1. Call Context

The 2014 to 2020 European Structural and Investment Funds (ESIF) bring the European Regional Development Fund (ERDF), European Social Fund (ESF) and part of the European Agricultural Fund for Rural Development (EAFRD) together into a single European Union (EU) Structural Investment Funds (ESIF) Growth Programme for England supporting the key growth priorities of innovation, research and development, support for Small and Medium Enterprises (SME), low carbon, skills, employment, and social inclusion.

European Structural and Investment Funds are managed by the Department for Communities and Government (ERDF), Department for Work and Pensions (ESF) and the Department for Environment Food and Rural Affairs (EAFRD). In London, the Greater London Authority acts as an Intermediate Body for the European Regional Development Fund and European Social Fund programmes. Unless stated otherwise, the term “Managing Authority” will apply to all these organisations. These Departments are the Managing Authorities for each Fund. The Managing Authorities work closely with local partners who provide:

- Practical advice and information to the Managing Authorities to assist in the preparation of local plans that contribute towards Operational Programme priorities and targets;
- Local intelligence to the Managing Authorities in the development of project calls (decided by the Managing Authorities) that reflect Operational Programme and local development needs as well as match funding opportunities;
- Advice on local economic growth conditions and opportunities within the context of Operational Programmes and the local ESIF Strategy to aid the Managing Authority’s assessments at outline and full application stage.

This call is issued by the Department for Work and Pensions (DWP) to commission ESF Funded projects that will support the **Priority Axis 1 of the Operational Programme: Inclusive Labour Markets** and **Investment Priority: 1.1 Access to Employment for Jobseekers and Inactive People** as set out in the Operational Programme.

All applications will need to be eligible under the European Social Fund Operational Programme for England 2014 to 2020. The [ESF Operational Programme](#) is available for applicants to read.

This call for proposal sets out the requirements for any applicants to consider before applying. Applications against this call will be assessed as part of a two stage appraisal process and successful applicants will enter into a funding agreement with the DWP. Further information is given in sections 4 to 10.

All ESF applicants will need to be aware of the requirement to collect and report data on all participants as per Annex 1 (see Appendix A). This will be as well as the requirement of reporting on output and result indicators referred to in section 3 of the call for proposal.

1.1 National Context

This priority axis aims to increase participation in the labour market and thereby improve social inclusion and mobility. It will support activities through:

Investment priority: 1.1 - Access to employment for job seekers and inactive people, including the long term unemployed and people far from the labour market, also through local employment initiatives and support for labour mobility

ESF will not fund activity that duplicates or cuts across national policy on grants and loans for tuition for skills activities. Exemptions to this principle will be considered only where a local specific need and/or market failure has been demonstrated and where the activity falls within the scope of the Operational Programme.

Full details of what can and cannot be supported under this Investment Priority are set out in the Operational Programme. Details of the specific objectives have been reproduced below.

Specific Objective	Results that the Member States seek to achieve with Union support
To improve the employability of long-term unemployed people, so that they can compete effectively in the labour market.	This specific objective is focused on those who are long-term unemployed and who are less likely to move back into work than people who have been unemployed for less time. The additional support from this investment priority will help long-term unemployed people to tackle their barriers to work and move into sustainable employment. The main result target focuses on moving participants into employment (including self-employment) on leaving. There will be a quantified result target set for this result indicator in each category of region.
To provide individuals from groups which face particular labour market disadvantage with additional support so that they can compete effectively in the labour market.	This objective is focused on those who are unemployed but have more than one major barrier to progressing into employment (including self-employment) and sustaining employment. This client group will be more challenging to help and will often require intensive ongoing support to address complex barriers, which will be reflected in the targets. Support will be tailored to individual needs. Participants will include individuals who are over 50, lone parents, disabled or have health problems, from ethnic minorities or who lack basic skills. The main result targets focus on moving participants into employment or into education/training or getting them involved in

