

### Children's Hospice and Hospice-at-Home Grant

In *Our Programme for Government*, the Coalition committed to the continuance of £10m revenue funding annually to children hospices from 2011 and establishment of a per patient funding system. Following the *Palliative Care Funding Review* which reported in 2011, the palliative care tariff is expected to be in place by 2015. Including financial year 2012/13, children's hospices have received a total of £67m through the annual Department of Health Children's Hospice and Hospice at Home Grant. Individual allocations are set out in the table below for the last three financial years.
