

Exits of Trained Regular Soldiers by Nationality & Ethnicity, and Average Length of Service.

Question:-

Set out for each Arm/Service in the Army during the 6 full financial years from 01/04/07-31/03/13:-

the number of exits per year, including summary of overall total exits for the period.

For each of the 5 categories 'all, White-UK, EM-UK, EM-Not UK and White-Not UK.

Soldier outflows by Arm/Service, Nationality and Ethnicity during the financial years 2007 - 2013.

Notes/Caveats:

- The figures are for trained Regular Army only and therefore exclude Gurkhas, Full Time Reserve Service, Mobilised Reserves, TA and all other Reserves, but includes those personnel that have transferred from GURTAM to UKTAP.
- Due to the renaming of the British Dependent Territories under the British Overseas Territories Act 2002 to British Overseas Territories, Gibraltar, Ascension Islands, St Helena and Montserrat are now included in the UK Total figure.
- The ethnic breakdown is as recorded on JPA.
- The data have been rounded to limit disclosure and ensure confidentiality.
- Figures have been rounded to 10; numbers ending in "5" have been rounded to the nearest multiple of 20 to prevent systematic bias.
- Totals and sub-totals have been rounded separately and so may not be the sum of their parts.

"-" zero or rounded to zero.

Exits of Trained Regular Soldiers by Nationality & Ethnicity, and Average Length of Service.

Set out for each Arm/Service in the Army during the 6 full financial years from 01/04/07-31/03/13:-
 - the average length of service in years on exit
 - the average annual exit rates
 For each of the 5 categories: Total, White-UK, EM-UK, EM-Not UK and White-Not UK.

Notes/Caveats:

- The figures are for trained Regular Army only and therefore exclude Gurkhas, Full Time Reserve Service, Mobilised Reserves, TA and all other Reserves, but includes those personnel that have transferred from GURTAM to UKTAP.
- Due to the renaming of the British Dependent Territories under the British Overseas Territories Act 2002 to British Overseas Territories, Gibraltar, Ascension Islands, St Helena and Montserrat are now included in the UK Total figure.
- Length of service (LoS) has been calculated using entry date. There are known problems with the entry date information extracted from JPA which is supposed to reflect their 'current entry date' but if personnel have transferred to the Army from another Service, served under an alternative assignment type (e.g. reserve forces), are re-entrants or have transferred from Other Ranks to Officers, their entry date may correspond to any of these events. The resulting LoS may reflect their current period of service, include previous service, or it may be the time that has elapsed since they first joined the Armed Forces, irrespective of any break in service.
- The average annual exit rates have been derived using average annual number of outflows over period 01/04/07 - 31/03/13, and using the average numbers of trained regular soldiers on strength over the same period.
- The data have been rounded to limit disclosure and ensure confidentiality.
- Figures have been rounded to 10; numbers ending in "5" have been rounded to the nearest multiple of 20 to prevent systematic bias.
- Percentages have been replaced with "-" where the numerator and/or denominator are greater than zero and less than 5.
- Average LoS have been replaced with "-" where the average exit rate was less than 5.
- Totals and sub-totals have been rounded separately and so may not be the sum of their parts.
- Unrounded figures are used in the calculation of percentages
- Some data has been derived from groups with very low outflows, so should be used with caution.
- The number of Non-UK nationals on strength started to increase substantially after 2000, reflected in the average LoS on outflow.
