REASONS

1. The unhappy history of this case is set out in the Order made by me on 2nd November 2017 sitting at Worle. The only outstanding matter is the respondent's application to set Judgment aside made on 11th August 2017. The respondent did not attend that hearing stating he had been advised by NHS Direct not to do so. He did not provide any medical evidence to support this and still has not done so despite being ordered to provide such information by 10th November 2017. All that he sent in was a photograph of a leg. The respondent states that it is his leg but I have no evidence that it is. It could be a picture of anybody's leg.