	active jobsearch. Output targets will ensure we are reaching appropriate numbers of participants from these groups.
To encourage inactive people to participate in the labour market and to improve their employability.	This objective is focused on individuals who are distant from the labour market and who need additional support to give them the skills and/or confidence to enable them to move towards employment (including self-employment). Participants will include individuals who are lone parents, disabled or who have health problems, are over 50 or who are from ethnic minorities. The priority will be on those who are receiving inactive benefits. The main result that will be achieved is that inactive participants will engage more in the labour market. A specific output target will ensure we are targeting inactive people, and we have result targets to measure movement into work and increases in activity.
To address the basic skills needs of unemployed and inactive people so that they can compete effectively in the labour market.	This objective is focused on individuals who lack the basic skills required by employers, such as IT, literacy and numeracy. Participants will have the opportunity to gain basic skills relevant to labour market needs or to enable them to progress towards gaining further skills. The main result will be that those without basic skills will be helped to gain them. This will enable them to play a fuller part in the labour market. There is an output target for participants without basic skills and a result target for participants gaining basic skills.
To provide support for women at a disadvantage in the labour market, and particularly those who are currently inactive, to contribute to our efforts to reduce the gender employment gap.	The additional support from this investment priority will help more unemployed and inactive women to complete effectively in the labour market. It will be focused on engaging and providing additional support to women who have barriers to entering the labour market, including language, skills, age and caring responsibilities. Participants could include older women wishing to return to work after caring for children, lone parents or women from ethnic minorities who have never worked. The main result that will be achieved is that more participants will be in sustainable employment (including self-employment) or engaged in active job search on leaving. There is a stretching output target for female participation and a result target for participants with childcare needs receiving childcare support.

1.2 Local Development Need

Projects must deliver activity which directly contributes to the objectives of Priority Axis 1, Investment Priority 1.1 of the Operational Programme, and which meets the **local development need** expressed in the text and table below.

Call outline

The D2N2 Local Enterprise Partnership area covers Derby, Derbyshire, Nottingham and Nottinghamshire. It is one of the largest LEP areas within England, with a population of more than 2m people and an economic output of nearly £40bn. The economy comprises a mixture of rural and urban areas across 19 local authority areas.

Employment is distributed across D2N2 but there is a concentration of employment in and around the area's two largest centres – the Core City of Nottingham and the key city of Derby – with the two cities combined accounting for 36% of total employment, compared to 26% of total population.

Based on information available from NOMIS (January 2015 to December 2015), the number of unemployed stood at 51,400 for those aged 16 or over (28,400 males and 23,000 females), which equated to 4.8% of the total number of economically active across the D2N2 area.

The total number of economically inactive (NOMIS-January 2015 to December 2015) stood at 315,200, which equated to 23.3%. Also, based on NOMIS information (March 2016), the claimant count (out-of-work benefits) by sex, totalled 23,665 (15,645 males and 8,020 females) and by age, totalled 23,665 (aged 16 and over), of which 5,065 were aged 50 or over.

In terms of the make-up of the claimant groups (based on NOMIS information at August 2015), the number of lone parents totalled 15,830 and the number of disabled people totalled 14,740.

Alongside the two cities there is also a distinct urban conurbation in Ashfield / Mansfield and there are a number of smaller centres that serve rural hinterlands across the D2N2 area. In terms of transport links, D2N2 has a central location in England, well served by key north-south transport links such as the M1, A1, Midland Main Line and East Coast Main Line.

The D2N2 Strategic Economic Plan (SEP) sets out proposals for raising growth rates in the D2N2 area, creating increased prosperity and higher levels of employment. Applicants will need to demonstrate innovative or established methods of delivering provision, in order to meet the aspirations of the D2N2 Strategic Economic Plan (SEP) and requirements of this Call.

Research, consultation and feedback from employers and stakeholders (e.g. Local Authorities), indicated that a significant number of employers do not know how or

where to access skills provision, which meets their business needs. Derby, Derbyshire, Nottingham and Nottinghamshire (D2N2) remains a dynamic and diverse economy with enduring excellence in cutting-edge manufacturing and engineering, particularly transport, life sciences and construction.

The Vision is that D2N2 will become a more prosperous, better connected, and increasingly competitive and resilient economy, by supporting the creation of an additional 55,000 private sector employee jobs in D2N2 by 2023.

