Hi Nicola

RE Paragraph 23:

- A) I think knowledge of the area will help but I don't think it will make a great deal of difference (although knowledge of the commissioners and any frameworks will certainly help).
- B) I think experience is essential in order to ensure it's a success and the patient group do not suffer as a result.
- C) If multiple providers can be found then I think that will be satisfactory, otherwise I cannot see any issues in a multiple provider purchasing.
- D) No issues here as long as they do not have a presence in these areas already.
- E) CQC approval.

[✂]

Kind regards
