

Title: Exempt Charities - Foundation and Voluntary Schools Lead department or agency: Office for Civil Society, Cabinet Office Other departments or agencies: Department for Education Welsh Assembly Government Charity Commission	Impact Assessment (IA)
	IA No: CO 1008
	Date: 24/02/2011
	Stage: Enactment
	Source of intervention: Domestic
	Type of measure: Secondary legislation
Contact for enquiries: Ben Harrison 0207 271 6282 Lindsey Bromwell 020 721 6273	

Summary: Intervention and Options

What is the problem under consideration? Why is government intervention necessary?

Exempt charities are not registered with or regulated by the Charity Commission. 'Principal regulators' are existing regulators that take on the role of promoting charity law compliance for exempt charities. In 2009 Foundation and Voluntary Schools (F&V schools) lost their exempt status due to technical reasons. Transitional protections have ensured that F&V schools do not have to register with the Charity Commission. These protections expire in September 2011. The proposal is to re-confer exempt charity status on F & V schools, and appoint the Secretary of State for Education as "principal regulator" of F&V schools in England, and the Welsh Assembly Government as principal regulator of F&V Schools in Wales.

What are the policy objectives and the intended effects?

The policy objective is to ensure that there is proportionate but effective oversight of charities under charity law whilst keeping the regulatory burden to the minimum necessary. For exempt charities we try to find a suitable principal regulator that already has a regulatory relationship with the group of exempt charities to take on the responsibility of promoting charity law compliance. This avoids dual regulation by both the Commission and the existing regulator. In the case of F&V schools the SoS for Education already has regulatory powers under education law for schools in England, as has the Welsh Assembly Government for schools in Wales. SoS for Education and the Welsh Assembly have confirmed that they are content to take on the principal regulator role for F&V schools.

What policy options have been considered? Please justify preferred option (further details in Evidence Base)

Option 1 - reconfer exempt status and appoint an appropriate principal regulator. This is the preferred option supported by F&V schools and the Charity Commission. F&V schools would not be required to register with the Charity Commission. The principal regulator would be responsible for promoting their compliance with charity law. Charity Commission could enforce compliance if necessary but only after consultation with the principal regulator. The principal regulator role dovetails with the Secretary of State's existing oversight/regulatory responsibilities for F&V schools. This avoids duplicating regulatory functions and minimises regulatory burden. Option 2 - Do nothing. F&V schools would lose transitional protections and have to register with the Charity Commission, increasing regulatory burden (both for F&V schools and the Commission) Option 3 - reconfer exempt status but do not appoint principal regulator. This would leave F&V schools without any regulation under charity law which could lead to non-compliance and would create an inconsistent approach to regulation.

When will the policy be reviewed to establish its impact and the extent to which the policy objectives have been achieved?

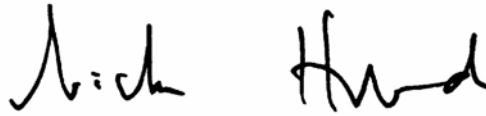

It will be reviewed from 2011 as part of the overall review of the Charities Act 2006 and then after 3 years from commencement.

Are there arrangements in place that will allow a systematic collection of monitoring information for future policy review?

Yes

SELECT SIGNATORY Sign-off For enactment stage Impact Assessments:

I have read the Impact Assessment and I am satisfied that (a) it represents a fair and reasonable view of the expected costs, benefits and impact of the policy, and (b) the benefits justify the costs.

A handwritten signature in black ink, appearing to read "Nick Hurd". The signature is written in a cursive style with a large initial 'N' and 'H'.

Signed by the responsible Minister:

Date: 14 July 2011

Summary: Analysis and Evidence

Policy Option 1

Description:

Option 1 - Re-confer exempt status and appoint an appropriate principal regulator

Price Base Year 2011	PV Base Year 2011	Time Period Years 10	Net Benefit (Present Value (PV)) (£m)		
			Low: Optional	High: Optional	Best Estimate: 20.01

COSTS (£m)	Total Transition (Constant Price) Years	Average Annual (excl. Transition) (Constant Price)	Total Cost (Present Value)
Low			
High			
Best Estimate	0	0	0

Description and scale of key monetised costs by 'main affected groups'

There are not considered to be any significant new costs to the F&V schools under this approach. The Department for Education and Welsh Assembly Government would incur some costs in terms of staff time however these are not considered to be significant as they will be building on existing regulatory oversight processes and mechanisms.

