Monthly Statistics of Building Materials and Components

January 2015

No. 479

NOTES

In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

Symbols.

The following standard Government Statistical Service symbols have been used throughout:

Not available	:
Provisional	p
Revised	r
Confidential	c

All figures are subject to revisions.

Unless otherwise stated, revisions are due to more complete information from late returns. If any figures are revised by 5% or more from the previously published value, an explanation will be provided.

The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods, and
- are managed impartially and objectively in the public interest.

Unless otherwise stated, the statistics published in this volume have been collected by the Office for National Statistics on behalf of the Department for Business, Innovation & Skills.

Lead Statistician: Liam Cavin

Notes : Most of these indices, which are compiled by the Office for National Statistics, are a selection of producer price indices.

The complete list is available online at www.statistics.gov.uk, by searching for the reference MM22.

* The Office for National Statistics state that these Indices are based on relatively few quotes and in the long term should not be relied upon for contractual purposes.

** These index values are considered less reliable mainly due to lack of market coverage.

Note: these indices, which are compiled by the Office for National Statistics, are a selection of producer price indices. The complete list is published monthly by the ONS in the Business Monitor MM22.

In July 2014, indices which had been disclosive for 5 years were removed from this table. Please see the 'Pre-announcement of amendments to the monthly statistics of building materials and components publication' document on our website for further details.

MINING AND QUARRYING

Table 4 : Sales of Sand and Gravel in Great Britain

Note : The figures above are from a quarterly sample inquiry whereas those below are from the Annual Minerals Raised Inquiry, a census. The two inquiries differ because some respondents are only able to provide estimated information for the quarterly inquiry.

From May 2014, values for each quarter will no longer be adjusted to ensure that rounded values sum to the total value. Thus, in any given quarter, the sum of all sub-categories of sand and gravel may not exactly match that shown in the total column. Please see the 'Pre-announcements and Summary of Revisions to Monthly Statistics of Building Materials and Components Publication' document on our website for further details.

Note : 1) We have improved our sampling panel to include some new sites and have removed some non-pure slate sites. In line with the Code of Practice we have revised the data for Q2, Q3 and Q4 2010.

2) From Q1 1995, the coverage of 'powder & granules' has been extended to include non-quarry manufacture; and 'crude blocks' are included in 'other' manufacture slate.

¹ Refers to stocks at the end of the period.

² Consists of all slate tiles which could be used as roofing tiles.

³ Consists of all slate products for cladding and decorative uses

2013	8,203	0	8,204	117	1,322	1,892	11,535	6,712

1. Arrangements for publication of the cementitious data have been revised following discussion and agreement by the Mineral Products Association (MPA) Cement members. Data are now provided on an annual basis. For quarterly and monthly data up to September 2013, please refer to earlier editions of this publication.

2. Where the coverage is for Great Britain, the figures for imports & exports are defined accordingly and have been estimated. Cementitious material covers cement itself, fly ash to EN 450 Part 1 where used as part of the cement in concrete (previously known as pulverised fuel ash (pfa) to BS 3892 Part 1) and ground granulated blast furnace slag (ggbs) to EN 15167 Part 1 (previously BS 6699)

* Estimated

Note: Data covering January 2009 to February 2011 were revised in the December 2011 edition of this bulletin. These data are included in this table. Additionally, data covering January 2013 to November 2013 were revised for the February 2014 edition of this bulletin. These revisions were due to the receipt of more accurate data from sites already sampled. For more information on revisions, see the 'Pre-announcements and Summary of Revisions to Monthly Statistics of Building Materials and Components Publication' document on our website.

Note: Data covering January 2009 to February 2011 were revised in the December 2011 edition of this bulletin. These data are included in this table. Additionally, data covering January 2013 to November 2013 were revised for the February 2014 edition of this bulletin. These revisions were due to the receipt of more accurate data from sites already sampled. For more information on revisions, see the 'Pre-announcements and Summary of Revisions to Monthly Statistics of Building Materials and Components Publication' document on our website.

Data from December 2011 to June 2012 has been revised following receipt of corrected data. The period August 2007 to November 2011 may also be affected, but non-availability of a back-series of corrected data means that this period cannot be revised, and should be treated with caution. Full details are available in the 'Summary of revision to monthly statistics of building materials and components publication' document on our website

* Refers to stocks at the end of the period.

In April 2012, the Mineral Products Association (who provide these figures), estimated that data understates UK deliveries by around 20-25%. Previously, they had estimated that figures understate UK deliveries by 14-18%.

Concrete roofing tiles data have included imputation for non-responders in each quarter since 2012Q1.
