**24 September 2013**

## **LOCAL AUTHORITY REVENUE EXPENDITURE AND FINANCING**

### **ENGLAND 2011-12 FINAL OUTTURN (REVISED)**

- Total revenue expenditure by local authorities in England was £99.3 billion in 2011-12, a decrease from £104.3 billion in 2010-11.
- 26.6% of revenue expenditure in 2011-12 was funded through council tax, 29.7% through formula grant and 46.1% through specific grants inside Aggregate External Finance and Local Services Support Grant.
- In 2011-12 local authorities added £2.6 billion to their reserves. This includes figures for Greater London Authority, who added £0.6 billion to their reserves. Excluding GLA, authorities added £2.0 billion to their reserves.
- Local Authorities net current expenditure for education services was £40.2 billion in 2011-12.
- Education expenditure for 2011-12 is not comparable to previous years due to a number of schools changing their status to become academies, which are centrally funded rather than funded by local authorities. There has also been a transfer of responsibilities between NHS and local government relating to adults with learning difficulties in long stay NHS institutions. As a result of this discontinuity between the two financial years (2010-11 & 2011-12), it is difficult to compare total net current expenditure.

This release provides final outturn estimates of local authority revenue expenditure and financing for the financial year April 2011 to March 2012. These estimates are on a non-International Accounting Standard 19 (IAS19) and PFI "Off Balance Sheet" basis except where stated otherwise.

This information is derived from Department for Communities and Local Government Revenue Summary (RS) Outturn returns submitted by local authorities in England. This release is based on returns from all 444 local authorities in England that complete the return.

The release has been compiled by the Local Government Finance - Data Collection Analysis and Accountancy division of Department for Communities and Local Government. For additional uses please see "uses made of the data" section.

## **Revenue expenditure by service**

1. Revenue expenditure in 2011-12 is summarised in **Table 1**, including a comparison with the 2010-11 figures. Net current expenditure by service is shown in **Chart A**. Service expenditure is based on information from the RS forms, which can be found in **Annex A**. The service breakdowns have been created from this detailed information, according to **Annex C** of this release. It should be noted that year on year comparisons may not be valid due to local government changes in function and responsibility.

### **Total Revenue Expenditure**

- Total revenue expenditure by local authorities in England was £99.3 billion in 2011-12 compared with £104.3 billion in 2010-11, a decrease of 4.8%. This is largely owing to a reduction in education expenditure from £45.3 billion in 2010-11 to £40.2 billion in 2011-12. This has been impacted on by a number of schools moving to academy status, where academies are directly funded by central government and are independent of local government control.
- There has been a transfer of responsibilities between NHS and local government relating to adults with learning difficulties in long stay NHS institutions. This was first announced on 1st April 2009, where Primary Care Trusts (PCT's) and Local Authorities (LA's) negotiated funding locally. However, the first time it impacted local authority accounts was from 1st April 2011, when the transfer of funding was made directly from Department of Health to LA's. In 2011-12, local authorities received a new non-ring fenced 'Learning Disabilities and Health Reform' grant, amounting to £1.2 billion, to finance this responsibility. Due to this discontinuity between the two years (2010-11 & 2011-12), it is difficult to compare total net current expenditure.
- 34.9% of total net current expenditure in 2011-12 is on education, 18.4% on social care, 17.2% on housing benefits, and 10.1% on police.
- There has been an overall decrease in net current expenditure across all services, between 2010-11 and 2011-12, with the exception of Adult Social Care services, which increased from £14.4 billion to £14.7 billion, an increase of 2.3%.
- Planning and Development Services have seen the highest decrease in net current expenditure of 24.8%, followed by Non-HRA Housing Services, which have decreased by 15.3% in 2011-12.

### **Mandatory Housing Benefits**

- Mandatory Housing Benefits has increased from £18.6 billion to £19.8 billion, an increase of 6.6%.

### **Council Tax**

- Non-current expenditure in 2011-12 includes the payment of council tax benefit of £4.2 billion, but this is netted off by income from specific grants outside Aggregate External Finance (AEF).

**Table 1: Revenue expenditure by service 2010-11 and 2011-12 <sup>(1,2)</sup>**

	£ million		
	Net current expenditure 2010-11 (R)	Net current expenditure 2011-12 (R)	% Change

<b>Revenue expenditure</b>	<b>104,256   </b>	<b>99,278</b>	<b>-4.8</b>

(1) Education expenditure for 2011-12 is not comparable to previous years due to a number of schools changing their status to become academies, which are centrally funded rather than funded by local authorities

(2) Total net current expenditure for 2011-12 is not comparable to previous years due to a change in responsibility between NHS and local government for adults with learning disabilities, where from 1st April 2011 the transfer of funding was made directly from Department of Health to LAs, where they now receive a new non-ring fenced grant which amounts to £1.2 billion in 2011-12

(3) Includes provision for repayment of principal, leasing payments, external interest payments and HRA item 8 interest payments and receipts

(4) Adjustments permitted by regulation to the revenue account charges for financial instruments.

(5) The deferral of revenue account charges for unequal pay back pay as permitted by regulation and the reversal of the deferral in the year that payment of the back pay is due.

(6) Aggregate External Finance; see Background Notes for definition

**Chart A: Total net current expenditure by service 2011-12**

## **Revenue expenditure and financing**

2. **Table 2** shows how revenue expenditure was financed in 2011-12 compared to 2010-11. A more detailed breakdown of this information can be found in **Annex A**.

### **Central Government Grants**

- Specific grants inside AEF decreased from £45.8 billion in 2010-11 to £45.6 billion in 2011-12, a decrease of 0.5%.
- Formula Grant increased from £29.0 billion in 2010-11 to £29.4 billion in 2011-12, an increase of 1.5%.

**Table 2: Revenue expenditure and financing 2010-11 and 2011-12**

## Expenditure from 2007-08 to 2011-12

1. **Table 3** gives a summary of net current expenditure by service between 2007-08 and 2011-12. It should be noted that year on year comparisons may not be valid due to local government changes in function and responsibility.

