# 1. Introduction

The 2014 to 2020 European Structural and Investment Funds bring the European Regional Development Fund, European Social Fund and part of the European Agricultural Fund for Rural Development together into a single European Union Structural and Investment Funds Growth Programme for England supporting the key growth priorities of innovation, research and development, support for Small and Medium Sized Enterprises, low carbon, skills, employment, and social inclusion.

The Government has confirmed that it will guarantee EU funding for structural and investment fund projects signed before the UK's departure from the EU, even when these projects continue after we have left the EU.

As a result, British businesses and other organisations will have additional certainty over future funding and should continue to apply for EU funding while the UK remains a member of the EU.

Funding for projects will be honoured by the government, if they meet good value for money and are in line with domestic strategic priorities. Each government department will take responsibility for the allocation of money to projects in line with these conditions and the wider rules on public spending. The full detail of the announcement can be found at the following website link: <http://tinyurl.com/h977fw4>

The Funds are managed by the Department for Communities and Local Government for the European Regional Development Fund, Department for Work and Pensions for the European Social Fund and the Department for Environment, Food and Rural Affairs for the European Agricultural Fund for Rural Development. These Departments are the Managing Authorities for each Fund. In London, the Greater London Authority acts as an Intermediate Body for the European Regional Development Fund and European Social Fund programmes. In some other areas, Intermediate Bodies are being designated by the Department for Communities and Local Government and the Department for Work and Pensions to perform the following tasks:

- Input into project calls in respect of local development needs (with reference to ESI Funds Strategies); and
- Assessment of applications against certain selection criteria in relation to fit with local priorities in respect of the European Regional Development Fund and European Social Fund.

The Managing Authorities and Intermediate Bodies work closely with local partners on ESI Funds sub-committees in each Local Enterprise Partnership area. Partners on these sub-committees provide:

- Practical advice and information to the Managing Authorities to assist in the preparation of local plans that contribute towards Operational Programme priorities and targets;
- Local intelligence to the Managing Authorities (or Intermediate Bodies where designated) in the development of project calls that reflect Operational Programme and local development needs as well as match funding opportunities; and
- Advice on local economic growth conditions and opportunities within the context of the Operational Programme and the local European Structural and Investment Funds Strategy to aid the Managing Authorities' (or Intermediate Bodies where designated) assessments at outline and full application stage.

This call is issued by the Greater London Authority and invites Outline Applications in respect of the European Regional Development Fund for England 2014 to 2020.

## 2. Call Context

On behalf of the national Growth Programme Board, the Department for Communities and Local Government (the Managing Authority) invites applications seeking European Regional Development Fund support under:

### **Priority Axis 4      Supporting the Shift towards a Low Carbon Economy in All Sectors**

#### **Investment Priorities:**

- 4a**      Promoting the production and distribution of energy derived from renewable resources.
- 4b**      Promoting energy efficiency and renewable energy use in enterprises.
- 4c**      Supporting energy efficiency, smart energy management and renewable energy use in public infrastructure, including in public buildings, and in the housing sector.
- 4f**      Promoting research and innovation in, and adoption of, low-carbon technologies.

The **European Regional Development Fund Operational Programme for England 2014 to 2020** sets out how the European Regional Development Fund will focus on investment to support economic growth and job creation. **Priority Axis 4** of the Operational Programme aims to support the shift to low carbon economy in all sectors.

Any application for funding will be required to clearly demonstrate that it meets the requirement of, and makes a meaningful contribution to, the delivery of the relevant Priority Axis of the [European Regional Development Fund Operational Programme](#).

In addition, applications will be expected to meet identified local development needs, as expressed in the scope of this call and as set out in the [London](#) European Structural and Investment Funds Strategy.

Applicants are advised to familiarise themselves with the detail of the Operational Programme, local European Structural and Investment Funds Strategy and the relevant documentation listed in sections 5 through to 8 **prior to** submitting an Outline Application.

### 3. Scope of the Call

#### 3.1. Scope

This call invites Outline Applications which support the delivery of Priority Axis 4 of the European Regional Development Fund Operational Programme and respond to the local development need set out in the [London](#) European Structural and Investment Funds Strategy.

