NATIONAL CURRICULUM ASSESSMENTS AT KEY STAGE 1 IN ENGLAND, 2010

Headlines

Teachers' own assessment of pupils in 2010 show that the percentage of 7-year old pupils achieving the expected level has remained broadly unchanged compared to a year earlier.

The performance of both girls and boys at the expected level in reading has increased slightly compared to a year earlier; the performance of girls in science has decreased slightly.

Girls continue to outperform boys in all subjects at the expected level. However, at the level above expectation; boys continue to outperform girls in science and mathematics.

Introduction

All children in maintained primary schools are required to be assessed by teachers against the National Curriculum¹ in reading, writing, speaking and listening, mathematics and science when they reach the end of Key Stage 1 (KS1). Often this happens just before pupils move from infant to junior schools.

Typical age of child (years)	5	6	7	8	9	10	11	12	13	14
National Curriculum Year Group	R	1	2	3	4	5	6	7	8	9
Key Stage	1		2				3			
Expected National Curriculum level at end of Key Stage	2		4				5/6			

Figure 1: Typical age of child related to year group, key stage and expected level of attainment (R denotes reception year)

The teacher assessments measure pupils' attainment against the levels set by the National Curriculum. They measure the extent to which pupils have the specific knowledge, skills and understanding which the National Curriculum expects pupils to have mastered by the end of Key Stage 1. The National Curriculum standards have been designed so that most pupils will progress by approximately one level every two years. This means that by the end of KS1, pupils are expected to reach **Level 2**.

¹ The following website provides information on how pupils are expected to perform at each National Curriculum level in each subject for Key Stage 1 and 2:

<http://curriculum.qcda.gov.uk/key-stages-1-and-2/assessment/assessmentofsubjects/index.aspx>

If, based on level judgements for attainment targets for reading, writing and mathematics, teachers reach an overall level 2 judgement, they should then consider whether the performance is just into level 2, securely at level 2 or at the top end of level 2. This refines the judgement into 2C, 2B or 2A. These refinements are often known as “sub-levels”.

This Statistical First Release (SFR) provides provisional information on the achievements of eligible pupils in the 2010 National Curriculum assessments at KS1. The results were provided by schools and local authorities to the Department and are produced from data available by 10th August 2010. This release provides information at national and local authority (council) level.

As part of a Government drive for data transparency in official publications supporting data for this publication will be made available through the DfE Research and Statistics Gateway at <http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000947/index.shtml> in the week of 27th September 2010.

Key Stage 1 teacher assessment results for 2010

Level 2 or above

Chart 1a: The percentages of children achieving Level 2 or above in 2010 Key Stage 1 teacher assessments:

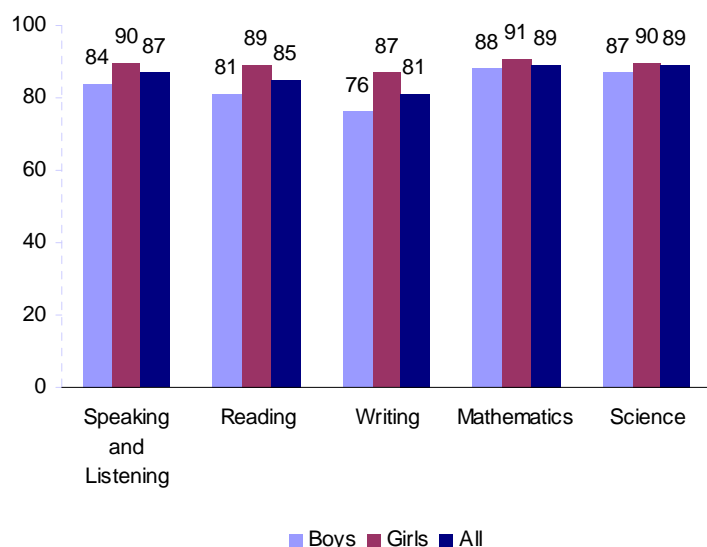

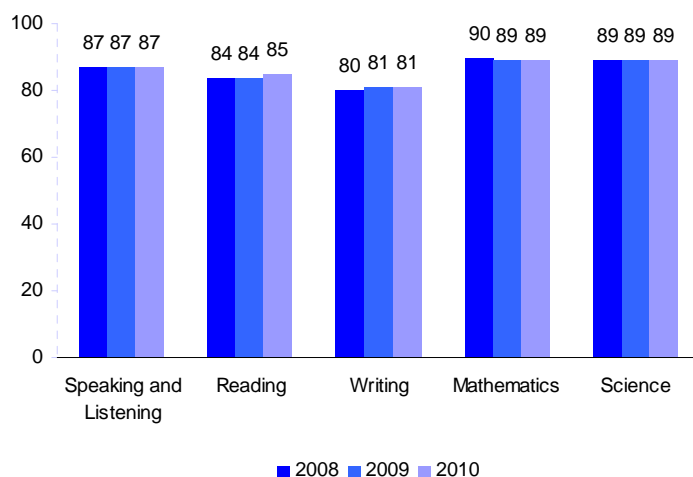

Chart 1b: 3-year trend in percentages of pupils achieving Level 2 or above in Key Stage 1 teacher assessments

Level 2B or above

Chart 2a: The percentages of children achieving Level 2B or above in 2010 Key Stage 1 teacher assessments:

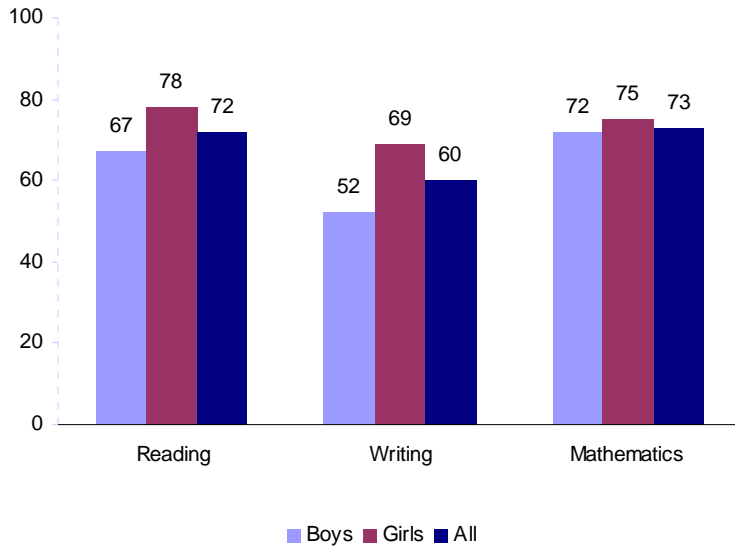

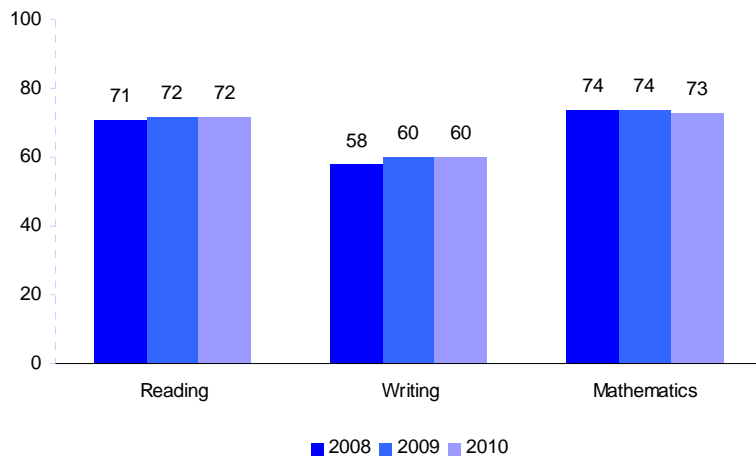

Chart 2b: 3-year trend in percentages of children achieving Level 2B or above in Key Stage 1 teacher assessments

Level 3 or above

Chart 3a: The percentages of children achieving Level 3 or above in 2010 Key Stage 1 teacher assessments:

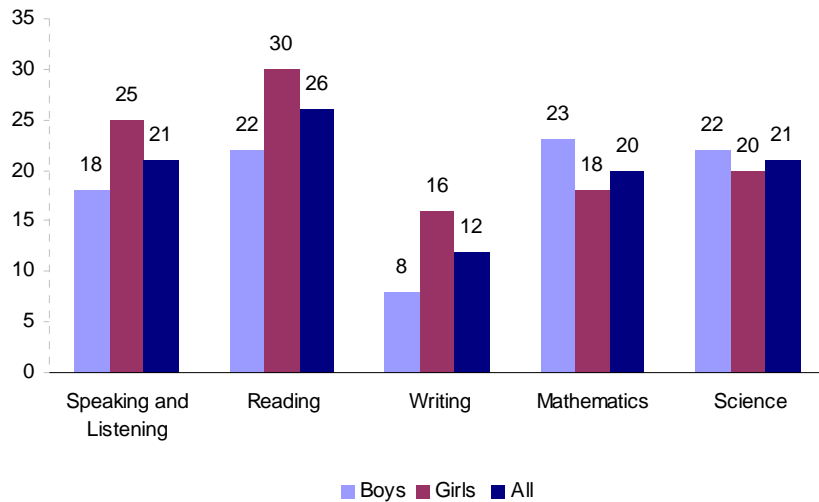

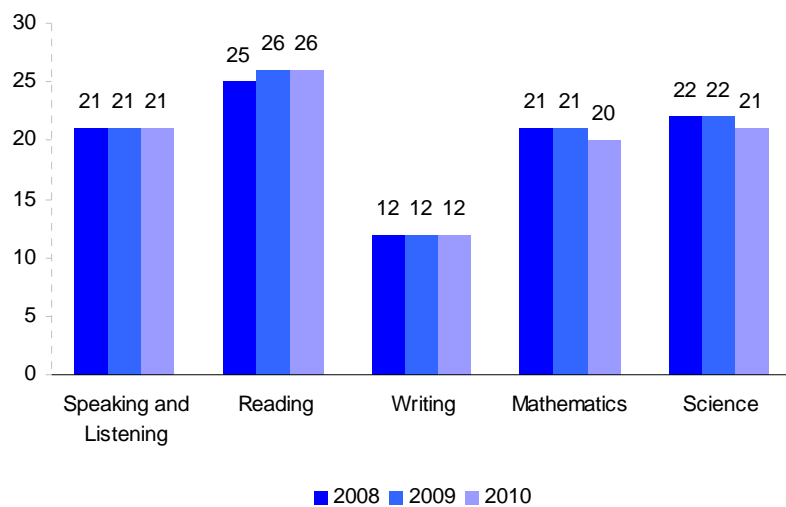

Chart 3b: 3-year trend in percentages of children achieving Level 3 or above in Key Stage 1 teacher assessments

National tables

- Table 1:** Percentage of pupils achieving Level 2, 2B and 3 or above in Key Stage 1 teacher assessments in each subject by gender, 2008 to 2010, England.
- Table 2:** Average Point Score by gender in all schools, 2004 to 2010, England.
- Table 3a:** Percentage of pupils achieving each level in Key Stage 1 teacher assessments by subject and gender, 2010, England.
- Table 3b:** Number of pupils achieving each level in Key Stage 1 teacher assessments by subject and gender, 2010, England.

Local Authority (LA) and Government Office Region (GOR) tables

These tables have been included to show the local authority level figures that underpin the national information; and to show LAs the aggregate picture for their authority as at 10th August 2010.

- Table 4:** Percentage of pupils achieving Level 2 or above at Key Stage 1 by Local Authority and Government Office Region, 2010, England.
- Table 5:** Percentage of pupils achieving Level 2B or above at Key Stage 1 by Local Authority and Government Office Region, 2010, England.
- Table 6:** Percentage of pupils achieving Level 3 or above at Key Stage 1 by Local Authority and Government Office Region, 2010, England.
- Table 7:** Average Point Score by gender, Local Authority and Government Office Region, 2010, England.

All tables are available on the Department for Education statistics website:

<http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000947/index.shtml>

TECHNICAL INFORMATION

Source of data

The Key Stage 1 statistics published in this SFR are produced from data provided to the Department by Local Authorities as at 10th August 2010. The figures in this SFR are based on this provisional 2010 data.