	£ million				
	2007-08	2008-09	2009-10 <sup>(2)</sup>	2010-11 (R)	2011-12 (R)
Education <sup>(3)</sup>	40,204	42,379	44,471	45,283	40,219
Highways and transport	5,631	5,786	6,541	5,669	5,380
Social care	18,559	19,629	20,963	21,062	21,160
of which:					
Children's Social Care	...	...	...	...	6,423
Adult Social Care <sup>(4)</sup>	...	...	...	...	14,738
Housing (excluding Housing Revenue Account) <sup>(5)</sup>	15,835	16,973	20,022	21,032	21,868
Cultural, environmental and planning	10,091	10,531	11,083	10,676	9,741
Police	11,152	11,639	12,022	11,948	11,650
Fire and rescue	2,119	2,162	2,177	2,165	2,118
Central services <sup>(6)</sup>	3,507	3,912	3,771	3,608	3,344
Other services <sup>(7)</sup>	19	47	9	-267	-267
Reversal of revenue expenditure funded from capital by statute (RECS)	...	...	-1,883	...	...
Appropriations to (+) / from (-) accumulated absences accounts	...	...	...	64	6
<b>Total Net current expenditure</b>	<b>107,119</b>	<b>113,058</b>	<b>119,176</b>	<b>121,240</b>	<b>115,220</b>

(1) Net current Expenditure for 2007-08 to 2009-10 is on a non-FRS17 and PFI "off-balance sheet" basis. For 2010-11 and 2011-12, net current expenditure is on a non-IAS19 and PFI "off-balance sheet" basis.

(2) The 2009-10 net current expenditure figures across all services include an additional element of spending: RECS, which for other years is included only in capital charges and therefore excluded from net current expenditure. However, for 2009-10 the total amount of RECS has been reserved out; therefore the total net current expenditure figure is comparable with other financial years.

(3) Education expenditure for 2011-12 is not comparable to previous years due to a number of schools changing their status to become academies, which are centrally funded rather than funded by local authorities.

(4) Total net current expenditure for 2011-12 is not comparable to previous years due to a change in responsibility between NHS and local government for adults with learning disabilities, where from 1st April 2011 the transfer of funding was made directly from Department for Health to LA's, where they now receive a new non-ring fenced grant which amounts to £1.2 billion in 2011-12.

(5) Includes mandatory rent allowances and mandatory rent rebates to non-HRA tenants and mandatory rent rebates to HRA tenants

(6) Central services includes court services expenditure, which was previously included as a separate service prior to 2009-10

(7) Other services includes other levies, internal and external trading services gross surplus/deficit and adjustments to net current expenditure

### **Income from specific grants**

3. **Table 4** shows the top five incomes from the specific grants inside and outside Aggregate External Finance. Details on all income from specific grants can be found in **Annex A3**.

- In 2011-12, Dedicated Schools Grant (DSG), which is ring-fenced, accounted for 71.6% of the income received by local authorities through specific grants inside AEF.
- In 2011-12, DSG accounted for 43.3% of the total income received by local authorities through central government grants (which include redistributed non-domestic rates, although not including specific grants outside AEF). In 2010-11, DSG accounted for 38.4% of the income received from central government grants.

**Table 4: Top five incomes from specific grants 2011-12**

		£ million
<b>Grants inside Aggregate External Finance</b>	<b>Line Reference</b>	
Dedicated Schools Grant (DSG)	RG line 102	32,589

Sixth Form Funding from Young People's Learning Agency (YPLA)	RG line 716	1,485
Mandatory Rent Rebates outside HRA: subsidy	RG line 746	1,235

## **Financing of revenue expenditure**

4. **Table 5** shows the financing of revenue expenditure by its various components, which include government grants, redistributed non-domestic rates and council tax requirement across different local authority classifications, for 2011-12.
5. **Table 6** shows the funding of revenue expenditure in terms of government grants, redistributed non-domestic rates and council taxes from 2007-08 onwards. Figures for 2007-08 to 2009-10 are produced on a non-FRS17 and figures for 2010-11 and 2011-12 are produced on a non-IAS19 basis. This is because local authorities set their council tax with regard to their expenditure on an IAS19 basis. A fuller definition of FRS17 & IAS19 can be found in the **Terminology used in this release** section.
6. **Chart B** shows the real changes in Government Grants, Council Tax, Revenue Expenditure and non-school reserves (unallocated & other earmarked financial reserves as at the start of the year, 1 April) from 2000-01 to 2011-12. The indexes are calculated from financial figures on a non-FRS17/non-IAS19 accounting basis, for year-on-year comparisons.

- In 2011-12, 56.6% of revenue expenditure was funded by government grants (including Revenue Support Grant, specific grants inside Aggregate External Finance and police grant), 26.6% by council tax and 19.2% by redistributed non-domestic rates.
- If excluding "Other Authorities";
  - Greater London Authority (GLA), proportionally, requires the lowest amount of council tax to finance their revenue expenditure, at 12.4%.
  - GLA has the highest percentage of revenue expenditure which is being financed by central government grants, at 83.6%. The second highest class of authority being Outer London Boroughs, at 58.9%.
- Over the last decade (from 2000-01 to 2011-12) in real terms;
  - Revenue expenditure has risen by 33.5%
  - Government grants awarded to local authorities has risen by 34.3%
  - Council Tax has risen by 43.4%Council Tax has increased in the same pattern as revenue expenditure and government grants.
- In real terms, non-school reserves have increased by 90.1% from 1<sup>st</sup> April 2000 to 1<sup>st</sup> April 2011.