<b>Indicative Fund Allocation:</b>	<p>Indicatively, through this call the Managing Authority expects to allocate up to £12,900,000.</p> <p>The Managing Authority reserves the right to invite to full application (and subsequently approve) projects that have a cumulative value that is higher or lower than this indicative allocation, subject to the volume and quality of proposals received. The Managing Authority may also decide to place some projects submitted through this call on a reserve list and invite them to proceed at a later date, subject to the availability of funding.</p> <p>There is no indicative allocation of European Regional Development Fund funding between capital and revenue activity, both capital and revenue is eligible dependent on the nature of activities/Investment Priorities set out in the call.</p>
------------------------------------	---

<b>Minimum application level</b>	European Regional Development Fund investment is intended to make a significant impact on local growth. Applications are expected to demonstrate appropriate scale and impact. The Managing Authority does not intend to allocate less than £500,000 European Regional Development Fund to any single project. Consequently projects with a total value of less than £1,000,000 will not normally be supported under this call
<b>Duration of project activity</b>	Projects should plan to deliver activity for a maximum of three years, however the Managing Authority reserves the right to vary the maximum duration, upwards or downwards.
<b>Geographical Scope</b>	<p>The England European Regional Development Fund Operational Programme operates on a National basis. All eligible European Regional Development Fund expenditure must benefit organisations located in England.</p> <p>Revenue projects should predominantly support businesses based within the Local Enterprise Partnership area of this call.</p>
<b>Specific call requirements</b>	<p>Please ensure that you read the relevant sections of the European Regional Development Fund (ERDF) Operational Programme prior to submitting an application.</p> <p>The Greater London Authority welcomes applications under each of the Investment Priorities although note that, to date, no projects are being funded under Investment Priority 4b. (which focuses on energy efficiency, not resource efficiency).</p> <p>To date, under previous ERDF Calls, most applicants submit proposals covering one Investment Priority only. Whilst aligning with more than one Investment Priority is permitted, applicants should take into account the outputs which relate to each Investment Priority (the four Investment Priorities have a mix of the same and different outputs). If you are planning to submit a proposal which covers more than one Investment Priority you should explain the reasons for this, and ensure you split the outputs between them accordingly. Projects will be required to report on, and evidence, the achievement of the outputs separately under each Investment Priority.</p> <p>Through this call the Greater London Authority will not provide grants to private (for profit) businesses seeking support to grow their own businesses. ERDF will provide separate loan/equity schemes to support these types of</p>

	<p>investments. Proposals from private (for profit) businesses that would provide facilities or services to support the growth of third party businesses will be considered on a cost recovery basis.</p> <p>All applications under this call should be revenue-based (advice and guidance) projects only. Capital investment under Priority Axis 4 is instead anticipated to be delivered through a Financial Instrument, the Mayor of London's Energy Efficiency Fund.</p> <p>A number of projects have already been funded under Priority Axis 4 in London, with several others already in the pipeline; the latest list is available <a href="#">here</a>.</p> <p>Please contact the GLA at <a href="mailto:esifcalls@london.gov.uk">esifcalls@london.gov.uk</a> with enquiries about this Call. Note that we will not advise on the likely success or otherwise of a proposal. However, to avoid applicants spending unnecessary time developing an application we can advise on relevant sources of information and offer high-level technical feedback on the likely eligibility, or not, of proposed activities.</p> <p>Please check the <a href="#">London Enterprise Panel website</a> for a Q&amp;A and details of a briefing session</p> <p><b>Good value for money and alignment with domestic strategic priorities</b> will form a key part of the assessment and appraisal of all applications. Proposals should therefore ensure that these two conditions are fully and robustly demonstrated.</p>
<p><b>Call Deadlines</b></p>	<p>For this specific call, applications will be assessed after the close of the single deadline.</p> <p>Applications received after the published call close date will not be considered. All applications will be assessed following closure of the call.</p>

### 3.2. Local Development Need

Projects must deliver activity which directly contributes to the objectives of Priority Axis 4 of the Operational Programme, one or more of the relevant Investment Priorities and meet the local development need expressed in the table below.

## LOCAL DEVELOPMENT NEED

### Local Growth Priorities:

Please see the [London European Structural and Investment Funds Strategy](#). In summary:

The market failure caused by climate change and the general case for public sector intervention to manage environmental issues is clear in economic theory. As a densely populated city, London's environment is under considerable pressure and it faces significant challenges, as projected economic and population growth exerts further pressure on already strained resources.

London's homes and workspaces are estimated to emit around 79% of the Capital's CO<sub>2</sub> emissions. By 2050 it is estimated that 80% of buildings in London today will still be in use: retrofitting these buildings with energy efficiency and energy supply measures is therefore an essential component of the Mayor's strategy to meet the CO<sub>2</sub> emissions targets.