Other key non-monetised costs by 'main affected groups'

N/A

BENEFITS (£m)	Total Transition (Constant Price) Years	Average Annual (excl. Transition) (Constant Price)	Total Benefit (Present Value)
Low			
High			
Best Estimate	11.50	0.99	20.01

Description and scale of key monetised benefits by 'main affected groups'

Number of F&V schools = 8,000 approx. Indirect costs of registering for a charity = £168.50 per organisation. Average cost to the Charity Commission of registering a charity = £1,269.5. Annual costs of submitting returns to the Charity Commission = £123.5. Therefore transition cost = $(168.5 \times 8000) + (1,269.5 \times 8000) = £11.5m$. Annual cost = $(123.5 \times 8000) = £0.9m$.

Other key non-monetised benefits by 'main affected groups'

This approach will ensure effective charity regulation of F&V schools whilst minimising the burden of regulation. It was the favoured approach by F&V schools and their representative groups on consultation.

Key assumptions/sensitivities/risks

Discount rate (%)

3.5

The annual reporting costs are based on figures for charities with an income of over £1m. We are assuming that all F&V schools have a turnover in excess of £1m however we think that a majority of primary schools that have F&V status will have an annual income of less than this. It is not possible to give an accurate figure for the number of governing bodies as some F&V schools will share a governing body with another school (ie federations). However, as of February 2011 there were approx 8,000/8,150 F&V schools.

Evidence Base (for summary sheets)

Problem under consideration;

Foundation and Voluntary schools were, until 2009 classed as “exempt” charities. They lost their exempt status due to a technicality rather than as a result of a policy decision.

By Foundation and Voluntary schools we mean governing bodies of foundation, voluntary and foundation special schools, foundation bodies established under s.21 of the Schools Standards and Framework Act 1998 and bodies connected with such schools.

As of February 2011, there were 1298 foundation schools, 6827 voluntary schools, 43 foundation special schools, and 1 foundation body established under s.21 of the Schools Standards and Framework Act 1998. (NB the premises of such schools are often held on charitable trusts by separate foundations that are “excepted charities” – see below).

Generally, all charities in England and Wales must be registered with and regulated by the Charity Commission (“the Commission”). There are three broad exceptions to this rule.

- 1) Very small charities, with an annual income below £5,000 which are not required to register with the Commission but are subject to its regulatory jurisdiction.
- 2) “excepted charities “ with annual gross income below £100,000 which are not required to register with the Commission but are subject to its regulatory jurisdiction.
- 3) ”exempt charities” These institutions are not registered with the Commission and are currently not subject to the direct regulatory jurisdiction of the Commission. They are exempt because that are considered to be adequately supervised by another body or authority. Most exempt charities are listed in Schedule 2 to the Charities Act 1993 (“the 1993 Act”) but some categories have been created by other legislation. Other examples of exempt charities are universities and the Boards of trustees of various museums and galleries.

In 2002, the Strategy Unit (SU) found that whilst exempt charities may have their activities regulated by another body, they was not sufficient oversight of them as charities; a view generally supported on public consultation. The Charities Act 2006 (“the 2006 Act”) therefore made a number of changes to improve the regulation of exempt charities.

In essence, the 2006 Act will mean exempt charities go down one of two routes:

- 1) Wherever possible we have identified Ministers or bodies that already have regulatory oversight of groups of exempt charities to become the “principal regulator” for that group of exempt charities and take on a role in promoting charity law compliance. For example the Secretary of State for Culture, Media and Sport in relation to exempt national museums and galleries, and the Higher Education Funding Council for England in relation to higher education institutions in England. In these cases the “principal regulator” already has a regulatory relationship with the relevant group of charities, although not specifically in relation to their being charities.
- 2) Where we have been unable to identify a suitable Minister or body to become “principal regulator” of a group of exempt charities, that group of exempt charities will lose its exempt charity status. The group will become “excepted charities”. This means that they come under the Charity Commission's full regulatory jurisdiction, and if their income exceeds £100,000 would be required to register with the Commission.