**Table 5: Financing of revenue expenditure in 2011-12 by local authority classification**

Financing components of Revenue Expenditure <sup>(a)</sup>							£ million
Local Authority Class	Revenue Expenditure	Government Grants <sup>(b)</sup>		Redistributed Non-Domestic Rates <sup>(c)</sup>		Council Tax <sup>(d)</sup>	
		Total	% of Revenue Expenditure	Total	% of Revenue Expenditure	Total	% of Revenue Expenditure
Greater London Authority	7,530	6,295	83.6%	878	11.7%	935	12.4%
Shire Counties	26,630	15,043	56.5%	3,473	13.0%	8,642	32.5%
Shire Districts	2,999	610	20.3%	962	32.1%	1,549	51.6%
Inner London Boroughs	5,700	3,221	56.5%	1,736	30.5%	942	16.5%
Outer London Boroughs	8,235	4,847	58.9%	1,528	18.6%	2,077	25.2%

Police Authorities	8,591	4,543	52.9%	1,846	21.5%	2,352	27.4%
Fire Authorities	1,484	246	16.6%	568	38.3%	754	50.8%
Other Authorities <sup>(f)</sup>	221	284	128.9%	0	0.0%	0	0.0%
<b>ENGLAND</b>	<b>99,278</b>	<b>56,237</b>	<b>56.6%</b>	<b>19,017</b>	<b>19.2%</b>	<b>26,451</b>	<b>26.6%</b>

(a) Other items and use of reserves have not been included, although they part finance revenue expenditure. Therefore percentages would not add to 100% because of these missing elements

(b) Central Government Grants includes Local Services Support Grant, Specific Grants inside Aggregate External Finance, Revenue Support Grant, Police Grant and General GLA Grant

(c) Re-distributed non-domestic rates; business rates tax which has been paid into the non-domestic rating pool, and redistributed between local authorities on the basis of population, as part of the formula grant

(d) Council Tax Requirement is the amount local authorities expect to collect from all domestic properties within their boundary, including parish and town councils.

(e) Unitary Authorities includes Isle of Scilly.

(f) Other authorities comprise of Waste Disposal Authorities (WDA), Integrated Transport Authorities (ITA) and National Park Authorities. For WDA and ITA, the core financing of their service expenditure comes from Waste Disposal and Integrated Transport levies respectively, funded by their constituent authorities, which is already included in revenue expenditure.

**Table 6: Financing of revenue expenditure since 2007-08 <sup>(a)</sup>**

	Revenue expenditure (£ million)	Government grants (£ million)	% of total	Redistributed non-domestic rates (£ million)	% of total	Council tax (£ million)	% of total
<b>Outturn</b>							
2007-08 <sup>(a)</sup>	92,384	51,656	55.9	18,506	20.0	23,608	25.6
2008-09 <sup>(a)</sup>	98,107	53,007	54.0	20,506	22.2	24,759	25.2
2009-10 <sup>(a)</sup>	103,276	57,755	55.9	19,515	18.9	25,633	24.8
2010-11 <sup>(b)</sup>	104,256	57,657	55.3	21,517	20.6	26,254	25.2
2011-12 (R) <sup>(b)</sup>	99,278	56,237	56.6	19,017	19.2	26,451	26.6
<b>Budget</b>							
2012-13 <sup>(b)</sup>	98,416	48,421	49.2	23,129	23.5	26,715	27.1

(a) Produced on a Non-Financial Reporting Standard 17 basis. Sum of government grants, redistributed non-domestic rates and council tax does not normally exactly equal revenue expenditure because of the use of reserves and other adjustments

(b) Produced on a Non-International Accounting Standard 19 basis. Sum of government grants, redistributed non-domestic rates and council tax does not normally exactly equal revenue expenditure because of the use of reserves and other adjustments

**Chart B: Changes in revenue expenditure and its financing attributes since 2000-01 for England (Index based on 2011-12 market prices <sup>(a)</sup>) – including non-school reserves <sup>(b)</sup>**

(a) Real term figures based on market prices for 2011-12 using HM Treasury GDP Deflator (updated: Sept 2012)

(b) Non-School reserve levels taken as at 1<sup>st</sup> April for each year

## **Revenue Expenditure, since 2007-08, in cash and real terms**

7. **Table 7** shows revenue expenditure per capita, in both cash and real terms, across the financial years 2007-08 to 2011-12. Year-on-Year comparisons may not be valid owing to changes in local authority responsibilities.

### **Cash Terms**

- In Cash Terms; revenue expenditure per capita has decreased from £1,996 in 2010-11 to £1,869 in 2011-12, a decrease of 7.0 per cent.
- Since 2007-08, revenue expenditure per capita has increased by 3.4 per cent, from £1,808 to £1,869.

### **Real Terms**

- In Real Terms; revenue expenditure per capita has decreased from £2,043 in 2010-11 to £1,869 in 2011-12, a decrease of 8.7 per cent.
- Since 2007-08, revenue expenditure per capita has decreased by 5.8 per cent, from £1,984 to £1,869.

**Table 7: Revenue expenditure per capita <sup>(1)</sup> from 2007-08**

Year	£ per capita	
	Cash Terms	Real Terms <sup>(2)</sup>
2007-08	1,808	1,984
2008-09	1,906	2,037
2009-10	1,993	2,099
2010-11	1,996	2,043
2011-12	1,869	1,869

(1) Figures per capita calculated using ONS mid-year population estimates for respective years.  
(2) Real Term figures based on market prices for 2011-12 using HM Treasury GDP Deflator  
(updated: Sept 2012)

## **Revenue reserves**

8. Revenue reserves are an accumulated surplus income, which can be used to finance future expenditure and to provide working balances. The transfer of money into reserves increases the budget requirement for the year.
9. **Table 8** shows the level of local authority revenue reserves at the beginning of each of the last five financial years. Pension reserves are not included in this table because they do not represent resources available to spend.