As well as being recognised as a place which inspires and supports people to achieve their potential in an economy that provides opportunities for young people to live, work and prosper. Details of the local ESIF Strategy can be found at: [D2N2 LEP](#)

- **Local priorities**

Employment and skills is a cornerstone of D2N2's SEP and the LEP is committed to increasing the number of jobs within the economy and ensuring that local businesses can access the skilled workers they need, both now and in the future. Ambitious coordinated action at strategic, local and individual levels is needed to ensure that everyone, irrespective of where they live or their background, is socially included and those experiencing poverty can access support to exit it. Paid employment and the pathways to it are recognised to be the primary route to achieving this.

To achieve the ambitions of the D2N2 SEP there is a need to put in place the infrastructure and conditions that will support business and employment growth, including a fit-for-purpose skills and training system which ensures young people are properly prepared for work, employers have access to the skilled workers they need and there is support to local people, including the most disadvantaged individuals, to develop their skills and employability to gain, retain and enhance employment and earnings.

D2N2 has set out a programme of complimentary ESF calls for programmes of activity which interlink to form a strategic gateway and pathway approach. The D2N2 ESIF Programme Board have agreed a set of Core Delivery Principles that define how it considers a good ESIF project should operate and they crystallise the preferred approach articulated in the D2N2 ESIF Strategy. The Principles are for all provision to evidence and deliver Impact and Scale; Delivery Readiness; Added Value; Local Value; Quality, Performance and Efficiency; Strategic Partnerships and Co-ordination of Market Engagement; and Flexibility and Responsiveness.

The D2N2 Skills Priorities from the Skills for Growth Strategy are to Develop sector growth agreements; Improve business leadership, management and skills; Promote and develop apprenticeships and traineeships; Foster enterprise and the characteristics of entrepreneurial behaviour; Raise the visibility of careers support and Promote graduate recruitment.

D2N2 will achieve these priorities through activity which will ensure education and training systems reflect employer requirements; engage new start businesses and SMEs in the education and skills agenda; equip the workforce with the skills and competencies required by local employers, both at present and in the future; extend and deepen engagement between business sectors and training providers; encourage better matching of skills supply with employer need to address recruitment difficulties and unemployment; and develop employer-led, added value, flexible provision.

Stimulating economic development, increasing productivity to support jobs, skills and growth is a key focus for the D2N2 LEP. As set out in the D2N2 SEP sectoral growth opportunities necessitate a strong focus initially on key areas such as Transport Equipment Manufacturing; Medicine and Bioscience; Construction; Food and Drink Manufacturing; Visitor Economy; Low Carbon Goods and Services, Creative Industries; and Transport and Logistics.

In addition to the D2N2 key priority sectors, growth employment sectors for focus are Health & Social Care and Information Technology across the D2N2 area; Engineering (Civil Engineering) in Derby and Derbyshire and Professional Services and Retail in Nottingham and Nottinghamshire. The D2N2 programmes, based on evidence and levels of need, we wish provision to be able to respond to new and emerging and niche sectors which may become increasingly important.

Details of the local ESIF Strategy can be found at: [D2N2 ESIF STRATEGY](#)

Activity must demonstrate a highly innovative and effective approach to tackling local and specific employment and skills gaps, demonstrate additionality and ultimately promote and stimulate growth across the D2N2 area.

Target groups: the unemployed; the economically inactive; disadvantaged groups (over 50's, lone parents, disabled or with health problems, ethnic minorities, those without basic skills (IT, numeracy, literacy), women at disadvantage in the labour market.

The programme will achieve added value by:

- Supporting activities which complement the D2N2 opt-in programmes, by providing additional support to individuals and creating opportunities to help individuals to compete effectively in the labour market, ultimately leading to employment. Or to support individuals with their career development, address basic skills or where up-skilling in ICT skills is identified.
- Providing support for women at a disadvantage in the labour market and particularly those who are inactive, to help them compete in the labour market and contribute to the reduction in the gender employment gap.
- Supporting training skills to cover self-employment, as an alternative option to employment.

- Mentoring activity to help individuals better understand their skills and potential, in order to effectively compete in the labour market and thereby contribute to the strategic economic growth of D2N2.

