>
<tr>

**UNICEF**

**GINI Coefficient:** 0.34 in 1991/92 to 0.35 in 2000/01 (PRSP, Tanzania)

**UNDP HDI:**
- 1990 0.435
- 1995 0.422
- 2000 0.416
- 2003 0.418 (UNDP, 2005)

**Gender Development Index:**
- Rate: 0.414.
- Value: 127 (UNDP, 2005)

**% women employed in agriculture:** 81.4% of women employed in 2003 (% of women employed in agriculture is missing in the HDI tables)

**Average agricultural wage rate vs urban wage rate:**

**World Bank CPIA scores:**
- Policy Outcome: 1
- Aggregate Public Institutions: 1
- Budget and Financial Management: 1
- Public Administration: 2
- Justice and Rule of Law: 2

**IFAD rural policy score**

**World Bank – ‘doing business’ scores**
- 313 days (GMR, 2006)

**DFID Resource Allocation Score**

**MDGs progress – are they on/off track?**

Tanzania is in line to meet two of the MDGs - universal primary education and gender equality in the ratio of boys to girls in primary school. **Abolition of school fees** in 2001 has resulted in an increase in the number of children enrolled in primary school from 4.4 million in 2000 to 7.5 million in 2005. More than 95% of children aged 7 to 13 are now enrolled in primary school. There are broadly equal numbers of boys and girls in primary school - [http://data.un.org/unsd/mdg/Search.aspx?q=Tanzania](http://data.un.org/unsd/mdg/Search.aspx?q=Tanzania)

**Quality of Governance including: Voice and accountability, political stability…and so on**
- Voice and accountability: 25th – 50th percentile
- Political stability/no violence: 25th – 50th percentile
- Government Effectiveness: 25th – 50th percentile
- Regulatory Quality: 25th – 50th percentile
- Rule of Law: 25th – 50th percentile
Control of Corruption: 25th – 50th percentile

**In country communicable diseases (top 5)**

Degree of risk: very high

Food or waterborne diseases: bacterial diarrhea, hepatitis A, and typhoid fever. Vectorborne diseases: malaria, Rift Valley fever and plague are high risks in some locations. Water contact disease: schistosomiasis (2005)

1.3. **Food & Nutrition Statistics**

**What is level of food insecurity?**

Proportion of under nourishment was 37 for the period 1990-1992 and went up to 50 for the period 1995-1997 and then reduced to 44 in 2001-2003.

The number of undernourished for the same periods were 9.9 and rose to 15.7 and 16.1 respectively.

**What is level of food aid requirements?**

Current Tanzania drought which has hit more than 85% of districts – food aid required for half a million people - http://www.wfp.org/English/?ModuleID=137&Key=2093

**Is their food self-sufficiency at national and sub-national levels?**

1.4. **Health, Sanitation, HIV/AIDS Statistics**

**Population Growth Rate and basic health/life expectancy stats:**

**Total Fertility Rate and where possible, rural/urban fertility rate:**

Period 2000 – 2005 is 5.0 which is a decline from the period 1970-1975 in which it was 6.8. (UNDP, 2003)

**Child Mortality <5, poorest and richest 20%, under five and infant mortality rate (MDG):**

Infant mortality rate: 104 in 2003

Infant mortality rate is 114.8 for the poorest 205 of the population, while it reaches 91.9 % for the richest 20 % of the population.

Under five mortality rate:165 in 2003 (UNDP, 2005) Under five mortality rate is 160.0 for the poorest 20 % of the population, while it reaches 135.2 % for the richest 20 % of the population. (UNDP, 2005)

**HIV/AIDS prevalence – Total % of ages 15 – 49**

6.5 %

**Number of orphans of which % HIV/AIDS related**

980.000

Source: http://www.avert.org/aidsorphans.htm
1.5. Key Natural Resources Statistics

Total Land Area of State
945,087 sq km (CIA Factbook, Tanzania)

Please note how much land is property of state (by component)

% land under Forestry, Agriculture, Livestock
Forestry: %
Agriculture: %
Livestock: %

No breakdown given as above but 4.23% is arable land and 1.16% is permanent crops (CIA Factbook Tanzania - https://www.cia.gov/cia/publications/factbook/geos/tz.html)

Average Land Size of Holding

Average Farm Income

Average age of farmer

Principle fishery resources (sea, river, aquaculture etc)
Borders the Indian Ocean and includes the islands of Mafia, Pemba, and Zanzibar.