The role of the principal regulator is to promote compliance by the charity trustees with their charity law obligations. The Minister for the Cabinet Office has the power under section 13 of the 2006 Act to appoint a principal regulator for a category of exempt charities and to make

related consequential amendments to existing legislation. Principal regulators will not have any of the Charity Commission's investigation or enforcement powers, but will be able to call on the Commission to investigate a charity for which the principal regulator is responsible. The 2006 Act also makes a number of amendments to the 1993 Act to increase the Commission's regulatory jurisdiction in respect of exempt charities. The Commission must consult the relevant principal regulator before exercising any specific power in relation to an exempt charity.

The advantage of the principal regulator approach is that it avoids any regulatory duplication, and minimises the impact on the exempt charities whilst ensuring that they are subject to charity regulation. The Commission is already developing a Memorandum of Understanding with the Department for Education to explain how the Commission and the principal regulator will work together, which will be published once agreed.

It is important that F&V schools are aware of and comply with charity law. Without appropriate oversight of F&V schools it would be difficult to promote their compliance with charity law. This could lead to instances of non-compliance which might damage public trust and confidence in F&V schools or the wider charitable sector.

As F&V schools in England are already overseen by the Secretary of State for Education under education law, appointing the same person as the principal regulator means that he can oversee F&V schools in England as a whole. The Welsh Assembly Government performs a similar role for F&V schools in Wales, and is the most appropriate body to take on the principal regulator role in Wales.

Rationale for intervention;

If exempt status were not to be re-conferred, over 8,000 F&V schools would have to register with the Commission and come directly under its regulation. This would represent a significant burden on the schools (and the Commission). In particular it would lead to F&V schools coming under multiple accounting and reporting regimes, which would represent a significant regulatory burden. Consultation in 2010 found that F&V schools want to remain exempt and have a principal regulator.

Policy objective;

The objective of the policy is to ensure that there is appropriate and proportionate oversight of F&V schools as charities, whilst avoiding regulatory duplication or additional administrative burdens.

In order to re-confer exempt charity status on F&V schools, the Minister for the Cabinet Office must be satisfied, in accordance with section 11(12) of the 2006 Act, that this approach is desirable in the interests of ensuring appropriate or effective regulation of F&V schools in connection with compliance by their charity trustees with their legal obligations in exercising control and management of the administration of those institutions.

Description of options considered (including do nothing);

Option 1 – Re-confer Exempt Status and Appoint the Secretary of State for Education as Principal Regulator

This is the preferred option.

Under this option, an Order made under s.11(11) of the 2006 Act would re-confer exempt charity status on F&V schools. That would be accompanied by regulations appointing the

Secretary of State for Education as principal regulator of F&V schools in England, and the Welsh Assembly Government as principal regulator of F&V schools in Wales.

This is considered the most effective approach to meet the policy objective and the Secretary of State for Education has stated that this is his preferred option for the regulation of F&V schools.

This approach will ensure that F&V schools are aware of their responsibilities under charity law whilst minimising the additional regulatory burden placed upon them.

Costs: There are expected to be no material additional costs for F&V schools under this option. DfE (in England) and the Welsh Assembly Government (in Wales) will have to take on additional responsibility of promoting charity law compliance, but the costs involved are not considered significant. DfE and the Welsh Assembly Government would also be principal regulator for any charities linked to F&V schools, which would also be exempt by virtue of paragraph (w) of Schedule 2 to the Charities Act 1993, which may include endowment funds.

Benefits: This approach ensures effective and proportionate oversight of F&V schools as charities whilst keeping bureaucracy to a minimum by avoiding dual regulation. Failure to re-confer exempt charity status would result in additional regulatory requirements for F&V schools in having to register with and report to the Charity Commission. The Secretary of State has an existing role of funding and overseeing F&V schools which dovetails with the Principal Regulator role. Under this approach the number of organisations which oversee F&V schools is kept to a minimum, avoiding duplication and it would be consistent with the proposed approach for Academies and sixth form colleges.