The programme will provide:

- Support to fill existing and future gaps in provision and activities within existing infrastructures and organisations, where there is a demonstrable evidence of need, linked to and aligned with local strategies.
- Complementary activities and resources to support the D2N2 opt-in programmes.
- Solutions to meet the requirements of the D2N2 key priority sectors, employment growth sectors, and emerging sectors based on evidence of need
- Additional and innovative approaches to pre-employment training, to ensure individuals have the core work-related skills that employers require, including preparation for apprenticeships.

In addition, as listed in the ESF Operational Programme 2014-2020, examples of activities that will be supported for Investment Priority 1.1 can be delivered through the Enterprise, Innovation and Pathways Programme where evidence is provided by the Applicant that the activity will meet the D2N2 ESIF and Skills Strategy.

1.3 Scope of activity

This call invites Outline Applications which support the delivery of Priority Axis 1, **Investment Priority: 1.1 Access to employment for jobseekers and inactive people** of the European Social Fund Operational Programme and responds to the local development need set out in the D2N2 Local Enterprise Partnership Area European Structural and Investment Funds Strategy.

This call aims to address the identified shortfalls listed in section 1.2 Local Development Need above.

2. Call Requirements

All applications are competitive.

<p>Indicative Fund Allocation:</p>	<p>Indicatively, through this call the Managing Authority expects to allocate approximately £1,465,910 ESF</p> <p>The Managing Authority reserves the right to decrease or increase the indicative allocation, or support more or fewer projects subject to the volume and quality of proposals received.</p>
---	--

Minimum application level	European Social Fund investment is intended to make a significant impact on local growth. Applications are expected to demonstrate appropriate scale and impact. The Managing Authority does not intend to allocate less than £200,000 of European Social Funding to any single project.
Duration of project approvals	Projects should be for a maximum of three years; however the Managing Authority reserves the right to vary the maximum duration in exceptional circumstances.
Geographical Scope	All interventions should be focused on activity and beneficiaries within the D2N2 Local Enterprise Partnership area.
Specific call requirements	This is a call for ESF activity. Successful candidates will be required to ensure that ESF provision will clearly add value and not duplicate provision that can be arranged locally through existing mainstream institutions. Applicants will be required to work in partnership with other organisations delivering education and training in the area to ensure their programme of activities are complementary to and not in competition with other funded provision. The provision must be able to respond to changing local needs and opportunities, as well as policy changes. Applicants will be required to establish linkages with and have an understanding of, local stakeholder needs and develop strong links with the key stakeholders. There is an expectation of the D2N2 LEP for Applicants to engage with other ESF funded providers as part of the D2N2 governance structure to assist with client referral, sharing of good practice and performance management of all projects, and to work with organisations undertaking similar and complementary support and delivery activities to reduce duplication, share good practice, ensure added value and contribute to a seamless and integrated delivery infrastructure.
Call Deadlines	For this specific call, applications will be assessed following closure of the call. Applications received after the published call close date will not be considered.
Application selection	All applications will be scored in line with the ESF scoring criteria, but the MA reserve the right to invite projects to full application stage where they complement other activity or provide niche activity to target groups within the OP.
Applicant proposals	These can only contain activities which are eligible for ESF.
Eligible match funding	Applicants will need to have eligible match funding for the balance of costs, which must be from a source other than the European Union. For all outline applications proof of match funding will need to be supplied as part of the assessment.
Operational completion	Operations must be completed no later than 31

	December 2019.
Procurement	All procurement must be undertaken in line with EU regulations.
State Aid law	Applicants must demonstrate compliance with State Aid law
Audit/ Compliance	All expenditure and activities will be subject to rigorous audit and non-compliance may lead to financial penalty.
Calls listing multiple activity	The applicant is required to list each activity they plan to deliver, supported by a clear breakdown of costs. Expected outputs and results per activity should be provided.

ESF cannot be used to duplicate existing activities or activities that do not address market failure. ESF can only be used to achieve additional activity or bring forward activity more quickly. Applicants must be able to demonstrate that proposals are additional to activity that would have occurred anyway or enables activity to be brought forward and delivered more quickly than otherwise would be the case in response to opportunity or demand.

3. Deliverables required under this Call:

Applications will be expected to achieve the minimum indicative level of Programme Deliverables by contributing to the following Investment Priority. The definitions of which can be accessed at the [ESF Operational Programme](#).

