**Subject:** Reform the Pubco's

Dear Sir/ Madam

I am a long time, real ale drinker and think it is high time the Pubco's were put in their place. They are greedy and are pushing good landlords out. If a pub closes down because of their greed, they seem quite happy to sell the building off to developers. Everybody is then happy, from the Pubco themselves to their shareholders (they are making a good profit) except the local community. From what I have read they cannot be trusted to either form legislation nor govern themselves. An independent code and arbitrator would resolve the problem.

Cheers,
