# 1. Call Context

The 2014 to 2020 European Structural and Investment Funds (ESIF) bring the European Regional Development Fund (ERDF), European Social Fund (ESF) and part of the European Agricultural Fund for Rural Development (EAFRD) together into a single European Union (EU) Structural Investment Funds (ESIF) Growth Programme for England supporting the key growth priorities of innovation, research and development, support for Small and Medium Enterprises (SME), low carbon, skills, employment, and social inclusion.

European Structural and Investment Funds are managed by the Department for Communities and Government (ERDF), Department for Work and Pensions (ESF) and the Department for Environment Food and Rural Affairs (EAFRD). In London, the Greater London Authority acts as an Intermediate Body for the European Regional Development Fund and European Social Fund programmes. Unless stated otherwise, the term "Managing Authority" will apply to all these organisations. These Departments are the Managing Authorities for each Fund. The Managing Authorities work closely with local partners who provide:

- Practical advice and information to the Managing Authorities to assist in the preparation of local plans that contribute towards Operational Programme priorities and targets;
- Local intelligence to the Managing Authorities in the development of project calls (decided by the Managing Authorities) that reflect Operational Programme and local development needs as well as match funding opportunities;
- Advice on local economic growth conditions and opportunities within the context of Operational Programmes and the local ESIF Strategy to aid the Managing Authority's assessments at outline and full application stage.

This call is issued by the Department for Work and Pensions (DWP) to commission ESF Funded projects that will support the **Priority Axis 2 of the Operational Programme: Skills for Growth** and **Investment Priority: 2.2 Improving the Iabour market relevance of education and training systems** as set out in the ESF Operational Programme.

All applications will need to be eligible under the European Social Fund Operational Programme for England 2014 to 2020. The <u>ESF Operational Programme</u> is available for applicants to read.

This call for proposals sets out the requirements for any applicants to consider before applying. Applications against this call will be assessed as part of a two stage appraisal process and successful applicants will enter into a funding agreement with the DWP. Further information is given in sections 4 to 10. Applicants are advised to familiarise themselves with the detail of the Operational Programme, local European Structural and Investment Funds Strategy and the relevant documentation listed in sections 5 through to 8 *prior to* submitting an Outline Application.

All ESF applicants will need to be aware of the requirement to collect and report data on all participants as per Annex 1 of the ESF regulation (see Appendix A). This will be in addition to the requirement to report on the output and result indicators referred to in section 3 of the call for proposal.

#### 1.1 National Context

This priority axis aims to support skills for growth. It will support activities through:

**Investment Priority 2.2** - Improving the labour market relevance of education and training systems, facilitating the transition from education to work, and strengthening vocational education and training systems and their quality, including through mechanisms for skills anticipation, adaptation of curricula and the establishment and development of work based learning systems, including dual learning systems and apprenticeship schemes

Where appropriate, training may complement activities delivered within the thematic objectives relating to innovation, low carbon, climate change, ICT and SME competitiveness, especially where improving intermediate and advanced skills can contribute to these thematic objectives. The focus on SMEs complements ERDF priorities, reflects the lower level of leadership, management and enterprise skills in smaller businesses and takes account of the fact that larger businesses in the UK are already eligible for skills support through the Employer Ownership Fund (EOF).

ESF will not fund activity that duplicates or cuts across national policy on grants and loans for tuition for skills activities. Exemptions to this principle will be considered only where a local specific need and/or market failure has been demonstrated and where the activity falls within the scope of the Operational Programme.

Full details of what can and cannot be supported under this Investment Priority are set out in the Operational Programme. Details of the specific objectives have been reproduced below.

