**Subject:** 'Pub Co' reform - please save our locals from corporate greed

Dear Sirs

I have seen, in particular, one brilliant Landlord walk away from two pubs, owned by different large pub Cos, because they became greedy when they saw he was doing well, and increased the rent to ridiculous levels. That was also our loss in the end as consumers, not to mention how short-sighted both Pub Cos were, as they both lost the higher income they were already receiving anyway through beer sales - neither pub has been the same since, and I know many other local pubs have struggled/closed under similar circumstances.

Please stop large Pub Cos' greed now!

Many thanks.

Yours Faithfully