The London Plan sets targets to increase the amount of commercial and industrial waste managed within London from 60% to 85% by 2020. This is a significant challenge given that commercial and industrial waste is set to grow by 50% from 6.6 million to 9.9 million tonnes. The London Plan estimates that over 300 new facilities are needed to manage London's municipal and commercial and industrial waste by 2020. The Plan also sets targets requiring a significant increase in recycling and advanced conversion technologies to recover energy from the resulting output (i.e. anaerobic digestion, gasification or pyrolysis) within the commercial and industrial waste stream, to reduce the amount of waste exported to surrounding regions.

The Mayor is encouraging increasing levels of London's energy to be generated through decentralised energy. The GLA has already undertaken the first ever decentralised energy masterplanning exercise across London and is now supporting the commercialisation of large-scale decentralised energy projects can heat and power London's existing and new buildings more carbon-efficiently.

Ensuring a competitive environment for science and technology firms and investors is a key priority. The low carbon and environmental goods and services sector is a prime example of how this can be achieved.

Technological innovation is key to both seizing these opportunities and meeting the targets to reduce London's CO<sub>2</sub> emissions. ERDF can be invested in activities that support innovation and create market demand for the low carbon and environmental goods and services sector. This will include projects that accelerate market development, drive technological innovation and support the adoption, deployment and cost reduction of low carbon goods and services across all sectors as London makes its transition into a low carbon, resource efficient world city

## Local Priorities:

Proposals should demonstrate alignment with local development need and priorities including:

- Supporting London's SMES to improve their energy efficiency and increase their renewable energy use in enterprises by the implementation of low carbon technologies, products, processes and approaches and best practice in energy efficiency management. This can be done in all areas of the business process in order to reduce energy consumption, make financial savings, increase SME productivity and mitigate the impacts of CO2 emissions.
- Total waste reduction, and the waste generated that can be turned into new materials and low carbon energy. The amount of water used can be reduced; better use of London's rainfall should be made which, in turn, will reduce flood risk and the pressure on London's sewers. Fuel efficiency of businesses, minimising waste generation and water consumption, and increasing re-use and recycling can deliver cost savings to businesses.
- Making energy efficiency and renewable energy technologies more accessible to SMEs, helping smaller businesses to improve their environmental performance without the need for large-scale investment. Under Priority Axis 4 the focus will be on the application of new technologies by SMEs rather than their development.
- The objective of improving how SMEs commercialise research and how they collaborate with research institutions can be taken forward through activities such as knowledge exchange, business engagement, networking and investment support, with the choice of sectors and technologies reflecting the approach of smart specialisation. Smart Specialisation is an approach to addressing new growth opportunities and is based on the regional identification of priorities for research, development and innovation investment, which offer competitive advantages in relation to local physical, knowledge and enterprise assets.
- Applications must demonstrate added value to existing provision and how they link with London's Growth Hub.

### 3.3. Operational Programme Investment Priorities

Applications must specify the activities to be delivered and must directly contribute to **one or more** of the following Investment Priorities:

<b>Investment Priority</b>	<b>4a – Promoting the production and distribution of energy derived from renewable sources.</b>
----------------------------	---

<b>Specific Objectives</b>	Increase the number of small scale renewable energy schemes in England.
<b>Indicative Actions</b>	<p>Projects will support micro-energy installations, off-grid energy productions, renewable heat networks and ground and air source heat pumps:</p> <p>Under this Investment Priority, indicative actions to be supported by European Regional Development Fund may include:</p> <ul style="list-style-type: none"> <li>Measures to support the wider deployment of renewable heat, including micro-generation, geothermal, renewable heat networks or district heating, ground source and air source heat pumps. Also including biomass systems with associated heat off-take and heat distribution networks along with recycling processing reprocessing and remanufacturing facilities</li> </ul> <p><b>Financial Instrument</b></p> <p>The Greater London Authority is setting up a 'Financial Instrument' which may be used to support activity under this Investment Priority.</p>

<b>Investment Priority</b>	<b>4b – Promoting energy efficiency and renewable energy in enterprises.</b>
<b>Specific Objectives</b>	Increase energy efficiency in particular in Small and Medium sized Enterprises, including through the implementation of low carbon technologies.

