AAIB Bulletin No 11/2016, page 11 refers

The report published in AAIB Bulletin 11/2016 included a plot of recorded radar data for the accident flight (see Figure 3 on page 11).

In the middle of Figure 3, under the altitude '2,900 ft amsl', the height should have been '**2,175 ft agl**', not '1,175 ft agl'. The supporting text, analysis and conclusions were unaffected by this error.

The corrected version of Figure 3 appears on the next page.

The online version of this report was corrected on 22 November 2016.