- The total level of non-schools revenue reserves stood at £16.4 billion at 31 March 2012 compared with £14.3 billion at 1 April 2011, an increase of 15.3%.
- Schools' reserves stood at £2.4 billion at 31 March 2012 compared with £2.0 billion at 1 April 2011, an increase of 18.0%.
- Between 2009-10 and 2010-11 the introduction of the new International Financial Reporting Standard (IFRS) accounting code resulted in a restatement of other earmarked financial reserve levels. Previous years reserve level figures (both outturn and budget figures) have not been adjusted to remove this effect. The main change relates to grant income, which, where no outstanding conditions existed, had to be recognised immediately in the General Fund Revenue Account. This has meant that balances previously held as receipts in advance are switched to reserves.

### **Reserve Levels**

- In 2011-12 local authorities increased their reserves by £2.6 billion; of which £0.6 billion relates to Greater London Authority.
- In 2011-12, 79.7% of local authorities in England increased their reserve levels, 19.6% decreased their reserve levels, and 0.7% made no change.
- 25.9% of local authorities in England increased their schools reserve levels in 2011-12, and 77.5% of local authorities increased their non-schools reserve levels.

**Table 8: Level of revenue reserves in 2011-12**

				£ million
		Non-schools reserves		
	Schools reserves	Other earmarked	Unallocated	Non-schools Total
At 1 April				
2007	1,760	8,122	3,205	11,326
2008	2,009	9,014	3,373	12,386
2009	1,866	9,488	3,497	12,986
2010	1,834	9,759	3,469	13,228
2011	2,044	10,407	3,844	14,251
At 31 March				
2012	2,412	12,368	4,068	16,436

## Comparison with Quarterly Revenue Outturn

10. Local Authorities in England submit budget data to the Department before the start of each financial year on the Revenue Account (RA) form, and on the Revenue Outturn (RO) form after the end of the year. From 2011-12, authorities also submitted outturn figures on a quarterly basis for the first three quarters of the financial year, on the Quarterly Revenue Outturn (QRO) form. Comparisons are made between the outturn figures submitted by authorities on their RO returns, and their quarterly figures submitted on their QRO returns, with the difference between the two sets of figures used to imply a fourth quarterly figure for the QRO returns.

**Table 9: Comparison of service expenditure and net current expenditure in 2011-12**

	Net Current Expenditure (£000)				Implied Q4 Outturn
	Outturn <sup>(a)</sup>	Q1 Outturn <sup>(b)</sup>	Q2 Outturn <sup>(b)</sup>	Q3 Outturn <sup>(b)</sup>	
Total Service Expenditure	95,435	24,003	23,960	23,781	23,691
Net Current Expenditure	115,220	28,836	28,831	28,652	28,901

(a) Outturn data from the Revenue Outturn (RO) returns  
(b) Outturn data from the Quarterly Revenue Outturn (QRO) returns

11. Figures in **Table 9** show that for the first three quarters of the year, the QRO represented 75.2% of total service expenditure figures on the RO returns, and 74.9% of the total net current expenditure figures.

## Local Government Pay

12. **Table 10** shows levels of local government pay since 2008-09 for each of the main pay negotiating groups, based on data collected and validated from the Subjective Analysis Return (SAR) which is completed by a sample of authorities in England. Detailed information on the SAR return can be found in the **Survey Design and Methodology for Grossing SAR 2011-12 data** section.

<b>Table 10: Local government pay by pay negotiating group, 2008-09 to 2011-12</b>				
<b>At 1 April</b>	<b>2008-09</b>	<b>2009-10</b>	<b>2010-11</b>	<b>£ million 2011-12</b>
Teachers	16,909	17,291	16,949	15,003
Police and Police Support Staff	7,637	7,795	7,786	7,532
Firefighters	1,123	1,142	1,135	1,130
Other Local Government Staff	23,887	24,783	24,657	22,490
<b>Total Pay <sup>(a)</sup></b>	<b>49,556</b>	<b>51,012</b>	<b>50,526</b>	<b>46,154</b>
Total non-pay for all groups <sup>(b)</sup>	11,673	12,004	12,209	11,397
<b>Total employee expenditure <sup>(c)</sup></b>	<b>62,912</b>	<b>65,519</b>	<b>65,485</b>	<b>60,150</b>
(a) includes overtime, bonuses, golden handshakes, etc.				
(b) includes employers' National Insurance, pensions contributions and location allowances.				
(c) Includes pay, non-pay and other pay related costs such as recruitment, retention and training, which are not included elsewhere above.				

- Employee expenditure decreased from £65,485 million in 2010-11 to £60,150 million in 2011-12, a decrease of 8.1 per cent. The majority of this expenditure was on pay (77 per cent), which totalled £46,154 million in 2011-12.

### **Detailed outturn information**

13. The following annexes show all England detailed outturn information in the same way as it is returned to Department for Communities and Local Government. It forms the basis of the tables in this release

14. The annexes contain:

	<b>Form</b>	<b>Annex</b>
Revenue Service Expenditure Summary	RS	A1
Revenue Outturn Summary	RSX	A2
Income from specific grants	RG	A3
Education services	RO1	A4

Total number of authorities completing the SAR form and total in England		E

### **Service Net Current Expenditure**

- Net Income on Parking Services (off-street and on-street parking) has risen from £511.6 million in 2010-11 to £565.4 in 2011-12, which is a 10.5% increase.
- Net Income on Congestion Charging has decreased from £190.3 million to £152.2 million, which is a 20.0% decrease. The majority of this change is in Greater London Authority.
- Spending on Community Safety (which includes Crime Reduction, Safety Services and CCTV) has decreased from £462.9 million in 2010-11 to £370.6 million in 2011-12. This is a reduction of 19.9%.

# Annex A1: Revenue Outturn Summary (RS) 2011-12

			£ thousand
	Net current expenditure	Capital Charges	Net total cost (excluding specific grants)

## **Survey Design for collecting Revenue Outturn (RO) Estimates in 2011-12**

15. During May 2012 until July 2012, all 444 local authorities in England were requested to complete the Revenue Outturn (RO) form to show all their transactions related to the general fund revenue account. This included all elements of gross and net current expenditure, capital charges, net total costs and also elements that finance net current expenditure, which include; levy payments, interest receipts, central government grants, use of reserves, council tax and other non current expenditure items. Annex D shows the distribution of local authorities responsible for completing the RO forms by classification.

