Subject Resolving email duplication

History: This message has been forwarded.

Hi [REDACTED],

We've been processing our data today and running various tests and processes to eliminate any remaining duplicate actions. In this I have noticed that 14 of the doctors sent an email in twice. These duplications were among the 181 emails which we send on to you last week.

The email address of these doctors is below; please can you delete one of the responses from each the below email addresses to make sure that they're not counted twice?