Specific Objective	Results that the Member States seek to achieve with Union support
To promote improvements in the labour	The additional support from this investment
market relevance of skills provision through	priority will enable the design of skills
active engagement with relevant institutions	provision which will help individuals gain
and employers, particularly SMEs and	skills and qualifications relevant to the
Micro businesses.	needs of the labour market

#### **1.2 Local Development Need**

Projects must deliver activity which directly contributes to the objectives of Priority Axis 2, Investment Priority 2.2 of the Operational Programme, and which meets the **local development need** expressed in the text and table below.

Through this call, the ESF Managing Authority is seeking to provide support for collaboration projects with SMEs to enable the design of skills provision to meet local strategic needs in growth and skills shortage sectors in Leeds City Region. Major skills shortage areas identified as a priority in the Leeds City Region Employment and Skills Plan are the construction requirements of major schemes including infrastructure developments, manufacturing and engineering, and digital skills across sectors. In particular, the activity is expected to help increase provision of apprenticeships (particularly higher and degree apprenticeships) to strengthen the City Region's apprenticeship offer in line with the needs of SMEs. Applications should clearly describe how the proposed operation offers the best value for money to meet the identified local development need. Proposals must provide a detailed, granular explanation as to how the proposed provision will impact on individuals (in this instance, employees of SMEs) on the programme. The introduction of the Apprenticeship Levy will encourage larger businesses to look at skills development for their workforce in a new way, particularly at skills levels level 4 and above, which could be supported by their Levy contribution. The current availability of higher and degree apprenticeships in Leeds City Region is limited, particularly in growth and skills shortage areas.

#### Local Economic Context

Leeds City Region is the biggest city region economy in the country, with an annual output of  $\pounds 62.5 \text{ bn}^1$  representing 5% of the English total. It hosts 119,000 businesses, 3 million residents and a workforce of  $1.4 \text{m}^2$ . Nine Higher Education institutions and 14 Further Education Colleges are based in the City Region, which is home to a student population of around 230,000<sup>3</sup>.

Despite the City Region's undoubted economic strengths and assets, it is not realising its full potential. The decline of heavy industry has left a legacy of pockets of serious deprivation and an economy that is less productive than those in many other parts of the country.

The LEP's revised vision for the City Region is to be a globally recognised economy where good growth delivers high levels of prosperity, jobs and quality of life for everyone. This revised vision places a greater emphasis on "good growth", where a

<sup>&</sup>lt;sup>1</sup> GVA data for LEPs 1997-2014, ONS 2015

<sup>&</sup>lt;sup>2</sup> NOMIS, 2016

<sup>&</sup>lt;sup>3</sup> Higher Education Statistics Authority and Association of Colleges data

radical uplift in growth, productivity and business success goes hand in hand with quality jobs that connect all people and places to opportunity and improved quality of life. Achieving the vision will mean that the local economy becomes stronger, more dynamic and resilient, and will be on course to consistently improve performance compared to national averages and international competitors over time.

The original Leeds City Region Strategic Economic Plan (SEP) was agreed in 2014, and has been updated to reflect the new focus on good growth and to account for economic change since the initial publication.

The following thematic priorities were set out in the revised SEP:

#### PRIORITY 1: Growing Businesses PRIORITY 2: Skilled People, Better Jobs PRIORITY 3: Clean Energy and Environmental Resilience PRIORITY 4: Infrastructure for Growth

#### Local priorities

Leeds City Region has undertaken targeted and relevant research to establish the requirements within the city region as detailed below.

This programme of activity aims to address the challenges set out in Leeds City Region ESIF Strategy. The Leeds City Region Employment and Skills Plan, published in June 2016, sets out a priority to build workforce skills and attract talent.

#### Challenges

The LEP is keen to encourage colleges, universities and training providers in the city region to explore the opportunity that advanced, higher and degree level apprenticeships offer for technical routes into higher level learning. Employer interest in degree apprenticeships is growing, with companies keen to pursue higher and degree apprenticeships, particularly in growth and skills shortage areas, but there are significant gaps in the available offer.

