

Annex B: Impact Assessment – The Edge Academy

We have looked at 5 existing Pupil Referral Units or AP schools within a 6 mile radius of the site of The Edge Academy. The Edge will only be commissioning from the 7 schools in their hub, added to the fact that, according to the Sharing Panel, for academic years 2014-2015 and 2015-2016 there is a predicted shortfall in AP places in the area in excess of 100, therefore we consider The Edge will have only a minimal impact on this existing provision.
