

STRATEGIC EXPORT CONTROLS

Country Pivot Report

1st January 2010 - 31st December 2010

EXPORT CONTROL ORGANISATION

**Countries:** All countries

**Case Types:** All case types

**All Cases / Incorporation Cases Only:** All cases

**Ultimate Destinations:** All countries

**Licence Statuses:** All licence statuses

**Reasons for Refusal:** All reasons for refusal

**Case Summaries:** All case summaries

**Ratings:** All control entries

This report covers export licensing decisions made by Her Majesty's Government between 1st January 2010 and 31st December 2010. All the information relating to a destination is shown together, and the reader will find all (if any) information on SIELs, OIELs, SITLs, SITCLs and OITCLs all in one place. This enhances the readability of the report.

The information within the report covers those licences Issued, Refused or Revoked within the period for the following categories:

- Standard Individual Export Licences (SIELs) (including information on incorporation and Standard Individual Transshipment Licences)
- Open Individual Export Licences (OIELs)
- Open Individual Trade Control Licences (OITCLs)
- Standard Individual Trade Control Licences (SITCLs)
- Council Regulation 1236/2005 (concerning trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment).

There have been some major changes made to the content and layout of the report, and these take into account the commitment the Government made to the Committee on Arms Export Controls. The changes that have been implemented in this report are as follows:

- A breakdown of the overall value of SIELs issued, into military and non-military totals
- A split in the list of items between military and non-military items
- The inclusion of the control entry list with a breakdown as to how many items were licensed under that category and the value
- The addition of the ultimate destination for items that are being incorporated
- The addition of the case summary for SIELs that have been refused

## **General Information**

### **SIELs**

SIELs generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence. Licences permitting permanent export are generally valid for 2 years from date of issue. Where the export is temporary, for example for the purposes of demonstration, trial or evaluation, the licence is generally valid for one year only and the items must be returned before the licence expires. A licence is not required for the majority of transshipments through the UK en-route from one country to another, providing certain conditions are met. Most other transshipments can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. Where this is not the case, a Standard Individual Transshipment Licence (SITL) is required.

The information on SIELs included in this Report has been compiled using the Export Control Organisation's computer databases. The databases were interrogated during the compilation of this Report to identify the status of all applications on which a decision was taken during the period covered by this Report. In a small number of cases there may be a subsequent change of status. There are two main reasons for such changes: a licence issued during the period may have been revoked, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully.

During the period 12950 SIELs were issued, 295 were refused and none were revoked.

### **OIELs**

OIELs are specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees. OIELs covering the export of items entered on the Military List are generally valid for two years, while OIELs covering other items are generally valid for three years. There are no Open Individual Export Licences for transshipments. During this reporting period 203 OIELs were

issued. In addition, none were amended during the period to exclude particular destinations and/or items, 26 were refused and none were revoked. It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

A summary description is provided for all items covered by SIELs and OIELs issued for this period. The Report also gives information on the number of small arms covered by SIELs issued in the period.

However, this information is not provided in cases where, under the Code of Practice on Access to Government Information, the arguments for publication of the information are otherwise outweighed by the harm that this would cause to commercial confidentiality and/or legitimate security interests in the recipient country. No such exclusions were made in this Report.

In the case of SIELs refused or revoked, only the rating of the goods is provided. Likewise for OIELs, only details of ratings are provided for licences revoked, refused in full or whose coverage was amended during the period by the exclusion of the destination (including items excluded in 2011 by the amendment of 2011 and pre-2011 licences).

## **TRADE LICENCES**

### **Standard Individual Trade Control Licences (SITCLs)**

A Standard Individual Trade Control Licence (SITCL) is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for two years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Should further similar activity take place, a further licence must be applied for. During the period 101 SITCLs were issued, 4 were refused and none were revoked.

### **Open Individual Trade Control Licences (OITCLs)**

An Open Individual Trade Control Licence (OITCL) is specific to a named trader and covers involvement in trading of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users. OITCLs are generally valid for 2 years. During the period 14 OITCLs were issued, 3 were refused and none were revoked.

A lower level of information is provided on both OITCLs and SITCLs as the release of further information at this stage may have an adverse commercial effect on some of the activities being undertaken. However, more detailed information should be included in the full Strategic Export Controls Annual Report.

## **INFORMATION ON SIELS, SITLS AND OIELS**

The entry for each destination contains the following information:

### ***For SIELs:***

- The value of all applications in respect of which a SIEL was issued for the export of items to the destination concerned during the period, whether the export concerned was permanent or temporary. Values are shown to nearest pound, and are also broken down by the control list entry.

It should be noted that the actual value of exports made under the licences is likely to be less than shown

because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

- The number of licences issued, including numbers of licences for items on the Military List, for other items and for both.

- A summary description of the items covered by the licences issued during the period, with the items that were allowed for temporary export indicated by a "T" preceding the description. The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. It does include applications refused during this period that, at the end of it, were pending a decision on an appeal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the destination concerned under an Open General Export Licence (OGEL).

In a small number of cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued, as shown above, is slightly lower than the sum of all SIELs issued shown on the destination pages.

### ***For Incorporation:***

Information on incorporation is provided in the same format as for SIELs, and includes the same level of information. Information is also included on the ultimate destination for incorporated items. Also included is the final destination of the items that are to be incorporated.

### ***For SITLs:***

Information on SITLs is provided in the same format as for SIELs. The licensing information can be found within each destination, under the heading 'SIELs - Transshipment'. However, the items covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.

### ***For OIELs:***

- The number of licences issued also includes additional items authorised in 2007 through amendment to a pre-2007 licence.

- A summary description of the items covered by each OIEL the relevant OIELs issued during the period is shown by destination, with the items that were allowed for temporary export indicated by a "T" preceding the description.

- Information is also provided on the relevant destination pages for OIEL applications refused in full or for licences which were revoked or where coverage was amended during the period by the exclusion of the destination or by the exclusion of items in this quarter by amendment to licences issued in 2007 or earlier.

The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific items or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, those for which it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, as the case may be. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

### ***Special OIELs:***

There are four special categories of licences:

#### ***Media OIELs:***

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required. During this reporting period, no Media OIELs were issued.

#### ***Continental Shelf OIELs:***

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels. During this reporting period, 7 Continental Shelf OIELs were issued.

#### ***Global Project Licences (GPL)***

This is a form of export licence that has been introduced by Framework Agreement (FA) partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria. During this reporting period, no GPLs were issued.

#### ***Transfer of Technology and Technical Assistance***

These OIELs are issued for the transfer of technology and provision of technical assistance under Articles 8, 9 and 10 of the Export of Goods, Transfer of Technology and Provision of Technical Assistance (Control) Order 2002. During this reporting period no licences were issued, none were refused and none were revoked.

