

STRATEGIC EXPORT CONTROLS

Country Pivot Report

1st April 2009 - 30th June 2009

EXPORT CONTROL ORGANISATION

**Countries:** All countries

**Case Types:** All case types

**All Cases / Incorporation Cases Only:** All cases

**Ultimate Destinations:** All countries

**Licence Statuses:** All licence statuses

**Reasons for Refusal:** All reasons for refusal

**Case Summaries:** All case summaries

**Ratings:** All control entries

This report covers export licensing decisions made by Her Majesty's Government between 1st April 2009 and 30th June 2009. All the information relating to a destination is shown together, and the reader will find all (if any) information on SIELs, OIELs, SITLs, SITCLs and OITCLs all in one place. This enhances the readability of the report.

The information within the report covers those licences Issued, Refused or Revoked within the period for the following categories:

- Standard Individual Export Licences (SIELs) (including information on incorporation and Standard Individual Transshipment Licences)
- Open Individual Export Licences (OIELs)
- Open Individual Trade Control Licences (OITCLs)
- Standard Individual Trade Control Licences (SITCLs)
- Council Regulation 1236/2005 (concerning trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment).

There have been some major changes made to the content and layout of the report, and these take into account the commitment the Government made to the Committee on Arms Export Controls. The changes that have been implemented in this report are as follows:

- A breakdown of the overall value of SIELs issued, into military and non-military totals
- A split in the list of items between military and non-military items
- The inclusion of the control entry list with a breakdown as to how many items were licensed under that category and the value
- The addition of the ultimate destination for items that are being incorporated
- The addition of the case summary for SIELs that have been refused

## **General Information**

### **SIELs**

SIELs generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence. Licences permitting permanent export are generally valid for 2 years from date of issue. Where the export is temporary, for example for the purposes of demonstration, trial or evaluation, the licence is generally valid for one year only and the items must be returned before the licence expires. A licence is not required for the majority of transshipments through the UK en-route from one country to another, providing certain conditions are met. Most other transshipments can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. Where this is not the case, a Standard Individual Transshipment Licence (SITL) is required.

The information on SIELs included in this Report has been compiled using the Export Control Organisation's computer databases. The databases were interrogated during the compilation of this Report to identify the status of all applications on which a decision was taken during the period covered by this Report. In a small number of cases there may be a subsequent change of status. There are two main reasons for such changes: a licence issued during the period may have been revoked, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully.

During the period 2606 SIELs were issued, 62 were refused and 1 was revoked.

### **OIELs**

OIELs are specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees. OIELs covering the export of items entered on the Military List are generally valid for two years, while OIELs covering other items are generally valid for three years. There are no Open Individual Export Licences for transshipments. During this reporting period 33 OIELs were

issued. In addition, none were amended during the period to exclude particular destinations and/or items, 2 were refused and none were revoked. It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

A summary description is provided for all items covered by SIELs and OIELs issued for this period. The Report also gives information on the number of small arms covered by SIELs issued in the period.

However, this information is not provided in cases where, under the Code of Practice on Access to Government Information, the arguments for publication of the information are otherwise outweighed by the harm that this would cause to commercial confidentiality and/or legitimate security interests in the recipient country. No such exclusions were made in this Report.

In the case of SIELs refused or revoked, only the rating of the goods is provided. Likewise for OIELs, only details of ratings are provided for licences revoked, refused in full or whose coverage was amended during the period by the exclusion of the destination (including items excluded in 2009 by the amendment of 2009 and pre-2009 licences).

## **TRADE LICENCES**

### **Standard Individual Trade Control Licences (SITCLs)**

A Standard Individual Trade Control Licence (SITCL) is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for two years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Should further similar activity take place, a further licence must be applied for. During the period 29 SITCLs were issued, 1 was refused and none were revoked.

### **Open Individual Trade Control Licences (OITCLs)**

An Open Individual Trade Control Licence (OITCL) is specific to a named trader and covers involvement in trading of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users. OITCLs are generally valid for 2 years. During the period 1 OITCL was issued, none were refused and none were revoked.

A lower level of information is provided on both OITCLs and SITCLs as the release of further information at this stage may have an adverse commercial effect on some of the activities being undertaken. However, more detailed information should be included in the full Strategic Export Controls Annual Report.

## **INFORMATION ON SIELS, SITLS AND OIELS**

The entry for each destination contains the following information:

### ***For SIELs:***

- The value of all applications in respect of which a SIEL was issued for the export of items to the destination concerned during the period, whether the export concerned was permanent or temporary. Values are shown to nearest pound, and are also broken down by the control list entry.

It should be noted that the actual value of exports made under the licences is likely to be less than shown

because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

- The number of licences issued, including numbers of licences for items on the Military List, for other items and for both.

- A summary description of the items covered by the licences issued during the period, with the items that were allowed for temporary export indicated by a "T" preceding the description. The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. It does include applications refused during this period that, at the end of it, were pending a decision on an appeal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the destination concerned under an Open General Export Licence (OGEL).

In a small number of cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued, as shown above, is slightly lower than the sum of all SIELs issued shown on the destination pages.

### ***For Incorporation:***

Information on incorporation is provided in the same format as for SIELs, and includes the same level of information. Information is also included on the ultimate destination for incorporated items. Also included is the final destination of the items that are to be incorporated.