Coverage information

National figures cover all schools in England with pupils eligible for assessment at Key Stage 1 in 2010 but, as participation by independent schools is voluntary, the national analyses only include results from those independent schools which chose to make a return and which met the statutory standards for assessment and moderation.

For the calculations showing the percentage of pupils achieving a particular level, the denominator for national results is the number of pupils who are eligible for KS1 teacher assessments. This denominator includes pupils who were working towards level 1 (W), were disapplied from the National Curriculum (D), or were significantly absent so that no TA could be made on that pupil (A). Pupils with missing, or invalid results are not included.

Local Authority figures cover maintained mainstream and maintained special schools only, they exclude maintained hospital schools and pupil referral units. Two different calculations of the national results are presented in the supplementary tables: one which is consistent with the national results in the main body of the SFR based on all schools (i.e. all maintained and independent schools that returned assessment results); and the second for maintained schools only (excluding maintained hospital schools and pupil referral units), consistent with the results for each LA.

Reporting arrangements

Since 2005, the Department has only published teacher assessment results for Key Stage 1. These are now the only results that schools are required to report to the Department for Children, Schools and Families. In reading, writing and mathematics, these results are informed by the task/tests activities undertaken by children during the academic year.

How to interpret the results

The National Curriculum standards have been designed so that most pupils will progress by approximately one level every two years. This means that by the end of KS1, pupils are expected to reach Level 2.

Allocation of points for each level at Key Stage 1

The following table sets out how points have been allocated to each KS1 TA level to calculate the KS1 Average Point Score (tables 2 and 7). The Average Points Score relates aggregate number of points to the number of eligible pupils.

Teacher Assessment level	Point score equivalent
Missing (M or blank)	Disregarded
Disapplied (D)	Disregarded
Unable (U – science only)	Disregarded

Absent (A)	Disregarded
Working towards level 1 (W)	3
1	9
2C	13
2B (2)	15
2A	17
3	21
4	27
5	33

The average points score relates the aggregate number of points to the number of eligible pupils. This SFR includes two versions of the average points score. Prior to 2005, the average points score was calculated as the mean points score of reading, writing and mathematics. From 2005 it was published as the mean points score of reading, writing, mathematics and science. To bring the average points score into line with other sources both versions are shown.

Points scores for combinations of subjects are calculated by summing all points (that are not disregarded per above table) for all subjects to give the numerator for the point score calculation and the number of pupil-subjects (that are not disregarded per above table) gives the denominator.

Rounding

Any percentages given in this SFR are given to the nearest whole number. The rounding convention is as follows: any fractions of 0.5 and above will be rounded up, anything less than 0.5 will be rounded down, e.g. 85.586 will be rounded to 86; 85.4283 will be rounded to 85.

Key to tables

The following symbol notation is used in the tables published in this release:

- . not applicable
- .. not available

A National Statistics publication

National Statistics are produced to high professional standards set out in the Code of Practice for Official Statistics. They undergo regular quality assurance reviews to ensure they meet customer needs. They are produced free from any political interference.

Compliance with statistical policies

The Department has a set of statistical policies in line with the Code of Practice for Official Statistics, these are published here: <http://www.dcsf.gov.uk/rsgateway/nat-stats.shtml> . Final national figures for 2010 will be made available in next year's release.

Data covers all schools entering pupils for KS1 teacher assessments.

1. From 2005 this is the arithmetic average of the total point scores for reading, writing, mathematics and science.

Prior to 2005, the point scores for these subjects were not combined.

2. This is the arithmetic average of the total point scores for reading, writing and mathematics

3. 2010 figures are calculated using provisional data.

4. This is the result of combining task/test for non trial schools and teacher assessment for trial schools. Prior to 2004 task/test results are shown.

. Not applicable.

Source: Key Stage 1 collection

Data covers all schools entering pupils for KS1 teacher assessments.

1. Speaking and Listening and science subjects do not report level 2A, 2B and 2C, only level 2. These are shown in the 2B column for the purposes of this table.

2. Absent and disapplied are not reported in science main level but are reported as U (unable). These are shown in the absent/disapplied column for the purposes of this table.

. Not applicable.

Table 4: Percentage of pupils achieving Level 2 or above at Key Stage 1 by Local Authority and Government Office Region
Year: 2010 (provisional)
Coverage: England
