

Eden Free School – impact assessment

We have looked at 20 special schools within an eight mile radius from the site of Eden School. We have concluded that Eden School may have a minimal impact on 18 schools and a moderate impact on two schools.

School name	School type	Total number of pupils on roll	Capacity	Special Needs	Ofsted grade	Impact rating
Crosshill Special School	Foundation Special School (11-16)	57	60	Moderate Learning Difficulty	Good (July 2011)	Minimal – although this school is just 1.7 miles from Eden School, it caters for pupils with Moderate Learning Difficulty; not BESD pupils. Eden School is therefore unlikely to affect the long term viability of this school.

Darwen School	Other independent Special School	7	Not known	BESD	No Ofsted inspection	Moderate – Given the focus on BESD and the small number of pupils on roll, it is possible that Eden School may have a moderate impact on this school.