The city region is keen to play its part in achieving the Government's ambition to create 3 million new Apprenticeship opportunities within the lifetime of this Parliament. Currently only 24% of businesses in LCR employ an Apprentice (Working Futures). A strong higher and degree apprenticeship offer is crucial to achieving this ambition.

Since 2012, the Apprenticeship Hubs programme has provided a central, local point of contact for free, independent and co-ordinated advice and support for small and medium sized businesses (SMEs) and young people. Apprenticeship Hub activity is

now being delivered via an ESIF contract and will be an important "route to market" for any recruiting learners to provision developed via this call.

From August 2015, the West Yorkshire Combined Authority has managed the Apprenticeship Grant for Employers on a devolved basis and has introduced incentive rates to encourage the take up of Apprenticeships in line with economic priorities and the LEP is about to launch a programme of advice and awarenessraising for businesses regarding apprenticeship reforms and the levy. Interventions to be supported under this Call should build upon the work already taking place at a local level.

This Call will address the challenges set out in both the Leeds City Region ESIF Strategy and Employment and Skills Plan:

- Skill levels have improved over time but less quickly than the England average. The Leeds City Region has too many people with no qualifications, not enough people with higher level skills, and too many employers do not invest in enough training.
- The Leeds City Region has a skills gap of 50,000-65,000 people at each NVQ level compared to the national average.
- Current skills and training provision could be better aligned to the needs of employers and growth sectors and for the replacement workers that will be needed as existing employees retire.

The LEP's Employment and Skills Plan, published in June 2016, identifies significant skills shortages in the following areas:

- gearing up to deliver major capital/infrastructure schemes
- digital skills across sectors
- replacement demand in engineering and manufacturing.

Details of the Leeds City Region ESIF Strategy can be found at <u>http://www.the-lep.com/LEP/media/New/ESIF%20docs/Leeds-City-Region-ESIF-FINAL.pdf</u> and the Employment and Skills Plan can be found at: <u>http://www.the-lep.com/LEP/media/New/Jobs%20intel%20docs/Leeds-City-Region-Employment-and-Skills-Plan-2016-2020-FINAL.pdf</u>

This activity should align with business-facing LEP activity, particularly the Growth Service, ESF funded activity including the Skills Service/Skills Fund and Apprenticeship Hubs, and other activity including that funded through HEFCE's Degree Apprenticeship Development Fund.

This Call is intended to enable applicants to develop creative and innovative skills provision approaches alongside employers and other relevant institutions. The kind of activity that may be supported may include (but is not limited to):

- 1. Bringing together businesses and potential providers (including colleges, universities and private training providers) to identify training requirements;
- 2. Supporting the development of technical provision in line with economic need and in response to evidenced gaps, particularly higher and degree apprenticeship provision;
- 3. Building capacity in SMEs to engage with skills provision;
- 4. Identification of CPD needs for FE/HE lecturers in order to deliver the specialist provision that employers require.

Robust, proportionate evaluation of impact should be built into all activity.

#### Additional requirements:

Successful providers should demonstrate:

- a strong track record of engaging with SMEs in Leeds City Region to understand and address their skills and training requirements;
- an excellent understanding of apprenticeship standards in LEP priority and growth sectors and the current offer in Leeds City Region;
- an excellent understanding of local activity including Apprenticeship Hubs and the Skills Service, and set out how the proposed activity will align;
- how they will build on existing evidence of what works;
- how novel and innovative approaches would be evaluated for impact and value for money;
- strong knowledge of the local district labour market and the needs of local businesses, particularly in priority growth sectors;
- additionality (not funding existing activity/learners);
- how they will ensure the programme maximises mainstream provision and provides additionality to the marketplace by working in partnership;
- excellent partnerships and referral mechanisms with other skills and training providers (including colleges, universities and private/VCS training providers.
- how they will ensure that advice offered to participants is impartial and the most suitable option for individuals, in particular where providers have their own education/training offer.