Option 2 – Do Nothing

This approach is considered undesirable. Failing to re-confer exempt charity status on F&V schools would result in them having (by law) to register with, and be directly regulated by, the Charity Commission. This would represent a new and avoidable administrative burden for the F&V schools, both in initially registering with the Charity Commission, and in routine annual reporting to the Commission. In particular, F&V schools would be required to prepare additional Charities SORP compliant accounts, unnecessarily duplicating their existing accounting processes. This approach would also represent a significant burden for the Charity Commission (in registering and regulating over 8,000 new charities) at a time when its resources are stretched.

Costs: Significant. Costs to the F&V schools of registration with the Charity Commission (estimated at £12M in total in year 1). Ongoing annual accounting and reporting costs of £1M. Significant resource implications for the Charity Commission in registering and regulating over 8,000 new charities.

Benefits: Limited (particularly when compared to the costs). This approach would ensure that F&V schools were overseen for their charity law compliance (albeit directly by the Charity Commission, in addition to their other lines of accountability). Arguably it might make these charities more visible and publically accountable, unless Secretary of State for Education as principal regulator would be able to establish a comparable framework under which information about these charities was easily publicly available.

Option 3 – Re-Confer Exempt Status and appoint an alternative Principal Regulator (a person or body other than the Secretary of State for Education in England, and the Welsh Assembly Government in Wales)

Consideration was given to whether there might be other potential principal regulators for F&V schools, and several options were considered and discounted.

Option 4 – Re-Confer Exempt Status but do not appoint Principal Regulator

Re-conferring exempt status without appointing a principal regulator was not considered a viable option as it would not be possible to argue that this approach would ensure appropriate or effective regulation of F&V schools as charities (as required by the test in s.11(12) Charities Act 2006).

Annexes

Annex 1 should be used to set out the Post Implementation Review Plan as detailed below. Further annexes may be added where the Specific Impact Tests yield information relevant to an overall understanding of policy options.

Annex 1: Post Implementation Review (PIR) Plan

A PIR should be undertaken, usually three to five years after implementation of the policy, but exceptionally a longer period may be more appropriate. A PIR should examine the extent to which the implemented regulations have achieved their objectives, assess their costs and benefits and identify whether they are having any unintended consequences. Please set out the PIR Plan as detailed below. If there is no plan to do a PIR please provide reasons below.

<p>Basis of the review: [The basis of the review could be statutory (forming part of the legislation), it could be to review existing policy or there could be a political commitment to review];</p> <p>There will be an overall review of the Charities Act 2006 in 2011 which will consider the steps taken to improve regulation of exempt charities. We will look at this matter again by 2014</p>
<p>Review objective: [Is it intended as a proportionate check that regulation is operating as expected to tackle the problem of concern?; or as a wider exploration of the policy approach taken?; or as a link from policy objective to outcome?]</p> <p>To ensure effective regulation of the charitable sector whilst minimising regulatory burden.</p>
<p>Review approach and rationale: [e.g. describe here the review approach (in-depth evaluation, scope review of monitoring data, scan of stakeholder views, etc.) and the rationale that made choosing such an approach]</p> <p>We will work with the principal regulator on establishing the data available for the review.</p>
<p>Baseline: [The current (baseline) position against which the change introduced by the legislation can be measured]</p> <p>The baseline is registration and regulation by the Charity Commission.</p>
<p>Success criteria: [Criteria showing achievement of the policy objectives as set out in the final impact assessment; criteria for modifying or replacing the policy if it does not achieve its objectives]</p> <p>Appropriate regulation to ensure compliance whilst minimising the burden of regulation.</p>
<p>Monitoring information arrangements: [Provide further details of the planned/existing arrangements in place that will allow a systematic collection of monitoring information for future policy review]</p> <p>We will have annual contact with the principal regulator and the Charity Commission.</p>
<p>Reasons for not planning a PIR: [If there is no plan to do a PIR please provide reasons here]</p> <p>N/A</p>

Add annexes here.
