- 1 copy of the braille tactile version of the English grammar, punctuation and spelling Paper 1: questions in braille (UEB)
- 1 copy of the printed transcript of the braille (UEB) version of the English grammar, punctuation and spelling Paper 1: questions

For test administration

2017 Key stage 2 English grammar, punctuation and spelling test

The key stage 2 English grammar, punctuation and spelling test consists of 2 papers. The papers must be administered in order. Pupils may have a break between the papers. However, test packs must not be opened until the pupils are in the test room ready to complete the test.

Paper 1: questions

The following information explains how to administer the braille (UEB) version of the key stage 2 English grammar, punctuation and spelling test Paper 1: questions. There is no braille version of the spelling paper. You should use the standard version of the test to administer that component if appropriate. There is additional information on www.gov.uk about administering braille tests to pupils. If you have any questions, you should check with your headteacher or key stage 2 test co-ordinator before you administer the test.

Please make sure you follow these instructions correctly to ensure that the test is properly administered. Failure to administer the test correctly could result in a maladministration investigation at the school.

Format

This component of the test consists of a braille question booklet.

There is a printed transcript to help administrators.

Pupils will have 45 minutes, plus up to 100% additional time, to answer the questions in the booklet.

Minor changes have been made to the text and layout of the booklet, compared with the standard version.

Please refer to the printed transcript rather than the standard test questions when administering the test.

Equipment

Pupils will need the equipment below:

- a suitable way of recording their answers, such as a braille, blue / black pen, dark pencil or word processor (i.e. the usual way they write in class)
- braille paper (if the pupil is brailleing their responses)

No additional equipment is allowed.

Assistance

- You must ensure that nothing you say or do during a test could be interpreted as giving pupils an advantage, e.g. indicating that an answer is correct or incorrect, or suggesting the pupil looks at an answer again.
- You may explain or rephrase a question provided you do not give away subject-specific information. For example, if a question asks to 'insert a pair of commas', 'insert' may be explained but not 'commas'.
- You must not give alternative explanations, e.g. explain 'inverted commas' as 'speech marks', or name punctuation.
- If a pupil asks a question about test content, you must not explain subject-specific terms or expressions.

The examples below illustrate how to deal with a common situation.

Q. I don't understand the question.

A. Read the question again and pay attention to the key words that tell you what to do.

Q. What does 'comma' mean?

A. I can't tell you, but think hard and try to remember. We can talk about it after the test.

If any everyday context or words related to a question are unfamiliar to a pupil, you may describe the related context.

Guidance for specific questions

No additional guidance is needed to administer this component of the test.

Before the test begins

Write the pupil's name, school name and DfE number at the top of every sheet of braille paper used (this is so that markers are able to identify the paper).

Review the list of pupils with particular individual needs, e.g. so you know how much additional time pupils may need or whether they may need rest breaks.

Ensure you know how to administer any access arrangements correctly. Please refer to the 2017 key stage 2 access arrangements guidance.

Check there are enough administrators to maintain adequate supervision for the test. You should consider the possibility of at least one test administrator needing to leave the room with a pupil.

Ensure you understand how to deal with issues during the tests.

How to deal with issues during the test

It is impossible to plan for every scenario. Whatever action you take, pupil safety must always be your first consideration.

In the following circumstances you will need to stop the test for each individual pupil, a group of pupils or for the whole cohort:

- test papers are incorrectly collated or the print is illegible
- an incorrect test has been administered
- a fire alarm goes off
- a pupil is unwell
- a pupil needs to leave the test room during the test
- a pupil is caught cheating.

If you need to stop the test:

- make a note of the time
- make sure pupils are kept under test conditions and that they are supervised
- if pupils need to leave the room, ensure they don't talk about the test
- speak to your test co-ordinator or a senior member of staff for advice on what to do next
- consider contacting the national curriculum assessments helpline on 0300 303 3013 for advice on what to do next.

You should brief your headteacher on how the incident was dealt with once the test is over.

What to do at the start of the test

Check that pupils don't have mobile phones or other disruptive items.

Check that pupils don't have any materials or equipment that may give them extra help.

Check that seating is appropriately spaced.

Ensure each pupil that needs it has 1 braille (UEB) copy of Paper 1: questions.

What to say at the start of the test

It is important to brief pupils fully at the start of each test. You should use this script to introduce Paper 1: questions.

This is the key stage 2 English grammar, punctuation and spelling test Paper 1: questions. You should have Paper 1: questions in front of you.

You will need to record your answers the same way as you do in class (braille, word processor etc).

Open your question booklet to page 1. I will read the instructions to you.

There are different types of question for you to answer in different ways.

You should try to answer all of the questions. If you can't answer a question, move on and return to it later.

You have 45 minutes, plus your additional time allowance, to complete the test.

Pay particular attention to any instructions within test questions.

If you want to change your answer, put a line through the response / use a series of 'for' signs (full 6 dot cells) to delete the answer you don't want the marker to read.

Remember to check your work carefully.

If you have any questions during the test, you should put your hand up and wait for someone to come over to you. Remember, I can't help you answer any of the test questions.

You must not talk to each other.

Are there any questions you want to ask me now?

I will tell you when you have 5 minutes left. I will tell you when the test is over and to stop writing.

You may now start the test.

What to do at the end of the test

If any pupil needs a transcript, complete it with the pupil at the end of the test under test conditions. Particular care should be taken to ensure accurate transcriptions are made and the pupil's answers are not corrected or amended. Do not transcribe pupils' brailled answers onto standard test scripts.

Ensure that you inform your senior member of staff / test co-ordinator if you have made a transcript, or if a pupil has used a scribe, or word processor or other electronic or technical device. This is so they can complete the appropriate online notification form.

Make sure you have collected every test script and any additional paper which pupils have recorded their answers on.

Make sure each sheet of paper has the pupil's name and the school's DfE number clearly written on it.

Return the test scripts, and any additional paper, immediately to the senior members of staff who are responsible for collating the test scripts. Ensure you inform them of any pupils who have used additional paper so that they can collate the pupils' responses correctly.

Do not look at, annotate or review pupils' answers in any way (unless it is necessary to make a transcript). If you amend or tamper with pupils' answers in test scripts, it will be considered maladministration and results could be annulled.

Do not keep or photocopy test scripts for any reason.