Investment Priority	1.1 Access to employment for jobseekers and inactive people
Specific Objectives	To help those who are disadvantaged but still relatively close to the labour market to tackle their barriers to work, and enter and sustain employment.
Indicative Actions	<p>ESF will not support activities that duplicate or replace existing support within national programmes, but may be used to support additional activities or target groups, including provision co-designed with local partners.</p> <p>Examples of actions which may be supported for all unemployed and inactive people include:</p> <ul style="list-style-type: none"> • additional and innovative approaches to pre-employment training, to ensure individuals have the core work-related skills that employers require, including preparation for apprenticeships; • support for those who need pre-traineeship and pre Work Programme assistance, to prepare them for the next step. • training for those who need to upgrade their skills or learn new skills (including basic skills and English for non-speakers) to compete in the local labour market and adapt to changes in

	<p>the economy;</p> <ul style="list-style-type: none"> • helping people access or benefit from apprenticeships, including support for women to enter non-traditional sectors which addresses barriers to entry (e.g. construction); • providing access to transport where this is a barrier to taking up a job; • providing advice, guidance and support by plugging gaps in national provision where appropriate, in order to help people make better informed choices, and in particular to take account of the jobs available in the local area; • specific careers advice for women, to help them make informed career choices; • using self-employment as a route out of worklessness, including providing advice and support for self-employment (an attractive option where an individual is struggling to find work with an employer, either because they lack experience or because they face discrimination). <p>The investment priority will focus on providing extra support for long-term unemployed people, including those who have completed the Work Programme. When a person is still unemployed after many efforts to help them, innovative solutions are required, including new approaches to work experience and training, intermediate labour market activity and volunteering opportunities.</p>
--	---

ID	Result Indicator	Target value for this call
R1	Unemployed participants into employment (including self-employment) on leaving	22% More Developed
R2	Inactive participants into employment, or job search on leaving	33% More Developed
R3	Participants gaining basic skills	4% More Developed
R4	Participants with childcare needs receiving childcare support	36% More Developed
ESF-CR06	Participants in employment, including self-employment, 6 months after leaving	34% More Developed

Outputs table

ID	Output Indicator	Total target value for this call	Men target value	Women target value
O1	Participants	1933	1059	874
ESF –CO01	Unemployed, including long-term unemployed	1353	-	-
ESF – CO03	Inactive	483	-	-
O4	Participants over 50 years of age	424	-	-
O5	Participants from ethnic minorities	189	-	-
ESF - CO16	Participants with disabilities	585	-	-
O6	Participants without basic skills	341		
ESF - CO14	Participants who live in a single adult household with dependent children	221	-	-

Applicants will be required to demonstrate how they will achieve the deliverables within their proposal along with any methodology that will be used to record achievement. Applicants will also need to ensure robust systems are in place, and be able to describe them, to capture and record the targets and to report quantitative and qualitative performance across the D2N2 LEP area. All operations will be required to collect data and report progress against the deliverables with each claim. Where an operation underperforms against their deliverables they may be subject to a performance penalty.

There must be a fully evidenced audit trail for all contracted deliverables.

4. General Information

Essential information to support the drafting of an application and delivery of a successful ESF funded project is available at the [European Growth Funding](#) website pages.

4.1 Compliance and Eligibility

When developing an application, Applicants should refer to [guidance](#) on eligible Applicants, activities and costs. These are for guidance only and Applicants should take their own specialist advice if in doubt. It is the responsibility of the Applicant to ensure that the rules and guidance are adhered to both at application stage and following approval.

European Structural Investment Funds (ESIF) are governed by European regulations and national rules. Applicants are advised to familiarise themselves with the relevant documentation listed in the 'key documents' section prior to submitting an Outline application. If successful, Applicants will enter into the standard Funding Agreement and must abide by the standard terms and conditions contained therein. Applicants are therefore strongly advised to read these terms and conditions to ensure that they would be able to enter into such an agreement prior to responding to the call. Once a Funding Agreement has been issued it should be signed and returned within a short timescale.

