Version 1

This document sets out the details about our funding formula for establishing maximum amounts for 24+ Advanced Learning Loans designated qualifications.

February 2015

Of interest to colleges and training organisations

Introduction

This Addendum contains the maximum amounts for 24+ Advanced Learning Loans for designated qualifications (by designated we mean that the course has been through the Skills Funding Agency's [SFA's] approval process). It refers to learners who start qualifications between 1 August 2015 and 31 July 2016.

Qualifications designated by the SFA for Advanced Learning Loans are published with their maximum loan amount on the [Hub](#). This is updated regularly as we add newly designated qualifications to the database.

Establishing the maximum loan amount

We use the funding matrix (in Annex 2) to establish the maximum loan amount for designated qualifications. The matrix uses two key pieces of information to decide upon the appropriate amount for each individual qualification:

- the size and type of the qualification
- the programme weighting for the qualification (see annex 1) which is based on the subject sector area code

We group sector subject areas into programme weightings which recognise the relative costs of delivering provision in different sectors and subjects.

Annex 1 – Sector subject areas (SSAs) by programme weighting category

1. Programme weightings recognise the relative costs of delivering provision in different sectors and subjects.
2. Programme weightings are set by referring to the SSA, according to the table below, along with a limited number of exceptions we have set. For all qualifications the SSA used is that decided by the awarding organisation as part of the accreditation or regulation process and available on the Register of Regulated Qualifications, operated by [Ofqual](#).

Annex 2: The Funding Matrix

3. There is a single set of maximum loan amounts for all eligible provision, no matter how that provision is delivered. The process of setting rates uses a 'matrix' (table). In the matrix, the rows represent the funding band and the columns represent the programme weighting. Funding bands reflect the different sizes of qualifications, and programme weightings reflect the relative costs of delivering them in different sectors and subjects. Where qualifications are credit bearing their funding band is set using their credit value. Otherwise qualifications have their funding band set using their Guided Learning Hours (GLH). The matrix below is based on the credit value and GLH recorded on the Register of Regulated Qualifications operated by [Ofqual](#).
4. Access to Higher Education Diplomas are approved by the [Quality Assurance Agency](#) and are funded based on their historically recorded GLH to set the funding band and details of the qualifications can be found at the Access to Higher Education [website](#).
5. The maximum loans amounts matrix for learners commencing qualifications between 1 August 2015 to 31 July 2016 is below:

Qualification type/size	Maximum loan amount according to programme weighting*				
	A - Base	B - Low	C - Medium	D - High	E - Specialist