#### 1.3 Scope of activity

This call invites Outline Applications which support the delivery of Priority Axis 2, **Investment Priority 2.2 Improving the labour market relevance of education and training systems** of the European Social Fund Operational Programme and responds to the local development need set out in the Leeds City Region Local Enterprise Partnership Area European Structural and Investment Funds Strategy.

This call aims to address the identified shortfalls listed in section 1.2 Local Development Need above.

# 2. Call Requirements

All applications are competitive.

Indicative Fund Allocation:	Indicatively, through this call the Managing Authority expects to allocate approximately <b>£7,852,000 ESF.</b> The Managing Authority reserves the right to decrease or increase the indicative allocation, or support more or fewer projects subject to the volume and quality of proposals received.
Minimum application level	European Social Fund investment is intended to make a significant impact on local growth. Applications are expected to demonstrate appropriate scale and impact. The Managing Authority does not intend to allocate less than <b>£500,000 of European Social Funding to any single project</b> .
Duration of project approvals	Projects should be for a maximum of three years, however the Managing Authority reserves the right to vary the maximum duration in exceptional circumstances.
Geographical Scope	All interventions should be focused on activity within the Leeds City Region Local Enterprise Partnership area.
Specific call requirements	This is a call for ESF activity.
Call Deadlines	For this specific call, applications will be assessed following closure of the call. Applications received after the published call close date will not be considered.
Application selection	All applications will be scored in line with the ESF scoring criteria, but the MA reserve the right to invite projects to full application stage where they complement other activity or provide niche activity to target groups within the OP.
Applicant proposals	These can only contain activities which are eligible for ESF.

Eligible match funding	Applicants will need to have eligible match funding for the balance of costs, which must be from a source other than the European Union. At outline application stage the applicant will need to provide information to demonstrate that the operation is likely to have the required level of match funding in place at the point of formal approval.
Operational	Operations must be completed no later than 14 January
completion	2021.
Procurement	All procurement must be undertaken in line with EU regulations.
State Aid law	Applicants must demonstrate compliance with State Aid law.
Audit/ Compliance	All expenditure and activities will be subject to rigorous audit and non-compliance may lead to financial penalty.

ESF cannot be used to duplicate existing activities or activities that do not address market failure. ESF can only be used to achieve additional activity or bring forward activity more quickly. Applicants must be able to demonstrate that proposals are additional to activity that would have occurred anyway or enables activity to be brought forward and delivered more quickly than otherwise would be the case in response to opportunity or demand.

### 3. Deliverables required under this Call:

Applications will be expected to achieve the minimum indicative level of Programme Deliverables by contributing to the following Investment Priority. The definitions of which can be accessed at the <u>ESF Operational Programme</u>.

Investment Priority	2.2 Improving the labour market relevance of education and training systems
Specific Objectives	To promote improvements in the labour market relevance of skills provision through active engagement with relevant institutions and employers, particularly SMEs and micro businesses.
Indicative Actions	ESF will not support activities that duplicate or replace existing support within national programmes, but may be used to support additional activities, including provision co-designed with local partners.
	Examples of activities that may be supported include:
	<ul> <li>support for collaborative projects, placements, internships or other activities with SMEs that enable students and graduates to gain industry-relevant experience and skills;</li> </ul>

<ul> <li>building capacity in SMEs to provide project/placement/ internship opportunities and enhance the contribution of advanced skills to SME growth, including programmes to specifically engage the most disadvantaged groups or those who face particular local disadvantages in utilising advanced skills;</li> </ul>
<ul> <li>brokering opportunities to encourage and increase work experience, work placements, traineeships, apprenticeships, and graduate placements particularly through wider employer engagement and involving supply chains;</li> <li>promoting apprenticeships (especially at advanced levels in manufacturing and other priority sectors) by developing a supportive environment for employer engagement;</li> <li>developing better links with business to equip students with the skills to start and grow a business to meet local business needs.</li> </ul>

