

Annex B – Detailed Impact Assessment

School name	School type	Capacity	% achieving expected level at KS2 including English and Maths	Ofsted grade	Impact rating
Atkinson Road Primary	4-11 Academy	432 Surplus of 17.6% in 2011/12	79% Just below the national average.	Satisfactory	Moderate. Since the last Ofsted inspection in 2009, this school has now become an academy. The proportion of pupils receiving free school meals is considerably higher than that found nationally, as is the proportion of pupils with special educational needs and/or disabilities. The school hosts one speech and communication unit and one communication disorders unit, which are accessed by pupils from across the city of Newcastle. Although this school is located directly across from WNA, it is unlikely to affect the long term viability of the school.
St John's Primary School	3-11 Community	205 Surplus of 11.2% in 2011/12.	52% Considerably lower than the national average.	Good	Moderate. This school is within close proximity of the school. Although it has a high surplus, the school is improving in its attainment and WNA is unlikely to affect the long term viability of the school.
St Joseph's RC Primary School	3-11 Voluntary Aided	205 Surplus of 16.6% in 2011/12.	74% Just below the national average.	Good	Minimal. There is a high surplus, however the school is maintaining its attainment standards. This is also a faith based school and will therefore will meet different parents needs. On that basis, WNA is unlikely to affect the long term viability of the school.
Canning Street Primary	3-11 Community	420. Surplus of 4.3% in 2011/12.	72% Below the national average.	Good	Moderate. This school is increasing the pace of learning. WNA is unlikely to affect the long term viability of the school.
Bridgewater Primary	3-11 Community	210. Surplus of 21.9% in 2011/12.	88% Higher than the national average.	Satisfactory	Minimal. Since the school's last Ofsted rating in May 2012, the school is rapidly improving and the number on roll is rising. A very high proportion of pupils are known to be eligible for free school meals. The proportion of disabled pupils and those who have SEN and are supported at School Action Plus is above the national average. The school also hosts an additional

					resource centre, under the management of the school, for the assessment of children under 7 yrs with complex learning difficulties from across the city. WNA is therefore unlikely to affect the long term viability of the school.
Wingrove Primary	3-11 Community	420. Surplus of 2.1% in 2011/12	64% Considerably lower than the national average.	Good	Minimal. Standards are rising and the rate of progress made by pupils has increased. All groups of pupils are making equally good progress and the school has successfully improved the achievement of some groups of pupils who were in danger of falling behind. WNA is unlikely to affect the long term viability of the school.
St Michaels RC Primary	3-11 Voluntary Aided School	210. Surplus of 7.1% in 2011/12.	70% Below the national average.	Good	Minimal. Standards are rising and all year groups are making good progress. This is also a faith based school and will therefore will meet different parent's needs. On that basis, WNA is unlikely to affect the long term viability of the school.
Westgate Hill Primary	3-11 Community	416. Surplus of 9.4% in 2011/12	63% Considerably lower than the national average.	Good	Moderate. This school is improving and has some outstanding features such as teaching and behaviour. WNA is unlikely to affect the long term viability of the school.
Hawthorn Primary	3-11 Community	210. Surplus of 11.4% in 2011/12	74% Below the national average.	Satisfactory	Moderate. The school is making good progress in making improvements and satisfactory progress in demonstrating a better capacity for sustained improvement. WNA is unlikely to affect the long term viability of the school.
