1. Estimates of the number of claims are rounded to the nearest ten. Totals may not sum due to rounding. Totals for all R&D schemes may not sum to the totals of individual schemes, as some SME subcontractor and vaccines research relief claims are included with existing SME, RDEC or large company claims. These claims have been removed from the total to avoid double counting.
2. The number of claims is based on the date that the accounting period covered by the claim ends. Table RD1 is comparable with cost data in Table RD2 where costs are apportioned on the same accounting period basis.
3. The figures are based on claims for R&D tax credits made by companies in Company Tax returns received on or before 30 June 2015.
4. Statistics in this table are consistent with HMRC's policies on dominance and disclosure.
5. The Research and Development Expenditure scheme was introduced on 1 April 2013.
