Natural England has now decided how to proceed following its review of the above mentioned long-term direction to restrict CROW access on this land.

An initial consultation has been held between 11th May 2015 and 26th May 2015 with statutory consultees and the general public.

We didn't receive any feedback other than a short e-mail from the applicant to say the restriction is no longer required.

Outcome of the review:

Natural England's decision is to revoke the restriction.

Summary of changes made to the existing directions:

Land Parcel Name:	Details of restriction on original direction:	New details of restriction
Kennett Shoot	1 st July until 1 st February No public access due to shooting	Restriction removed.

Details of the restriction will appear on the relevant map of access land on the Open Access website - <https://www.gov.uk/outdoor-access-recreation/rights-of-way-open-access>

Where a direction restricts access indefinitely, for more than five years, for part of every year, or for part of at least six consecutive years, we have a statutory duty to review it within five years of the date of its issue.

Date review completed: 15th July 2015
