Dear Tony,

Thank you for your letter of 28 April, in which you raise concerns and seek clarification on the comments related to the recommendations you made in your review, following my letter to you on 22 March.

I appreciate you taking the time to write to me on this issue, the additional clarification you have provided will assist in ensuring that we fully understand the intention behind the recommendations you made in your review.

I have asked my officials to explore recommendation 2 further, for example, to consider any legal and regulatory issues that could arise from mandating part of a code of practice. They will work with you and your team to provide a more detailed response to this question and to all of the recommendations you made in your review.

I would be happy to discuss the National Surveillance Camera Strategy with you in the coming months.

Regards

Mike