ID	Result Indicator	Minimum Target value for this call
R9	Small and Medium Enterprises successfully completing projects (which increase employer engagement; and/or the number of people progressing into or within skills provision)	75%

ID	Output Indicator	Minimum Target value for this call
CO23	Number of supported micro, Small and Medium-sized Enterprises (including cooperative enterprises, enterprises of the social economy)	780

Applicants will be required to demonstrate how they will achieve the deliverables within their proposal along with any methodology that will be used to record achievement. Applicants will also need to ensure robust systems are in place, and be able to describe them, to capture and record the targets and to report quantitative and qualitative performance across the Leeds City Region LEP area. All operations will be required to collect data and report progress against the deliverables with each claim. Where an operation underperforms against their deliverables they may be subject to a performance penalty.

In addition applicants applying for ESF funds under I.P 2.2 will be expected to complete a short annex, along with the standard application Outline Application form. This is to ensure that full consideration is being given to the 'Value for Money' (VFM). The <u>Annex for ESF IP 2.2</u> funding calls can be located on the European Growth Funding website pages.

There must be a fully evidenced audit trail for all contracted deliverables.

### 4. General Information

Essential information to support the drafting of an application and delivery of a successful ESF funded project is available at the <u>European Growth Funding</u> website pages.

#### 4.1 Compliance and Eligibility

When developing an application, Applicants should refer to <u>guidance</u> on eligible Applicants, activities and costs. These are for guidance only and Applicants should take their own specialist advice if in doubt. It is the responsibility of the Applicant to ensure that the rules and guidance are adhered to both at application stage and following approval.

ESIFs are governed by European regulations and national rules. Applicants are advised to familiarise themselves with the relevant documentation listed in the 'key documents' section prior to submitting an Outline application. If successful, Applicants will enter into the standard Funding Agreement and must abide by the standard terms and conditions contained therein. Applicants are therefore strongly advised to read these terms and conditions to ensure that they would be able to enter into such an agreement prior to responding to the call. Once a Funding Agreement has been issued it should be signed and returned within a short timescale.

#### 4.2 Intervention Rate & Match Funding

ESF is funding used where no other funding can be obtained (the funder of last resort) and the maximum ESF intervention rate for the operation is 50%. This means ESF can contribute <u>up to</u> 50% of the total eligible project costs, subject to State Aid regulations. The remaining 50% or more must come from other eligible sources. For all outline applications, the applicant will need to provide information to demonstrate that the operation is likely to have the required level of match funding in place at the point of formal approval.

ESF is not paid in advance and expenditure must be defrayed prior to the submission of any claims. Applicants may be asked to demonstrate how they are able to cash flow the operation.

#### 4.3 Applicants

Applicants must be legally constituted at the point of signing a Funding Agreement, and be able to enter into a legally binding Funding Agreement. The Applicant will be the organisation that, if the application is successful, enters into a contract for ESF and therefore carries the liability for ensuring that the terms of the ESF Funding Agreement are met by them and to all delivery partners. If there is more than one organisation applying for the funds, a lead organisation must be selected to become the Applicant. It is this organisation that carries the responsibility and liability for carrying out a compliant project.

The Managing Authority will consider the Applicant's track record, both positive and negative. If the Applicant has been involved in the delivery of previous European grants and any irregularities with this (these) grant(s) have been identified, the Managing Authority will look into these and expect to see how and what steps have been taken to ensure that these have been addressed to mitigate the risk of further irregularities in the future. It is acknowledged that some organisations will be new to ESIF funding and will not have a track record.

#### 4.4 Cross Cutting Themes

All applications received under this Call should demonstrate how the Cross Cutting Themes have been addressed in the project design and development. Cross cutting themes for ESF are 'gender equality and equal opportunities' and 'sustainable development'.