4.2 Intervention Rate & Match Funding

ESF is funding used where no other funding can be obtained (the funder of last resort) and the maximum ESF intervention rate for the operation is 50%. This means ESF can contribute up to 50% of the total eligible project costs, subject to State Aid regulations. The remaining 50% or more must come from other eligible sources. For all outline applications proof of match funding will need to be supplied as part of the assessment.

ESF is not paid in advance and expenditure must be defrayed prior to the submission of any claims. Applicants may be asked to demonstrate how they are able to cash flow the operation.

4.3 Applicants

Applicants must be legally constituted at the point of signing a Funding Agreement, and be able to enter into a legally binding Funding Agreement. The Applicant will be the organisation that, if the application is successful, enters into a contract for ESF and therefore carries the liability for ensuring that the terms of the ESF Funding Agreement are met by them and to all delivery partners. If there is more than one organisation applying for the funds, a lead organisation must be selected to become the Applicant. It is this organisation that carries the responsibility and liability for carrying out a compliant project.

The Managing Authority will consider the Applicant's track record, both positive and negative. If the Applicant has been involved in the delivery of previous European grants and any irregularities with this (these) grant(s) have been identified, the Managing Authority will look into these and expect to see how and what steps have been taken to ensure that these have been addressed to mitigate the risk of further irregularities in the future. It is acknowledged that some organisations will be new to ESIF funding and will not have a track record.

4.4 Cross Cutting Themes

All applications received under this Call should demonstrate how the Cross Cutting Themes have been addressed in the project design and development. Cross cutting

themes for ESF are ‘gender equality and equal opportunities’ and ‘sustainable development’.

For ESF, the project applicants will be required to deliver their services in-line with the Public Sector Equality Duty (as defined in the Equality Act 2010). All projects must have a gender and equal opportunities policy and implementation plan which will be submitted at full application stage and in-line with Managing Authority guidance. Project applicants will also be required to answer a number of ESF-specific equality questions which will be set out in both the full application form and the related guidance.

For ESF, all projects will also be required to submit a sustainable development policy and implementation plan (in-line with guidance produced by the Managing Authority).

The ESF programme particularly welcomes projects that have an environmental focus that can meet the strategic fit at local and programme level whilst also adding value by:

- supporting environmental sustainability; and/ or
- complementing the environmental thematic objectives of other programmes such as ERDF; and/or
- using the environment as a resource to help motivate disadvantaged people

Further information is available in the [ESF Operational Programme](#).

4.5 State Aid & Revenue Generation

Applicants are required, in the Outline Application, to provide a view on how their proposal complies with State Aid law. Applicants must ensure that projects comply with the law on State Aid.¹ Grant funding to any economic undertaking which is state aid can only be awarded if it is compatible aid, in that it complies with the terms of a notified scheme or is covered by the De Minimis Regulation. Guidance for grant recipients, explaining more about State Aid, is available; it is important that Applicants take responsibility for understanding the importance of the State Aid rules and securing their full compliance with them throughout the project, if it is selected into the Programme.

The Managing Authority is not able to give legal advice on State Aid. It is the responsibility of the Applicant to ensure that the operation is State Aid compliant.

¹ Article 107(1) of the Treaty on the Functioning of the European Union provides that: “Save as otherwise provided in the Treaties, any aid granted by a Member State or through state resources in any form whatsoever which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods shall, in so far as it affects trade between Member States, be incompatible with the internal market.”

Where the Applicant does not perceive that there is any State Aid, it should state whether or not it considers Articles 61 and 65(8) of regulation 1303/2013 to apply. This revenue should be taken into account in calculating eligible expenditure. Article 61 refers to monitoring revenues generated after completion of the project, and Article 65(8) how to deal with differences in the forecast and actual revenues at the end of the operation. The details of this will be tested at the full application stage.

4.6 Funding Agreement

The Funding Agreement is a standard, non-negotiable and legally binding document. Any successful Applicant will be subject to the terms and conditions contained within this agreement. Applicants are strongly advised to seek their own advice to ensure that they would be able to enter into and abide by the terms of the Funding Agreement.

Failure to meet any of the conditions of the agreement or the commitments within the application will result in claw back of funding.

Applicants should be aware that additional provisions and securities may be included within the Funding Agreement to protect the investment. These will be further discussed if relevant following the Full Application stage.

