**Attachments:** zebra.jpg; zebra 1.jpg; zebra 2.jpg

Dear [REDACTED]

The baby zebra was micro chipped this morning and checked over by a vet, it is a female zebra.

The vet wrote us the attached letter to say that she is fit to travel and also attached is the passport application with the micro chip number on.

I hope that this paperwork is acceptable, for us to bring the mother and baby back to the circus venue which will be on the tour itinerary.

best wishes

Dear [REDACTED]

Many thanks for letting us know. I'm sure you've got this in hand anyway, but – as per Marc Casale's letter of 16 March - we'd be grateful if you could let us have a signed letter/report from your lead vet saying that both Watusi and the foal are fit to be returned to the circus (before they do so).

Best wishes

**Subject:** Re baby zebra

Dear Defra Team,

Just to let you know that Watusi foaled at approximately 12 am this morning. The sex of the baby zebra is unknown at the moment but mother and baby are both doing well.

Once the baby zebra has been micro chipped and the sex determined we will then add the baby to our stock list.

We will keep you updated as soon as possible.

best wishes

**Subject:** RE: Re baby zebra

Dear [REDACTED]

The letter from the vet only confirms that the foal is healthy enough to be transported to your winter quarters. It makes no mention of being healthy enough to join up with the circus. It also doesn't mention whether Watsui is healthy enough to be transported either (we would not expect a female that has given birth to be transported for at least a week). As we said in March, we would expect a letter from your lead vet stating that both the foal and Watsui are fit to join up with the circus before they do so.

Kind regards

Dear Defra Team

Please find attached paperwork for the new baby zebra's care plan.

To follow are the letters from the two vets to confirm that Watusi and Zulu are fit to travel back to the circus.

If you require any additional paperwork please let me know.

Best wishes

PETER JOLLY'S CIRCUS  
**INDIVIDUAL RETIREMENT PLAN**

<b>SPECIES NAME</b>	ZEBRA	<b>LEAD VET</b>	[REDACTED] BVSc MRCVS
<b>ID NUMBER</b>	Zulu	<b>Address</b>	[REDACTED]
<b>D.O.B</b>	977200009112163	<b>Telephone</b>	[REDACTED]
	28/05/2016	<b>Signature</b>	[REDACTED]
		<b>Date</b>	02/06/2016
<b>Known facts to trigger retirement</b>	No longer able to travel with the circus for welfare or health reasons		
<b>Retirement location</b>	At a point when Zulu can no longer travel with the circus she will remain at the winter quarters.		
<b>Maintenance of the animal's health and welfare in retirement.</b>	To ensure the health and welfare of Zulu in retirement, if possible, the existing care plan for her will be maintained and followed. However in liaison with, and on advice from the Lead Veterinary Surgeon regarding her care, the care plan will be reviewed and adjusted if necessary to suit her retirement and to ensure her wellbeing. Retirement care will be reviewed at regular intervals.		
<b>Details of the accommodation and enrichment to be provided.</b>	These details would be the same as inspected by the Circus Veterinary Inspector when Zulu is normally in winter quarters with any adjustments or additional needs the Lead Veterinary Surgeon decides at that retirement point in order to maintain her health, welfare and wellbeing.		
<b>Social needs of the group or individual animal.</b>	Where possible Watusi who is the constant companion of Zulu will retire to the winter quarters with her, should this not be possible another suitable animal from the social group will be selected to be her companion in her retirement.

ZEBRA	ZULU	977200009112163	PANACUR SPRING AND AUTUMN	AS REQUIRED	AS REQUIRED	AS REQUIRED	QUARTERLY OR MORE OFTEN IF REQUIRED

**WEIGHTS;**

The zebra will be weighed regularly, i.e. quarterly or more often if a problem is suspected. The zebra will be weighed approximately by the use of a weight tape, to be placed around the girth. The weights will be recorded, assessed and discussed with the lead vet at his quarterly visits or any time that there is concern.

**VACCINES:**

The zebra require Tetanus vaccination every two years, *initial course, two doses 4-6 wks apart.*

**ANTHELMINTICS:**

The zebra will be wormed twice a year, spring and autumn, or more frequently if necessary. If a problem is suspected, then faeces samples will be taken and analysed to determine worm egg count.

**ECTOPARASITES:**

No routine ectoparasitic treatments are recommended, but all animals will be regularly monitored for ectoparasites, and any symptoms will be discussed with the lead vet and appropriate treatments given if required

Dear Defra Team,

Please find below the confirmation that [REDACTED] has inspected the zebra mare and foal to move them back to our winter quarters from [REDACTED]. Once at our winter quarters our Lead vet will inspect them both and write a letter to say they are fit to travel with the circus, we will forward you this letter asap.

We will be having a quarterly inspection from our lead vet on Thursday, which will count as one of our on tour by lead vet inspections.

best wishes

Dear Defra Team

Please find attached a letter from our Lead vet to say he has checked that the baby zebra and mother are fit to travel and re join the circus, also attached is the updated stock list to include the baby zebra.

best wishes

15<sup>th</sup> June 2016

OWNER Mr P Jolly.  
[REDACTED]

ANIMALS WATUSI, the Zebra mare, together with  
ZULU, her 2 week old zebra foal

This is to confirm that at the request of the owner on 14th June 2016, I  
examined the above zebra mare and zebra foal at their winter quarters at

[REDACTED] I found them to be healthy and fit to travel from [REDACTED] to Welshpool to  
join up with the main circus and then onwards on their Summer tour.