<p><b>Indicative Actions</b></p>	<p>The main target group is Small and Medium Sized Enterprises.</p> <p>Under this investment priority indicative actions to be supported by European Regional Development Fund may include:</p> <ul style="list-style-type: none"> <li>• Enhanced advice, support, information and action to promote innovation in businesses and how they operate, in order to deliver best practice in energy management. This will include innovation in energy efficiency and energy cost reduction to improve businesses' competitiveness and resilience</li> <li>• Support to businesses to undertake 'green' diagnostics or audits of energy efficiency and potential for renewable generation and energy use, which will be followed by provision of energy efficiency information and guidance, tailored energy action plans and support to implement them</li> <li>• Supporting an increase in energy efficiency in enterprises including an emphasis on 'whole place' especially through improving industrial processes, designing out waste, recovery of 'waste' heat energy and combined heat and power</li> <li>• Supporting increased Small and Medium Sized Enterprises access to national and local government procured contracts for energy efficient goods and services</li> <li>• Developing low carbon innovation in relation to energy efficiency within enterprises, including through technologies and engagement practices</li> </ul> <p><b>Financial Instrument</b></p> <p>The Greater London Authority is setting up a 'Financial Instrument' which may be used to support activity under this Investment Priority.</p>
----------------------------------	--

<p><b>Investment Priority</b></p>	<p><b>4c – Supporting energy efficiency, smart energy management and renewable energy use in public infrastructure, including in public buildings, and in the</b></p>
-----------------------------------	---

	<b>housing sector.</b>
<b>Specific Objectives</b>	Increase the energy efficiency of homes and public buildings, through the implementation of low carbon technologies.
<b>Indicative Actions</b>	<p>Under this investment priority indicative actions to be supported by European Regional Development Fund may include:</p> <ul style="list-style-type: none"> <li>• Provision of advice and support to increase the use and take up of low carbon technologies, energy efficiency measures, renewable energy technologies and smart energy systems in housing stock and public buildings</li> </ul> <p><b>Financial Instrument</b></p> <p>The Greater London Authority is setting up a 'Financial Instrument' which may be used to support activity under this Investment Priority.</p>

<b>Investment Priority</b>	<b>4f – Promoting research and innovation in, and adoption of, low-carbon technologies.</b>
<b>Specific Objectives</b>	Increase innovation in, and adoption of, low carbon technologies.
<b>Indicative Actions</b>	<p>Under this investment priority indicative actions to be supported by European Regional Development Fund may include:</p> <ul style="list-style-type: none"> <li>• Research and Development, innovation and supply chain work for low carbon technologies and materials, including; wave and wind energy, smart grids, distributed generation, solar and photovoltaics, heat networks, heat pumps and low carbon heat for energy intensive industries</li> <li>• Research underpinning carbon capture and storage, taking account of the restrictions laid down in Article 3.3.b of the European Regional Development Fund</li> <li>• Technology centres of excellence and test facilities, including relevant Catapult centres</li> <li>• Renewable technologies in the United Kingdom</li> </ul>

	<p>renewable energy roadmap</p> <ul style="list-style-type: none"> <li>• Research, development, demonstration and adoption of technologies and systems that support low-energy transport and accelerate the establishment of new technologies such as low emissions vehicles (electric, hybrid and hydrogen)</li> <li>• Knowledge transfer with Higher Education/Further Education institutions and Businesses</li> <li>• Supporting low carbon tech start-ups and greater commercialisation of low carbon products and processes</li> <li>• Demonstration and deployment of decentralised renewable energy technologies</li> <li>• Research, development and innovation and supply chain development for low carbon and resource efficient technologies and materials (including small scale pilot programmes that test the market with new low carbon solutions and the use of secondary materials).</li> </ul>
--	---

## 4. Required Outputs under this Call

Applicants will need to demonstrate how the eligible activity, funded by the European Regional Development Fund will achieve the ERDF programme-level outputs for Priority Axis 4.

For projects proposing to deliver activity against more than one Investment Priority, the appropriate outputs should be selected. Project will be required to report on, and evidence, the achievement of the outputs separately under each Investment Priority.