<b>Annex D: Distribution of Local Authorities by Classification</b>	
<b>Local Authority Classification</b>	
Greater London Authority	1
Shire Counties	27
Shire Districts	201
Inner London Boroughs <sup>(a)</sup>	13
Outer London Boroughs	20
Unitary Authorities <sup>(b)</sup>	56
Metropolitan Districts	36
Police Authorities	37
Fire Authorities	30
Other Authorities <sup>(c)</sup>	23
<b>All</b>	<b>444</b>
(a) Inner London Boroughs include City of London	
(b) Unitary Authorities include Isles of Scilly	
(c) Other Authorities include National Park Authorities, Waste Disposal Authorities and Integrated Transport Authorities	

## **Survey Design and Methodology for Grossing SAR 2011-12 data**

During May 2012 until July 2012, all 444 local authorities in England were requested to complete the Revenue Outturn form to show all expenditure and income transactions from their General Fund Revenue Account. Out of 444, 127 local authorities were selected to complete an additional Subjective Analysis Return (SAR) form which is essentially is an extension of the subjective analysis in the General Fund Revenue Account Outturn suite. In principle, therefore, its totals are designed to agree with the Net Current Expenditure on the individual Revenue Outturn forms, and the Total Service Expenditure line on the Revenue Summary form. The three main components of SAR cover:

- (a) **Pay Estimates – Direct employee expenses**; which include total salaries, employers' national insurance contributions, employer' pension contributions and local allowances
- (b) **Running Expenses**; which includes premises and transport related expenditure, supplies and services and third party payments (including agency staff costs)
- (c) **Income**; which includes recharges, rental income and other sources of income (including sales, fees and charges)

The 127 local authorities were selected to ensure all classes of authorities in England are adequately represented. Below is a table showing the five main classes (stratum) for which local authorities in England are differentiated, and the total number of the local authorities selected to complete the SAR form and total in England, for each class:

<b>Annex E: Total number of authorities completing the 2011-12 SAR form and total in England</b>		
<b>Authority Class</b>	<b>Total number of authorities completing the SAR form</b>	<b>Total number of authorities in England that complete the Revenue Outturn forms</b>
Shire Districts	28	201
Shire Counties	14	27
London Boroughs, Metropolitan Districts and		
Unitary Authorities & Isle of Scilly <sup>(a)</sup>	50	125
Single Purpose <sup>(b)</sup>	34	90
Greater London Authority	1	1
<b>Total no. of authorities</b>	<b>127</b>	<b>444</b>
(a) Isle of Scilly is classed as being similar to a unitary authority		
(b) Single Purpose authorities include Police, Fire, Waste, Transport and National Park authorities		

## **Grossing methodology for producing Subjective Analysis Returns (SAR) figures:**

The grossing process to create the England totals using SAR information from the selected sample of authorities is done in three stages, as below:

### **Stage (1):**

The first stage involves aggregating the raw SAR information for each of the five classes separately (e.g. Shire Districts, Shire Counties). The 'Total All Service' column (on the SAR form) is made of eleven core services (which include Education Services, Highways and Transport Services, Social Care, Housing Services etc.). If we consider the first component of SAR (Pay Estimates) and only consider one of the stratum (say  $k$ , where  $k = 1$  to 5):

Let  $X(i, j, k)$  denote the aggregated raw data for subjective expenditure line  $i$  (within the Pay Estimates category, where  $i = 1$  to  $n$ ) and core service  $j$  (where  $j = 1$  to 11). This total would be the aggregate of all authorities in stratum  $k$  that completed the SAR information.

Let  $T(j, k)$  denote the actual overall total figure (which would be derived from the RO forms) for core service  $j$ . This total would be the aggregate of all local authorities in Stratum  $k$ .

Let  $G(i, j, k)$  denote the grossed figure for subjective expenditure line  $i$  (within the Pay Estimates category, where  $i = 1$  to  $n$ ) and core service  $j$  (where  $j = 1$  to 11). This total would be an estimate of how much expenditure we hypothesise all local authorities would have spent for subjective expenditure line  $i$  under core service  $j$  if we had collated information from all local authorities in stratum  $k$  (contrary to a sample of authorities).

Therefore, for core service  $j$  and stratum  $k$ :

$G(i, j, k) = [T(j, k) / \sum X(i, j, k)] * X(i, j, k)$ , summing across all subjective expenditure lines  $i = 1$  to  $n$ , which fall under the 'Pay Estimates' category.

Using the above method we can generate grossed values for all subjective expenditure lines  $i$ , for all core services  $j$  and for all stratum  $k$ .

### **Stage (2):**

The next stage involves generating 'Total All Services' figures (across all eleven of the core services) for each of the subjective expenditure lines  $i$  and stratum  $k$ .

Let  $T_s(i, k)$  denote the 'Total All Services' figure for subjective expenditure line  $i$  (within the Pay Estimates category) and stratum  $k$ .

Therefore:

$T_s(i, k) = \sum G(i, j, k)$ , summing across all the core services  $j$  ( $j = 1$  to 11)

### **Stage (3):**

The last stage involves generating the 'Total All Services' figures for England level (i.e. across all of the five stratum) for each of the subjective expenditure lines  $i$ .

Let  $T_E(i)$  denote the 'Total All Service' figure at England level for subjective expenditure line  $i$  (within the Pay Estimates category).

$T_E(i) = \sum T_s(i, k)$ , summing across all the stratum  $k$  ( $k = 1$  to  $5$ ).

The overall England total figure for Pay Estimates (summing across all subjective expenditure lines  $i$ ) should equate to the figure provided on the RSX under employee costs, for Total Service Expenditure.

The same process is used to calculate expenditure estimates for the remaining two SAR components (i.e. Running Expenses & Income).