## Overall Processing Statistics

Median processing time (SIELs/SITCLs)	16 days
% and number of SIELs/SITCLs completed in 20 working days	61% (10460)
% and number of SIELs/SITCLs completed in 60 working days	93% (15918)
% [as a % of all SIEL/SITCL cases processed] and number of SIELs/SITCLs refused	1% (301)

Median processing time (OIELs/OITCLs)	44 days
% and number of OIELs/OITCLs completed in 20 working days	35% (158)
% and number of OIELs/OITCLs completed in 60 working days	57% (252)
% [as a % of all OIELs/OITCLs cases processed] and number of OIELs/OITCLs refused	3% (113)

## Dealer to Dealer (Dealer) Open Individual Export Licences (OIELs)

Dealer OIELs authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

The following is a list of the items that have been authorised for export to the following destinations only:

Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden

No of Licences Issued	Goods Summary
18	air guns, ammunition for veterinary/tranquillising rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, inert ammunition, pistols, replica air guns, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition,

	sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights
--	---

## Cryptographic (Crypto) Open Individual Export Licences (OIELs)

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

No of Licences Issued	The following is a list of the items that have been authorised for export to all countries <b>EXCEPT THE FOLLOWING:</b> Afghanistan, Angola, Armenia, Australia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Burma, Burundi, Canada, China, Congo, Democratic Republic of, Cyprus, Czech Republic, Denmark, Eritrea, Estonia, Ethiopia, Finland, France, Germany, Greece, Hungary, Iran, Iraq, Ireland, Italy, Japan, Korea, North, Latvia, Liberia, Libya, Lithuania, Luxembourg, Malta, Netherlands, New Zealand, Nigeria, Norway, Poland, Portugal, Romania, Rwanda, Sierra Leone, Slovakia, Slovenia, Somalia, Spain, Sudan, Sweden, Switzerland, Tanzania, Uganda, United States of America, Zimbabwe
15	cable systems sensitive to eavesdropping, cryptographic software, equipment employing cryptography, equipment for generating hopping codes, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, software for the development/production/use of equipment or software specified in 5A002 or 5D002 of the Dual-Use Regulation other than 5A002a2 or 5D002c1, software for the use of technology specified in 5E002, technology for the development/production/use of equipment or software specified in 5A002 or 5D002 of the Dual-Use Regulation other than 5A002a2 or 5D002c1

No of Licences Issued	The following is a list of the items that have been authorised for export to all countries <b>EXCEPT THE FOLLOWING:</b> Cryptographic OIEL Countries
1	cable systems sensitive to eavesdropping, cryptographic software, equipment employing cryptography, equipment for generating hopping codes, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, software for the development/production/use of equipment or software specified in 5A002 or 5D002 of the Dual-Use Regulation other than 5A002a2 or 5D002c1, software for the use of technology specified in 5E002, technology for the development/production/use of equipment or software specified in 5A002 or 5D002 of the Dual-Use Regulation other than 5A002a2 or 5D002c1

## Processing Statistics

Median processing time (OIELs/OITCLs)	15 days
% and number of OIELs/OITCLs completed in 20 working days	57% (15)
% and number of OIELs/OITCLs completed in 60 working days	88% (23)
% [as a % of all OIELs/OITCLs cases processed] and number of OIELs/OITCLs refused	3% (1)

### SIELs

#### Issued

	Count	Value
Mil	45	£12,073,663
Other	4	£180,756
Mil and Other	2	£967,050
Total	51	£13,221,469

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

#### Mil

Rating	Count	Value
ML1	5	£287,944
ML3	4	£19,533
ML4	5	£1,475,371
ML6	7	£6,781,180
ML10	2	£24,503
ML11	1	£4,924
ML13	17	£3,053,760
ML17	1	£10,000
ML22	3	£138,525
PL5001	1	£3,900
PL5017	6	£21,538
PL5035	7	£252,485

- all-wheel drive vehicles with ballistic protection (2 licences)
- assault rifles (18)
- A assault rifles (30)
- assault rifles (31)

- assault rifles (120)
- ballistic shields
- body armour (13 licences)
- bomb suits
- components for all-wheel drive vehicles with ballistic protection (7 licences)
- A components for assault rifles (4 licences)
- components for body armour (12 licences)
- components for explosive ordnance disposal equipment
- components for military firing sets
- components for military improvised explosive device disposal equipment (2 licences)
- components for semi-automatic pistols
- equipment for the use of explosive ordnance disposal equipment
- equipment for the use of military airfield vehicles
- general military vehicle components
- ground vehicle military communications equipment
- military aircraft ground equipment
- military cargo vehicles
- military communications equipment
- military containers
- military devices for initiating explosives
- military engineer vehicles
- military firing sets
- military flying helmets
- military helmets (13 licences)
- military motorcycles
- mine detection equipment
- semi-automatic pistols (15)
- A semi-automatic pistols (80)
- A small arms ammunition (4 licences)
- A smoke hand grenades
- technology for the use of assault rifles
- technology for the use of unmanned air vehicles (2 licences)
- weapon cleaning equipment (2 licences)
- A weapon sight mounts (2 licences)
- A weapon sights (2 licences)

A - Some or all of which were issued on appeal.

**Other**

Rating	Count	Value
5A001	2	£172,031
5A002	1	£2,025
6A003	1	£6,700

- components for radio controlled improvised explosive device jamming equipment (2 licences)
- equipment employing cryptography
- imaging cameras
- radio controlled improvised explosive device jamming equipment

**Mil and Other**

Rating	Count	Value
1A005	1	£42,000
ML4	1	£8,000

**SIELs - Transshipment**

**Issued**

	Count	Value
Mil	1	£2,100
Other	0	£0
Mil and Other	0	£0
Total	1	£2,100

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application. As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

**Mil**

Rating	Count	Value
ML1	1	£2,100

sporting guns (4)

**SIELs for items covered by EC Reg 1236/2005****Issued**

**OIELs****Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	air guns, components for air guns, gun silencers, weapon sights
2	P	air guns, rifles, semi-automatic pistols, shotguns, sporting pistols
3	P	airborne refuelling equipment, components for airborne refuelling equipment, military aircraft ground equipment
4	P	components for combat aircraft
5	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment

6	P	components for ejector seats, components for military parachutes, components for military training aircraft, ejector seats, military aircraft ground equipment, military distress signalling equipment, military parachutes, technology for the development of ejector seats, technology for the development of military aircraft ground equipment, technology for the development of military distress signalling equipment, technology for the development of military parachutes, technology for the development of military training aircraft, technology for the production of ejector seats, technology for the production of military aircraft ground equipment, technology for the production of military distress signalling equipment, technology for the production of military parachutes, technology for the production of military training aircraft, technology for the use of ejector seats, technology for the use of military aircraft ground equipment, technology for the use of military distress signalling equipment, technology for the use of military parachutes, technology for the use of military training aircraft
7	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
8	P	components for non-military firing sets, non-military firing sets
9	P	general military aircraft components, general naval vessel components
10	P	components for shotguns, shotguns
11	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
12	P	equipment employing cryptography
13	P	components for military aero-engines, general military aircraft components, general military vehicle components, general naval vessel components
14	P	air guns, components for air guns, gun silencers, weapon sight mounts
15	P	combination rifle-shotguns, components for combination rifle-shotguns, components for shotguns, components for sporting rifles, shotguns, small arms ammunition, sporting rifles, weapon sights
16	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays
17	P	components for military transport aircraft, equipment for the production of military transport aircraft, equipment for the use of military transport aircraft, technology for the use of military transport aircraft
18	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
19	P	blank ammunition, inert ammunition, small arms ammunition, training blank ammunition, training inert ammunition, training small arms ammunition
20	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, military electronic equipment