For fishing overview please visit:

For more general fishing publications please see:

Major exports and imports
Major Exports: Cashew Nuts, Tobacco Leaves, Cotton Lint, Coffee (green), Wheat, Tea.
Major Imports: Wheat (exceed exports), Oil of Palm, Maize, Sugar refined, Rice, broken, Food prepared, Milled paddy rice.

Is there a non renewable natural resource industry i.e. oil, gas diamonds etc
Cobalt, copper and nickel, gold, iron and steel, diamond, gemstones, limestone and marble, salt, soda ash, coal, gas, petroleum. (Source: Yager, The Mineral Industry in Tanzania)

Trends in NR base exports
During the period 2000 – 2004 cashew nuts, tobacco leaves, cotton lint and coffee (green) were consistently in the top 5. Wheat (‘04 and ‘03) was replaced by tea between ‘02 and ‘00 in the top five.

Are there national/international private or state owned businesses who are key stakeholders in trade/processing – NR specific?
Cobalt, copper and nickel: Barrick Gold Corp. has been exploring the possibility of mining the Kabanga nickel sulphide deposits in northwestern Tanzania.
Diamond: Production at the Williamson Mine
increased substantially in 1999 and 2000 owing to the reprocessing of old tailings. In 2000, the mine produced 317,000 carats valued at $46 million from nearly 2.96 Mt of ore. (Source: Yager, The Mineral Industry in Tanzania)

1.6. Conflict / Natural disaster

| Is there current conflict or has there been recognised conflict in the last 5 years? | No |
| Has there been a natural disaster in the last 5 years which still impacts the country? | November 2006 floods  
May 2006 floods  
April 2005 floods  
December 2005 Earthquake  
December 2004 Earthquake and Tsunami  
May 2002 Kenya Floods |

1.7. General Economic Statistics

### Table 1. Annual growth rate: (UNDP, 2003, 2005)

<table>
<thead>
<tr>
<th></th>
<th>2001</th>
<th>2002</th>
<th>2003</th>
<th>2004</th>
<th>2005</th>
<th>2006</th>

**Debt Relief: Bilateral pledges to HIPC trust fund and gross bilateral debt forgiveness**

<table>
<thead>
<tr>
<th>Net FDI inflows</th>
<th>FDI as % of GDP was 0.0 in 1999 and increased to 2.4 in 2003 (UNDP, 2005)</th>
</tr>
</thead>
</table>
| % GDP from NR sector by component (forestry, fisheries, agriculture and livestock) | Forestry: %  
Fisheries: %  
Agriculture: 45%  
Livestock: % (FAO) |
| How much of ODA is going into NR sector? | Total ODA 1,669.3 million USD (2003)  
27.5 % of GDP in 1990 and 16.2 % of GDP in 2003.  
Per capita ODA in 2003 amounted to USD 46.5 (OECD - [http://www.oecd.org/dataoecd/24/21/1882894.gif](http://www.oecd.org/dataoecd/24/21/1882894.gif)) |
**ODA Trends: is it going up down, what % of GDP**

The amount of ODA increased in absolute terms from 1,233 million USD in 2002 to 1,704 million USD in 2003, to 1,746 in 2004. (http://www.oecd.org/dataoecd/24/21/1882894.gif)

The percentage of ODA of GDP went down between 1990 and 2003 (see above).

**Corruption Perception Index**

Ranked 88/158 with a score of 2.9 in 2004 CPI

---

### 1.8. Infrastructure Statistics

**Road km/head population**

**Telephone mainlines, cellular subscribers, internet users**

Telephone mainlines went up from 3 to 4 per 1000 people between 1990 and 2003. Cellular subscribers went up from 0 to 25 per 1000 people in the same time frame. Number of Internet users went up from 0 to 7 in this period. (UNDP, 2005)

---

### 1.9. Statistical Data Availability

**MAPS**

Please indicate which maps are available and where they can be found:

- **Poverty**
- **Key infrastructure**
- **Forest/protected areas**
- **Agro/biodiversity hotspots**
- **Minorities/IPs**
- **Conflicts**
- **Areas dependent on food aid**

Infrastructure map: http://tanzania.sgu.se/infra.htm

(16% of Tanzania is protected areas - http://www.chronicpoverty.org/pdfs/13Bird_et_al.pdf, p13 but unable to located map)