4.7 Procurement

All costs delivered by the Grant Recipient (the applicant) and/or delivery partners must be delivered on an actual cost basis. Other costs must be procured in line with EU regulations. The most common error identified during audit has been failure to comply with relevant procurement regulations and crucially to maintain a full audit trail to prove that they have complied with the relevant regulation. Robust and transparent procurement is required to ensure that Grant Recipients:

- consider value for money;
- maximise efficient use of public money; and
- maintain competitiveness and fairness across the European Union.

It is recommended that applicants seek their own legal advice pertaining to their procurement and requirements to publicise any tendering opportunities.

The Managing Authority is not able to give legal advice on procurement. It is the responsibility of the applicant to ensure the project is compliant in this respect.

4.8 Retrospection

There will be no retrospection for applications made against this call, other than in line with the general policy on retrospection which allows costs to be potentially eligible between outline and full application stage, but only where the full application is approved.

5. Application Process & Prioritisation Methodology

There are two stages to the ESF application process; Outline Application and if successful, Full Application. Applicants must fully complete the Outline Application Form (section 9 refers). Guidance is available on the [European Growth Funding](#) website pages. Acceptance of an Outline Application to progress to full application stage does not in any way indicate or constitute an offer of European Social Fund grant. Applications will be subject to a Gateway Assessment undertaken by the Managing Authority under the following criteria:

- Applicant eligibility;
- Activity and expenditure eligibility; and
- The fit with the ESF OP and the call.

Proposals that pass the Gateway Assessment will move into the Core Assessment which consists of the following:

- Strategic fit;
- Value for money;
- Management & control;
- Deliverability;
- Procurement / tendering; and
- State Aid compliance.

The Managing Authority will seek advice from partners when considering applications to ensure its assessment is informed by local economic growth conditions and opportunities within the context of Operational Programmes and the local ESIF Strategy. This will include the relevant LEP Area ESIF Committee and other partners deemed relevant to the application.

The assessment and any prioritisation will be undertaken using only the information supplied as part of the application process. The Managing Authority cannot accept further detail outside this process.

Non-public sector Applicants who are successful at the Outline Application stage may be subject to due financial diligence checks by the Managing Authority, prior to submission of a Full Application. Applicants will be required to submit accounts, and to clarify financial or other organisational information. New Applicant organisations may be required to provide details of a guarantor.

6. Support

Please note that this is a competitive call and to preserve impartiality we are unable to enter into correspondence with applicants over their Outline application. Details of where guidance can be found are contained throughout this calls document. In

exceptional circumstances, if there are issues with accessing this guidance, please contact:

✉: ESF.2014-2020@dwp.gsi.gov.uk

No applications are to be sent to this email address. Completed Outline applications must be sent to the email address provided in Section 9 – Document submission.

7. Key Documents

- Outline Application Form;
- Outline Application Form Guidance;
- Local Enterprise Partnership area's ESIF strategy; and
- National ESF Eligibility Rules.

8. Document Checklist

The assessment will be undertaken on the basis of documentation received at the point of closure of the call. Applicants should provide the following documentation.

Outline Stage:

- fully completed Outline Application;
- financial tables (if the application is against more than one Category of Region, a financial table for each Category of Region);
- Outputs, Results and Indicators tables (if the application is against more than one Category of Region, a Outputs, Results and Indicators table for each Category of Region); and
- three years financial accounts (if private or voluntary and community sector).

Failure to provide the above documentation could result in the application being rejected.

9. Document Submission

Completed Outline Applications must be submitted to

✉: 2014-2020.ESFAPPLICATIONS@DWP.GSI.GOV.UK

10. Timescales

Launch of Call advertised on gov.uk.	28 November 2016
Deadline for submission of Outline Application	15 January 2017

Outline Application forms not received by the deadline will not be assessed. Outline Applications which are not fully completed will be excluded.

For this call applications will normally be required to **commence delivery/activity within three months** of the award of contract.

Any changes related to the deadline for the submission of the Outline Application form will be notified on the [European Growth Funding](#) website pages.

11. Appendix A – Common output indicators

Appendix A – extract from Annex 1 of the ESF regulation