For ESF, the project applicants will be required to deliver their services in-line with the Public Sector Equality Duty (as defined in the Equality Act 2010). All projects must have a gender and equal opportunities policy and implementation plan which will be submitted at full application stage and in-line with Managing Authority guidance. Project applicants will also be required to answer a number of ESFspecific equality questions which will be set out in both the full application form and the related guidance.

For ESF, all projects will also be required to submit a sustainable development policy and implementation plan (in-line with guidance produced by the Managing Authority).

The ESF programme particularly welcomes projects that have an environmental focus that can meet the strategic fit at local and programme level whilst also adding value by:

- supporting environmental sustainability; and/ or
- complementing the environmental thematic objectives of other programmes such as ERDF; and/or
- using the environment as a resource to help motivate disadvantaged people

Further information is available in the ESF Operational Programme.

#### 4.5 State Aid & Revenue Generation

Applicants are required, in the Outline Application, to provide a view on how their proposal complies with State Aid law. Applicants must ensure that projects comply with the law on State Aid.<sup>4</sup> Grant funding to any economic undertaking which is state aid can only be awarded if it is compatible aid, in that it complies with the terms of a notified scheme or is covered by the De Minimis Regulation. Guidance for grant recipients, explaining more about State Aid, is available; it is important that Applicants take responsibility for understanding the importance of the State Aid rules and securing their full compliance with them throughout the project, if it is selected into the Programme.

The Managing Authority is not able to give legal advice on State Aid. It is the responsibility of the Applicant to ensure that the operation is State Aid compliant.

Where the Applicant does not perceive that there is any State Aid, it should state whether or not it considers Articles 61 and 65(8) of regulation 1303/2013 to apply. This revenue should be taken into account in calculating eligible expenditure. Article 61 refers to monitoring revenues generated after completion of the project, and Article 65(8) how to deal with differences in the forecast and actual revenues at the end of the operation. The details of this will be tested at the full application stage.

#### 4.6 Funding Agreement

The Funding Agreement is a standard, non-negotiable and legally binding document. Any successful Applicant will be subject to the terms and conditions contained within this agreement. Applicants are strongly advised to seek their own advice to ensure that they would be able to enter into and abide by the terms of the Funding Agreement.

Failure to meet any of the conditions of the agreement or the commitments within the application will result in claw back of funding.

Applicants should be aware that additional provisions and securities may be included within the Funding Agreement to protect the investment. These will be further discussed if relevant following the Full Application stage.

Article 107(1) of the Treaty on the Functioning of the European Union provides that: "Save as otherwise provided in the Treaties, any aid granted by a Member State or through state resources in any form whatsoever which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods shall, in so far as it affects trade between Member States, be incompatible with the internal market."

#### 4.7 Procurement

All costs delivered by the Grant Recipient (the applicant) and/or delivery partners must be delivered on an actual cost basis. Other costs must be procured in line with EU regulations. The most common error identified during audit has been failure to comply with relevant procurement regulations and crucially to maintain a full audit trail to prove that they have complied with the relevant regulation. Robust and transparent procurement is required to ensure that Grant Recipients:

- consider value for money;
- maximise efficient use of public money; and
- maintain competitiveness and fairness across the European Union.

It is recommended that applicants seek their own legal advice pertaining to their procurement and requirements to publicise any tendering opportunities.

The Managing Authority is not able to give legal advice on procurement. It is the responsibility of the applicant to ensure the project is compliant in this respect.

#### 4.8 Retrospection

There will be no retrospection for applications made against this call, other than in line with the general policy on retrospection which allows costs to be potentially eligible between outline and full application stage, but only where the full application is approved.

# 5. Application Process & Prioritisation Methodology

There are two stages to the ESF application process; Outline Application and if successful, Full Application. Applicants must fully complete the Outline Application Form (section 9 refers). Guidance is available on the European Growth Funding website pages. Acceptance of an Outline Application to progress to full application stage does not in any way indicate or constitute an offer of European Social Fund grant. Applications will be subject to a Gateway Assessment undertaken by the Managing Authority under the following criteria:

- Applicant eligibility;
- Activity and expenditure eligibility; and
- The fit with the ESF OP and the call.