**Any Other Useful Information/Data Sets**

---

### 2. Governance

#### 2.1. Poverty Governance

**PRSP details (author, date approved & date published, provide link). Is this a key poverty reduction planning document/ five year plan?**

The Tanzania National Strategy for Growth and Reduction of Poverty (NSGRP) was finalized in June 2005. The NSGRP is informed by the aspirations of the Tanzania Development Vision for 2025 (“Vision 2025) and builds on the PRSP of 2000. It is a five year strategy. It builds on the Poverty Reduction Strategy Paper, the PRS review and other plans and the end point of the strategy coincides with the targets of the National Poverty Eradication strategy (NPES – 2010), (NSGRP Tanzania 2005, p 9).

**Action plans and monitoring in place relevant to PRSP**

Monitoring implementation of NSGRP and evaluation of progress will be done under the Poverty
Monitoring System (PMS) established in 2001 and is now operational. [http://www.povertymonitoring.go.tz/](http://www.povertymonitoring.go.tz/)

This will be done in the process of developing the Poverty Monitoring Master Plan in line with the NSGRP. (Source: NSGRP Tanzania 2005, p 70-74). Available at: [http://www.logos-net.net/ilo/195_base/en/init/tan_2.htm](http://www.logos-net.net/ilo/195_base/en/init/tan_2.htm)

A Poverty Monitoring Steering Committee was set up in May 2001.

The Poverty Reduction Strategy (PRS) Technical Committee is chaired by the Deputy Permanent Secretary in the Ministry of Finance.

The Poverty Monitoring Secretariat has members from the Vice-President's Office, the Ministry of Finance, and the President's Office, Planning and Privatisation. (Source: Poverty Monitoring Secretariat Website)

<table>
<thead>
<tr>
<th><strong>Is there a decentralisation rhetoric in country and what is its impact?</strong></th>
<th>There is a clear decentralisation rhetoric. <a href="http://www.uncdf.org/english/countries/tanzania/local_governance/other_project_related_reports/ngwilizi_decentralization.php">http://www.uncdf.org/english/countries/tanzania/local_governance/other_project_related_reports/ngwilizi_decentralization.php</a></th>

</tbody>
</table>

<table>
<thead>
<tr>
<th><strong>Is there a donor/government coordination group for aid delivery? Is there a matrix relating to agriculture/land use in relation to the PRSP?</strong></th>
<th>The Joint Assistance Strategy in Tanzania (JAST) became operational on July 1st 2006. The JAST is a new plan which sets out the roles that the Government of Tanzania and development partners will play in funding and implementing poverty reduction activities in Tanzania. This plan, agreed by the Government of Tanzania and its 40 development partners, will make aid more effective by putting the Paris Declaration on Aid Effectiveness into practice. (DFID website)³</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>The Development Partners Group (DPG) recognises the crucial importance of strong national leadership of the development programme in Tanzania. No such matrix is part of the PRSP.</td>
</tr>
</tbody>
</table>

| **Which Ministry is responsible for coordination of poverty reduction activities?** | It seems to be the Office of the Vice President but it would be important to check this. |

### 2.2. Poverty Mapping

**Vulnerable/socially excluded/ poorest group**

DFID’s socially excluded groups identified are: gender, caste, ethnicity, race, remote areas, migrant status, people living with disability and life cycle (i.e. youths, older people etc)

Most work appears to have been done with the nutritionally vulnerable – based on desk research.

2.4. Development Processes Governance

What cross sectoral linkages are there between poverty and NR Sector strategies e.g. government task forces, inter-ministerial committees? How effective is this?

What are the relative strengths of the NR ministries and those with responsibility for poverty reduction?

Clean water supply/sanitation progress and links to NRM? What are the current projects/programmes underway?

Are laws published and available in accessible format?

Is there a published DFID Memorandum of Understanding with the country? If so, what is the focus of operations/interests?

What are the main government agencies and commissions for forestry, fisheries, agriculture and livestock?