21	P	components for military aero-engines
22	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
23	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
24	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft
25	P	components for airborne electronic warfare equipment, components for aircraft military communications equipment, components for aircraft radars, components for electronic countermeasures equipment, components for electronic warfare equipment, components for ground based radars, components for ground vehicle military communications equipment, components for military aircraft navigation equipment, components for military communications equipment, components for missile navigation equipment, components for naval communications equipment, components for naval electronic warfare equipment, components for naval radars
26	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
27	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment
28	P	equipment for the use of test equipment for aircraft missile protection systems, software for the use of test equipment for aircraft missile protection systems, test equipment for aircraft missile protection systems
29	P	accessories for airborne targeting equipment, accessories for bombing computers, accessories for film processing equipment, accessories for imaging counter-countermeasures equipment, accessories for imaging countermeasure/counter-countermeasures equipment, accessories for imaging countermeasures equipment, accessories for military cameras, accessories for military image intensifier equipment, accessories for military imaging radar equipment, accessories for military infrared/thermal imaging equipment, accessories for military photographic equipment, accessories for military video processing equipment, accessories for military video recording equipment, accessories for night vision goggles, accessories for optical target acquisition equipment, accessories for optical target designator equipment, accessories for optical target surveillance equipment, accessories for optical target tracking equipment, accessories for sensor data recorders, accessories for sensor integration equipment, accessories for simulators for military training aircraft, accessories for training equipment for military

		<p>training aircraft, accessories for weapon control systems, airborne electronic warfare equipment, airborne refuelling equipment, airborne targeting equipment, aircraft radars, aircrew protective masks, anti-g/pressure suits, automatic piloting systems for parachuted loads, bomb handling equipment, bombing computers, chaff equipment, components for airborne electronic warfare equipment, components for airborne refuelling equipment, components for airborne targeting equipment, components for aircraft radars, components for aircrew protective masks, components for anti-g/pressure suits, components for automatic piloting systems for parachuted loads, components for bombing computers, components for ejector seats, components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of military aero-engines, components for equipment for the use of military training aircraft, components for film processing equipment, components for helmet mounted display equipment, components for imaging counter-countermeasures equipment, components for imaging countermeasure/counter-countermeasures equipment, components for imaging countermeasures equipment, components for liquid oxygen converters, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft navigation equipment, components for military aircraft pressure refuellers, components for military aircraft pressurised breathing equipment, components for military cameras, components for military containers, components for military flying helmets, components for military image intensifier equipment, components for military imaging radar equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military parachutist equipment, components for military photographic equipment, components for military training aircraft, components for military video processing equipment, components for military video recording equipment, components for night vision goggles, components for optical target acquisition equipment, components for optical target designator equipment, components for optical target surveillance equipment, components for optical target tracking equipment, components for sensor data recorders, components for sensor integration equipment, components for simulators for military training aircraft, components for training equipment for military training aircraft, components for weapon control systems, control equipment for air-to-air missiles, control equipment for bombs, control equipment for decoy flares, control equipment for fragmentation rockets, control equipment for practice bombs, ejector seats, equipment for the operation of military aircraft in confined areas, equipment for the use of military aero-engines, equipment for the use of military training aircraft, film processing equipment, handling equipment for air-to-air missiles, handling equipment for bombs, handling equipment for decoy flares, handling equipment for fragmentation rockets, handling equipment for practice bombs, helmet mounted display equipment, imaging counter-countermeasures equipment, imaging countermeasure/counter-countermeasures equipment, imaging countermeasures equipment, launching equipment for air-to-air missiles, launching equipment for bombs, launching equipment for decoy flares, launching equipment for fragmentation rockets, launching equipment for practice bombs, liquid oxygen converters, military aero-engines, military aircraft ground equipment, military aircraft navigation equipment, military aircraft pressure refuellers, military aircraft pressurised breathing equipment, military cameras, military containers, military flying helmets, military image intensifier equipment, military imaging radar equipment, military infrared/thermal imaging equipment, military parachutes, military parachutist equipment, military parametric technical databases, military photographic equipment, military video processing equipment, military video recording equipment, night vision goggles, optical target acquisition equipment, optical target designator equipment, optical target surveillance equipment, optical target tracking equipment, sensor data recorders, sensor integration equipment, simulators for military training aircraft, software enabling equipment to function as military training aircraft, software for military training aircraft, software for the evaluation of weapon systems, software for the modelling of military operation scenarios, software for the modelling of weapon systems, software for the simulation of military operation scenarios, software for the simulation of weapon systems, software for the use of military training aircraft, technology for the use of military training aircraft, test equipment for military training aircraft, test models for the development of military training aircraft, training equipment for military training aircraft, weapon control systems</p>
30	P	air guns
31	P	components for military improvised explosive device disposal equipment, military improvised explosive device disposal equipment
32	P	toxins
33	T	cryptographic software, equipment employing cryptography, radio jamming equipment

34	P	software for the simulation of military operation scenarios
35	P	ballistic shields
36	P	air guns, pistols, semi-automatic pistols, shotguns, sporting pistols, sporting rifles, weapon sights
37	P	components for combat aircraft, components for military aircraft ground equipment, components for military aircraft head-up displays, components for military aircraft navigation equipment, components for military support aircraft, components for military training aircraft, components for night vision goggles, components for test equipment for military aircraft head-up displays, components for test equipment for military aircraft navigation equipment, components for test equipment for night vision goggles, military aircraft ground equipment, military aircraft head-up displays, military aircraft navigation equipment, night vision goggles, test equipment for military aircraft head-up displays, test equipment for military aircraft navigation equipment, test equipment for night vision goggles
38	P	components for sporting guns, sporting guns
39	P	toxins
40	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components

### SIELs - Incorporation

#### Issued

	Count	Value
Mil	29	£1,782,338
Other	0	£0
Mil and Other	0	£0
Total	29	£1,782,338

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

#### Mil

Rating	Count	Value
ML4	4	£59,384
ML10	19	£559,099
ML11	6	£1,163,855

components for combat aircraft (7 licences)  
 components for launching equipment for munitions (4 licences)  
 components for military surveillance aircraft  
 components for military training aircraft (14 licences)  
 military aircraft navigation equipment (6 licences)

The items being incorporated in this destination are ultimately destined for all or some of the following:

Burkina  
 Chile  
 Colombia  
 Dominican Republic  
 Ecuador  
 India

#### OIELs

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	chaff, chaff equipment, command communications control and intelligence equipment, components for chaff equipment, components for command communications control and intelligence equipment, components for corvettes, components for defensive systems against NBC agents, components for electronic warfare equipment, components for fast attack craft, components for frigates, components for heavy machine guns, components for military distress signalling equipment, components for military inflatable craft, components for military navigation equipment, components for naval acoustic equipment, components for naval communications equipment, components for naval engines, components for naval gun mountings, components for naval radars, components for naval sonar equipment, components for semi-automatic pistols, components for surface-to-air missiles, components for surface-to-surface missiles, control equipment for surface-to-air missiles, control equipment for surface-to-surface missiles, defensive systems against NBC agents, electronic warfare equipment, equipment for the use of corvettes, equipment for the use of fast attack craft, equipment for the use of frigates, equipment for the use of naval radars, equipment for the use of surface-to-air missiles, general naval vessel components, handling equipment for surface-to-surface missiles, heavy machine guns, launching equipment for surface-to-air missiles, launching equipment for surface-to-surface missiles, military distress signalling equipment, military inflatable craft, military navigation equipment, naval acoustic equipment, naval communications equipment, naval electrical equipment, naval electronic equipment, naval engines, naval gun mountings, naval radars, naval sonar equipment, NBC filters, semi-automatic pistols, surface-to-air missiles, surface-to-surface missiles, test equipment for military communications equipment, test equipment for naval radars, test equipment for surface-to-air missiles
2	P	general naval vessel components, technology for the use of general naval vessel components
3	P	inertial equipment
4	P	components for military aero-engines, general military aircraft components, general naval vessel components
5	P	components for military aero-engines, software for the use of military aero-engines, unfinished products for military aero-engines