## **Terminology used in this release**

A list of terms relating to local government finance is given in the glossary at Annex G of *Local Government Finance Statistics England* No. 22 2012. This is accessible at [https://www.gov.uk/government/uploads/system/uploads/attachment\\_data/file/7476/2158981.pdf](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/7476/2158981.pdf). The most relevant terms for this release are explained below.

**Aggregate External Finance** - is the total amount of grant provided to finance all local government expenditure, excluding that subject to separate arrangements under statutory schemes, rent allowances and rebates and council tax benefit, which are funded by specific grants outside Aggregate External Finance.

**Business Rates Supplement** is income which relates to specific projects expected to promote economic development. This includes income from levying a local supplement on the business rate and using the proceeds for investment in the local area.

**Current expenditure** - is the cost of running local authority services within the financial year. This includes the costs of staffing, heating, lighting and cleaning, together with expenditure on goods and services consumed within the year. This expenditure is offset by income from sales, fees and charges and other (non-grant) income, which gives **total net current expenditure** (line 749). Total net current expenditure also includes payments made by local authorities on behalf of central government, under statutory schemes and the payment of rent allowances and rebates. Such payments are fully funded by central government through specific grants outside **Aggregate External Finance**.

**Dedicated Schools Grant (DSG)** – there was a change in the funding of specific and formula grants in 2006-07 largely due to changes in the way that expenditure on schools is funded. From 2006-07, local authorities receive school funding through specific grant rather than funding previously included in formula grant.

**Greater London Authority (GLA) Group** – this includes GLA and its constituent bodies, Metropolitan Police Authority, London Fire and Emergency Planning Authority, Transport for London (TfL) and London Development Agency (LDA). Transactions in their General Fund Revenue Account are reported by the GLA and the four functional bodies as a group.

### **Appropriations to/from financial instruments adjustment account (line 789) Appropriations to/from unequal pay back pay account (line 790)**

These are two new lines connected with the adjustments permitted or required by our regulations. The accounts show figures fully compliant with accounting standards, but regulations made by DCLG provide for adjustments to those figures to prevent excessive increases in council tax. The first line allows for adjustments connected with borrowing and investments, including the regulation on Icelandic banks investments. The second allows for the regulation that permits a charge for unequal pay back pay to be deferred until payments are due to be made (accounting requires a charge as soon as the liability is established).

### **International Accounting Standard 19 (IAS 19)**

Local authorities are required to account for Employee benefits (pensions) in accordance with IAS 19 from 2010-11. This requirement is enshrined in the Code of Practice on Local Authority Accounting in the UK, published by the Chartered Institute of Public Finance and Accountancy (CIPFA) and in CIPFA's Service Reporting Code of Practice (SERCOP).

Under IAS19 most of the pension schemes covering local government employees are classed as defined benefit schemes. The main implication of defined benefit status is that retirement benefits are accounted for on the basis of the retirement benefit entitlement to which employment in the year gives rise, rather than the cash amounts of employer's contribution or pension due for the year. That is, the IAS19 pension liability will include all the total pension liabilities for all employees and not when the pension is.

The major exception to defined benefit status is the teachers' pension scheme, which is administered centrally; local authorities account for this on a defined contribution basis, and the charges to service expenditure equal the employer's contribution.

The defined benefit charges are not allowed to impact on council tax payers, the charge that must ultimately be carried by taxpayers is the employer's contributions due for the year. Consequently, the effects on the revenue account are that the net current expenditure service lines are on a defined benefit basis, but the Budget Requirement is based on the cash contributions due. This neutrality is achieved by reversing out the impact of IAS19 and replacing this with the actual cash contributions.

The information excluding IAS19 that we collect on the form is critical for our key users. In particular, the Office for National Statistics use the information on a non-IAS19 basis for their key statistics on Public Sector Finances and National Accounts.

**Local Services Support Grant** is a new unringfenced grant paid under section 31 of the Local Government Act 2003 to support local government functions.

### **PFI schemes in accordance with the International Financial Reporting Standards (IFRS)**

Under the International Financial Reporting Standards (IFRS) the PFI schemes are brought 'on balance sheet'. Local authorities have been required to account for their PFI schemes on the IFRS basis as from 2009-10.

For National Accounts purposes, however, PFI schemes should be accounted for 'on balance sheet' basis only where **economic ownership** of the asset rests with the Authority.

**Economic ownership** for national accounts purposes is determined by the same test as applies under UK accounting standards and hence that local authorities applied in preparing their 2009-10 accounts. The basis of that test was set out in Appendix E to the 2008 Code of Practice on Local Authority Accounting, and depends on whether the local authority or the contractor has an asset of the property used to provide the contracted services. A party has an asset of the property where that party has access to the benefits of the property and exposure to the risks inherent in those benefits.

**Formula Grant** – the main channel of government funding. This includes **Redistributed non-domestic rates**, **Revenue Support Grant** and Police grant. The distribution is determined by the Formula spending shares formulae, also taking account of authorities' relative ability to raise council tax and the floor damping mechanism. There are no restrictions on what local government can spend it on.

**Redistributed non-domestic rates** – non-domestic rates which, having been paid into the non-domestic rating pool, are redistributed between local authorities on the basis of population, as part of **Formula Grant**.

**Revenue expenditure** (line 800) - is equal to total net current expenditure (line 749), plus capital financing costs and a few minor adjustments, but excludes expenditure financed by grants outside **Aggregate External Finance**. Revenue expenditure is financed by grants inside Aggregate External Finance, council tax and authorities' reserves.

**Revenue Expenditure funded from Capital under Statue (RECS)** - This is expenditure that is revenue under normal accounting principles but which legislation allows to be financed as capital expenditure. Examples are grants given to local residents for capital purposes. RECS is entered in Revenue Outturn (RO) suite of forms under the relevant service line on the capital charges column. As capital charges do not carry through to the budget requirement line there is no need for a reversal. Total RECS are recorded on line 936 on the RS and TSR form in the Capital Charges section relating to RECS, which will continue to be entered in the Capital Estimates and Capital Outturn Return.