For further information on agriculture please go to: [http://www.tanzania.go.tz/agriculturef.html](http://www.tanzania.go.tz/agriculturef.html)

For more information on livestock: [http://www.tanzania.go.tz/agriculturef.html](http://www.tanzania.go.tz/agriculturef.html)

For more information on food security: [http://www.tanzania.go.tz/agriculturef.html](http://www.tanzania.go.tz/agriculturef.html)

For more information on lands: [http://www.tanzania.go.tz/agriculturef.html](http://www.tanzania.go.tz/agriculturef.html)

For more information on fisheries: [http://www.tanzania.go.tz/agriculturef.html](http://www.tanzania.go.tz/agriculturef.html)

2.5. Regional/International Governance

<table>
<thead>
<tr>

4. Social / Economic / Cultural

4.1. Development Dynamic

**Migration rural/urban, temporary/permanent, male/female e.g. into New Economic Zones**

No data on Tanzania in ILO migration database.

Please see chapter 4 of Working Paper on Pro Poor Policy and Migration in East Africa

The East African Briefing in 2004
http://www.livelihoods.org/hot_topics/docs/eastAfrica.pdf

**Any detail on level of remittances**

No detail found on level but following document details current situation for money transfer (both demand and supply)
http://www.livelihoods.org/hot_topics/docs/RemitTanzania.pdf

**Rate of urbanisation**

In 1999 there was a relatively low level of urbanisation with 25% of people living in urban areas. Between 1995 and 2010, 86% of population growth is expected in urban areas.
http://www.census.gov/ipc/prod/ppt92-10.pdf

Unable to find more recent source.

**Status of women in society – constraints**

How is traditional knowledge dealt with (IPR issues)? Is it being recognised?

Is NR use of ‘wild resources’ exclusionary or focused on developing sustainable use practices?

4.2. Civil Society

**Size and significance of civil society**

Please see http://www.tanzaniagateway.org/civilsociety/

**Status/trends of informal groups e.g. faith groups, women’s associations/farmers groups**

4.3. Private Sector

**NR private sector trade/ production organisations;**

**Level of international inputs into the NR sector (fertiliser, forestry, fish processing, supermarkets etc)**

5. Financial

**Is there a PER/MTEF and what is its status?**

The Macroeconomic policy framework is available from:
All available information on the Economy can be found at [http://www.tanzania.go.tz/economyf.html](http://www.tanzania.go.tz/economyf.html)

**What decentralisation processes are ongoing?**

Please see earlier

**What is the current tax ‘take’ and how is this split between regions? Important link with decentralisation – do regions have power to retain tax taken from that level or is it sent to centre to be reallocated?**

The Development Partners Group ([http://www.tzdpg.or.tz/](http://www.tzdpg.or.tz/))

Since 2004 the government has led a process to develop a Joint Assistance Strategy with donors. 70% of the aid Tanzania receives from DFID goes to general budget support. [http://www.dfid.gov.uk/countries/africa/tanzania.asp](http://www.dfid.gov.uk/countries/africa/tanzania.asp)

**Who are the main donors to the country?**

Aga Khan Foundation are present [http://www.akdn.org/microfinance/Tanzania/index.html](http://www.akdn.org/microfinance/Tanzania/index.html)

Microcredit in Tanzania - [http://www.microcreditsummit.org/press/Pride.htm](http://www.microcreditsummit.org/press/Pride.htm)

**Are donors engaged in budget support processes for the NR sector or is the major spend through programmes/projects?**

**Banking sector details – state owned and/or private?**

**Are there any arrangements for credit for the poor?**

**Measures to tackle corruption (commissions, new legal frameworks etc), EITI etc**

**Engagement with processes such as EU FLEGT?**

**Management of FDI into NR sector?**

6. **Infrastructure**

**Communication statistics, use of IT / mobile phones etc**

No up to date information found.

**Trends in radio, TV and other media**

Tanzania possesses a large number of dams and impoundments of all sizes. Mtera dam is the biggest dam in Tanzania, measuring 660 square kilometers at full capacity. Though far smaller than Lakes Victoria, Tanganyika and Nyasa (Malawi), it provides a livelihood for well over 1 000 fishers, suppling fresh fish for urban
populations in the southern and eastern parts of Tanzania.

Mtera dam was built in 1979 for the purpose of regulating water level at the downstream Kidatu Hydro-electric Dam - a major supplier of electricity in the country. Later, hydro-electrical turbines were also installed at Mtera. The dam drains 68,000 square kilometers of agricultural and forest land in major parts of Iringa, Dodoma and Mbeya Regions through Great Ruaha and Kisigo rivers.

Water Supply from Wetlands -

Physical market infrastructure: how many per head of population for example

Main sources of funding for infrastructure development – IFI loans, donor grants, private sector, communities?