For projects coming forward under this call the expected outputs and results are:

<b>Investment Priority 4a</b>	
Please contact <a href="mailto:esifcalls@london.gov.uk">esifcalls@london.gov.uk</a> for a copy of the Output Indicator definitions guidance	
<b>Output reference</b>	<b>Name</b>
C1	Number of enterprises receiving support (London target 102)
C5	Number of new Enterprises supported (London target 28)

C30	Additional capacity of renewable energy production (London target 17 Megawatts)
C34	Estimated annual decrease of greenhouse gases (GHG) (London target 10,256 tonnes of CO2)

<b>Investment Priority 4b</b>	
Please contact <a href="mailto:esifcalls@london.gov.uk">esifcalls@london.gov.uk</a> for a copy of the Output Indicator definitions guidance	
<b>Output reference</b>	<b>Name</b>
C1	Number of enterprises receiving support (London target 768)
C34	Estimated annual decrease of greenhouse gases (GHG) (London target 8,527 tonnes of CO2)

<b>Investment Priority 4c</b>	
Please contact <a href="mailto:esifcalls@london.gov.uk">esifcalls@london.gov.uk</a> for a copy of the Output Indicator definitions guidance	
<b>Output reference</b>	<b>Name</b>
C31	Number of households with improved energy consumption (London target 774)
C32	Decrease of annual primary energy consumption of public buildings (London target 747,191 kWh/year)
C34	Estimated annual decrease of greenhouse gases (GHG) (London target 12,631 tonnes of CO2)

<b>Investment Priority 4f</b>	
Please contact <a href="mailto:esifcalls@london.gov.uk">esifcalls@london.gov.uk</a> for a copy of the Output Indicator definitions guidance	
<b>Output reference</b>	<b>Name</b>
C1	Number of enterprises receiving support (London target 202)

C5	Number of new Enterprises supported (London target 74)
C26	Number of enterprises cooperating with research entities (London target 36)
C29	Number of enterprises supported to introduce new to the firm products (London target 59)
C34	Estimated annual decrease of greenhouse gases (GHG) (London target 5,603 tonnes of CO2)

The Managing Authority expects the level of outputs proposed within outline applications to be realistic and achievable and to deliver good value for money. The application should clearly state the methodology used to determine the levels of outputs proposed.

All operations will be required to report regularly on progress toward achievement of targets. This will need to include both quantitative and qualitative data relevant to the appropriate geographical areas. Applicants will need to explain how they will collect and record this information to maintain a fully evidenced audit trail. It should be noted that if an operation fails to deliver contracted outputs, a performance penalty may apply.

## 5. Application Process & Prioritisation Methodology

There are two stages to the European Regional Development Fund application process:

- (i) Outline Application and, if successful
- (ii) Full Application.

Acceptance of an Outline Application to progress to full application stage does not in any way indicate or constitute an offer of European Regional Development Fund grant.

Applicants must fully complete the [Outline Application](#) which will be assessed by the Managing Authority against all of the national [Selection Criteria](#) except where an Intermediate Body has been designated to assess against some of the selection criteria. Where an Intermediate Body has been designated to undertake delegated tasks, the Intermediate Body will undertake the assessment against the selection criteria in relation to fit with local priorities.

Outline Applications will be assessed in two stages, Gateway assessment and Core assessment.

The Gateway assessment is undertaken by the Managing Authorities and considers:

- applicant eligibility;
- activity and expenditure eligibility; and
- fit with the National Operational Programme and the local development need set out in section 2.

Applications that fail the Gateway assessment undertaken by the Managing Authority will be rejected. Applications which pass the Gateway assessment will then be assessed by the Managing Authority in relation to all Core assessment criteria.

In areas where an Intermediate Body<sup>1</sup> has been designated, the following will apply:

The Intermediate Body will assess the application against the following Core assessment criteria:

- Local Strategic Fit

The Managing Authority will assess the application against the following Core assessment criteria:<sup>2</sup>

- National Strategic Fit
- Value for money
- Management and control
- Deliverability
- Compliance
  - Procurement
  - State Aid
  - Publicity requirements
- Cross cutting themes
  - Environmental sustainability
  - Equal Opportunities

The Intermediate Body will also provide advice to the Managing Authority to assist the Managing Authority to make its assessment against the following Core selection criteria:

- Value for money
- Deliverability

---

<sup>1</sup> This process works differently for the Greater London Authority. Please contact the Greater London Authority for further details.

Having assessed projects against these criteria the relevant Local Economic Partnership area European Structural and Investment Funds Sub-Committee will advise the Managing Authority or Intermediate Body as relevant on the contribution to local economic growth conditions and opportunities within the context of the Operational Programme and local European Structural and Investment Funds Strategy to aid the Managing Authority's assessments (at outline and full application stage).