### ***For SITLs:***

Information on SITLs is provided in the same format as for SIELs. However, the items covered by issued SITLs merely pass through the UK and it would therefore be misleading to include a 'value' for these licences in the report.

### ***For OIELs:***

- The number of licences issued also includes additional items authorised in 2007 through amendment to a pre-2007 licence.

- A summary description of the items covered by each OIEL the relevant OIELs issued during the period is shown by destination, with the items that were allowed for temporary export indicated by a "T" preceding the description.

- Information is also provided on the relevant destination pages for OIEL applications refused in full or for licences which were revoked or where coverage was amended during the period by the exclusion of the destination or by the exclusion of items in this quarter by amendment to licences issued in 2007 or earlier.

The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific items or destinations were removed before an

OIEL was issued, or applications withdrawn before a decision was reached, those for which it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, as the case may be. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

### ***Special OIELs:***

There are four special categories of licences:

#### ***Media OIELs:***

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required. During this reporting period, no Media OIELs were issued.

#### ***Continental Shelf OIELs:***

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels. During this reporting period, no Continental Shelf OIELs were issued.

#### ***Global Project Licences (GPL)***

This is a form of export licence that has been introduced by Framework Agreement (FA) partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria. During this reporting period, no GPLs were issued.

#### ***Transfer of Technology and Technical Assistance***

These OIELs are issued for the transfer of technology and provision of technical assistance under Articles 8, 9 and 10 of the Export of Goods, Transfer of Technology and Provision of Technical Assistance (Control) Order 2002. During this reporting period no licences were issued, none were refused and none were revoked.

## Overall Processing Statistics

Median processing time (SIELs/SITCLs)	11 days
% and number of SIELs/SITCLs completed in 20 working days	76% (2639)
% and number of SIELs/SITCLs completed in 60 working days	95% (3301)
% [as a % of all SIEL/SITCL cases processed] and number of SIELs/SITCLs refused	1% (63)

Median processing time (OIELs/OITCLs)	35 days
% and number of OIELs/OITCLs completed in 20 working days	42% (38)
% and number of OIELs/OITCLs completed in 60 working days	72% (65)
% [as a % of all OIELs/OITCLs cases processed] and number of OIELs/OITCLs refused	0% (5)

## Dealer to Dealer (Dealer) Open Individual Export Licences (OIELs)

Dealer OIELs authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

The following is a list of the items that have been authorised for export to the following destinations only:

Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden

No of Licences Issued	Goods Summary
7	air guns, ammunition for veterinary/tranquillising rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, inert ammunition, pistols, replica air guns, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition,

	sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights

arranging the acquisition of bomb suits  
arranging the acquisition of military helmets

#### Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

### Country Footnotes

1. Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use).

All exports for this destination were approved in accordance with the sanctions in place.

### Case & Goods Footnotes

1. These goods are protective clothing temporarily exported to DRC for UN personnel, so fall within the relevant exemption (a2(1)b) of the Common Position and there is no need to seek prior authority from the UN Sanctions Committee (as per a2(3) of the Common Position).

### Country Footnotes

1. European Council Common Position 2007/140/CFSP, adopted on 27 February 2007, imposed a ban on the export of items on the Nuclear Suppliers Group and Missile Technology Control Regime lists. Common Position 2007/246/CFSP, adopted on 23 April 2007, imposed an embargo on the export to Iran of arms and related materiel of all types, including weapons and ammunition, military vehicles and equipment, paramilitary equipment and spare parts for the aforementioned. An exception is made for armoured vehicles for use by personnel of the EU and its Member States in Iran. EC Regulation 423/2007, adopted on 19 April 2007 (amended on 10 November 2008 through EC Regulation 1110/2008), made licensable, to Iran alone, goods or technology that could contribute to Iran's enrichment-related, reprocessing or heavy water-related activities; the development of nuclear weapon delivery systems by Iran; or the pursuit by Iran of activities related to other topics about which the IAEA has expressed concerns or identified as outstanding.

Following UNSCR 1803 Common Position 2008/632/CFSP was adopted on 8 August 2008. This put in place further restrictive measures including an additional embargo on certain goods and technology which could contribute to enrichment-related, reprocessing or heavy water-related activities. Further restraint concerning new commitments for public provided financial support for trade, vigilance over the activities of EU financial institutions with banks domiciled in Iran and their subsidiaries, branches and other financial entities outside Iran, inspection of and prior information requirement on certain cargoes to and from Iran. As stated above the corresponding Regulation was adopted on 10 November 2008 - EC Regulation 1110/2008.

All exports for this destination were approved in accordance with the sanctions in place.

## Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq or the Multinational Force to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

#### Country Footnotes

- Arms trade sanctions against Lebanon were invoked by European Council Common Position 2006/625/CFSP and UN Security Council resolution 1701, of 11 August 2006. Exceptions to the arms embargo cover the supply of arms and related materiel or the provision of assistance authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.

#### Country Footnotes

1. Arms trade sanctions against Somalia were invoked by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolution 1356 adopted in 2001, provided for exemptions to the measures by allowing for supplies of non-lethal military equipment approved in advance by the Sanctions Committee intended solely for humanitarian or protective use. All exports for this destination were approved in accordance with the sanctions in place.

#### Country Footnotes

1. Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. All exports for this destination were approved in accordance with the sanctions in place.