6	P	equipment for the use of general naval vessel components, general naval vessel components, technology for the use of equipment for the use of general naval vessel components, technology for the use of general naval vessel components
7	P	components for military aero-engines, general military aircraft components
8	P	general naval vessel components
9	P	software for the use of test equipment for aircraft missile protection systems, test equipment for aircraft missile protection systems
10	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
11	P	components for military surveillance aircraft, technology for the development of military surveillance aircraft, technology for the production of military surveillance aircraft, technology for the use of military surveillance aircraft
12	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
13	P	equipment for the use of general naval vessel components, general naval vessel components, technology for the use of equipment for the use of general naval vessel components, technology for the use of general naval vessel components
14	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
15	P	components for submersible equipment, components for submersible vehicles, heading sensors for hydrophone arrays, high energy capacitors, metal alloy cylindrical forms, metal alloy tubes, submersible equipment
16	P	air guns
17	P	components for launching/handling/control equipment for air-to-air missiles, components for launching/handling/control equipment for anti-ship missiles

### Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

 components for all-wheel drive vehicles with ballistic protection

## Country Footnotes

1. Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857 and 1896). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use). All exports for this destination were approved in accordance with the sanctions in place.
2. Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857, 1896 and 1952 (2010)). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use).

All exports for this destination were approved in accordance with the sanctions in place.

## Continental Shelf: United Kingdom sector

**SIELs - Incorporation**

**Issued**

	Count	Value
Mil	11	£679,107
Other	0	£0

Mil and Other	0	£0
Total	11	£679,107

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

#### Mil

Rating	Count	Value
ML5	3	£543,789
ML7	1	£57,000
ML9	1	£10,658
ML10	6	£19,660
ML11	1	£48,000

components for combat aircraft (5 licences)  
 components for frigates  
 components for military electronic equipment  
 components for military utility helicopters  
 components for NBC respirators  
 components for weapon control equipment  
 components for weapon control systems (2 licences)

The items being incorporated in this destination are ultimately destined for all or some of the following:

Afghanistan  
 Algeria  
 Brunei  
 France  
 Saudi Arabia  
 Thailand  
 United States of America

#### SIELs - Transshipment

##### Issued

	Count	Value
Mil	1	£6,000
Other	0	£0
Mil and Other	0	£0
Total	1	£6,000

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application. As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

#### Mil

Rating	Count	Value
ML2	1	£6,000

mortars  
weapon sights

## OIELs

## Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft
2	P	components for military utility helicopters
3	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
4	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated assault rifles, deactivated general purpose machine guns, deactivated heavy machine guns, deactivated machine pistols, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, general purpose machine guns, heavy machine guns, inert ammunition, machine pistols, pistols, replica air guns, replica assault rifles, replica general purpose machine guns, replica heavy machine guns, replica machine pistols, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights
5	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft

		navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
6	P	components for non-military firing sets, non-military firing sets
7	P	general military aircraft components, general naval vessel components
8	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
9	P	components for military aero-engines, general military aircraft components, general military vehicle components
10	T	demolition charges, detonating cord, devices for initiating explosives, shaped charges
11	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
12	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays
13	P	components for military transport aircraft, equipment for the production of military transport aircraft, equipment for the use of military transport aircraft, technology for the use of military transport aircraft
14	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets
15	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
16	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, military electronic equipment
17	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
18	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft

19	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft
20	P	non-military detonators
21	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
22	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment
23	P	equipment for the use of test equipment for aircraft missile protection systems, software for the use of test equipment for aircraft missile protection systems, test equipment for aircraft missile protection systems
24	P	software for the simulation of military operation scenarios
25	P	ballistic shields
26	P	components for combat aircraft, components for military aircraft ground equipment, components for military aircraft head-up displays, components for military aircraft navigation equipment, components for military support aircraft, components for military training aircraft, components for military utility helicopters, components for night vision goggles, components for test equipment for military aircraft head-up displays, components for test equipment for military aircraft navigation equipment, components for test equipment for night vision goggles, military aircraft ground equipment, military aircraft head-up displays, military aircraft navigation equipment, night vision goggles, test equipment for military aircraft head-up displays, test equipment for military aircraft navigation equipment, test equipment for night vision goggles
27	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components

No.	Type	Goods Summary
1	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
2	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated assault rifles, deactivated general purpose machine guns, deactivated heavy machine guns, deactivated machine pistols, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, general purpose machine guns, heavy machine guns, inert ammunition, machine pistols, pistols, replica air guns, replica assault rifles, replica general purpose machine guns, replica heavy machine guns, replica machine pistols, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights
3	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft

		navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
4	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
5	P	components for military aero-engines, general military aircraft components, general military vehicle components
6	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays
7	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
8	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
9	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft
10	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
11	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment
12	P	equipment for the use of test equipment for aircraft missile protection systems, software for the use of test equipment for aircraft missile protection systems, test equipment for aircraft missile protection systems
13	P	accessories for airborne targeting equipment, accessories for bombing computers, accessories for film processing equipment, accessories for imaging counter-countermeasures equipment, accessories for imaging countermeasure/counter-countermeasures equipment, accessories for imaging countermeasures equipment, accessories for military cameras, accessories for military image intensifier equipment, accessories for military imaging radar equipment, accessories for military infrared/thermal imaging equipment, accessories for military photographic equipment, accessories for military video processing equipment, accessories for military video recording equipment, accessories for night vision goggles, accessories for optical target acquisition equipment, accessories for optical target designator equipment, accessories for optical target surveillance equipment, accessories for optical target tracking equipment, accessories for sensor data recorders, accessories for sensor integration equipment, accessories for

