

## **Impact Assessment – Finham Park 2 School**

Basic need – forecast Secondary need surpluses/shortfalls

- Information based on the 2014 SCAP survey data which has been quality assured by DfE analysts, illustrates that the official measure shows no basic need for years 2018/19. The year of entry data also illustrates that there is no forecast shortfall of places before September 2018/19. However, the LA is fully supportive of the school, there is a case for Finham Park Free School based on a need for high quality places in the area and the LA anticipates a visible need for Year 7 places by 2018.