Having concluded their assessments the Managing Authority and the Intermediate Body will prioritise the applications they wish to proceed based on their assessment against their respective selection criteria. Only projects that the Managing Authority and the Intermediate Body each agree should proceed, based on their respective core selection criteria, will be invited to submit a full application. Subsequently only those full applications that the Managing Authority and the Intermediate Body each agree should proceed, based on their respective selection criteria, will be approved.

Please note that the Managing Authority's decision is final and there are no appeals. If you wish to complain about the calls and application process, please follow the procedure set out at <https://www.gov.uk/government/organisations/department-for-communities-and-local-government/about/complaints-procedure>

## 6. General Information

### 6.1. National Eligibility Rules

When developing an application, Applicants must refer to the [National Eligibility Rules](#) setting out the requirements of the 2014-2020 European Regional Development Fund Programme. It is the responsibility of the Applicant to ensure that the National Eligibility Rules are adhered to both at application stage and following approval. Failure to do so can lead to financial penalties leading to recovery of up to 100% of the grant value. If in doubt on any of the requirements, Applicants are strongly advised to seek specialist advice.

European Regional Development Fund eligibility rules apply to **all** project spend within the eligible costs, including match funding.

The European Regional Development Fund is governed by European regulations and national rules. Applicants are advised to familiarise themselves with the relevant documentation, (Section 8 Key Document refers) prior to submitting an Outline Application. If successful at the full application stage, Applicants will enter into [a Funding Agreement](#) and must abide by the standard terms and conditions contained therein. Once a Funding Agreement has been issued it should be signed and returned within 30 days, unless otherwise agreed with the Managing Authority.

Applicants are therefore strongly advised to read these terms and conditions to ensure that they are able to enter into such an agreement prior to responding to the call.

## **6.2. Eligible Applicants**

Section 4 of the [National Eligibility Rules](#) sets out who is eligible to apply. Financial Due Diligence checks will be undertaken on non-public sector Applicants successful at the Outline Application stage.

Applicants must be legally constituted at the point of signing a Funding Agreement. If the application is approved the Applicant organisation will enter into a legally binding Funding Agreement and therefore will carry the liability for ensuring that the terms and conditions of the Funding Agreement are met.

If there is more than one organisation applying for the funds, a lead organisation must be selected to become the Applicant (and Grant Recipient) with the remaining organisation(s) acting as Delivery Partner(s). In this situation the Applicant would be responsible and liable for the Delivery Partner(s) and ensuring the project is operating compliantly.

During the application process the Managing Authority will consider the Applicant's track record, both positive and negative. If the Applicant has been involved in the delivery of previous European grants and any irregularities have been identified, the Managing Authority will expect to see what steps have been taken to ensure that the risk of further irregularities in the future is mitigated. It is acknowledged that some organisations will be new to European Structural and Investment Funds funding and will not have a track record.

## **6.3. Contribution Rate & Match Funding**

European Regional Development Fund investment must not be used to replace existing funding sources. European Regional Development Fund investment must enable activity to take place that would not otherwise happen or to increase the scope, scale or intensity of activity. The level of European Regional Development Fund awarded will be the minimum in order for the project to proceed

The maximum Contribution Rate is 50% of the total eligible project costs subject to State Aid regulations.

The remaining 50% or more must come from other eligible sources as specified under section 6 of the National Eligibility Rules. During the application process applicants will need to satisfy the Managing Authority that they have, or are able to put in place eligible match funding for the balance of costs. Other European Union funds cannot be used as a source of match funding.

European Regional Development Fund investment is limited by State Aid regulations and where the award of European Regional Development Fund would constitute State Aid the European Regional Development Fund grant rate may fall below the 50% maximum.

European Regional Development Fund is paid quarterly in arrears and expenditure must be defrayed prior to the submission of any Grant claims. Applicants may be asked to demonstrate how they are able to cash flow the operation.

#### **6.4. Project Timescales**

European Regional Development Fund funding will normally be approved for three years, however the Managing Authority reserves the right to extend the contract term in exceptional circumstances.

Projects approved through this call will normally be expected to:

- Submit a detailed and complete full application within three months of formal selection at outline stage. Projects which fail to meet this deadline may be deselected,
- Commence delivery (defraying European Regional Development Fund eligible costs) within three months of formal approval. Projects which fail to meet this deadline may be deselected, and
- Be closed by June 2023.