		<p>simulators for military training aircraft, accessories for training equipment for military training aircraft, accessories for weapon control systems, airborne electronic warfare equipment, airborne refuelling equipment, airborne targeting equipment, aircraft radars, aircrew protective masks, anti-g/pressure suits, automatic piloting systems for parachuted loads, bomb handling equipment, bombing computers, chaff equipment, components for airborne electronic warfare equipment, components for airborne refuelling equipment, components for airborne targeting equipment, components for aircraft radars, components for aircrew protective masks, components for anti-g/pressure suits, components for automatic piloting systems for parachuted loads, components for bombing computers, components for ejector seats, components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of military aero-engines, components for equipment for the use of military training aircraft, components for film processing equipment, components for helmet mounted display equipment, components for imaging counter-countermeasures equipment, components for imaging countermeasure/counter-countermeasures equipment, components for imaging countermeasures equipment, components for liquid oxygen converters, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft navigation equipment, components for military aircraft pressure refuellers, components for military aircraft pressurised breathing equipment, components for military cameras, components for military containers, components for military flying helmets, components for military image intensifier equipment, components for military imaging radar equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military parachutist equipment, components for military photographic equipment, components for military training aircraft, components for military video processing equipment, components for military video recording equipment, components for night vision goggles, components for optical target acquisition equipment, components for optical target designator equipment, components for optical target surveillance equipment, components for optical target tracking equipment, components for sensor data recorders, components for sensor integration equipment, components for simulators for military training aircraft, components for training equipment for military training aircraft, components for weapon control systems, control equipment for air-to-air missiles, control equipment for bombs, control equipment for decoy flares, control equipment for fragmentation rockets, control equipment for practice bombs, ejector seats, equipment for the operation of military aircraft in confined areas, equipment for the use of military aero-engines, equipment for the use of military training aircraft, film processing equipment, handling equipment for air-to-air missiles, handling equipment for bombs, handling equipment for decoy flares, handling equipment for fragmentation rockets, handling equipment for practice bombs, helmet mounted display equipment, imaging counter-countermeasures equipment, imaging countermeasure/counter-countermeasures equipment, imaging countermeasures equipment, launching equipment for air-to-air missiles, launching equipment for bombs, launching equipment for decoy flares, launching equipment for fragmentation rockets, launching equipment for practice bombs, liquid oxygen converters, military aero-engines, military aircraft ground equipment, military aircraft navigation equipment, military aircraft pressure refuellers, military aircraft pressurised breathing equipment, military cameras, military containers, military flying helmets, military image intensifier equipment, military imaging radar equipment, military infrared/thermal imaging equipment, military parachutes, military parachutist equipment, military parametric technical databases, military photographic equipment, military video processing equipment, military video recording equipment, night vision goggles, optical target acquisition equipment, optical target designator equipment, optical target surveillance equipment, optical target tracking equipment, sensor data recorders, sensor integration equipment, simulators for military training aircraft, software enabling equipment to function as military training aircraft, software for military training aircraft, software for the evaluation of weapon systems, software for the modelling of military operation scenarios, software for the modelling of weapon systems, software for the simulation of military operation scenarios, software for the simulation of weapon systems, software for the use of military training aircraft, technology for the use of military training aircraft, test equipment for military training aircraft, test models for the development of military training aircraft, training equipment for military training aircraft, weapon control systems</p>

5	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
6	P	ballistic shields
7	P	air guns, pistols, semi-automatic pistols, shotguns, sporting pistols, sporting rifles, weapon sights

## India

### Processing Statistics

Median processing time (SIELs/SITCLs)	18 days
% and number of SIELs/SITCLs completed in 20 working days	59% (766)
% and number of SIELs/SITCLs completed in 60 working days	94% (1220)
% [as a % of all SIEL/SITCL cases processed] and number of SIELs/SITCLs refused	0% (7)

Median processing time (OIELs/OITCLs)	61 days
% and number of OIELs/OITCLs completed in 20 working days	30% (20)
% and number of OIELs/OITCLs completed in 60 working days	49% (32)
% [as a % of all OIELs/OITCLs cases processed] and number of OIELs/OITCLs refused	1% (1)

## SIELs

### Issued

	Count	Value
Mil	537	£72,571,958
Other	375	£44,922,730
Mil and Other	12	£11,947,483
Total	924	£129,442,171

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

#### Mil

Rating	Count	Value
ML1	12	£635,926
ML2	4	£76,348
ML3	8	£114,051
ML4	33	£5,241,746
ML5	71	£10,951,284
ML6	11	£264,465
ML7	20	£1,210,374
ML9	45	£31,081,657
ML10	174	£9,750,183
ML11	124	£6,168,445
ML13	12	£227,695
ML14	12	£1,431,370
ML15	17	£1,578,368
ML16	3	£132,593
ML17	1	£433,000
ML18	8	£394,969
ML21	24	£453,293
ML22	25	£2,400,480
PL5001	1	£1,100

### Country Footnotes

1. European Council Common Position 2007/140/CFSP, adopted on 27 February 2007, imposed a ban on the export of items on the Nuclear Suppliers Group and Missile Technology Control Regime lists. Common Position 2007/246/CFSP, adopted on 23 April 2007, imposed an embargo on the export to Iran of arms and related materiel of all types, including weapons and ammunition, military vehicles and equipment, paramilitary equipment and spare parts for the aforementioned. An exception is made for armoured vehicles for use by personnel of the EU and its Member States in Iran. EC Regulation 423/2007, adopted on 19 April 2007 (amended on 10 November 2008 through EC Regulation 1110/2008), made licensable, to Iran alone, goods or technology that could contribute to Iran's enrichment-related, reprocessing or heavy water-related activities; the development of nuclear weapon delivery systems by Iran; or the pursuit by Iran of activities related to other topics about which the IAEA has expressed concerns or identified as outstanding.

Following UNSCR 1803 Common Position 2008/632/CFSP was adopted on 8 August 2008. This put in place further restrictive measures including an additional embargo on certain goods and technology which could contribute to enrichment-related, reprocessing or heavy water-related activities. Further restraint concerning new commitments for public provided financial support for trade, vigilance over the activities of EU financial institutions with banks domiciled in Iran and their subsidiaries, branches and other financial entities outside Iran, inspection of and prior information requirement on certain cargoes to and from Iran. As stated above the corresponding Regulation was adopted on 10 November 2008 - EC Regulation 1110/2008.

All exports for this destination were approved in accordance with the sanctions in place.

2. UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran. New measures include:
  - stopping new Iranian nuclear facilities and banning Iranian nuclear investment;
  - total bans on exports of several major categories of arms, and further restrictions on Iran's ballistic missile programme;
  - asset freezes of 40 entities;
  - an asset freeze and travel ban on one senior nuclear scientist;
  - restrictions on financial services, including insurance and reinsurance, where there is suspicion of a proliferation link ;
  - a ban on existing and new correspondent banking relationships where there are proliferation concerns;

The European Union signalled its intent to impose further sanctions against Iran in a European Council declaration on 17 June. The declaration requested the Foreign Affairs Council to adopt at its next session measures implementing those contained in the UN Security Council Resolution 1929 as well as accompanying measures, with a view to supporting the resolution of all outstanding concerns regarding Iran's development of sensitive technologies in support of its nuclear and missile programmes, through negotiation. These should focus on the areas of trade, especially dual use goods and further restrictions on trade insurance; the financial sector, including freeze of additional Iranian banks and restrictions on banking and insurance; the Iranian transport sector, in particular the Islamic Republic of Iran Shipping Line (IRISL) and its subsidiaries and air cargo; key sectors of the gas and oil industry with prohibition of new investment, technical assistance and transfers of technologies, equipment and services related to these areas, in particular related to refining, liquefaction and LNG technology; and new visa bans and asset freezes especially on the Islamic Revolutionary Guard Corps (IRGC).

All exports for this destination were approved in accordance with the sanctions in place.

3. UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran.

The European Union adopted a Council decision on 26 July that imposed a further range of restrictive measures against Iran. The Decision includes measures in the following areas: dual use goods and further restrictions on trade insurance; the financial sector, including freeze of additional Iranian banks and restrictions on banking and insurance; the Iranian transport sector, in particular the Islamic Republic of Iran Shipping Line (IRISL) and its subsidiaries and air cargo; key sectors of the gas and oil industry with prohibition of new investment, technical assistance and transfers of technologies, equipment and services related to these areas, in particular related to refining, liquefaction and LNG technology; and new visa bans and asset freezes especially on the Islamic Revolutionary Guard Corps (IRGC). Council Regulation 991/2010 was adopted on 25 October 2010. This implements the provisions of the Council Decision that fall under EU competence.