Proposals that pass the Gateway Assessment will move into the Core Assessment which consists of the following:

- Strategic fit;
- Value for money;

- Management & control;
- Deliverability;
- Procurement / tendering; and
- State Aid compliance.

The Managing Authority will seek advice from partners when considering applications to ensure its assessment is informed by local economic growth conditions and opportunities within the context of Operational Programmes and the local ESIF Strategy. This will include the relevant LEP Area ESIF Committee and other partners deemed relevant to the application.

The assessment and any prioritisation will be undertaken using only the information supplied as part of the application process. The Managing Authority cannot accept further detail outside this process.

Non-public sector Applicants who are successful at the Outline Application stage may be subject to due financial diligence checks by the Managing Authority, prior to submission of a Full Application. Applicants will be required to submit accounts, and to clarify financial or other organisational information. New Applicant organisations may be required to provide details of a guarantor.

There is no appeal process for applicants whose Applications are rejected at Outline Application stage, Full Application stage or for failing to satisfy the MA's Financial Due Diligence checks.

# 6. Support

Please note that this is a competitive call and to preserve impartiality we are unable to enter into correspondence with applicants over their Outline application. Details of where guidance can be found are contained throughout this calls document. In exceptional circumstances, if there are issues with accessing this guidance, please contact:

#### ESF.2014-2020@dwp.gsi.gov.uk

No applications are to be sent to this email address. Completed Outline applications must be sent to the email address provided in Section 9 – Document submission.

# 7. Key Documents

- Outline Application Form;
- Outline Application Form Guidance;
- LEP area's ESIF strategy; and
- National ESF Eligibility Rules.

# 8. Document Checklist

The assessment will be undertaken on the basis of documentation received at the point of closure of the call. Applicants should provide the following documentation.

Outline Stage:

- fully completed Outline Application;
- financial tables (if the application is against more than one Category of Region, a financial table for each Category of Region);
- Outputs, Results and Indicators tables (if the application is against more than one Category of Region, a Outputs, Results and Indicators table for each Category of Region); and

To enable the Managing Authority to complete the required Financial Due Diligence checks (if private or voluntary and community sector), applicant to provide:

- three years financial accounts
- Proof of existence Certificate of Incorporation, Charities Registration, VAT Registration Certificate or alternate form of incorporation documentation;
- Proof of trading Financial Accounts/Statements for the most recent two years of trading including, as a minimum, Profit and Loss Account and Balance Sheets;
- Completed Financial Viability and Risk Assessment Applicant Template (for applications requesting annualised funding of greater than £1m)

Failure to provide the above documentation could result in the application being rejected.

### 9. Document Submission

Completed Outline Applications must be submitted to

⊠: <u>2014-2020.ESFAPPLICATIONS@DWP.GSI.GOV.UK</u>

### 10. Timescales

Launch of Call advertised on gov.uk.	21 April 2017
Deadline for submission of Outline Application	14 July 2017

Outline Application forms not received by the deadline will not be assessed. Outline Applications which are not fully completed will be excluded.

For this call applications will normally be required to **commence delivery/activity within three months** of the award of contract.

Any changes related to the deadline for the submission of the Outline Application form will be notified on the <u>European Growth Funding</u> website pages.

# 11. Appendix A – Common output indicators

#### Appendix A - extract from Annex 1 of the ESF regulation

Common output indicators for ESF investments

Common output indicators for entities are:

number of projects fully or partially implemented by social partners or nongovernmental organisations

number of projects dedicated at sustainable participation and progress of women in employment

number of projects targeting public administrations or public services at national, regional or local level

number of supported micro, Small and Medium-sized Enterprises (including cooperative enterprises, enterprises of the social economy)
