## **MRRS 4102 Titan Healthcare – Titan Healthcare Antimicrobial Chair**

06 October 2014

**Recommendation 4a:** Not a significant improvement on equipment/materials/products already available which claim to contribute to reducing health care associated infection; no further consideration needed

*This product is plastic-silver ion polymer chair designed for easier cleaning which claims to have antimicrobial properties to resist the growth of bacteria and fungi between cleaning. The RRP noted that further evidence should be presented that reflects real world scenarios and 'in-use' conditions in the NHS.*