All exports for this destination were approved in accordance with the sanctions in place.

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq or the Multinational Force to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

2. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

**SIELs - Incorporation**

**Issued**

	Count	Value
Mil	1	£12,410
Other	0	£0
Mil and Other	0	£0
Total	1	£12,410

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

**Mil**

Rating	Count	Value
ML11	1	£12,410

military guidance/navigation equipment

The items being incorporated in this destination are ultimately destined for all or some of the following:

Afghanistan

## SIELs - Transshipment

### Issued

	Count	Value
Mil	1	£11,724
Other	0	£0
Mil and Other	0	£0
Total	1	£11,724

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application. As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

### Mil

Rating	Count	Value
ML1	1	£11,724

components for semi-automatic pistols  
 semi-automatic pistols (14)  
 weapon night sights

### OIELs

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	software for the use of test equipment for inertial equipment, test equipment for inertial equipment
2	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment

## Country Footnotes

- Arms sanctions against DPRK are currently in place under UN Security Council resolution 1718 (amended by UNSCR 1874). The arms embargo prohibits the supply, sale or transfer of arms (and a ban on related financial transactions, technical training or services), with the exception of the provision by States to the DPRK of small arms and light weapons and their related materiel, on which States are required to notify the Committee in advance.

## Korea, South

#### SIELs - Incorporation

##### Issued

	Count	Value
Mil	11	£351,203
Other	1	£530,732
Mil and Other	0	£0
Total	12	£881,935

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

**Mil**

Rating	Count	Value
ML10	10	£166,204
ML11	2	£184,999
ML22	1	£0

components for military aircraft navigation equipment  
 components for military training aircraft (9 licences)  
 components for military utility helicopters  
 components for naval navigation equipment  
 components for naval radars  
 technology for the use of naval navigation equipment  
 technology for the use of naval radars

**Other**

Rating	Count	Value
2B350	1	£530,732

corrosion resistant chemical manufacturing equipment

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Indonesia
- Korea, South
- Turkey
- United States of America

**OIELs**

## Country Footnotes

1. Arms trade sanctions against Lebanon were adopted by UN Security Council resolution 1701, of 11 August 2006 and by European Council Common Position 2006/625/CFSP. Exceptions to the arms embargo cover the supply of arms and related materiel or the provision of assistance authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.

## Lesotho

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	T	neutron generators
2	P	components for combat aircraft
3	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
4	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated assault rifles, deactivated general purpose machine guns, deactivated heavy machine guns, deactivated machine pistols, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, general purpose machine guns, heavy machine guns, inert ammunition, machine pistols, pistols, replica air guns, replica assault rifles, replica general purpose machine guns, replica heavy machine guns, replica machine pistols, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights
5	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test

		equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
6	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military training aircraft, unfinished products for military transport aircraft, unfinished products for military utility aircraft, unfinished products for military utility helicopters, unfinished products for unmanned air vehicles
7	P	general military aircraft components, general naval vessel components
8	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
9	P	components for military aero-engines, general military aircraft components, general military vehicle components
10	P	components for aircraft radars, components for ground based radars
11	T	demolition charges, detonating cord, devices for initiating explosives, explosives, shaped charges
12	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays
13	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets
14	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
15	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, military electronic equipment
16	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
17	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
18	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft
19	P	non-military detonators
20	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
21	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear

		radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment
22	P	equipment for the use of test equipment for aircraft missile protection systems, software for the use of test equipment for aircraft missile protection systems, test equipment for aircraft missile protection systems
23	P	ballistic shields
24	P	components for combat aircraft, components for military aircraft ground equipment, components for military aircraft head-up displays, components for military aircraft navigation equipment, components for military support aircraft, components for military training aircraft, components for military utility helicopters, components for night vision goggles, components for test equipment for military aircraft head-up displays, components for test equipment for military aircraft navigation equipment, components for test equipment for night vision goggles, military aircraft ground equipment, military aircraft head-up displays, military aircraft navigation equipment, night vision goggles, test equipment for military aircraft head-up displays, test equipment for military aircraft navigation equipment, test equipment for night vision goggles

#### Refused

Applications refused in full.		
No.	Type	Goods Summary
1	P	software for the development of air-to-air missiles, software for the development of anti-armour missiles, software for the development of bombs, software for the production of air-to-air missiles, software for the production of anti-armour missiles, software for the production of bombs, software for the use of air-to-air missiles, software for the use of anti-armour missiles, software for the use of bombs, technology for the development of air-to-air missiles, technology for the development of anti-armour missiles, technology for the development of bombs, technology for the production of air-to-air missiles, technology for the production of anti-armour missiles, technology for the production of bombs, technology for the use of air-to-air missiles, technology for the use of anti-armour missiles, technology for the use of bombs, test models for the development of air-to-air missiles, test models for the development of bombs

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

### Mil

Rating	Count	Value
ML1	8	£4,820
ML3	2	£20,000
ML4	1	£143
ML7	1	£1,080
ML10	3	£375,189
ML11	1	£14,250
ML14	1	£313
ML17	1	£3,045
ML21	1	£635,250
ML22	6	£20,154

aerial target equipment  
 components for military camouflage nets  
 components for military firing sets  
 military aero-engines (2 licences)  
 military camouflage nets  
 military helicopters  
 T NBC filters  
 T NBC respirators  
 small arms ammunition (2 licences)  
 software enabling equipment to function as military communications equipment  
 technology for the production of aerial target equipment  
 technology for the production of military parachutes (4 licences)  
 technology for the use of military communications equipment  
 T test equipment for military communications equipment  
 weapon sights (8 licences)

### Other

Rating	Count	Value
6A001	1	£19,912

T towed hydrophone arrays

**Mil and Other**

Rating	Count	Value
ML7	1	£28,560
ML11	1	£750
ML21	1	£100
PL8001	1	£27,000

T biological agent detection equipment  
 T chemical agent detection equipment  
 T components for chemical agent detection equipment  
 T equipment for the use of chemical agent detection equipment  
 T improvised explosive device detection equipment  
 T software for the use of chemical agent detection equipment

**SIELs - Incorporation**

## SIELs - Transshipment

### Issued

	Count	Value
Mil	0	£0
Other	1	£119,482
Mil and Other	0	£0
Total	1	£119,482

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application. As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

### Other

Rating	Count	Value
1A006	1	£119,482
PL8001	1	£0

accessories for improvised explosive device disruptors  
 components for improvised explosive device disruptors  
 devices for initiating explosives  
 improvised explosive device disruptors

### Country Footnotes

- Arms trade sanctions against Sierra Leone were adopted by UN Security Council resolution 1171, with exemptions given to the Government of Sierra Leone through named points of entry, the UN, and the Military Observer Group of the Economic Community of West African States. All exports for this destination were approved in accordance with the sanctions in place.
- UN Security Council resolution 1940 was adopted on 29 September 2010 lifting all sanctions on Sierra Leone. The United Nations Arms Embargoes (Amendment) Order 1998 (1998/1501) is the domestic implementing legislation and this order will be repealed in due course. Arms trade sanctions against Sierra Leone were adopted by UN Security Council resolution 1171, with exemptions given to the Government of Sierra Leone through named points of entry, the UN, and the Military Observer Group of the Economic Community of West African States.

