

Dear Sirs,

The                                has been transformed in the last six years and become the vibrant heart of the local community. The bank holiday beer festivals for example, have become a massive draw in the                                area.

The 'compulsory-tie' system whereby PubCo tenants are forced to purchase their beer from the PubCos at significantly over market price has ripped the heart from our local community and I would therefore like to throw my weight behind the 'Fair Deal For Your Local' campaign.

Yours faithfully,