**Revenue Support Grant** – a general grant which replaced rate support grant in 1990-91. Now it is distributed as part of **Formula Grant**.

#### **Icelandic bank investments**

Where an authority holds investments in Icelandic banks that were affected by the defaults in Autumn 2008 it would normally be the case that the original estimate of the impairment loss would have been charged in the 2008-09 accounts. In the RO suite the entries relating to these investments appear in the RS form. In the 2011-12 returns any adjustments to the impairment would be entered in line 781 and any interest credited in respect of the investment in line 786. These entries are shown separately in lines 951 and 952 of the RS form. Figures are generally calculated following CIPFA methodology and advice published in their LAAP bulletins.

**Specific Grants inside AEF** - These are revenue grants which are paid to local authorities by individual government departments, for which the local authority has sole responsibility for decisions on how the grant is allocated. The main purpose for the provision of these grants is to deliver core local authority services.

**Specific Grants outside AEF** - These are revenue grants, which are paid to local authorities by individual government departments. However, the local authority usually only acts as the 'middle person', as the grants are passed over to a third party which administers the service. The local authority **does not** normally have any control over the service for which the grant was intended for. This responsibility rests solely with the third party that receives the grant.

## **Data quality**

This Statistical Release contains National Statistics and as such has been produced to the high professional standards set out in the National Statistics Code of Practice. National Statistics products undergo regular quality assurance reviews to ensure that they meet customer demands.

The information for 2011-12 in this Statistical Release is derived from Department for Communities and Local Government Revenue Outturn (RO) forms and is based on completed returns from all 444 local authorities in England. The national figures in this report are based on valid returns for all local authorities in England.

Only data for authorities that have completed a valid form is used in the computation of national figures for the statistical release. If we do not hold a complete set of revenue data for authorities in England, we use the grossing methodology to compute the national figures. This method does not calculate figures for missing or invalid authorities; it only derives an England national figure based on the following properties;

- i. data currently held from validated authorities
- ii. number of missing or invalid authorities and what type of classification group they fit in (e.g. Single Purpose Authorities, Shire Districts, Shire Counties, Unitary Authorities, Metropolitan Districts, London Boroughs etc.)

As we received valid data from all authorities in England there has not been a need to use this grossing methodology.

Figures are subjected to rigorous pre-defined validation tests both within the forms themselves, while the forms are being completed by the authority and also by Department for Communities and Local Government as the data are received and stored. These include:

**1) In form validation:** This refers to warnings that are built into the excel forms that are sent to authorities. Forms have been pre-programmed with sense checks to highlight figures outside a set range. If an authority inputs figures that are likely to be incorrect, the form flags up to the officer inputting the data that this value could be incorrect. In some fields the figure can still be accepted if a reason is given whereas some cells will definitely be rejected as it is deemed impossible. In the majority of cases this means that the forms are returned completed and without any validation queries.

**2) CLASS (Computerised Local Authority Statistics System) validation:** Once the figures have been received by DCLG, they get inputted onto the CLASS database, which has built in checks that return errors and warnings for unexpected figures. CLASS can then be asked to output a list of warnings and errors which a team member can look through and contact an authority about if necessary.

**3) Manual (or analytical) validation:** These are extra checks done manually by the teams to double check the figures they receive. During this process the teams also liaise with relevant policy sections and the Group Accountant to clarify and rectify any anomalies. Furthermore the data received from LAs are compared with other data sources (both internal and external).

**4) Post validation:** Figures get checked and double-checked on the statistical releases. Particular attention is paid to making sure the values have been entered correctly and the figures on the graphs and tables correlate with each other.

Service Reporting Code of Practice (SERCOP) is a set of general guidance notes which are provided to local authorities, providing them with instructions on how to account on various elements of public service expenditure. The services are primarily broken down into a few main groups (e.g. Children's Social Care, Housing Services, Central services). Within each group, detailed guidance is provided on all possible elements of spending, which a LA could have responsibility over. The SERCOP is used by all LA's as a foundation for constructing their accounts in the financial year. Therefore the categorisation defined by SERCOP is used as a basis for our form design and guidance, enabling LA to report their financial data under the correct headings – improving quality of the outputs. In-depth discussions take place with several authorities, prior to them being put forward to Central and Local Government Information Partnership/Finance (CLIP/F) for agreement, as part of our ongoing review of enhanced data collection. CLIP/F is also kept informed of the full planned developments to meet the HM Treasury and ONS requirements.

For a summary of SERCOP please see the following web link including information on legislative requirements:

<http://www.cipfastats.net/sercop/>

## **Revisions**

This is a revised version of the original statistical release on Revenue Expenditure and Financing in England 2011-12 which was published on 27 November 2012. The revisions are relatively minor and do not change the headline revenue expenditure figures.

Revisions have arisen due to further validation queries on the quality of the SAR data, and subsequent amendments to the housing services figures. The SAR figures have been re-grossed to England level.

The revisions affect annexes A2, A7 and A11 in this release.

## **Uses made of the data**

The data in this Statistical Release are essential for a number of different purposes. A central and immediate purpose is to provide the Secretary of State, Ministers, HM Treasury and the Office for National Statistics with the most up to date information available on local authority revenue spending for decision making. The budget estimates on a non-IAS19 basis are used by the Office for National Statistics in compiling the Public Sector Finances and National Accounts, which are used to set fiscal and monetary policy.

The data are also important sources for various evidence based policy and financial decisions and answering numerous parliamentary questions. In addition they are used by local authorities and their associations, regional bodies, members of the business community and the general public.

Various Government Departments also utilize these data, some examples include:

- a. Food Standards Agency uses the national level data to get a view of expenditure on food safety for all LA's across England. They also make use of the local level data

to match expenditure on Food Safety and Trading Standards to their own data on number and type of businesses in each local authority, numbers of interventions and enforcement actions undertaken by each LA and the average compliance rates to food hygiene law. This enables them to develop a set of performance indicators for each local authority so that they could measure variations between authorities, good practice and how different levels of expenditure impact on enforcement activity and compliance.

