Apologies for not getting these to you earlier

- In light of the recent protest held at West Burton, what are EDF's long term plans for security at the site?
- What reassurance can you provide that you have a plan for dealing with security in the long term across all of your estate (gas, coal, and nuclear power stations)?

I am working on this with my colleague REDACTED who leads on the REDACTED of the house (he knows REDACTED who you mentioned you were seeing tomorrow).

Many thanks