All exports for this destination were approved in accordance with the sanctions in place.

#### Country Footnotes

1. Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008) and 1872 (2009) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee. All exports for this destination were approved in accordance with the sanctions in place.
2. Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008), 1907 (2009) and 1916 (2010) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

No.	Type	Goods Summary
1	P	components for combat aircraft, components for military aero-engines, equipment for the production of combat aircraft, equipment for the use of combat aircraft, military aircraft ground equipment, technology for the production of combat aircraft, technology for the production of military aero-engines, technology for the use of combat aircraft, technology for the use of equipment for the production of combat aircraft, technology for the use of equipment for the use of combat aircraft, technology for the use of military aero-engines, technology for the use of military aircraft ground equipment
2	P	airborne refuelling equipment, components for airborne refuelling equipment, military aircraft ground equipment
3	P	components for combat aircraft
4	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for

		the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
5	P	components for ejector seats, components for military parachutes, components for military training aircraft, ejector seats, military aircraft ground equipment, military distress signalling equipment, military parachutes, technology for the development of ejector seats, technology for the development of military aircraft ground equipment, technology for the development of military distress signalling equipment, technology for the development of military parachutes, technology for the development of military training aircraft, technology for the production of ejector seats, technology for the production of military aircraft ground equipment, technology for the production of military distress signalling equipment, technology for the production of military parachutes, technology for the production of military training aircraft, technology for the use of ejector seats, technology for the use of military aircraft ground equipment, technology for the use of military distress signalling equipment, technology for the use of military parachutes, technology for the use of military training aircraft
6	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated assault rifles, deactivated general purpose machine guns, deactivated heavy machine guns, deactivated machine pistols, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, general purpose machine guns, heavy machine guns, inert ammunition, machine pistols, pistols, replica air guns, replica assault rifles, replica general purpose machine guns, replica heavy machine guns, replica machine pistols, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights
7	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test

		equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
8	P	components for non-military firing sets, non-military firing sets
9	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military training aircraft, unfinished products for military transport aircraft, unfinished products for military utility aircraft, unfinished products for military utility helicopters, unfinished products for unmanned air vehicles
10	P	general military aircraft components, general naval vessel components
11	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment
12	P	components for military aero-engines, general military aircraft components, general military vehicle components
13	T	demolition charges, detonating cord, devices for initiating explosives, shaped charges
14	P	heading sensors for hydrophone arrays, hydrophones, towed hydrophone arrays
15	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets
16	P	accessories for explosive ordnance disposal equipment, components for explosive ordnance disposal equipment, components for military devices for initiating explosives, components for military firing sets, components for military improvised explosive device disposal equipment, equipment for the use of military devices for initiating explosives, explosive ordnance disposal equipment, military devices for initiating explosives, military firing sets, military improvised explosive device disposal equipment, test equipment for military devices for initiating explosives
17	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, military electronic equipment
18	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
19	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
20	T	aircraft military communications equipment, components for combat helicopters, components for military aero-engines, components for military aircraft navigation equipment, components for military utility helicopters, equipment for the use of aircraft military communications equipment, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft navigation equipment, equipment for the use of military utility helicopters, general military aircraft components, military aircraft ground equipment, technology for the use of aircraft military communications equipment, technology for the use of combat helicopters, technology for the use of military aero-engines, technology for the use of military aircraft ground equipment, technology for the use of military aircraft navigation equipment, technology for the use of military utility helicopters
21	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft

22	P	components for airborne electronic warfare equipment, components for aircraft military communications equipment, components for aircraft radars, components for electronic countermeasures equipment, components for electronic warfare equipment, components for ground based radars, components for ground vehicle military communications equipment, components for military aircraft navigation equipment, components for military communications equipment, components for missile navigation equipment, components for naval communications equipment, components for naval electronic warfare equipment, components for naval radars
23	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
24	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment
25	P	equipment for the use of test equipment for aircraft missile protection systems, software for the use of test equipment for aircraft missile protection systems, test equipment for aircraft missile protection systems
26	P	software for the simulation of military operation scenarios
27	P	ballistic shields
28	P	components for combat aircraft, components for military aircraft ground equipment, components for military aircraft head-up displays, components for military aircraft navigation equipment, components for military support aircraft, components for military training aircraft, components for night vision goggles, components for test equipment for military aircraft head-up displays, components for test equipment for military aircraft navigation equipment, components for test equipment for night vision goggles, military aircraft ground equipment, military aircraft head-up displays, military aircraft navigation equipment, night vision goggles, test equipment for military aircraft head-up displays, test equipment for military aircraft navigation equipment, test equipment for night vision goggles
29	P	components for airborne refuelling equipment, general military aircraft components
30	P	military electronic equipment
31	P	components for combat aircraft
32	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components

United States of America	1	0	0

### Issued

bomb suits  
 devices for initiating explosives  
 linear cutting explosive charges  
 military helmets  
 non-military firing sets  
 oxidisers  
 promoting the supply of anti-armour missiles  
 promoting the supply of surface-to-surface missiles

## Sri Lanka

### Processing Statistics

Median processing time (SIELs/SITCLs)	23 days
% and number of SIELs/SITCLs completed in 20 working days	44% (16)
% and number of SIELs/SITCLs completed in 60 working days	86% (31)
% [as a % of all SIEL/SITCL cases processed] and number of SIELs/SITCLs refused	2% (1)

Median processing time (OIELs/OITCLs)	66 days
% and number of OIELs/OITCLs completed in 20 working days	28% (2)
% and number of OIELs/OITCLs completed in 60 working days	42% (3)
% [as a % of all OIELs/OITCLs cases processed] and number of OIELs/OITCLs refused	14% (1)

### SIELs

#### Issued

	Count	Value
Mil	8	£185,088
Other	11	£786,001
Mil and Other	0	£0
Total	19	£971,089

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

**Mil**

Rating	Count	Value
ML1	2	£3,923
ML3	1	£660
ML10	2	£75,984
ML11	2	£53,855
ML17	2	£50,666

air guns (5)  
 cloth treated for signature suppression for military use  
 components for military sonar detection equipment (2 licences)  
 components for military utility helicopters (2 licences)  
 components for veterinary/tranquillising ammunition  
 components for veterinary/tranquillising rifles  
 goods treated for signature suppression for military use  
 veterinary/tranquillising rifles (1)  
 weapon sights

**Other**

Rating	Count	Value
1C010	2	£436,600
1C350	5	£33,400
5A002	1	£83,101
7A003	3	£178,900
7A103	1	£54,000

chemicals used for industrial/commercial processes  
 chemicals used for pharmaceutical/healthcare production (4 licences)  
 equipment employing cryptography  
 fibrous/filamentary materials (2 licences)  
 inertial equipment (2 licences)  
 T inertial equipment

**Refused**

	Count
Mil	1
Other	0
Mil and Other	0

### SIELs - Incorporation

#### Issued

	Count	Value
Mil	0	£0
Other	1	£27,000
Mil and Other	0	£0
Total	1	£27,000

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

#### Other

Rating	Count	Value
7A103	1	£27,000

inertial equipment

The items being incorporated in this destination are ultimately destined for all or some of the following:

India

### OIELs

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for military airborne cargo handling equipment, military airborne cargo handling equipment, technology for the production of military airborne cargo handling equipment, unfinished products for military airborne cargo handling equipment[See footnote 2]
2	P	mixtures containing chemicals used for industrial/commercial processes

3	P	bomb suits, civil body armour, components for bomb suits, components for civil body armour, components for explosive ordnance disposal equipment, demolition devices, explosive ordnance disposal equipment, improvised explosive device disposal equipment, military devices for initiating explosives, military firing sets, military helmets, mine detection equipment, non-military firing sets
---	---	---

### Refused

Applications refused in full.		
No.	Type	Goods Summary
1	P	CS hand grenades, demolition charges, demolition devices, exploding simulation devices, fire simulation equipment for small arms ammunition, illuminators, military devices for initiating explosives, signal flares, signal hand grenades, smoke ammunition, smoke canisters, smoke generators, smoke hand grenades, stun grenades, tear gas/irritant ammunition, tear gas/riot control agents, thunderflashes, training anti-aircraft ammunition, training hand grenades
2	P	hydrophones, towed hydrophone arrays

### SITCLs

Source	Issued	Refused	Revoked
Germany	1	0	0
Malaysia	1	0	0
Malta	1	0	0

### Issued

all-wheel drive vehicles with ballistic protection [See footnote 1]  
assault rifles (3)  
body armour  
combat shotguns (3)  
small arms ammunition

### Case & Goods Footnotes

1. Approval is based on sole end use by a diplomatic mission in Sri Lanka
2. The OIEL is approved on the basis that the goods are to be manufactured in Sri Lanka but are not for end use there.

No.	Type	Goods Summary
1	P	air guns, rifles, semi-automatic pistols, shotguns, sporting pistols
2	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
3	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic

		countermeasures equipment, weapons simulators
4	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military training aircraft, unfinished products for military transport aircraft, unfinished products for military utility aircraft, unfinished products for military utility helicopters, unfinished products for unmanned air vehicles
5	P	components for shotguns, shotguns
6	P	components for military aero-engines, general military aircraft components, general military vehicle components
7	P	gun mountings, weapon sights
8	P	combination rifle-shotguns, components for combination rifle-shotguns, components for shotguns, components for sporting rifles, shotguns, small arms ammunition, sporting rifles, weapon sights
9	P	components for revolvers, components for shotguns, components for sporting pistols, components for sporting rifles, components for weapon sight mounts, components for weapon sights, revolvers, shotguns, sporting pistols, sporting rifles, weapon sight mounts, weapon sights
10	P	components for combat aircraft, military aircraft ground equipment, technology for the use of combat aircraft, technology for the use of military aircraft ground equipment
11	P	americium-241, devices for initiating explosives, hydrophones, linear cutting explosive charges, materials containing natural uranium, materials containing thorium, neutron generators, non-military detonators, non-military firing sets, oxidisers, technology for the use of devices for initiating explosives, technology for the use of linear cutting explosive charges, technology for the use of non-military detonators, technology for the use of non-military firing sets
12	P	biological agent detection equipment, chemical agent detection equipment, civil explosive detection/identification equipment, civil NBC detection systems, military electronic equipment
13	T	components for military training aircraft, equipment for the use of military transport aircraft, general military aircraft components, military aircraft ground equipment, technology for the use of equipment for the use of military transport aircraft, technology for the use of military aircraft ground equipment, technology for the use of military transport aircraft
14	P	triggered spark gaps
15	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military search and rescue aircraft, components for military surveillance aircraft, components for military training aircraft, components for military utility aircraft, components for military utility helicopters, components for military utility vehicles, components for naval engines, components for patrol craft, components for tanker aircraft
16	P	components for gun laying equipment, components for military image intensifier equipment, components for weapon night sights, components for weapon sights, equipment for the use of weapon sights, gun laying equipment, military image intensifier equipment, technology for the use of equipment for the use of weapon sights, technology for the use of gun laying equipment, technology for the use of military image intensifier equipment, technology for the use of weapon night sights, technology for the use of weapon sight mounts, technology for the use of weapon sights, weapon night sights, weapon sight mounts, weapon sights
17	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment, components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment

18	P	toxins
19	P	ballistic shields
20	P	air guns, pistols, semi-automatic pistols, shotguns, sporting pistols, sporting rifles, weapon sights
21	P	technology for defensive systems against NBC agents, technology for military aircraft ground equipment, technology for unmanned air vehicles
22	P	toxins

pepper sprays for self protection

**OIELs****Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography
2	P	components for military aero-engines, general military aircraft components, general military vehicle components
3	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of cryptographic software, technology for the use of equipment employing cryptography

4	P	bomb suits, civil body armour, components for bomb suits, components for civil body armour, components for explosive ordnance disposal equipment, demolition devices, explosive ordnance disposal equipment, improvised explosive device disposal equipment, military devices for initiating explosives, military firing sets, military helmets, mine detection equipment, non-military firing sets
5	P	cryptographic software, equipment employing cryptography, software for the use of equipment employing cryptography, technology for the use of cryptographic software, technology for the use of equipment employing cryptography, technology for the use of software for the use of equipment employing cryptography
6	P	components for submersible equipment, components for submersible vehicles, heading sensors for hydrophone arrays, high energy capacitors, metal alloy cylindrical forms, metal alloy tubes, submersible equipment
7	T	cryptographic software, equipment employing cryptography, radio jamming equipment

#### Refused

Applications refused in full.		
No.	Type	Goods Summary
1	P	hydrophones, towed hydrophone arrays

#### SITCLs

Source	Issued	Refused	Revoked

## Yemen

### Processing Statistics

Median processing time (SIELs/SITCLs)	41 days
% and number of SIELs/SITCLs completed in 20 working days	30% (4)
% and number of SIELs/SITCLs completed in 60 working days	76% (10)
% [as a % of all SIEL/SITCL cases processed] and number of SIELs/SITCLs refused	15% (2)

Median processing time (OIELs/OITCLs)	14 days
% and number of OIELs/OITCLs completed in 20 working days	57% (4)
% and number of OIELs/OITCLs completed in 60 working days	85% (6)
% [as a % of all OIELs/OITCLs cases processed] and number of OIELs/OITCLs refused	14% (1)

### SIELs

#### Issued

	Count	Value
Mil	4	£160,245
Other	4	£125,002
Mil and Other	0	£0
Total	8	£285,247

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

**Mil**

Rating	Count	Value
ML4	1	£72,411
ML11	1	£15,789
ML13	2	£3,636
ML15	1	£68,409
ML22	1	£0
PL5017	1	£0

body armour (2 licences)  
 components for body armour  
 components for military cameras  
 equipment for the use of military cameras  
 military firing sets  
 military helmets  
 military improvised explosive device disposal equipment  
 technology for the use of military cameras  
 test equipment for military cameras

**Other**

Rating	Count	Value
1A004	4	£125,002

civil explosive detection/identification equipment (4 licences)  
 civil NBC detection systems

**Refused**

	Count
Mil	1
Other	0
Mil and Other	0
Total	1

Count of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application.

The SIELs refused were not granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

**Mil**

Rating	Count
ML10	1

components for combat aircraft

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
