

How to Calculate Net ODA

1. Apply filters to your spreadsheet
2. To calculate Bilateral ODA, deselect 'Multilateral' from Column P (BilateralMultilateralBreakdown)
3. To calculate Multilateral ODA, select 'Multilateral' from Column P (BilateralMultilateralBreakdown), deselecting 'Bilateral through multilateral' and 'Other bilateral'
4. Total the amounts in Column M (Amounts Extended)
5. Total the amounts in Column N (Amounts Received)
6. Subtract Column N's total from Column M's total

Notes

- Years may be selected from Column A
- Recipient Countries can be found in Column D