#### **6.5. Capital Projects**

In developing the budget for the Outline Application, applicants seeking European Regional Development Fund to support a capital project should note that:

- new build projects will normally be expected to achieve the Building Research Establishment Environmental Assessment Method (BREEAM) rating of 'excellent'; however BREEAM 'very good' will be accepted where this is the maximum feasible standard.
- Refurbishment projects will normally be expected to achieve the BREEAM rating of 'Very Good'.
- Infrastructure projects will normally be expected to achieve the Civil Engineering Environmental Quality Assessment rating of 'Very Good'.

#### **6.6. Cross Cutting Themes/Horizontal Principles**

All applications selected as a result of this call will be required to demonstrate how the Cross Cutting Themes have been addressed in the project design and development. Cross Cutting Themes for European Regional Development Fund are 'equality and anti-discrimination' and 'sustainable development'. Further information is available in Section 11 of the [European Regional Development Fund Operational Programme](#).

Projects seeking funding under Priority Axis 4 with the objective of reducing Greenhouse Gas must have a transparent methodology for calculating and monitoring emissions, with actual and auditable GHG reductions in line with the Climate Change Act 2008.

### **6.7. Additionality, Duplication and Displacement**

Additionality is a core principle of European Regional Development Funding. Applicants must be able to demonstrate that the activity paid for out of European Regional Development Funding adds value to new or existing activity.

European Regional Development Funding cannot support activities that duplicate existing provision/services within the region.

Applications need to identify and evidence how the beneficiaries will use the service and demonstrate that the project does not displace other activity available in the market place.

### **6.8. State Aid & Revenue Generation**

Applicants are required, in the Outline Application, to provide a view on how their proposal complies with State Aid law. Applicants must ensure that projects comply with the law on State Aid. Grant funding to any economic undertaking which is State Aid can only be awarded if it is compatible aid, in that it complies with the terms of a notified scheme under the General Block Exemption Regulation (EU) 651/2014.

Only if this is not possible should Applicants use the De Minimis Regulation or 'no aid'. [Guidance for Grant Recipients](#), explaining more about State Aid, is available; it is important that Applicants take responsibility for understanding the importance of the State Aid rules and securing their full compliance with them throughout the project, if it is selected into the Programme.

The Managing Authority is not able to give legal advice on State Aid. It is the responsibility of the applicant to ensure that the operation is State Aid compliant.

### **6.9. Procurement**

All costs claimed by the Applicant (Grant Recipient and/or Delivery Partner(s)) must be recovered on an actual cost basis. Other costs must be procured in line with National (including [Public Procurement Regulation 2015](#)) and European Union regulations. Procurement will be subject to audit and verification and any irregularity will result in a financial penalty of up to 100% of the grant paid. Robust and transparent procurement is required to ensure that Grant Recipients:

- Consider value for money;
- Maximise efficient use of public money;

- Maintain competitiveness and fairness across the European Union.

It is **strongly recommended** that Applicants seek and follow legal advice in respect of procurement requirements. Procurement irregularities remain the most substantive cause of error and clawback of grants.

## 7. Support

Please note that this is a competitive call and to preserve impartiality the Managing Authority and, where appropriate, the Intermediate Body are unable to enter into correspondence with applicants over their Outline Application. Details of where guidance can be found are contained throughout this call document. In exceptional circumstances, if there are issues with accessing this guidance, please contact: [esifcalls@london.gov.uk](mailto:esifcalls@london.gov.uk) (this is the address for the Greater London Authority 'Intermediate Body').

## 8. Key Documents

- European Regional Development Fund Operational Programme;
- Outline Application Form;
- Outline Application Form Guidance;
- Local Enterprise Partnership area's European Structural and Investment Funds Strategy;
- Eligibility Guidance;
- Target Definitions;
- Funding Agreement (Revenue and/or Capital).

## 9. Document Checklist

Incomplete applications will be rejected. Please ensure the following information (documents) are submitted.

Outline Stage:

- Fully completed Outline Application;
- Financial Tables;
- Outputs, Results and Indicators Tables.

## 10. Document Submission

Completed Outline Applications must be submitted via **email** to the address in Section 7.

Outline Application forms not received by the deadline will not be assessed. Outline Applications which are not fully completed will be excluded.

For this call applications will normally be required to **commence delivery/activity within three months** of the award of a Funding Agreement.

Any changes related to the deadline for the submission of the Outline Application form will be notified on the [European Growth Funding](#) website pages.
