Subject: Pubco reform

Hi

I am writing as a pub goer and real ale enthusiast. As in other areas pubco pub licensees are being increasingly put under pressure from their Pubcos and they are struggling to make a go of their businesses.

I would like to see fairness in the treatment of Pubco licensees because I believe pubcos exploit licensees by creaming off too much of their profits and raising their rents. Surely there can be a system put in place to ensure rents are at market levels and the prices / choice is made fairer for licensees. Presently the pubcos force licensees to pay over the top prices for their beer and are not allowed to buy from other sources. Licensees should not be tied in this way unless the prices they are charged are at normal levels.

I urge you to reform the rules for Pubcos in the way they treat their licensees.

Best Regards