- b. The Efficiency Programme Team within Department for Health uses the data to look at the operational breakdown costs for Adult Social Services in order to derive average staff costs. This allows them to develop various efficiency indicators for Adult Social Services.
- c. The parking services data are used by the Department for Transport to monitor LA's that have taken on civil parking enforcement powers and also to brief the ministers.

Further uses of this data are made internally by DCLG users, such as the Value for Money (VfM) analysis – where unitised expenditure figures for each service area (e.g. education) are derived to make comparisons against local authority's performance.

The Audit Commission supports auditors by supplying them with a variety of data and indicators. Auditors use this information to inform their Value for Money conclusions. The conclusions are mainly based on outturn expenditure data however the Revenue Account budget data are used by auditors to help plan their Value for Money work for the following year.

The SAR information is also used as a key management and information tool. In particular, the analysis of employee expenses is used internally by DCLG as part of the evidence base for policy on local government pay and workforce issues. The analysis of running expenses is used by the Office of National Statistics in the estimation of Gross Domestic Product.

Comments and feedback from the end user for further improvement or about your experiences with this product will be welcomed. Please send all views to:

## **Background Notes**

1. This Statistical Release can be found at the following web address:  
<http://www.communities.gov.uk/localgovernment/localregional/localgovernmentfinance/statistics/revenueexpenditure/>
2. For press enquiries about this Statistical Release, please contact the Local Government press desk on 0303 444 1201 or email [press.office@communities.gsi.gov.uk](mailto:press.office@communities.gsi.gov.uk). For other enquiries, please contact Allan Cox on 0303 444 1333 or email [LGF1.REVENUE@communities.gsi.gov.uk](mailto:LGF1.REVENUE@communities.gsi.gov.uk).
3. Timings of future releases are regularly placed on the Department's website, <https://www.gov.uk/government/organisations/department-for-communities-and-local-government/about/statistics#forthcoming-publications> and on the National Statistics website, <http://www.statistics.gov.uk/hub/index.html>
4. Please see the web link below for access to the papers tabled to the 'Central and Local Information Partnership – Finance' (CLIP-F) group,  
<http://www.clip.local.gov.uk/lgv/core/page.do?pageld=31626>

CLIP Finance (CLIP F) is a consultative group which considers the collection, presentation and analysis of data on local government finance. It has been in existence since 2006, prior to this the group was known as Working Group on Local Government Financial Statistics (WGLGFS). The membership consists of representatives from central government departments, local government, CIPFA and the Audit Commission, and generally meets three times a year. To ensure users are made aware of significant changes and adjustments to Local Government Finance forms papers are tabled, discussed and published. Please visit the website for details of likely changes for future Revenue/Capital statistical releases.

DCLG have worked closely with colleagues from other government departments to identify areas of potential joined-up working, where similar data are collected on different returns, and where the burden can be reduced on local authorities. DCLG have identified overlaps on the following figures collected on the RO form:

- a. RO1 data on education services and RO3 data on children's social care and s251 data collected by Department for Education;
- b. RO3 data on adult social care and PSS-EX1 data collected by Health and Social Care Information Centre;
- c. A new RO form on public health expenditure and a new Department of Health public health return.

DCLG have worked with analysts from each of these departments to assess the accuracy of these figures at local authority level, where the definitions differ, and how feasible it would be to drop one form and collect all the data using only one collection in future.

DCLG will be reviewing the use and sampling frame associated with the 'Subjective Analysis Return'. Any changes will be discussed with the CLIP(F) consultation group with papers published on the associated website.

5. The notes, which accompany each form sent to local authorities, can be found at:  
<http://www.communities.gov.uk/localgovernment/localregional/localgovernmentfinance/statistics/usefulinformation/formstimetable/revenueforms/>

For a fuller picture of recent trends in local government finance, readers are directed to *Local Government Finance Statistics England* No. 21 2012, which is available in hard copy from Communities and Local Government Publications, Cambertown House at [product@communities.gsi.gov.uk](mailto:product@communities.gsi.gov.uk) (Tel. 0300 123 1124) and electronically from the Communities and Local Government website:

[https://www.gov.uk/government/uploads/system/uploads/attachment\\_data/file/7476/215898\\_1.pdf](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/7476/215898_1.pdf)

6. We consistently comply with our user engagement strategy, by publishing both the national level and local level figures on the DCLG website and ensuring our key users are made aware two weeks prior to the publication of the statistical release. The publication date is also highlighted on ONS publication hub and a web-link is added on the day of the release. In both cases we highlight all quality considerations and any revisions to historical data sets. Documentation on DCLG engagement strategy to meet the needs of statistical users can be found at: <http://www.communities.gov.uk/publications/corporate/statistics/engagementstrategy/statistics>
7. Figures for earlier years are available from the National Archives website at the following website: <http://webarchive.nationalarchives.gov.uk/20121108165934/http://www.communities.gov.uk/corporate/researchandstatistics/statistics/subject/localgovernmentfinance>
8. Both the Scottish Government and the Welsh Assembly Government also collect revenue outturn data. Their information can be found at the following websites:

Scotland:

<http://www.scotland.gov.uk/Topics/Statistics/Browse/Local-Government-Finance>

Wales:

<http://wales.gov.uk/topics/statistics/headlines/localgov2010/100623/?lang=en>

Northern Ireland:

[http://www.doeni.gov.uk/index/local\\_government/local\\_government\\_funding.htm](http://www.doeni.gov.uk/index/local_government/local_government_funding.htm)

### **Symbols and conventions**

...	= not available
0	= zero or negligible
—	= not applicable
	= discontinuity
(P)	= provisional
(R)	= revised since the last statistical release

### **Rounding**

Where figures have been rounded, there may be a slight discrepancy between the total and the sum of constituent items.
